Interaction and Community:

Strategies for interaction with the audience through comments, likes and video sharing.

Tips for building and managing an active and engaged community on Rumble.

Practical and Advanced Tips:

Strategies to improve efficiency and creativity in content creation.

Solving common problems and optimizing the use of the platform.

4. Directed at

The Rumble user manual is intended for anyone interested in using the platform to share, discover and enjoy video content. This manual is designed for users of all experience levels, from those familiar with similar platforms to those new to the world of online content. Additionally, it is aimed at those who want to take full advantage of all the features and functions that Rumble offers, from content creators to avid viewers.

5. Application introduction

Rumble is an online video platform that offers users the opportunity to share, discover and enjoy a wide variety of video content. From fun and entertaining videos to breaking news and educational content, Rumble offers a diverse experience for users around the world.

With Rumble, users can create and upload their own videos, interact with other users through comments and reactions, and discover new and exciting content across a wide range of categories. Whether you're looking for inspirational, educational, or simply entertaining content, Rumble has something for everyone.

Additionally, Rumble offers intuitive tools and features that allow users to personalize their experience, create custom playlists, follow their favorite creators, and more. With an easy-to-use interface and an active, vibrant community, Rumble is the perfect destination for those looking to explore and share video content online.

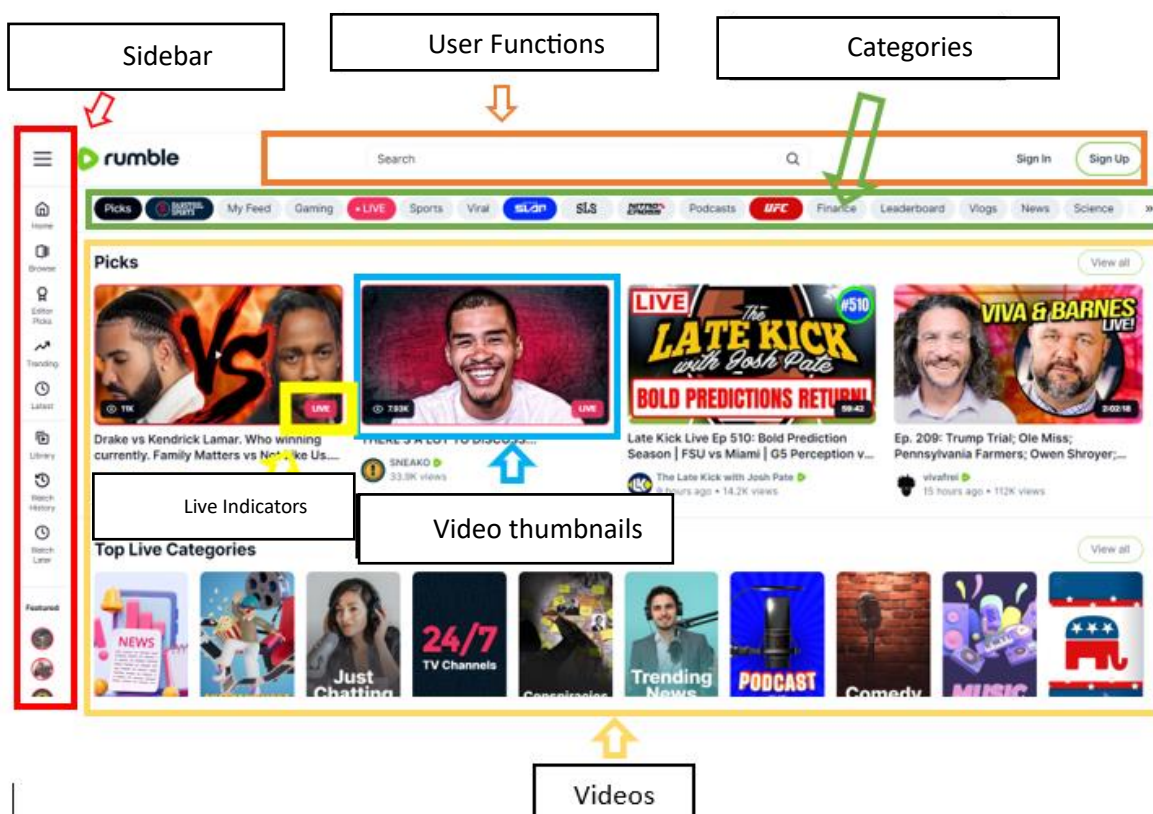

6. Basic Notions

Before starting to use Rumble, it is important to keep in mind some basic notions that will help you get the most out of the platform. Here are some things you should know before you start:

1. Account Registration: To access all Rumble features, you need to create an account. The registration process is quick and easy, and allows you to start uploading and sharing your own videos, as well as interacting with other users.

2. User Interface: Once you have logged into your account, you will come across the Rumble user interface. This interface is designed to be intuitive and easy to navigate, with key elements such as the home feed, video categories, search bar, and account settings options.

Rumble's interface is divided into several sections for easy navigation and access to content. These sections include the sidebar, user roles, categories, and video area.

Sidebar: The sidebar provides quick access to different sections of Rumble. Here are the

main sections:

- **Home:** Access the main content and news.
- **Explore:** Search and discover new content.
- **Trends:** See what's popular on Rumble.
- **Editor's Picks:** Find featured content curated by the Rumble team.
- **Library:** Review your saved videos, playlists, and history.
- **Watch Later:** Save videos to watch later.
- **Featured Channels:** Explore recommended channels
- **Personalization:** Switch between dark and light themes for your visual comfort.

Note 2: Some sections such as 'Featured Channels' may vary depending on user preferences and recent activity.

User Functions:

- Search Bar: Enter keywords to find specific videos.
- Magnifying glass icon: click here to search.
- Advanced Search: Use the "Search by" button to filter results.
- Login: Access your existing account.
- Register: Create a new account on Rumble.

Note 3: The search bar is your main tool for navigating Rumble. Make sure you have a stable internet connection for optimal results.

Categories: Here you will find a variety of categories on Rumble.

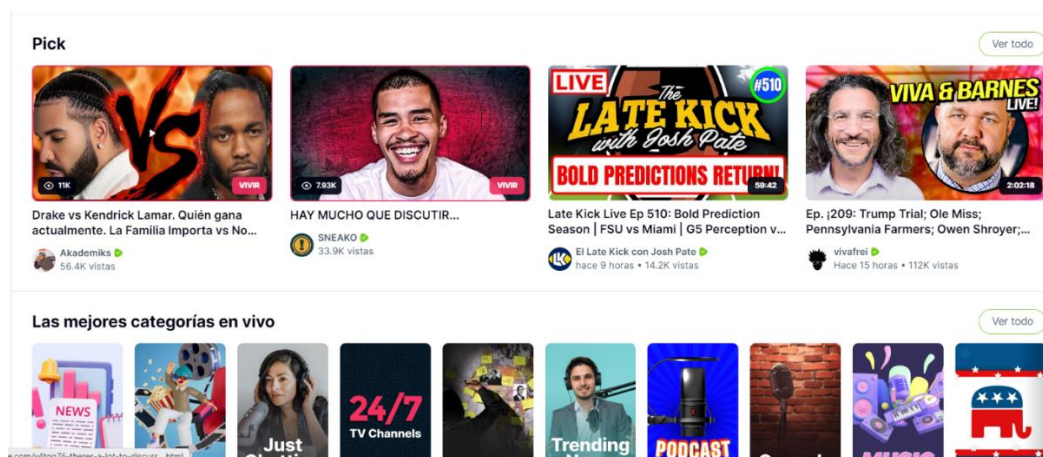

"<<" and ">>" buttons: These are used to see more available categories.

Note 4: By selecting a category, you will be presented with a variety of related videos and channels. If you're looking for something specific, use the search bar to narrow your search.

Interaction with Videos:

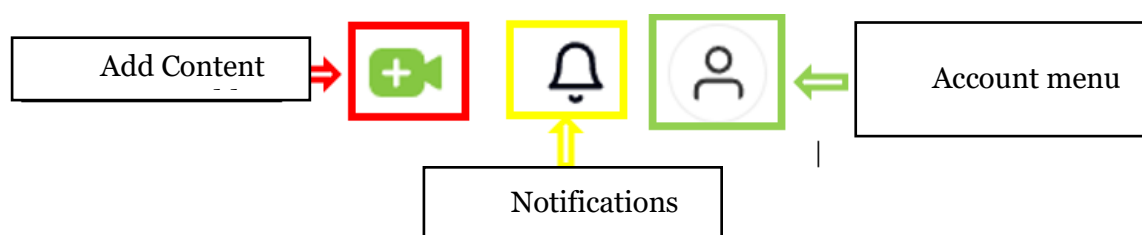

- Video Thumbnails: Click any thumbnail to view the video.
- Live Indicators: Look for the "LIVE" tag to join real-time broadcasts.

Note 5: When browsing videos, you can filter your search by category or use the search bar to find specific content.

The Rumble interface presents some variations depending on whether you are logged into your account or not. Below we detail the interface once you are logged into your account:

When you log in to your account, the user's functions are enriched with some additional options:

Add Content (Camera Icon): Access options to add content to the platform.

- Upload Video: Upload your own videos to the platform to share them with the community.
- Go Live: Start a live broadcast to connect with your audience in real time.

Notifications (Bell Icon): Check your notifications to stay up to date with activity related to your account.

Account Menu (Person Icon): Access a drop-down menu with additional options to manage your account. Here you will find:

- Account Options: Manage your profile and configure your preferences.
- Statistics and Profits: View your performance metrics and potential income generated on the platform.
- My Content: Manage the videos you have uploaded to your account.
- My Channels: Monitor and edit the channels you've created in Rumble.
- Live Streaming: Set up and manage your live streams to interact with your audience.
- Log Out: Safely log out of your account when you are finished using it.

Note 6: When using the add content features, be sure to follow the community guidelines to avoid issues with your posts and ensure a positive experience for all users

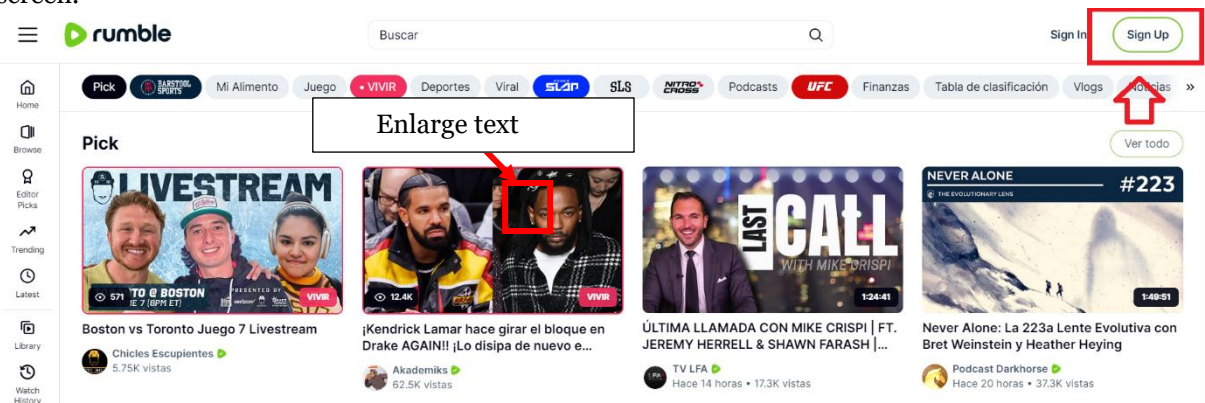

With these steps, you are now ready to navigate Rumble effectively and take full advantage of all its functions and features. Enjoy exploring and discovering new content!
