1. Project Objectives

Train teachers from the Ministry of Education in the use of ICT tools to improve their teaching performance, in order to promote educational innovation and online learning.

Train priority groups or digital illiterates in the use of ICT tools to apply what they have learned in their day-to-day lives, promoting their digital inclusion and improving their quality of life.

2. Purpose of the Handbook

This manual aims to provide a detailed and easy-to-follow guide for users who wish to learn and use PowerPoint. From getting started with the interface to creating and presenting impactful slides, this manual covers all the essentials to maximize your app's utilization.

3. Scope

This manual covers the ten videos of the basic PowerPoint course, guiding users through the interface, creating presentations, inserting text, images, graphics, animations, hyperlinks, spell checking, and finally, exporting and presenting the creations.

4. Aimed at

This manual is intended for beginner users who want to learn how to use PowerPoint from scratch. No prior knowledge of the application is required.

5. Introduction of the app

PowerPoint is a widely used presentation tool that allows users to create engaging visual presentations. From basic slides to interactive presentations, PowerPoint offers a variety of features to personalize content and communicate messages effectively.

6. Basics

Main Interface:

PowerPoint's main interface is made up of various tabs located at the top, such as 'Home', 'Insert', 'Layout', 'Transitions', and more.

Each tab houses specific tools and features related to creating and designing slides.

Toolbar:

Located below the tabs, the toolbar contains key options for customizing and styling slides.

Here you'll find tools to change the font, add graphic elements, adjust the layout, and more.

Work Area:

Most of the screen is dedicated to the workspace, where you can view and edit your slides.

Individual slides are presented in thumbnails in the left sidebar for easy navigation.

Status Bar:

At the bottom of the window, the status bar displays relevant information, such as the current slide number and the selected layout.

Normal View and Slide Show View:

PowerPoint offers two main views: Normal, for detailed slide editing, and Slide Presentation View, for the entire presentation.

Task Pane:

Depending on the tab selected, the task pane may change and provide additional options for customizing specific elements, such as animations, hyperlinks, and so on.

7. Steps to follow

1. Explore PowerPoint Interface:
 - Open PowerPoint and familiarize yourself with the tabs and toolbar.

2. Create a New Presentation:

- Select 'Blank Presentation' and explore design options.

Create Presentation

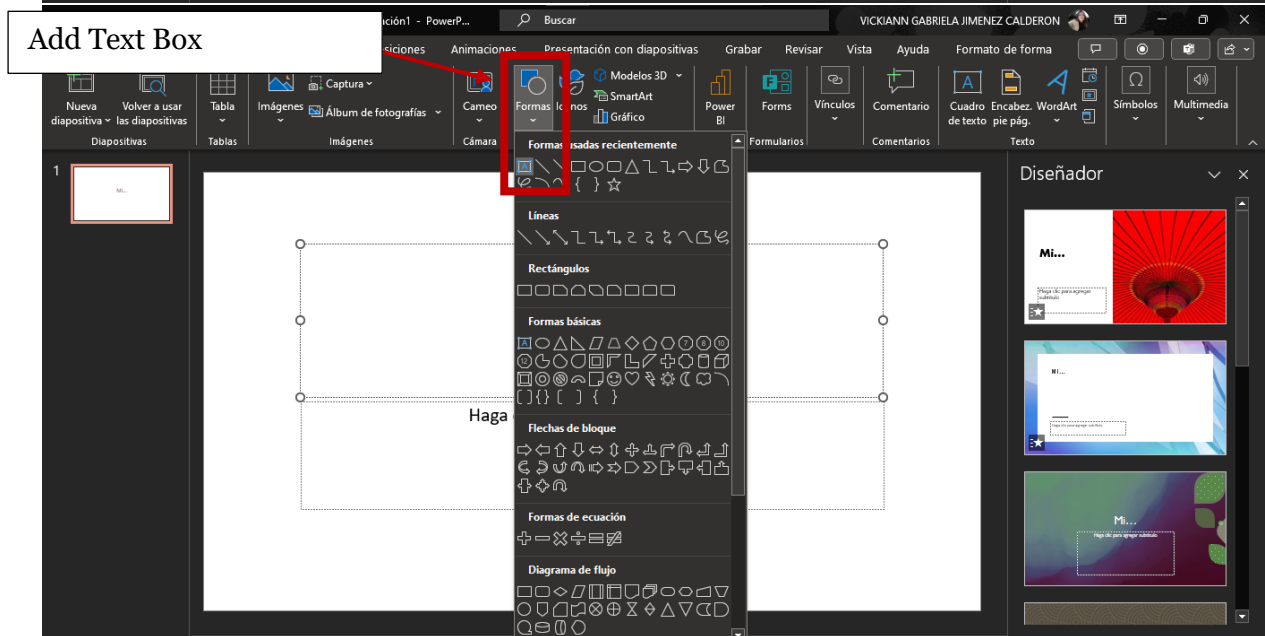

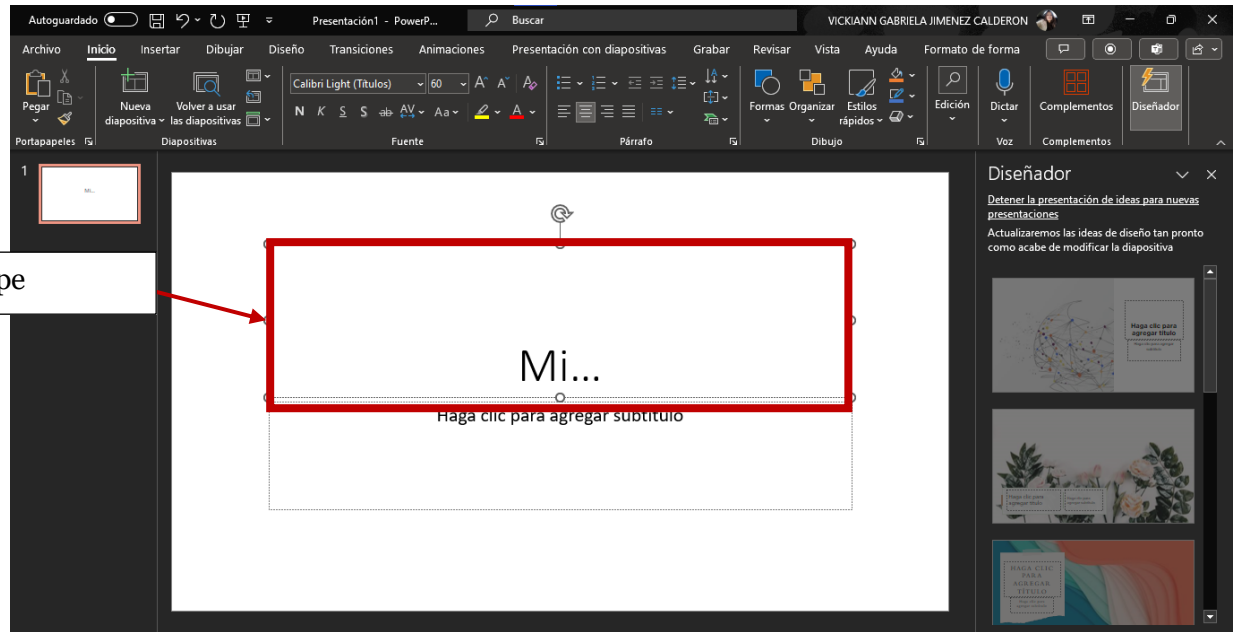

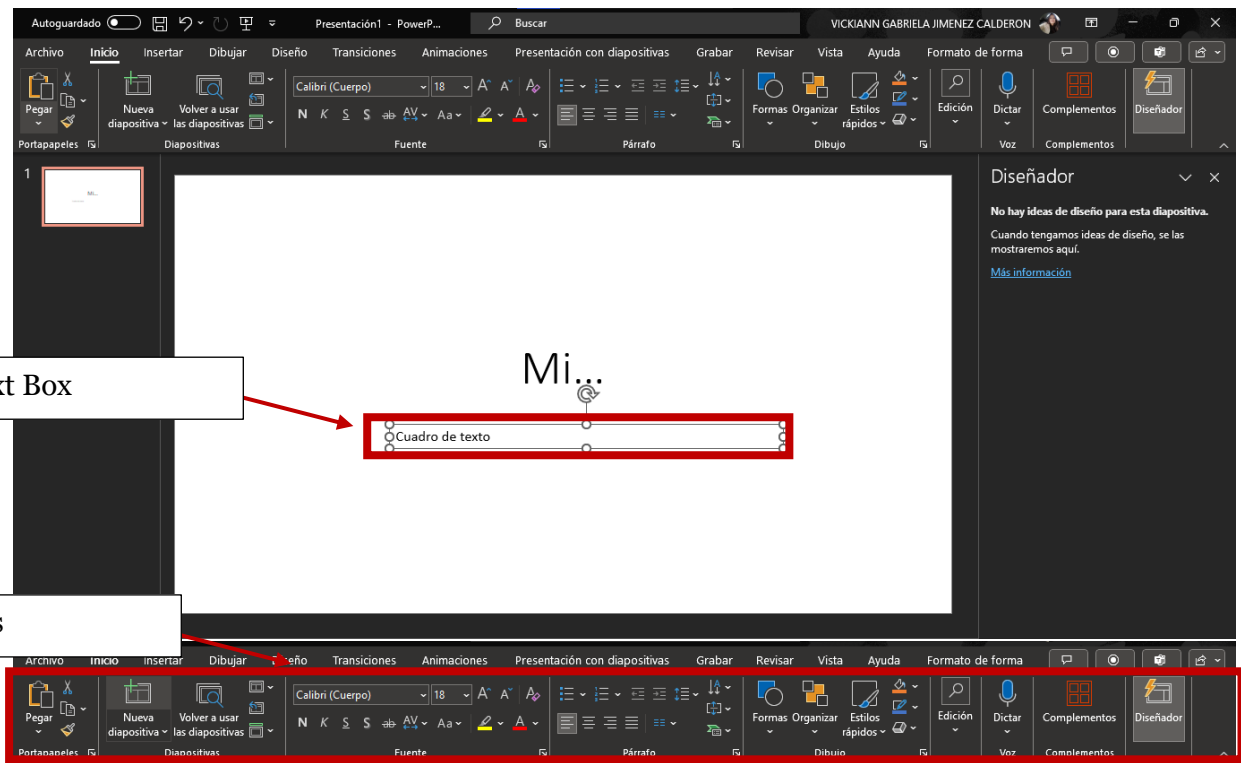

Explore Designs

3. Insert Basic Text and Formatting:

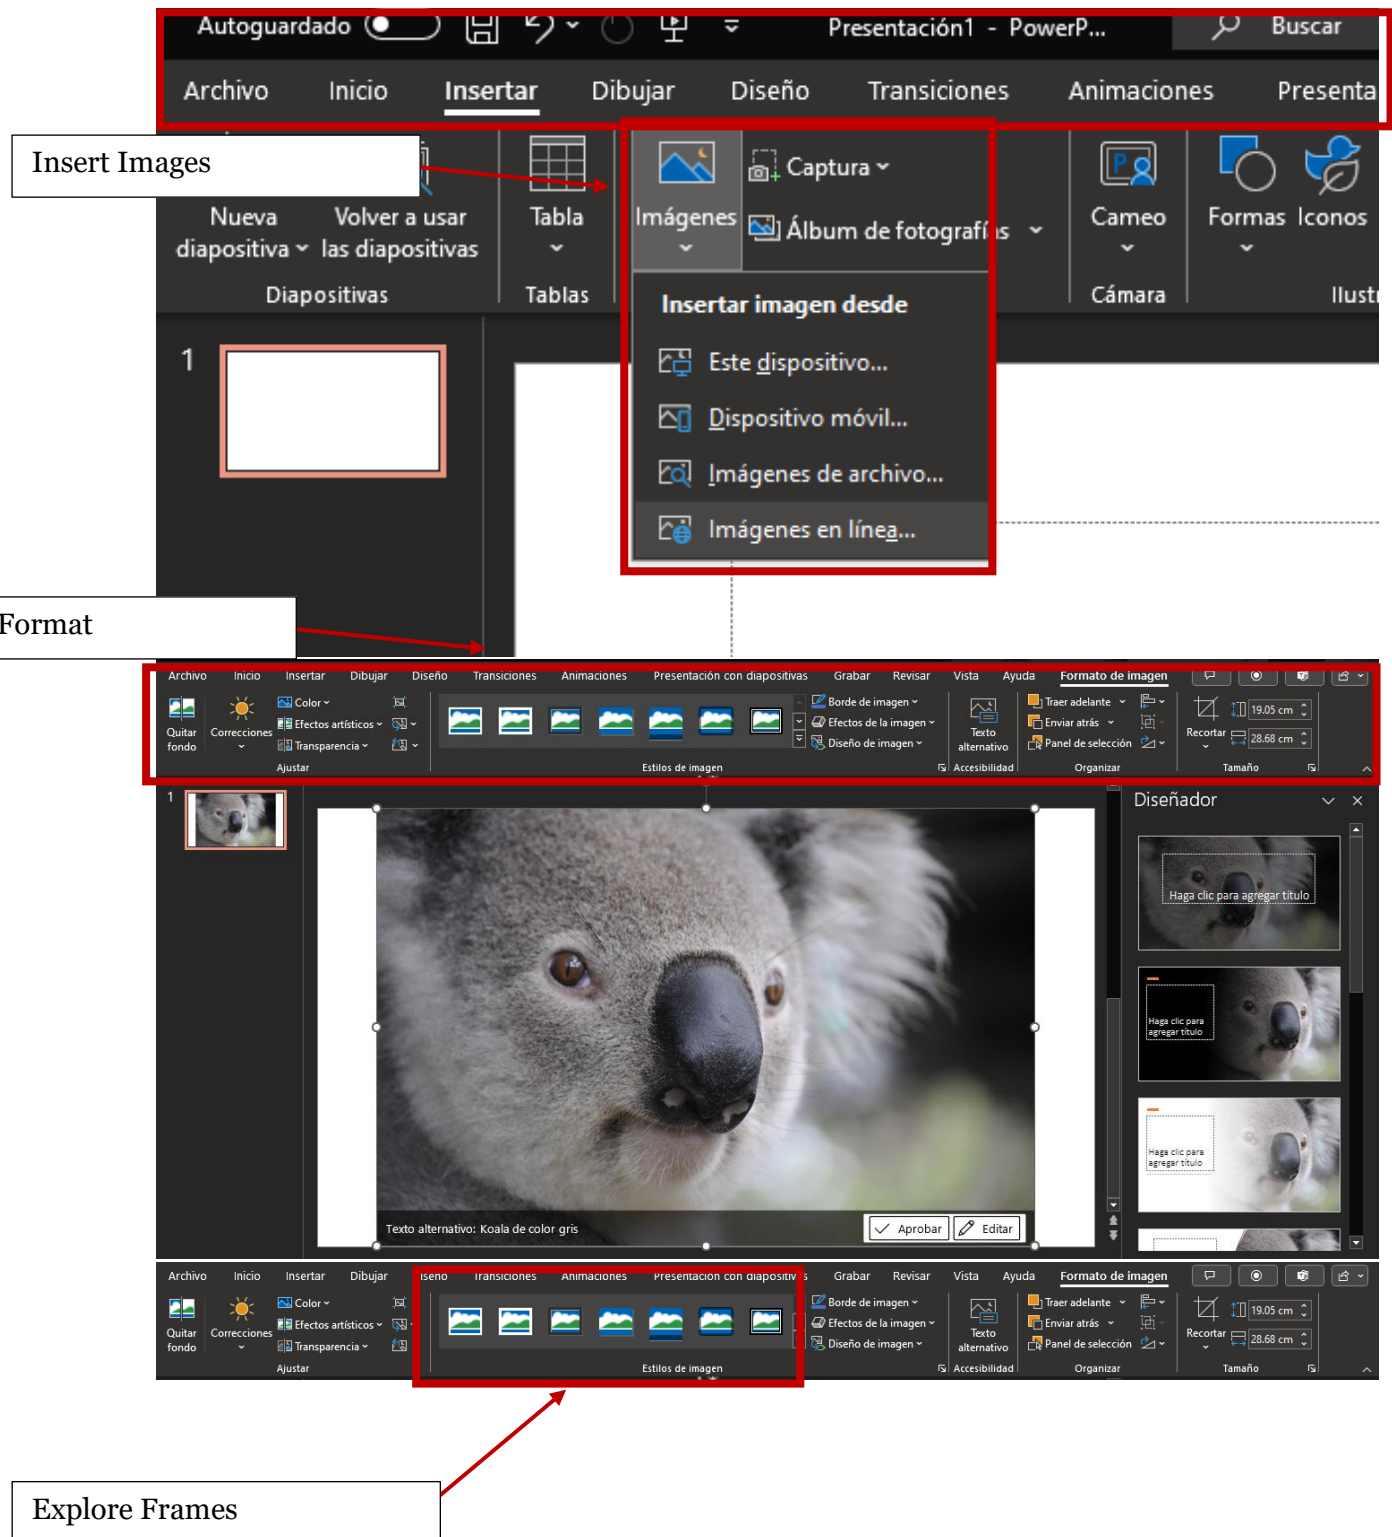

- Add text to a slide and customize its formatting.

Change font, size, etc

4. Insert and Format Images:
 - Insert images and adjust their size and format.

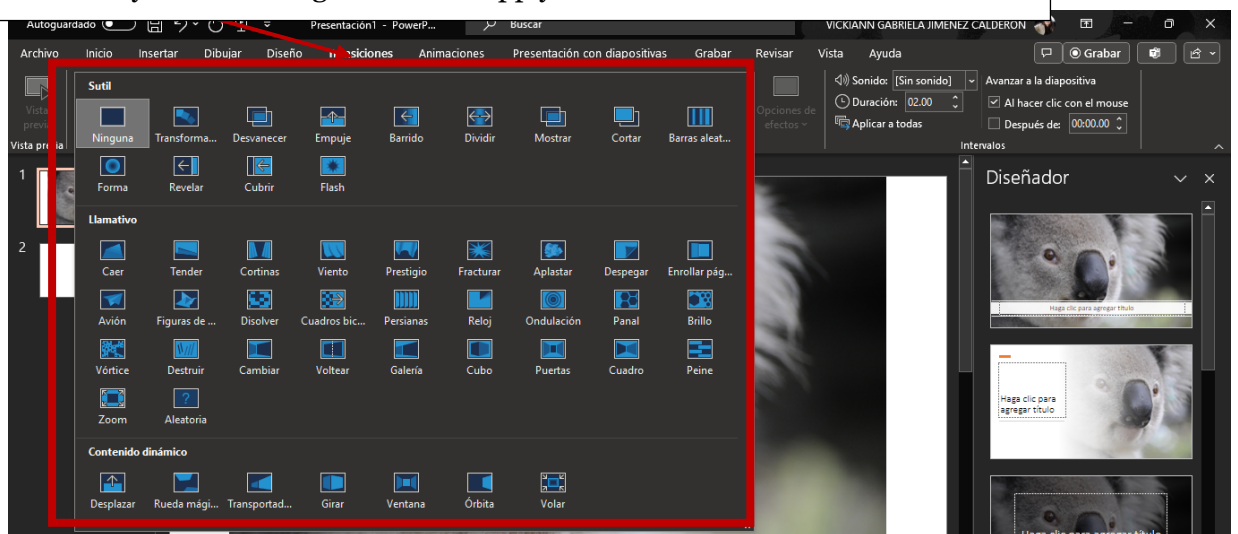

5. Add Transitions Between Slides:

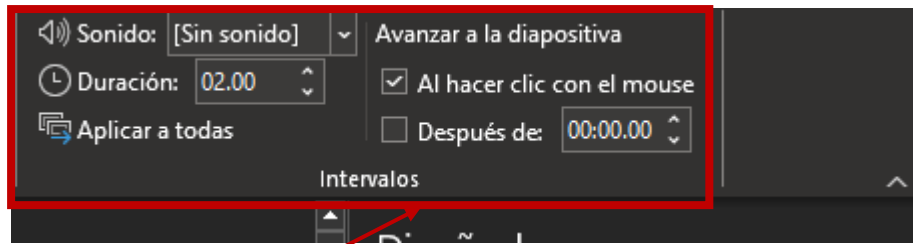

- Select slides and apply transitions from the corresponding tab.

Exolorate "Transitions" tab

Explore and test transitions by first selecting the slide to apply to

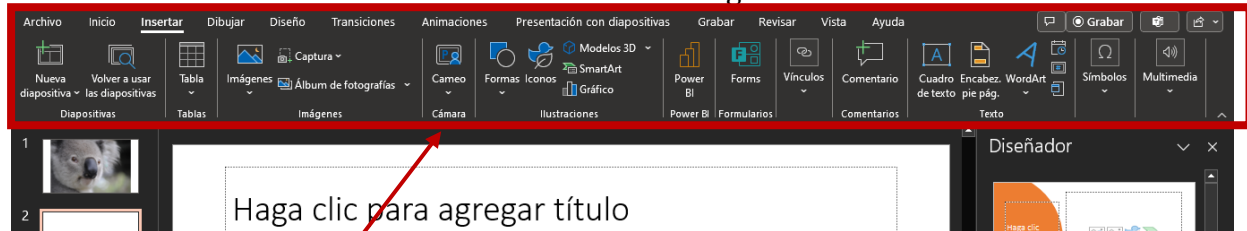

Test configurations

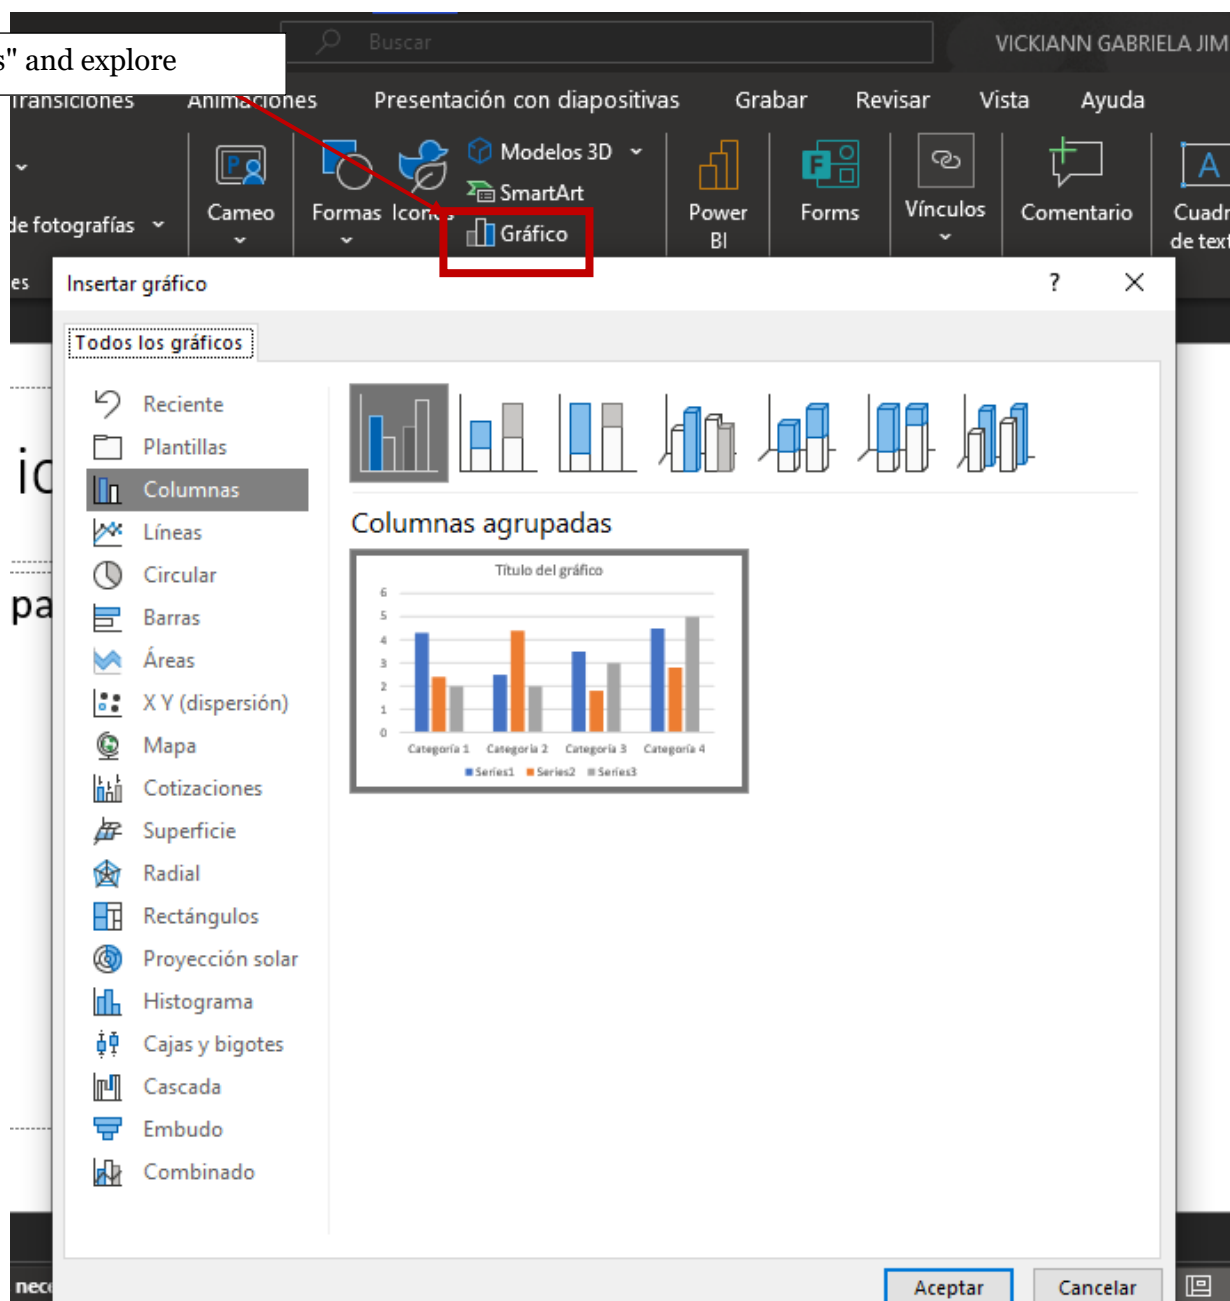

6. Insert Graphs and Diagrams:

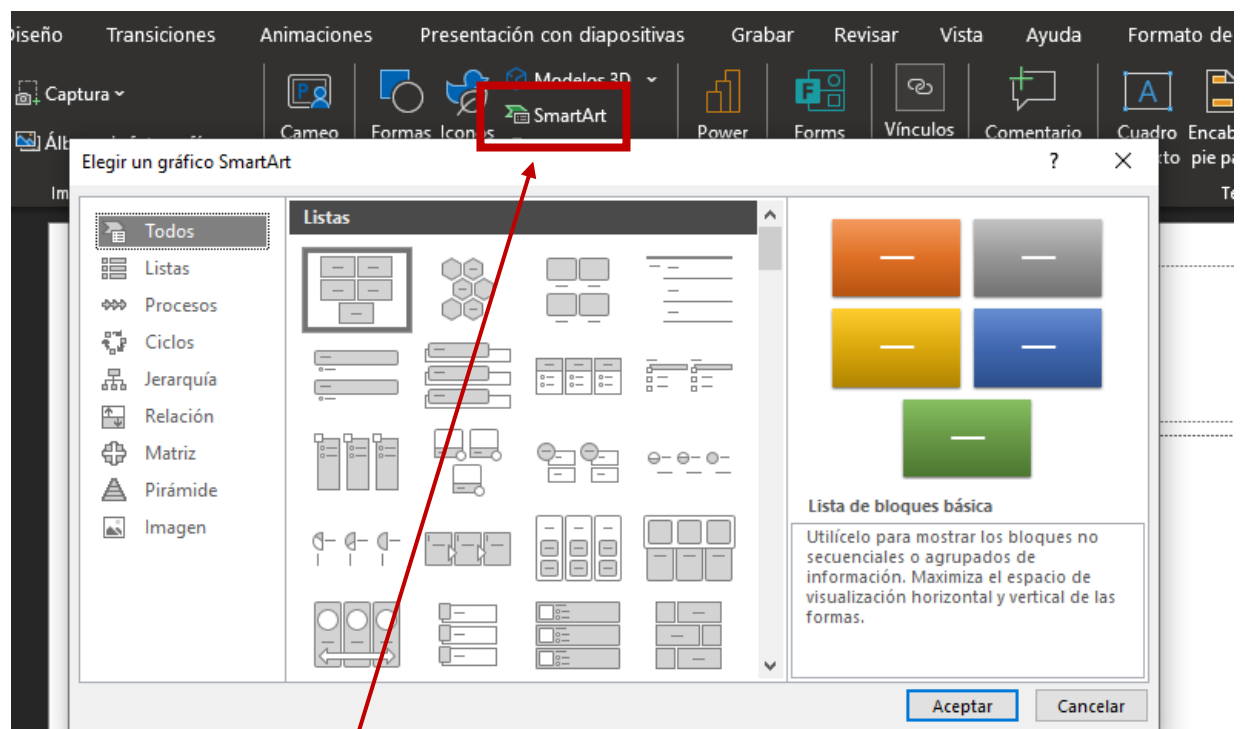

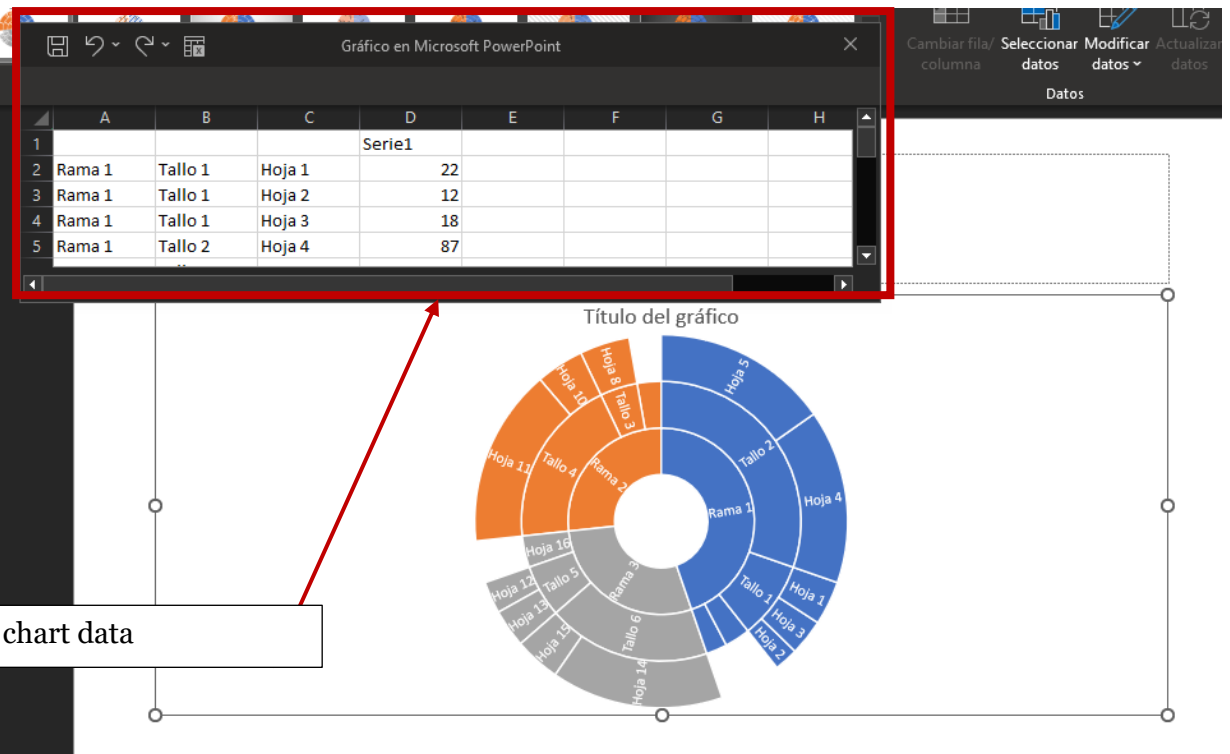

- Use the 'Insert' tab to add and customize charts and diagrams.

Explore "Insert" tab

Select "Charts" and explore

Select "SmartArt" and explore

The screenshot displays the Microsoft PowerPoint interface with the 'Diseño de SmartArt' (SmartArt Design) tab selected. The main slide area shows a SmartArt diagram consisting of six blue hexagons arranged in a circular pattern, each containing the placeholder text '[Texto]'. A red rectangular box highlights the entire diagram. A callout box with the text 'Select [Text] and customize it' has a red arrow pointing to one of the hexagons. Above the diagram, the text 'Haga clic para agregar título' (Click to add title) is visible. On the left, a task pane shows a thumbnail of the current slide and a thumbnail of the SmartArt diagram. Below the main slide area, the 'Cambiar colores' (Change Colors) dropdown menu is open, showing various color themes for the diagram. The themes are categorized into 'Colores del tema principal' (Main Theme Colors), 'Multicolor', 'Énfasis 1' (Emphasis 1), 'Énfasis 2' (Emphasis 2), and 'Énfasis 3' (Emphasis 3). A red rectangular box highlights the 'Cambiar colores' dropdown menu. A callout box with the text 'Customize Diagram Colors' has a red arrow pointing to the 'Cambiar colores' button. At the bottom of the dropdown menu, there is a link that says 'Volver a colorear imágenes en elemento gráfico SmartArt' (Return to color images in SmartArt graphic element).

Haga clic para agregar título

Select [Text] and customize it

Verify that the desired link opens.

9. Spell Checking and Proofreading:

- Use the spell check tools in the 'Check' tab.

10. Save, Export & Present:

- Save your presentation, explore export options, and present from the 'Home' tab.

Select "File" tab

Archivo

Guardar como

Select "Save As"

File Location

File Name

Save File

The image is a composite of three screenshots from a Microsoft PowerPoint application, illustrating the steps to save a file. The top screenshot shows the 'Archivo' (File) tab selected in the ribbon, with a red box around it and an arrow pointing to it from a label 'Select "File" tab'. The middle screenshot shows the 'Guardar como' (Save As) dialog box, with a red box around the 'Guardar como' option in the left sidebar and an arrow pointing to it from a label 'Select "Save As"'. The bottom screenshot shows the 'Guardar como' dialog box with a list of file locations. A red box highlights the 'Documentos' (Documents) location, with an arrow pointing to it from a label 'File Location'. Another red box highlights the 'Nombre del documento' (Document name) field, with an arrow pointing to it from a label 'File Name'. A third red box highlights the 'Guardar' (Save) button, with an arrow pointing to it from a label 'Save File'. The 'Nombre del documento' field contains the text 'Presentación de PowerPoint (*.pptx)'.

8. Frequently asked questions

1. How do I change the style of a slide?

Go to the 'Layout' tab and choose a predefined layout.

2. Can I add more than one transition to a slide?

Yes, select the slide and apply multiple transitions from 'Transitions'.

3. Is it possible to undo an action in PowerPoint?

Yes, use the 'Undo' command on the toolbar or press Ctrl + Z.

4. How do I delete an animation?

Go to 'Animations', select the object and choose 'Remove Animation'.

5. Can I save my presentation as a PDF file?

Yes, go to 'File', choose 'Export' and select the PDF format.

9. Glossary

Term	Description
Interface	Graphical environment and set of tools that allows the user to interact with the application.
Transition	A visual effect that is applied between slides to make the presentation more dynamic.
Spell Check	A tool that identifies and suggests corrections for typing errors.
Export	Save the presentation in a specific format, such as PDF or video.
Present	Display the presentation in slideshow mode.
Hyperlink	An interactive link that redirects to another slide, file, or website.
