1. Project Objectives

Train teachers from the Ministry of Education in the use of ICT tools to improve their teaching performance, in order to promote educational innovation and online learning.

Train priority attention groups or digitally illiterate groups in the use of ICT tools to apply what they have learned in their daily lives, promoting their digital inclusion and improving their quality of life.

2. Objective of the Manual

The purpose of this guide is to provide a detailed and comprehensive explanation of using TikTok, a versatile online platform for creating and sharing short videos. This guide is designed to guide both novice and experienced users through the key features of TikTok, ranging from account creation to video production and editing, as well as exploring the various creative tools available.

Through detailed instructions, illustrative screenshots, and practical tips, the goal of this guide is to make learning easier and improve efficiency when using TikTok. By the end of reading, users should feel comfortable navigating the TikTok interface, taking advantage of its various features and resources, and applying these skills to create impactful and engaging content, whether for personal enjoyment or professional purposes.

3. Scope

The content of this guide covers various essential and advanced aspects related to the use of TikTok, a social media platform focused on the creation and sharing of short videos. The guide is designed to cover the following points:

✓TikTok Fundamentals:

- Presentation of the platform and its key features.
- Detailed instructions on registering and setting up user accounts on TikTok.

✓Interface Exploration:

- Navigation through the different sections to differentiate them.

✓Tools and Features:

- In-depth exploration of the creative tools available on TikTok.
- Guide on how to use effects, sounds, text and other editing features when creating videos.

✓Creation of Specific Content:

- Preparation of videos, exploring different styles and contents.
- Personalization and adaptation of video formats to specific needs.

✓Content Management:

- Procedures to save, download and share videos on TikTok.

✓Interaction:

- Interaction with other users and videos.
- Methods to follow and be followed.

✓Using TikTok on Different Devices:

- Instructions to download and use TikTok on both mobile and desktop devices the desktop version.

4. Addressed to

The TikTok manual is aimed at:

Educational Content Creators:

- Ideal for those who want to share knowledge through educational videos.
- Use of TikTok to create educational content and educational presentations.

Entrepreneurs and Business Owners:

- For those looking to promote their products or services in a creative way.
- Use of TikTok as a marketing and business communication tool.

Interested in Visual Content Creation:

- Suitable for anyone with an interest in creating videos and presentations.
- Exploring TikTok as a versatile platform to express ideas and tell stories.

By targeting these groups, TikTok becomes a valuable tool for various purposes, from education to business promotion and general creative expression.

5. Application introduction

Welcome to the TikTok User Guide, designed to facilitate your experience on the exciting short video creation and sharing platform. Whether you're taking your first steps on TikTok or looking to maximize your creativity, this guide will provide you with step-by-step instructions, practical tips, and everything you need to know to get the most out of this dynamic platform.

You'll discover everything from the basics, such as downloading the app and creating your account, to creating unique content, interacting with other users, and exploring the various creative tools TikTok has to offer. Regardless of your goals, whether it's educating, entrepreneurship, or just having fun, TikTok gives you the opportunity to express yourself in unique ways and connect with a global audience.

Dive into this guide, explore the endless possibilities of TikTok, and get ready to discover a world of creativity, interaction, and entertainment. Let's start your exciting journey on TikTok!

6. Basic notions

Before we dive into the vibrant TikTok community, it's essential to understand some fundamental concepts that will allow you to get the most out of this short video creation and sharing platform. Here are some basic notions that you should keep in mind:

1. Short and Creative Videos:

TikTok focuses on creating short videos, typically 15 to 60 seconds.

The platform encourages creativity through effects, sounds, and other editing tools.

2. Mobile Platform:

TikTok is an application for mobile devices, available on iOS and Android.

Content creation and viewing is primarily done through the mobile app.

3. User Accounts:

To participate on TikTok, you need to create a user account.

Accounts allow users to follow others, be followed, and personalize their experience on the platform.

4. Content Discovery:

The "For You" section features recommended videos personalized for each user.

Users can explore a variety of content in the "Following" and "Following" sections. "Explore".

5. Interaction and Reactions:

Users can interact with videos by liking, commenting and sharing. There is the option to react to videos with effects and share these reactions.

6. User Tracking:

You can follow other users to see their content in your "Following" section.

Interaction is expanded by following, commenting and collaborating with other creators.

7. Download and Share:

Users can download TikTok videos for offline viewing.

The platform allows you to share videos on other social networks and messaging.

8. Trends and Challenges:

TikTok features trends and challenges that users can join and participate in.

Participating in challenges is a popular way to connect with the community.

9. Privacy and Settings:

TikTok offers privacy options, such as private accounts and interaction settings.

Users can adjust the visibility and accessibility of their content.

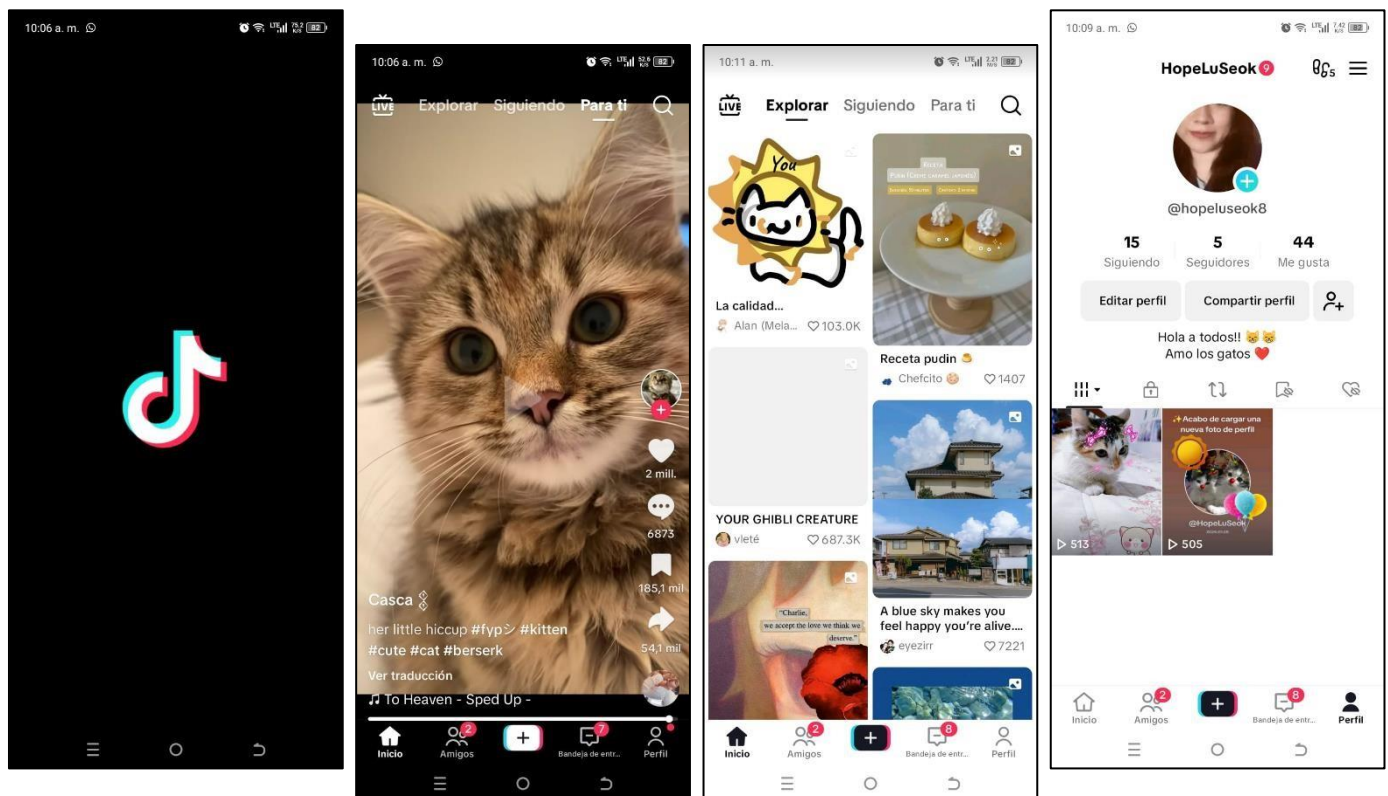

By understanding these basics, you'll be ready to dive into the dynamic and creative world of TikTok. Get ready to explore, create and connect

7. Steps to follow

7.1. Video 1

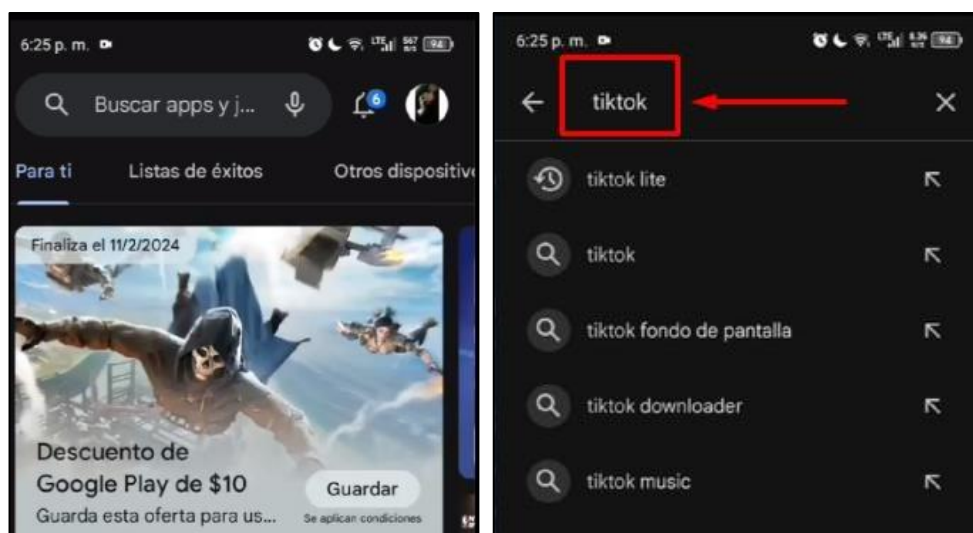

to. Introduction to TikTok.

TikTok, an exciting mobile application dedicated to the creation and sharing of short videos. TikTok stands out as a versatile platform, ideal for a wide range of purposes, from expressing your creativity and exploring new trends to connecting with a global audience. With TikTok, you can immerse yourself in creating innovative content, explore viral challenges, and participate in a vibrant community that celebrates the diversity of artistic expressions. Discover the unlimited potential of TikTok to share unique and captivating moments!

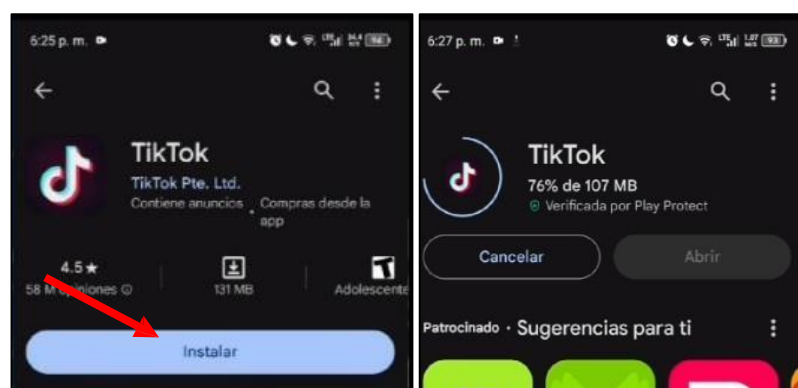

b. Download the application.

Open the "Play Store" app on your Android device, in the search bar, type "TikTok" and press "Search."

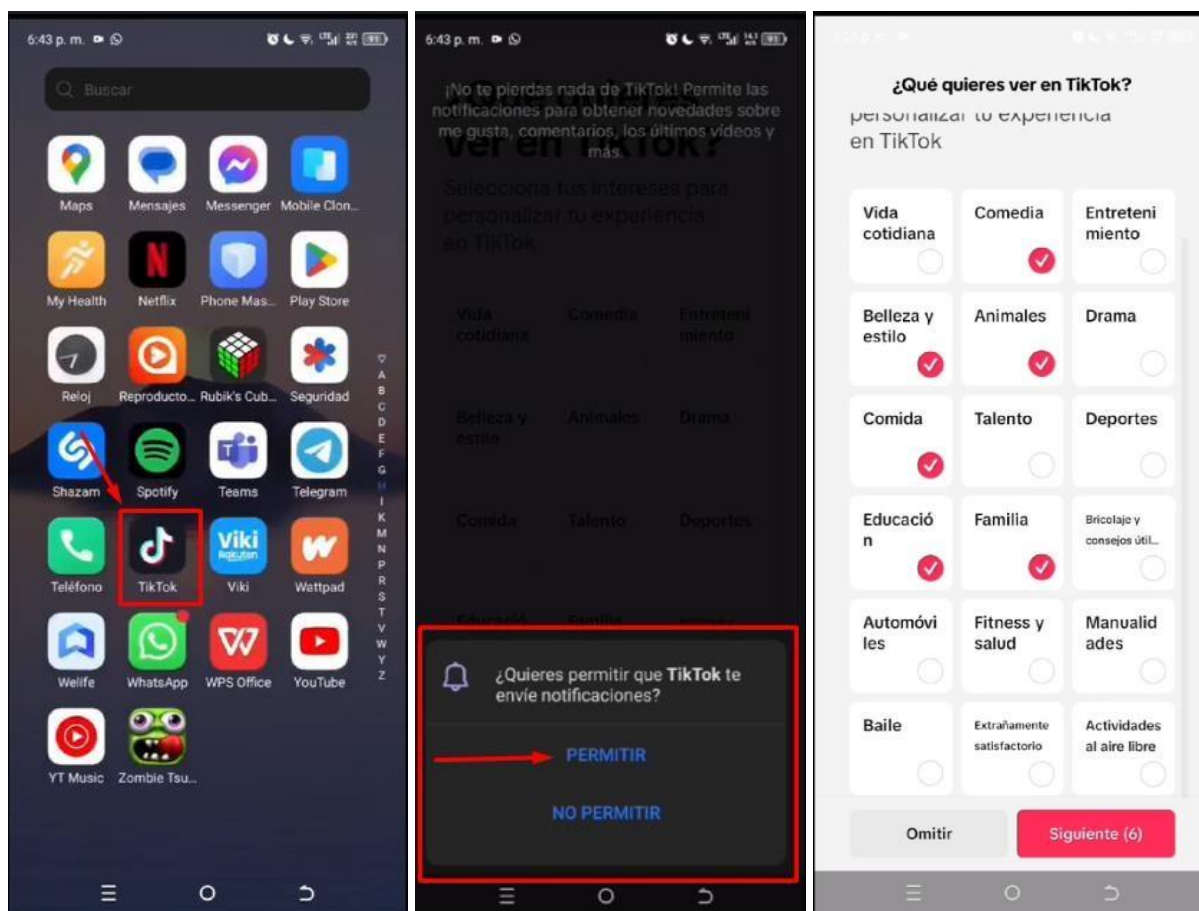

Select the “TikTok” app from the list of results and press the “Install” button. The app will download and install on your device.

c. Open TikTok.

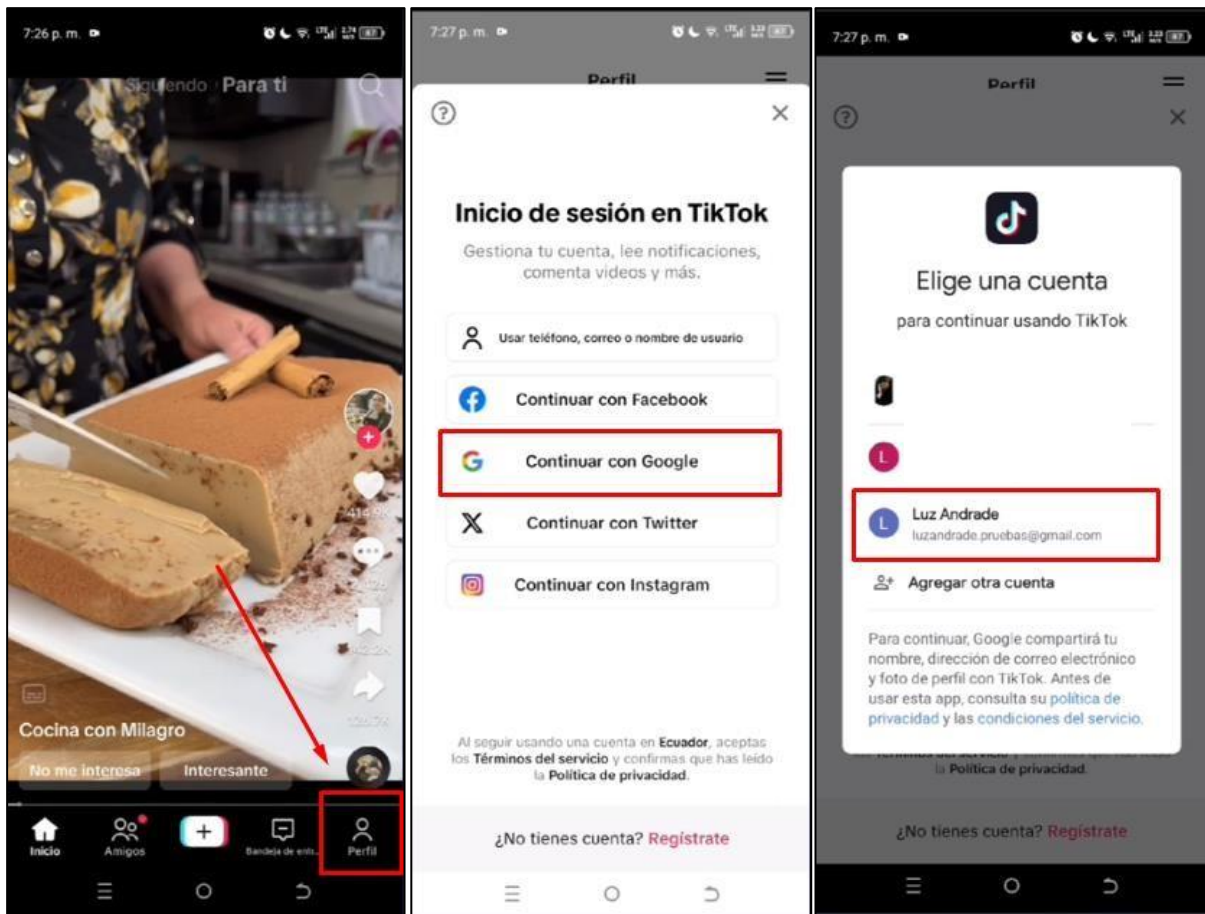

Once the installation is complete, open TikTok from your installed applications.

Allows you to receive notifications when requested. TikTok will then ask you, “What do you want to see on TikTok?” You can select preferences or skip this step.

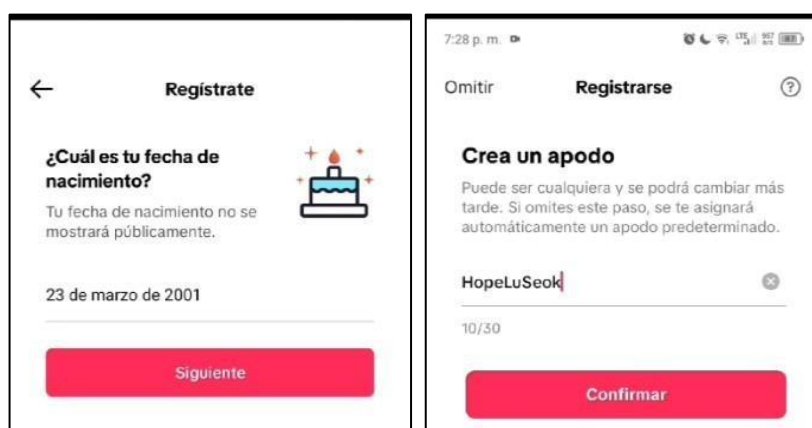

d. Create your account.

Go to the "Profile" icon to create your account, there are different ways to register, choose the one you want. (I chose the "Google" option to register my account.)

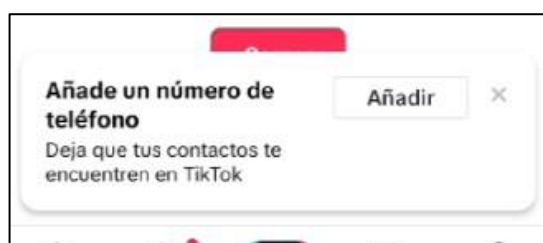

Your account is almost ready, just fill out a little information.

TikTok will ask you to provide your date of birth, this information will not be public; then create a nickname for your account and confirm.

If you wish, you can add your phone number at this stage.

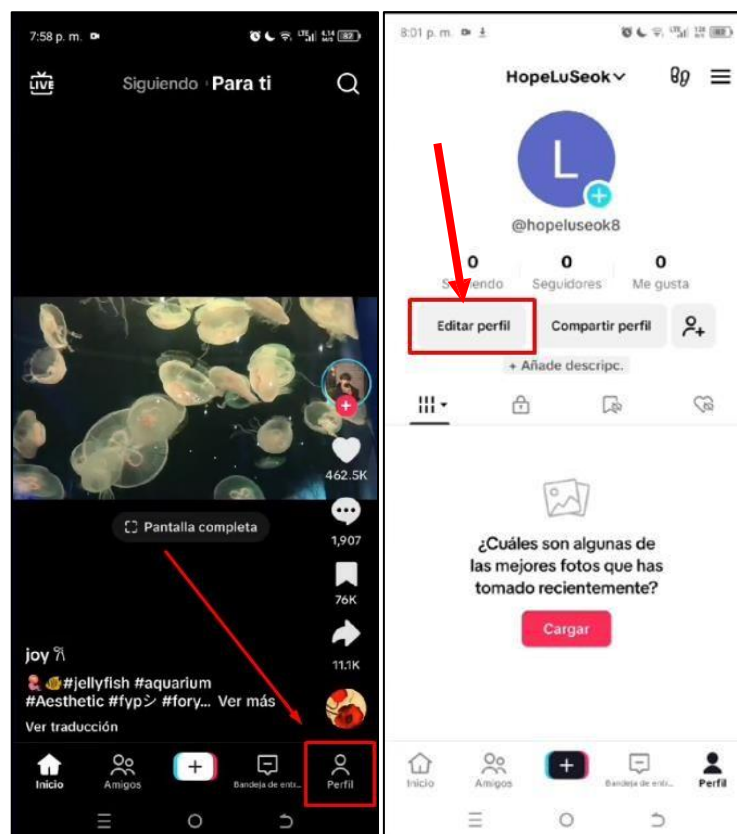

Your account is now created.

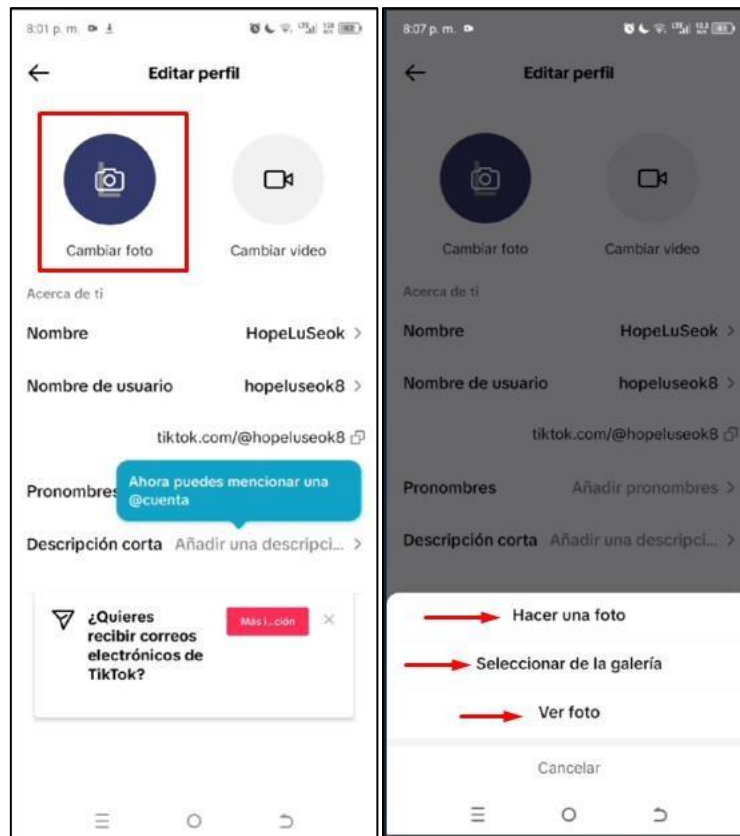

7.2. Video 2

to. Account settings

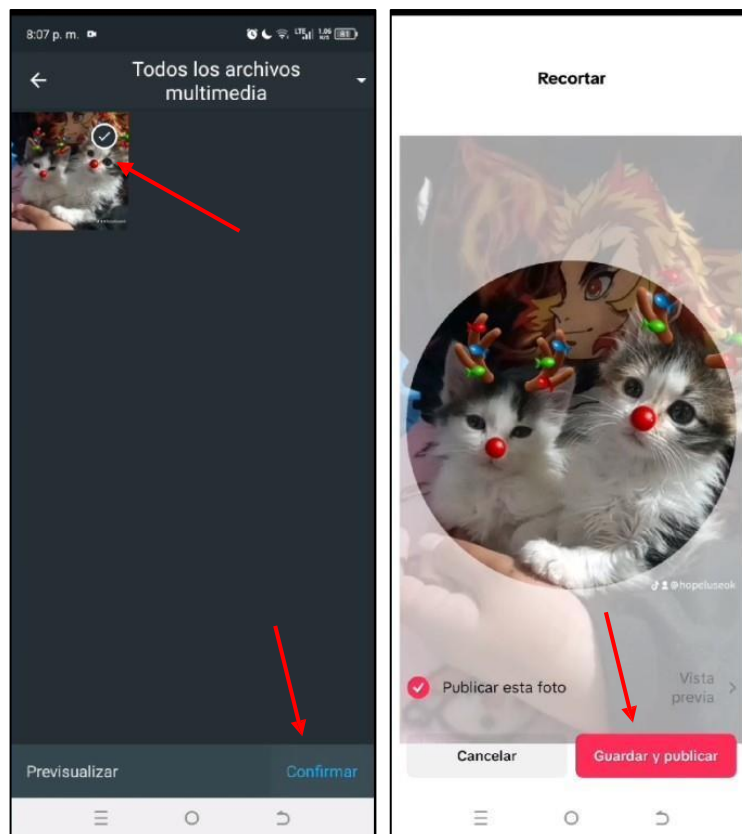

Tap the "Profile" icon in the lower right corner of the screen and select the "Edit Profile" option.

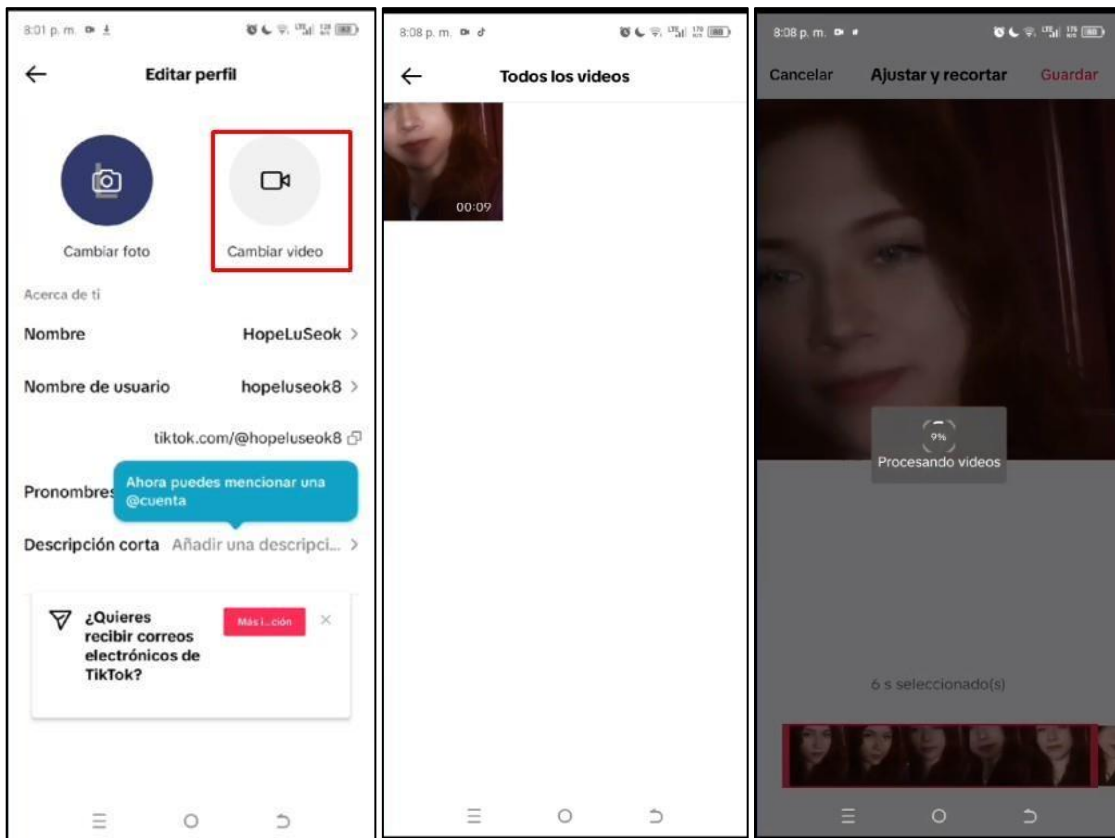

Tap "Change Photo" to update your profile picture. You can take a new photo, select it from the gallery or keep the current one.

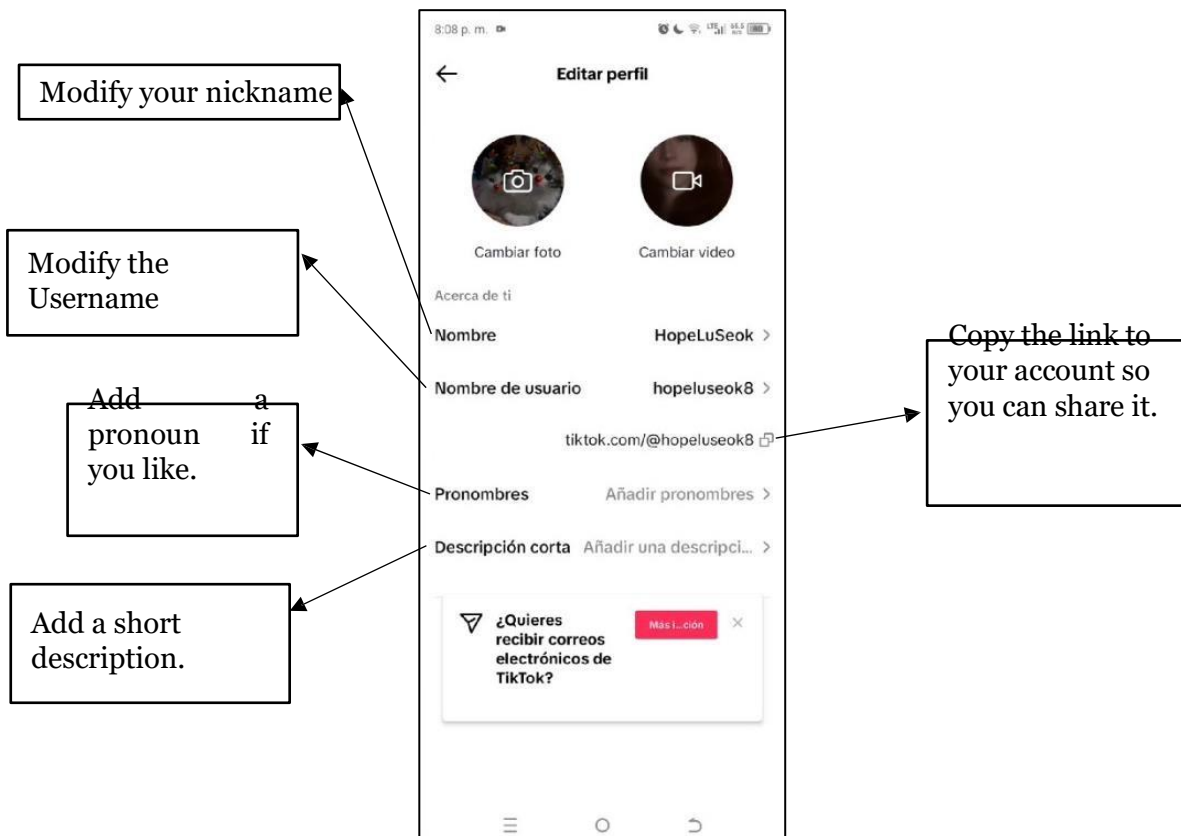

Since it's the first time, I select one from the gallery, confirm, then adjust its size and save changes. If I want I'll publish it.

Tap "Change Video" if you want to add a video to your profile. Select a video from your gallery and save.

You can also configure the following points:

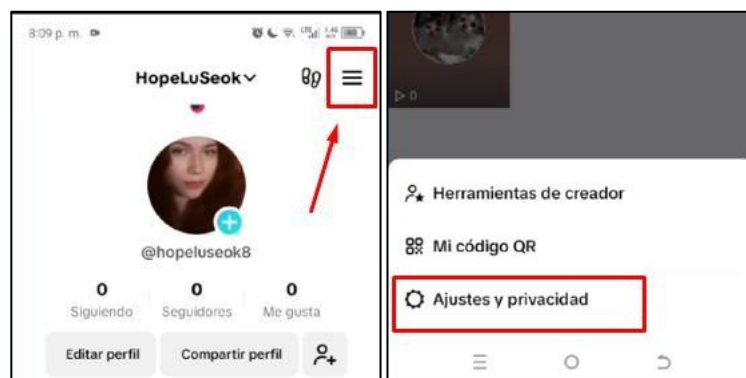

Note: It is recommended to add a short description so that other users know what your content is about, your tastes, etc.

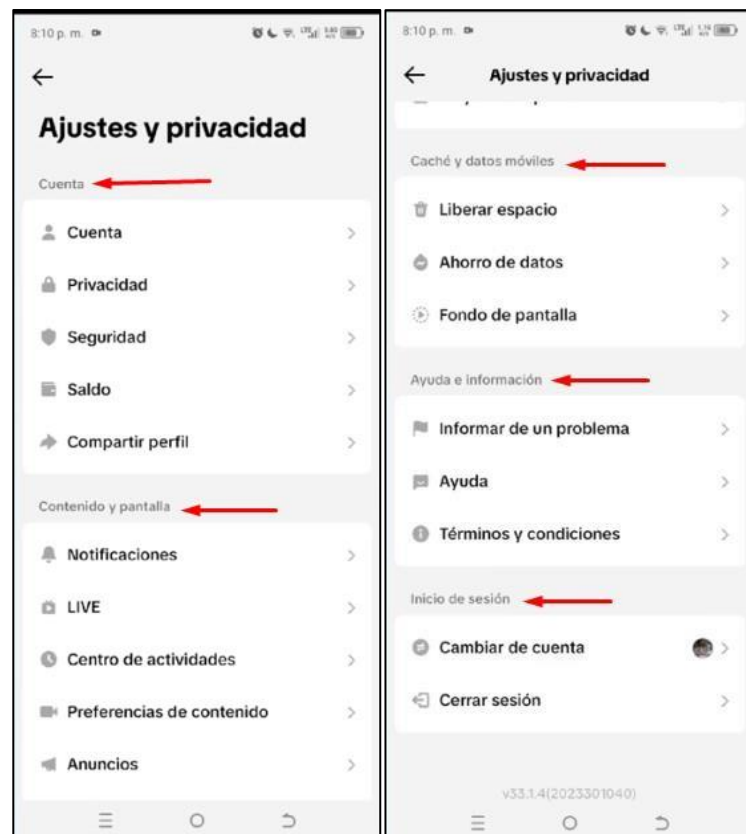

b. General settings.

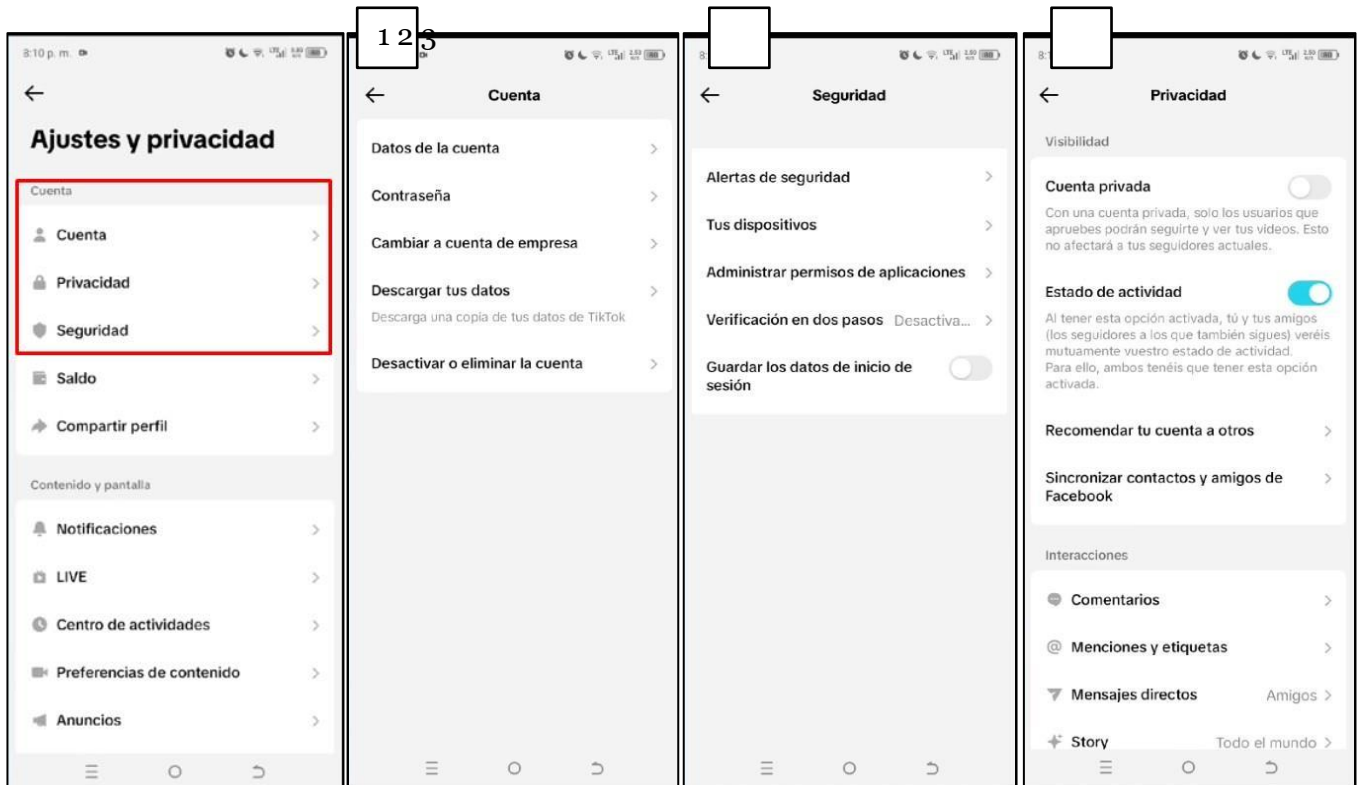

In the upper right corner, tap the three lines to access "Settings and Privacy".

Within "Settings & Privacy," explore options related to your account, password, and more.

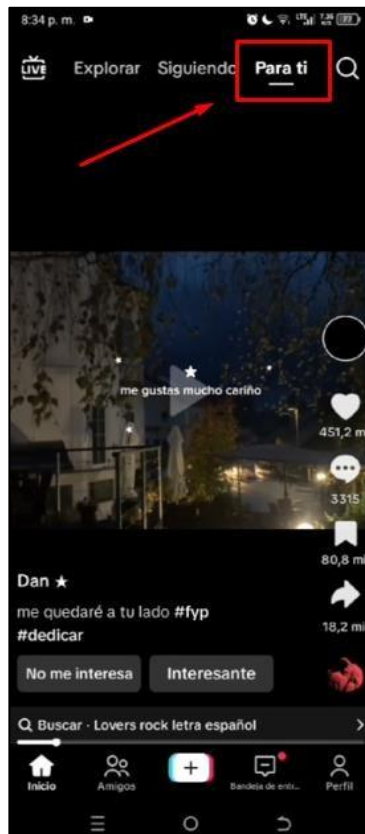

Let's explore these account options. Configure them if you think necessary.

7.3. Video 3

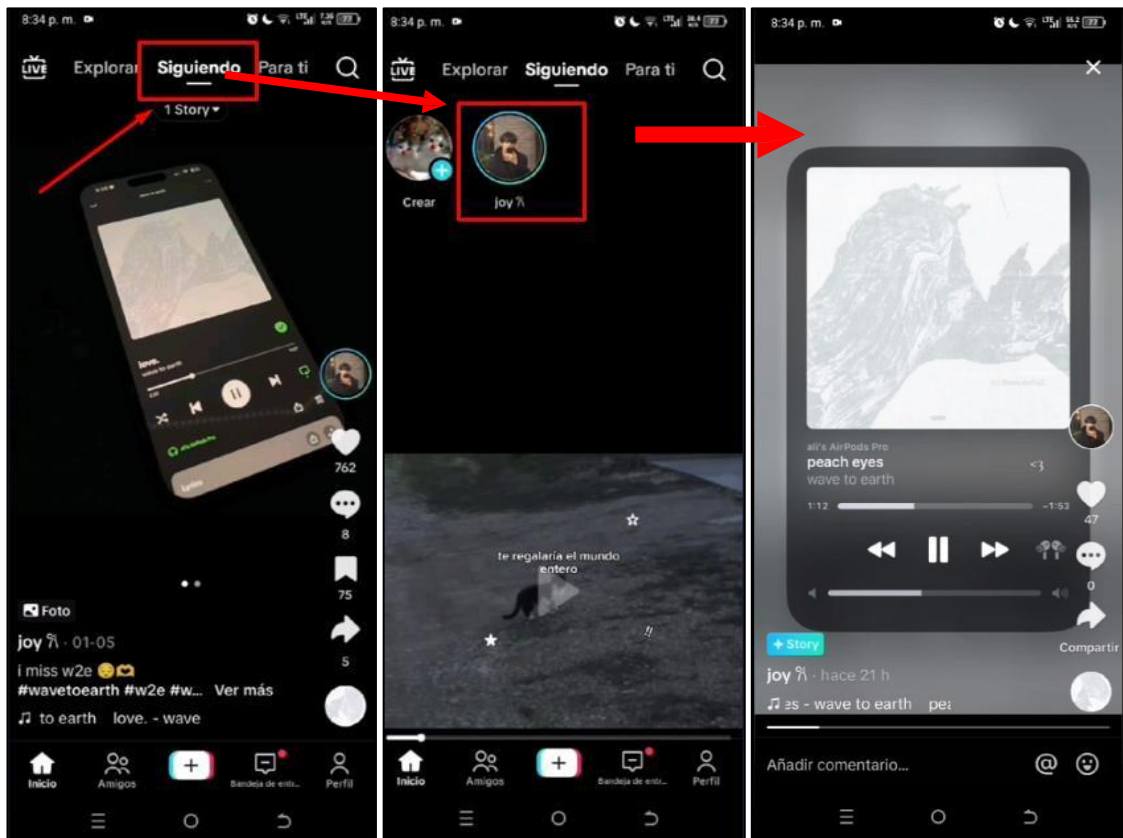

to. TikTok interface.

When you log in, you will be on the main screen called "For you." Here you will find recommended videos according to your preferences.

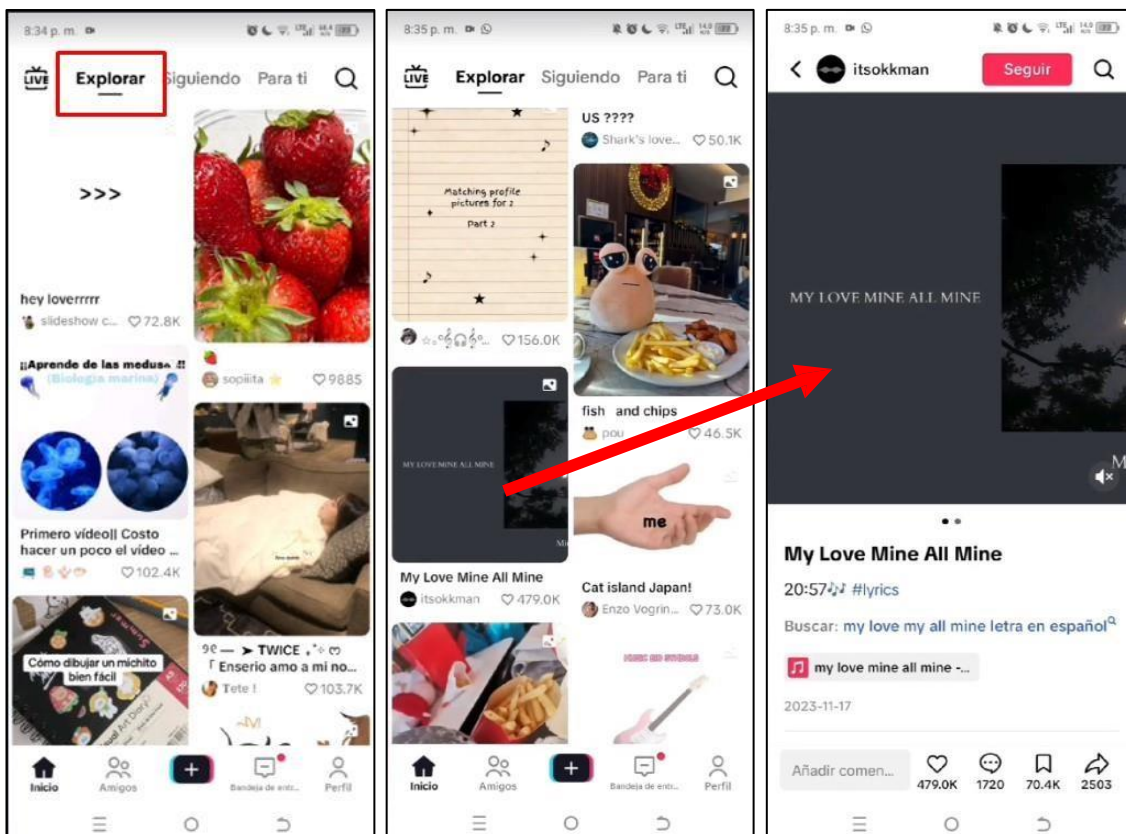

sound track

Explore the "Following" section to see posts, lives, and stories from the people you follow.

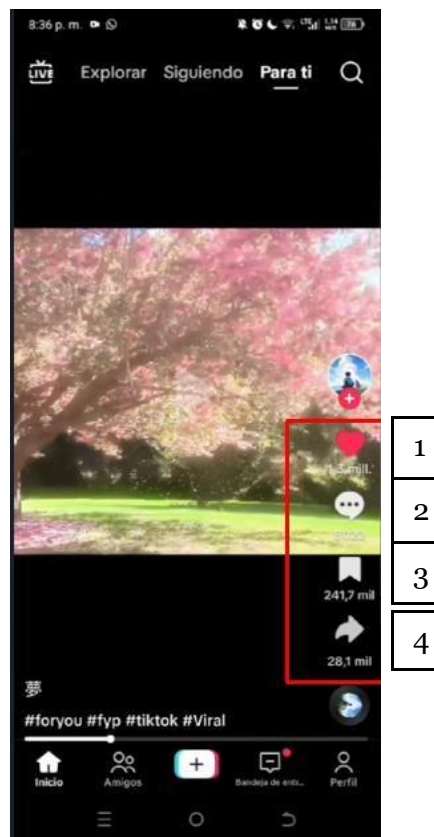

Visit the "Explore" section to discover interesting and trending videos.

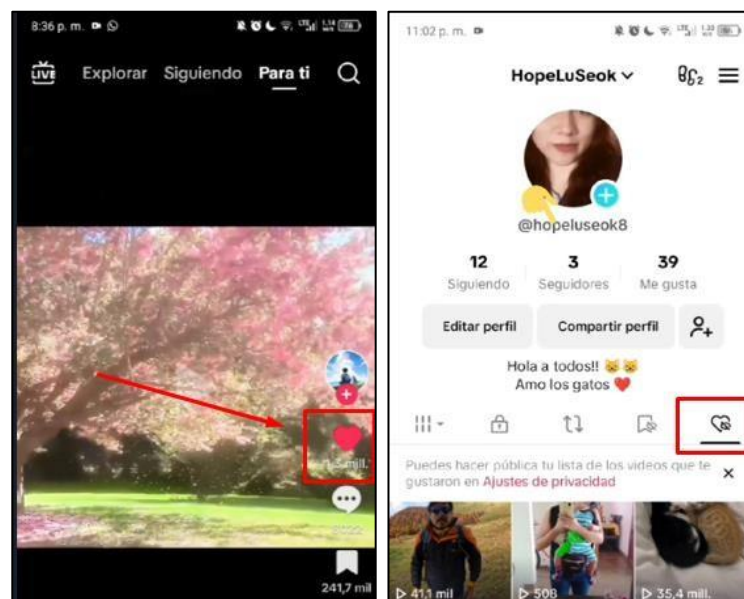

b. First interaction.

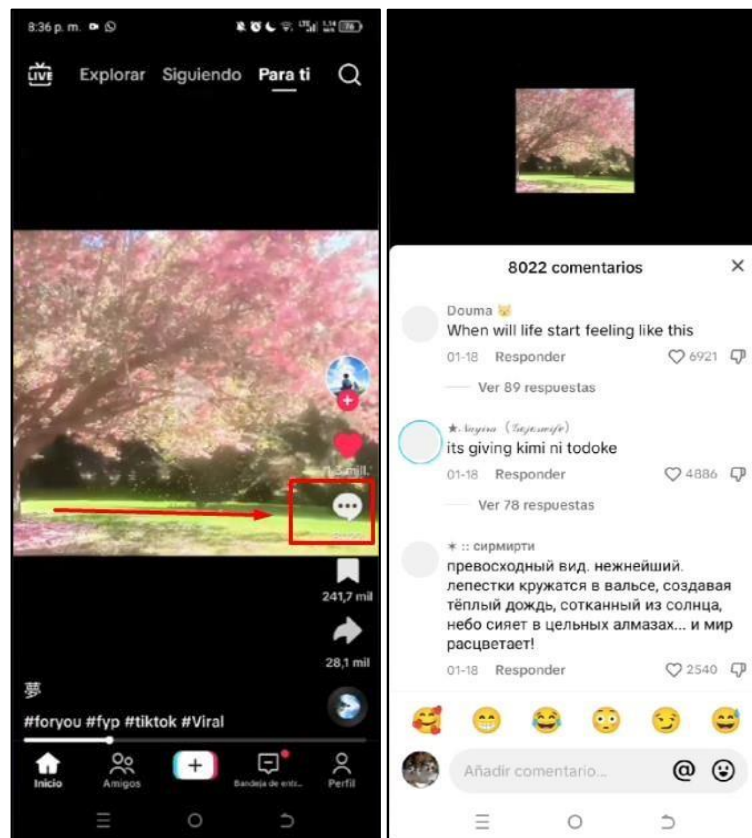

When you find a video you like you can like, comment, share and see other comments.

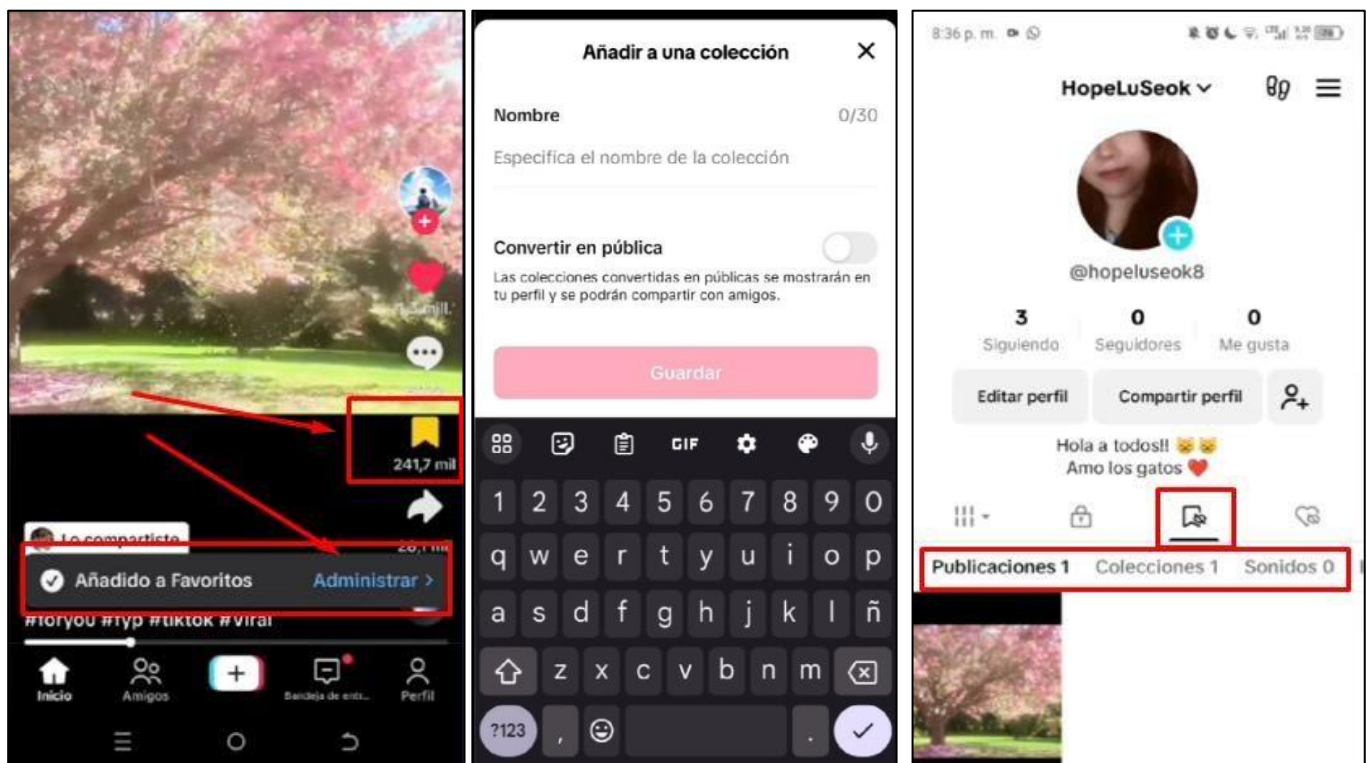

[1] Give “Like”: press twice on the screen or once on the white heart. Can find the videos with your likes on your profile.

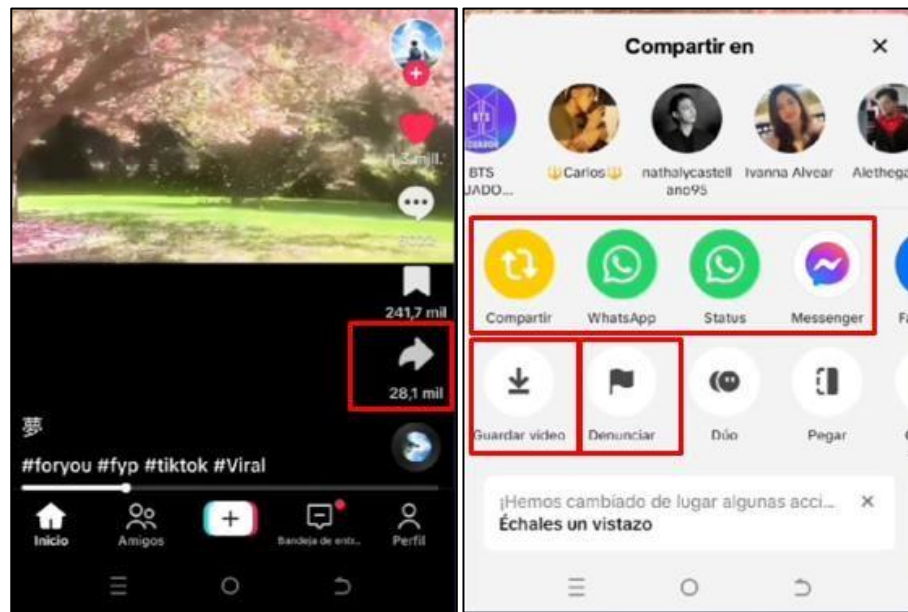

[2] Comment: You can make a comment on the video and see those of other users.

[3] Add to favorites / Save to collections: If you want to watch a video later, you can save it to different collection folders. You can find these collections in your profile.

[4] Share, download / report: Use the share, download and report options if necessary for videos that have inappropriate content.

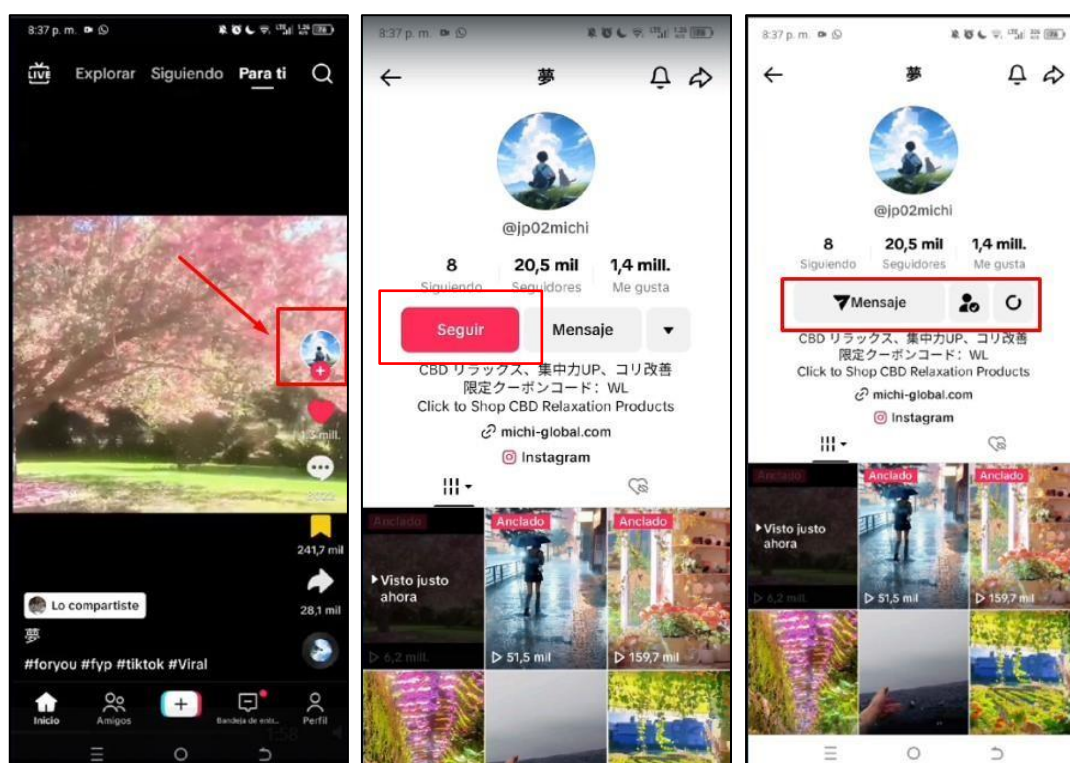

Note: Avoid making malicious comments, they can be reported and if they are several or very strong, your account can be sanctioned and you will not be able to use it for a time or permanently.

7.4. Video 4

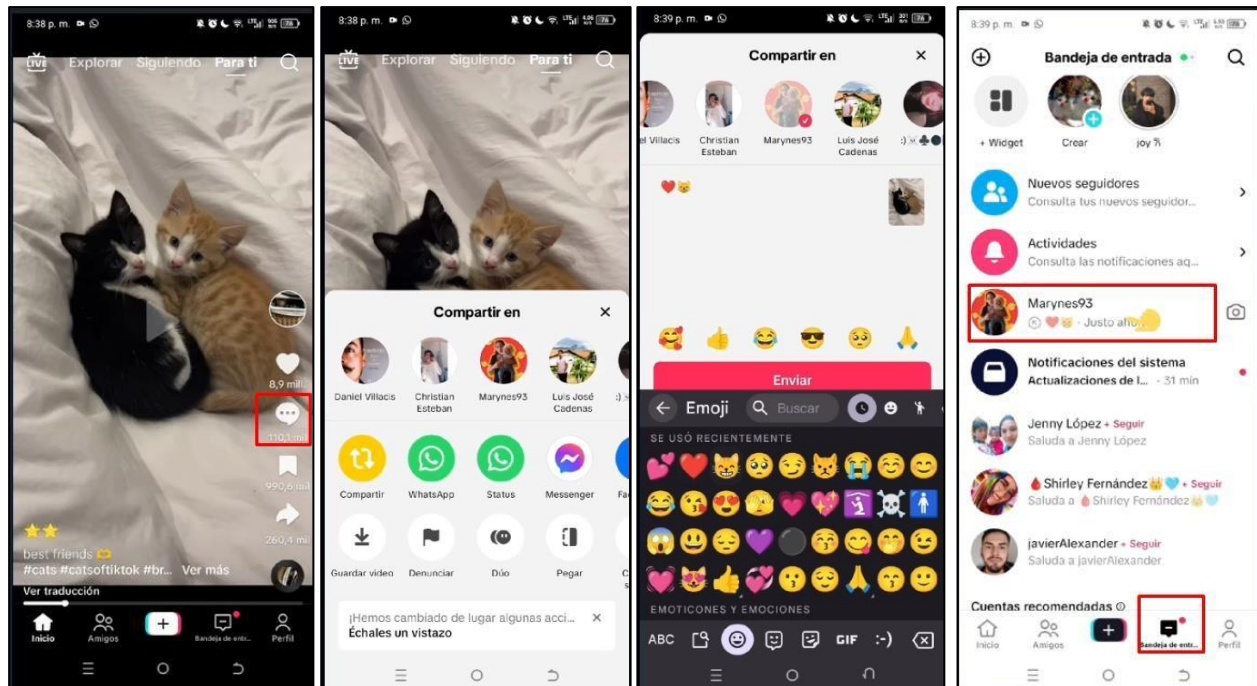

to. Follow users.

Select an account in the "For you" section and click their profile photo. In the profile, discover the content shared by that person on the platform. If you like the content, press "Follow" to follow that person and see more of their videos.

b. More Interactions.

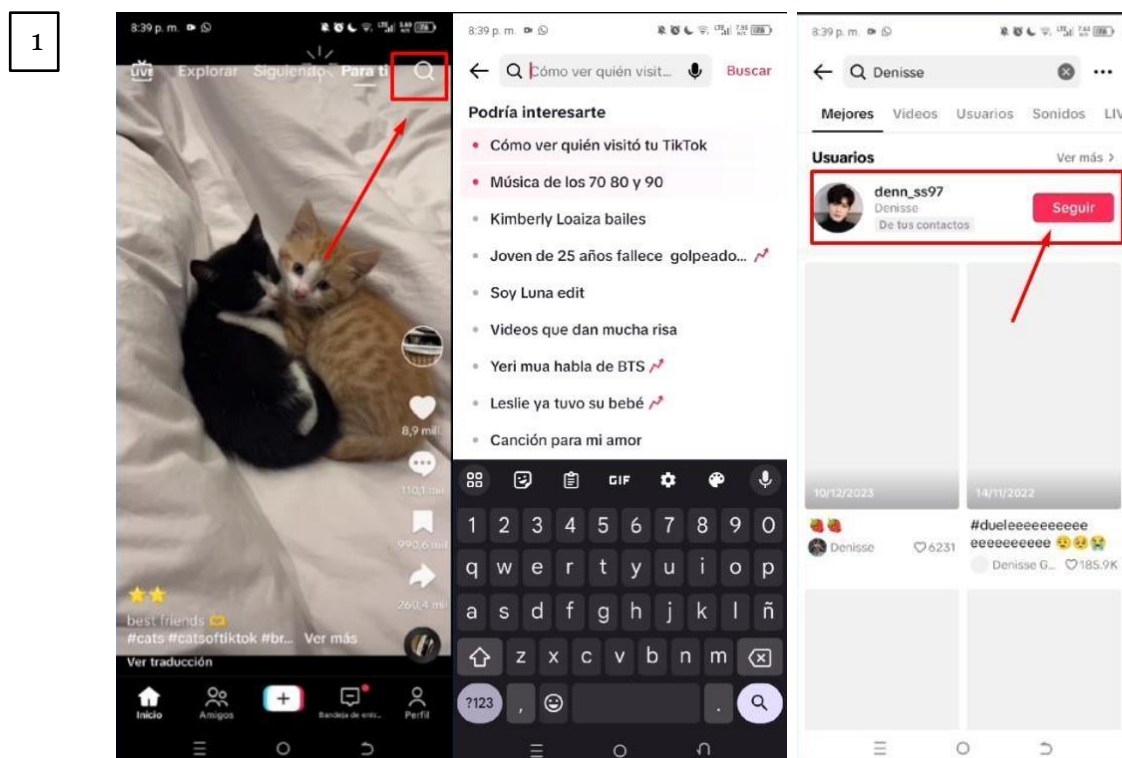

Share a video via TikTok messaging to someone in your contacts. Access the "Inbox" to view the shared message.

c. Find friends and follow them.

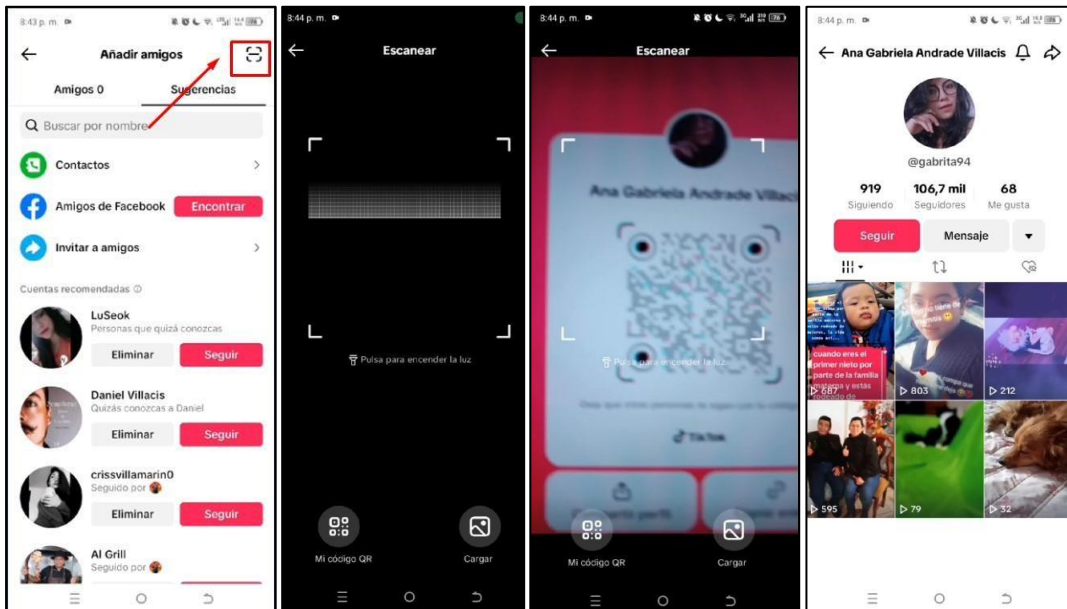

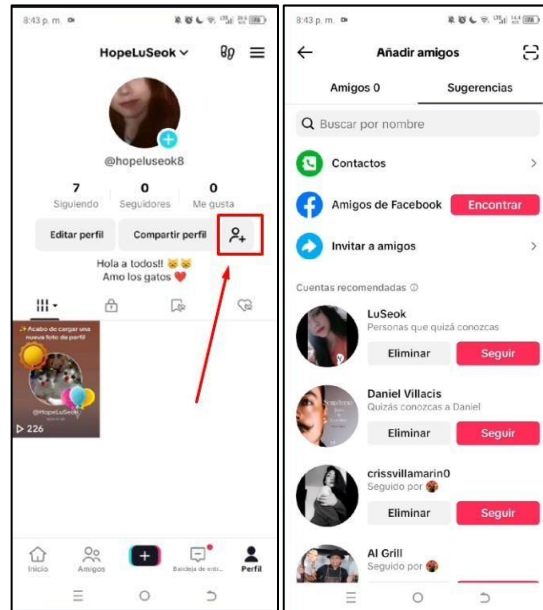

Explore different ways to find friends on the platform, whether through the magnifying glass, from your profile in your contacts, Facebook, suggestions, or by scanning QR codes.

I show you different ways:

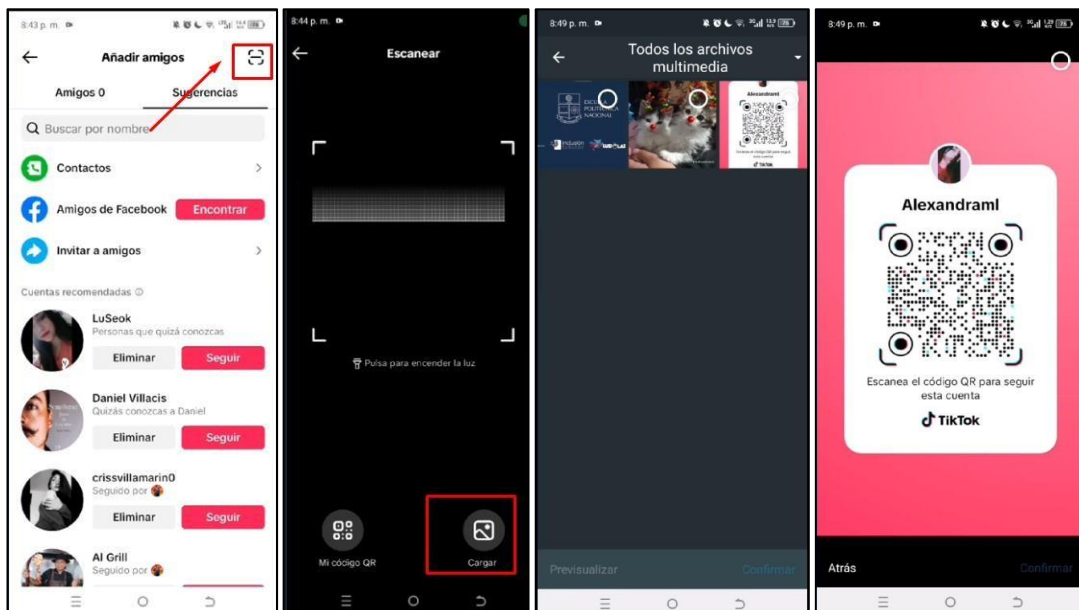

2

19

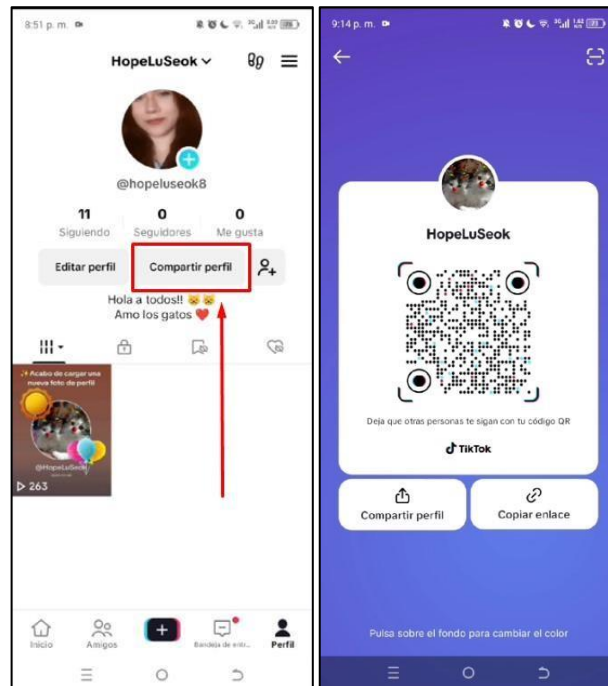

3

4

d. Share your account

Find out how to share your account by using the add friends icon and selecting "My QR code."

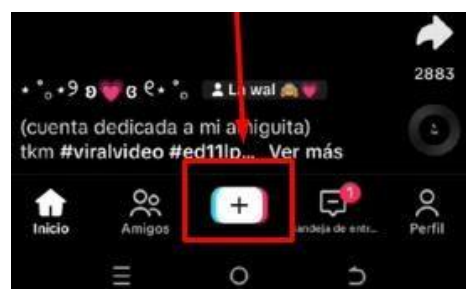

and. New followers.

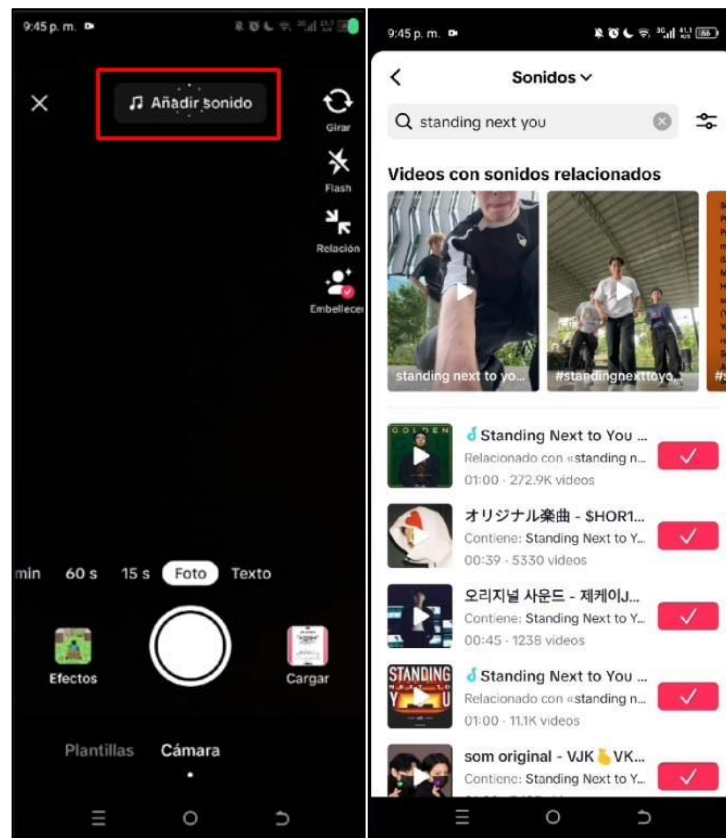

7.5. Video 5

to. Record a video

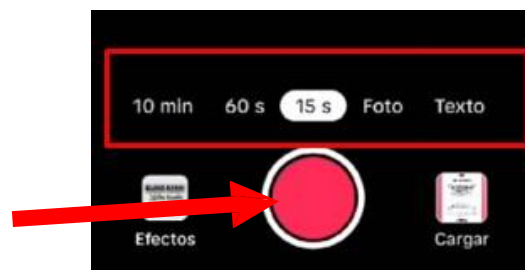

Tap the "+" icon at the bottom of the screen to start creating a new video.

Explore the "Add Sound" option to select a song. Click on the seen to confirm your choice.

Choose the length of the video, in this case, I will choose the 15 second option. Press the recording circle to start recording. You can stop recording whenever you want.

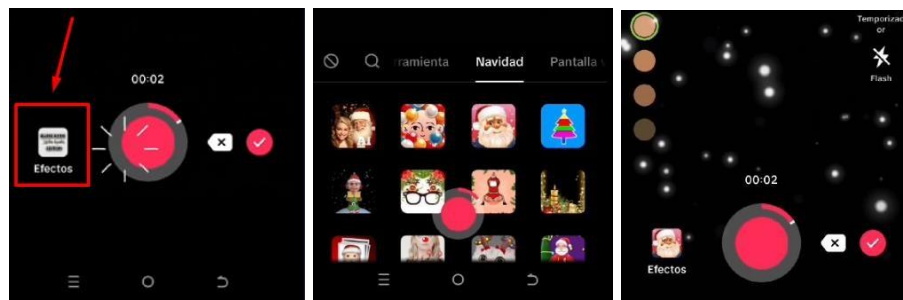

b. Edition

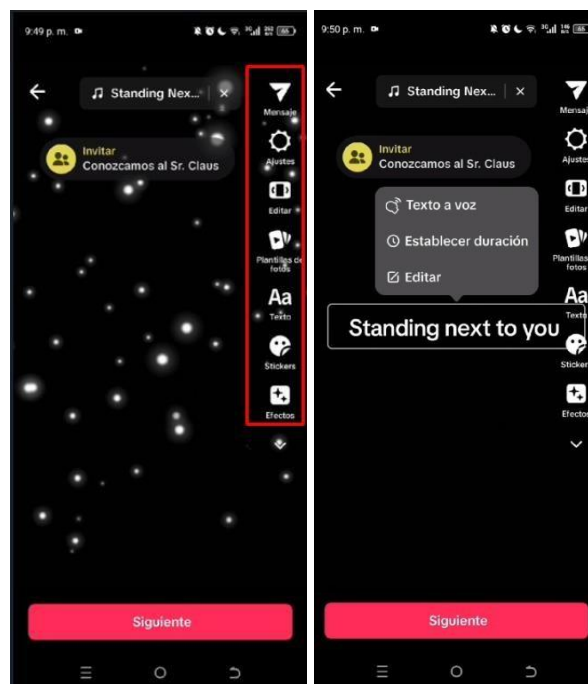

After recording, you will be presented with options to delete the last fragment or end the recording.

Access the "Effects" section to add animated elements to your video.

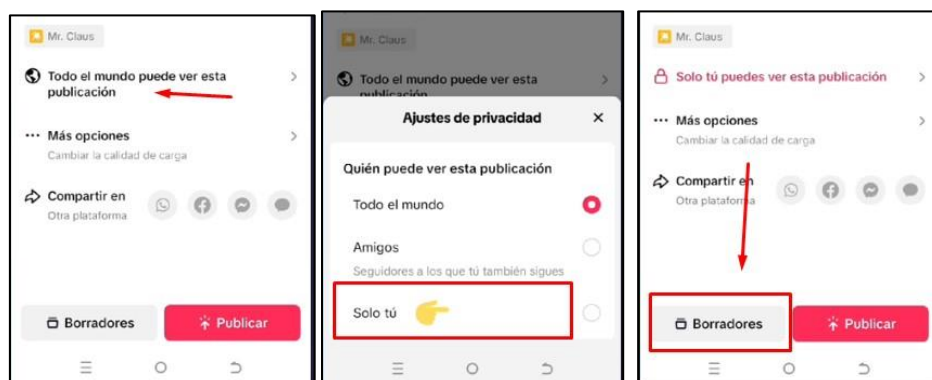

Use the options on the right side of the screen to change the camera, adjust the speed, apply filters, set the timer and flash.

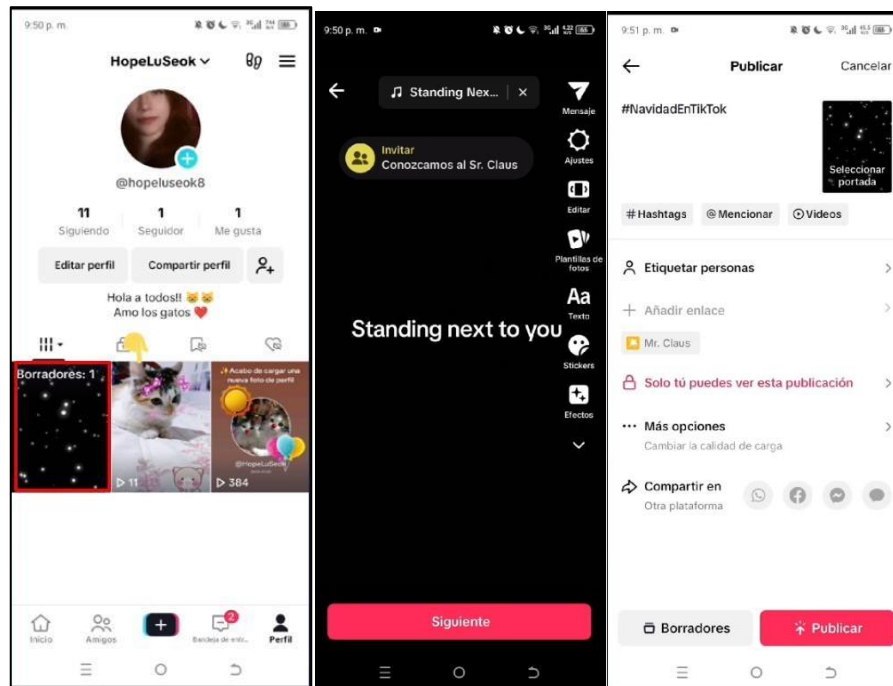

c. Publication: Privacy and Drafts

Publish your first video in "Drafts" and in private mode by selecting "Only you" in "Privacy settings".

To continue editing your “draft” video, go to your profile and select the option "Drafts" to view and continue editing your video.

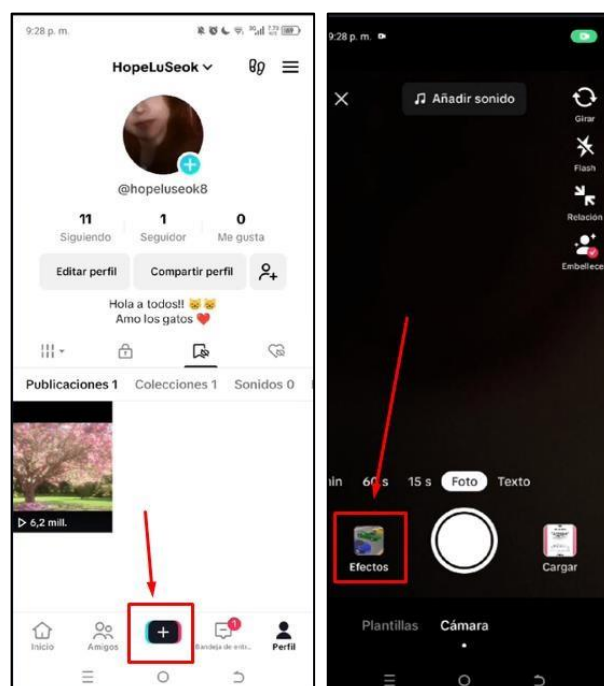

Note: If you decide to make it public, modify the privacy at any time from the video settings.

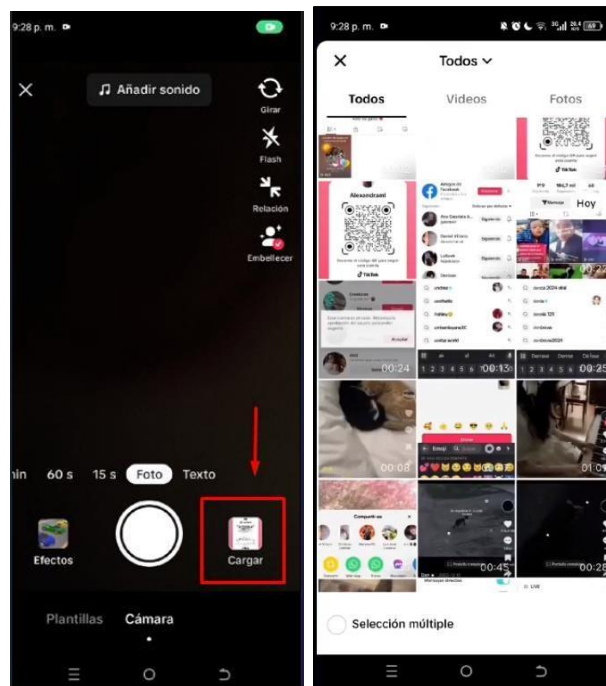

7.6. Video 6

to. Video with effects and editing.

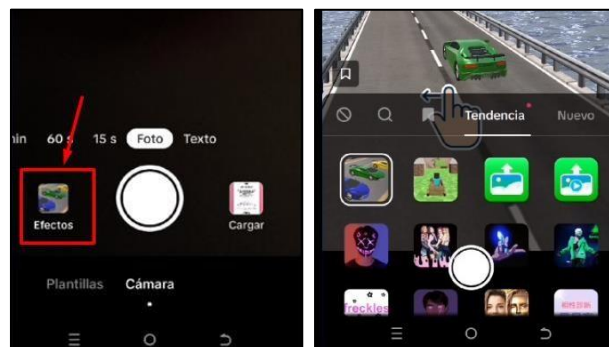

Tap the "+" icon at the bottom of the screen to start creating a new video.

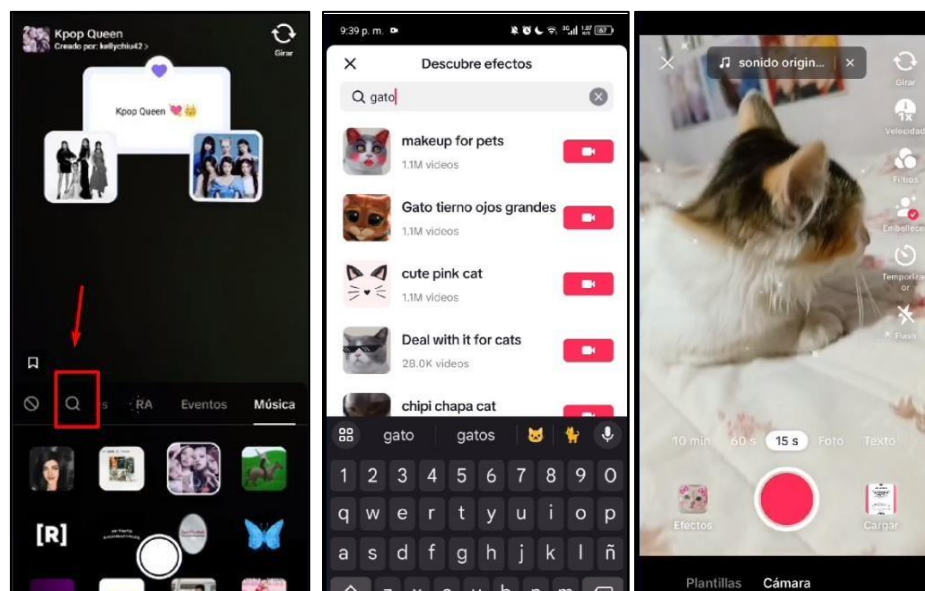

You can create a completely new one or upload it from your gallery.

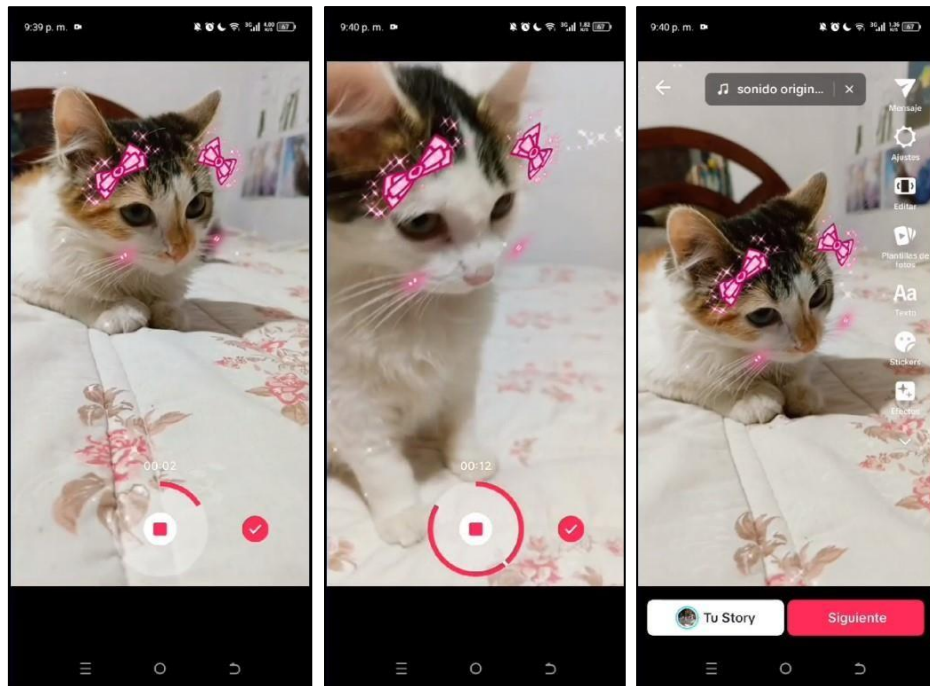

Select the "Effects" option to explore the wide variety of effects available.

Use the search icon to find specific effects based on your preferences. Pick an effect and test it out before recording your video to make sure it suits your style.

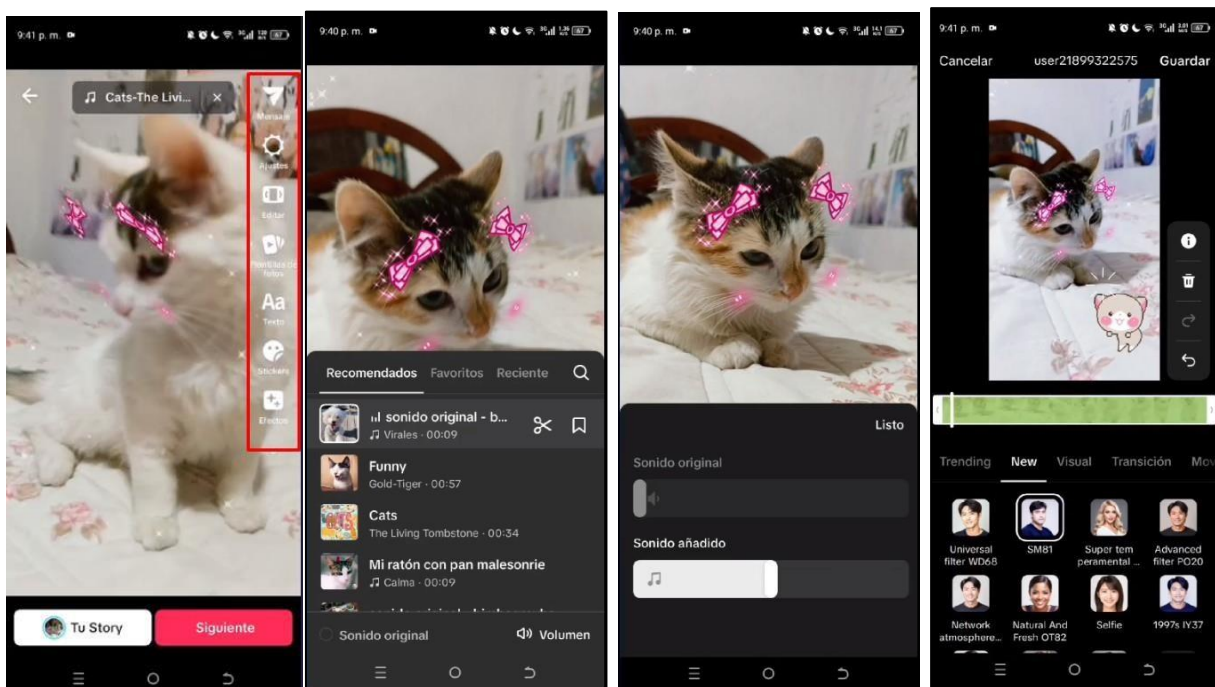

Decide the length of your video and start recording. You can pause and continue to film different scenes.

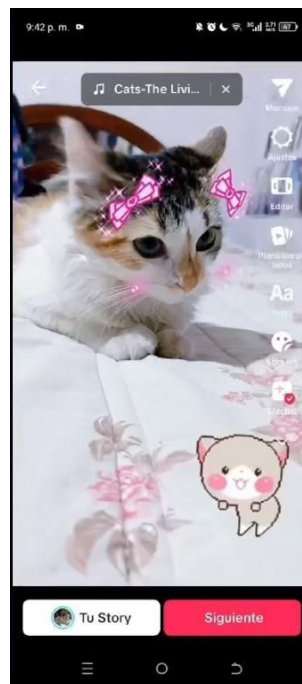

After recording, add sound, adjust the volume, and use the editing options on the right to trim, add text, and stickers.

Choose a filter that complements your video and adjust the settings to your preferences.

Review your video and make sure all the elements are as you want.

7.7. Video 7 to. Publication

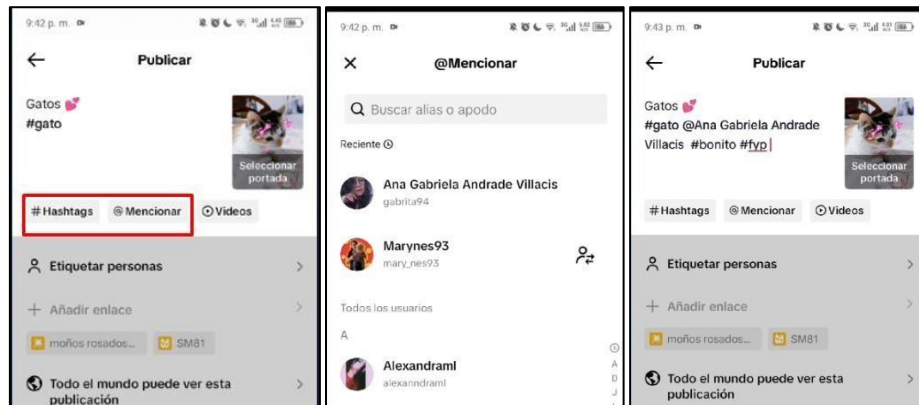

After recording, select "Next" to access the details screen.

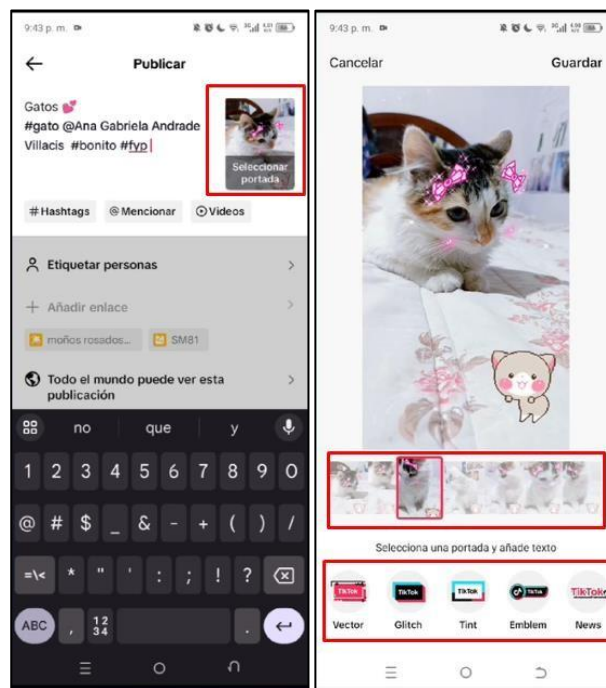

Enter a description for your video in the space provided.

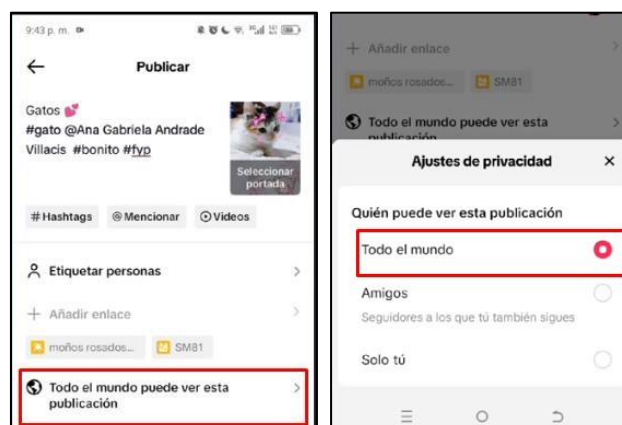

Add relevant hashtags (#) and tag/mention (@) people if you wish to increase the visibility of your video.

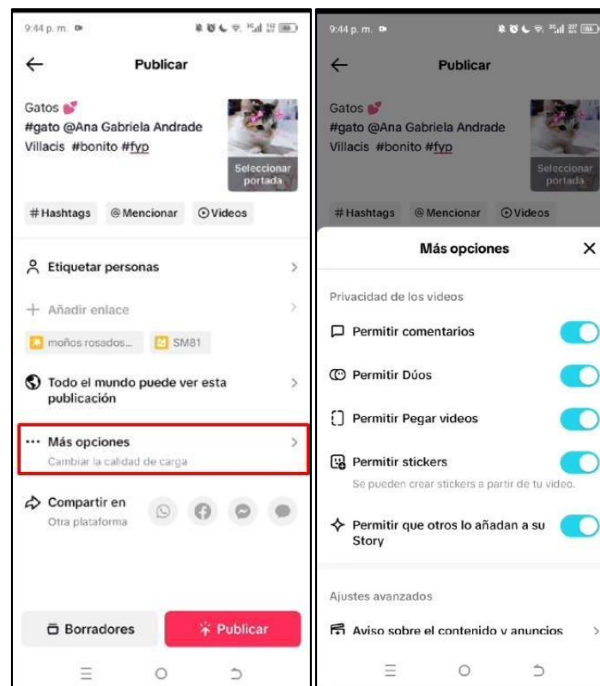

Choose the video cover and adjust the text settings according to your preferences.

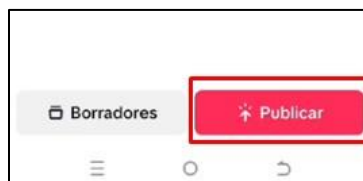

Set video privacy, selecting between "Only you", "Friends" or "For everyone". I will choose "For everyone" to make my video public.

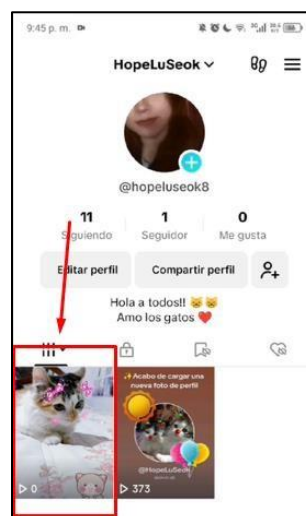

Explore "More options" to customize the interaction allowed, such as comments and downloads.

Once set up, tap "Post" to share your video on TikTok.

Go to your profile to confirm that the video has been published according to your privacy preferences.

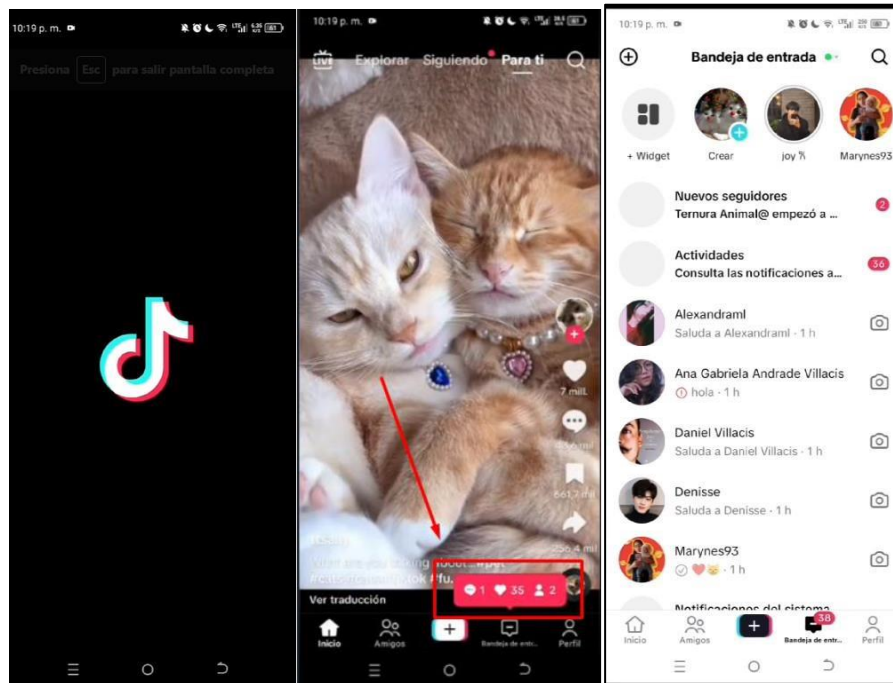

Ready! You've added details, description, and privacy settings to your video on TikTok. Now your content is available to be enjoyed by other users of the platform.

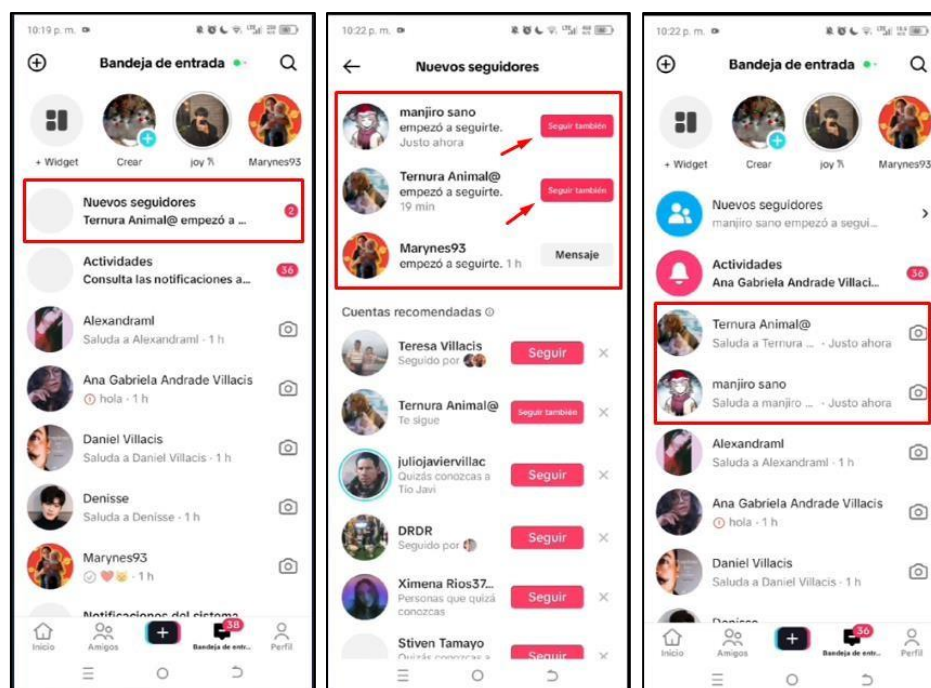

7.8. Video 8

to. Notifications.

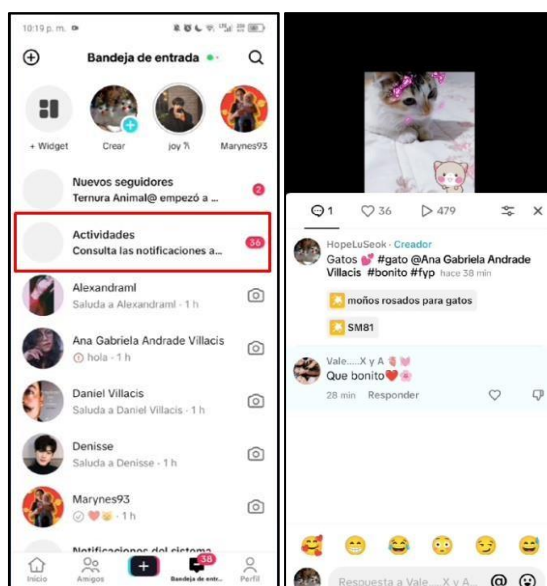

When you open the app, notice the notifications that appear on your home screen. Enter the "Inbox" to explore detailed notifications.

Check your "New Followers" notifications to see who has started following you. Explore the "Chats" section to access messages from people you now follow.

Go to "Activities" to review the interactions, comments and likes on your videos.

Check your video statistics, including comments, likes and views.

b. "Profile" interface.

Go to your profile to view your published videos and obtain information.

[1] Published videos.

[3] Shared on my profile.

[2] Videos in private.

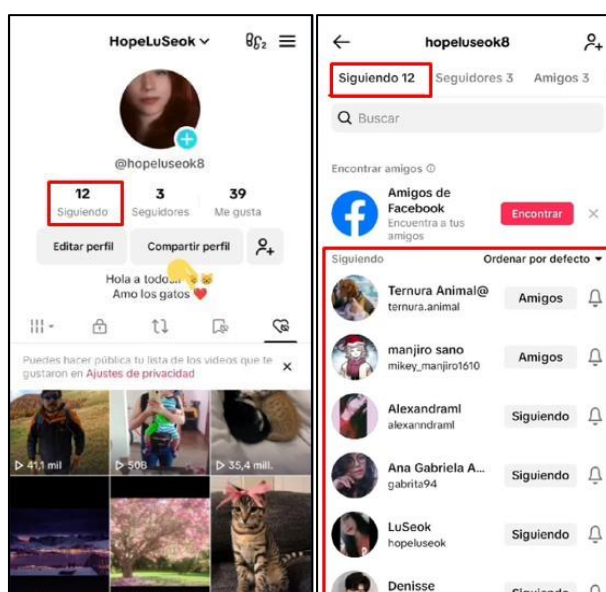

[4] Saved in collection folders.

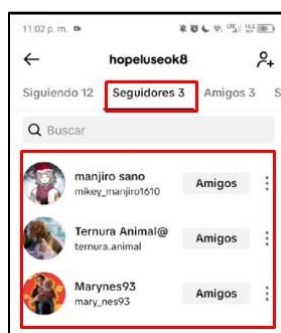

[5] Videos that I have “liked” since the first interaction.

[6] People I follow.

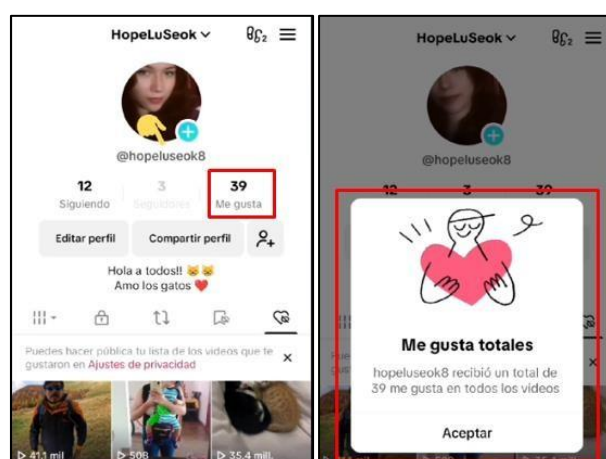

[7] People who follow me.

Note:“Friends” when two users follow each other.

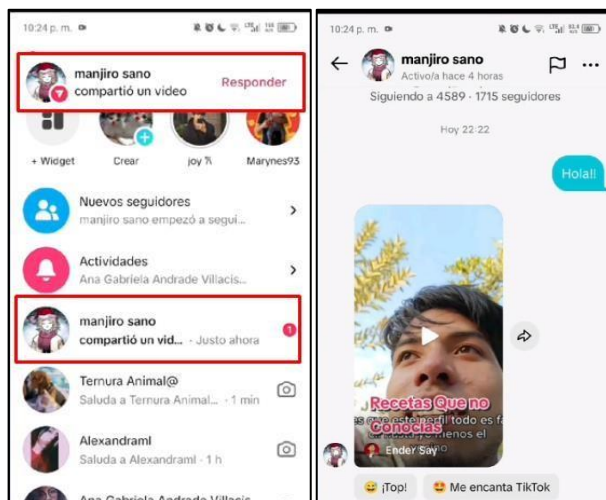

[8] Total “likes” that people have given to my videos.

7.9. Video 9

to. Normal Messages and with Videos.

Check your inbox for new messages. If you have a new message, open it to see the content they sent you.

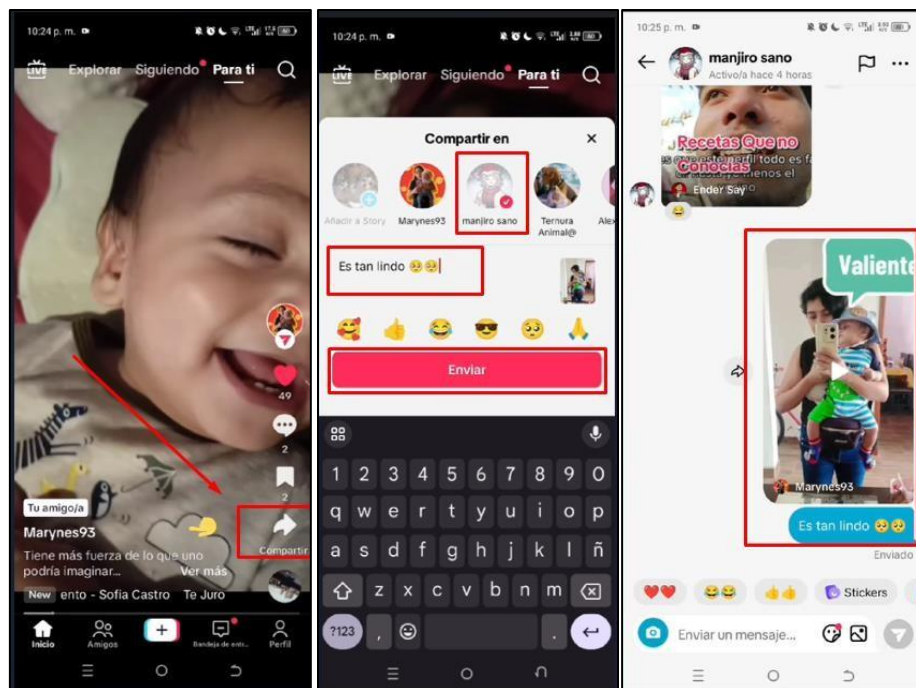

The message contains a shared video, we open it. You can fast-forward by sliding your finger along the playback line.

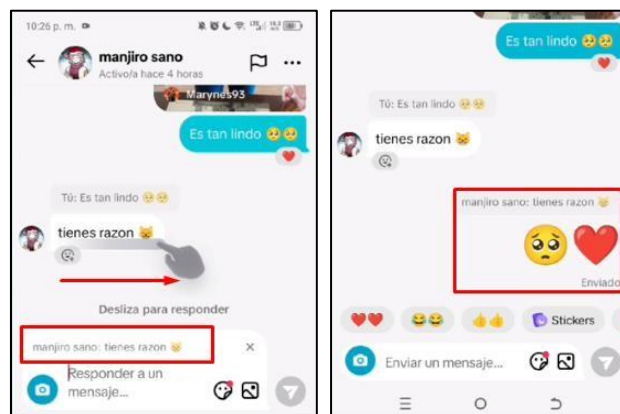

Press and hold the message to access the reaction options. Choose the desired reaction.

To send a video message, tap the share icon, select chat, and add your video.

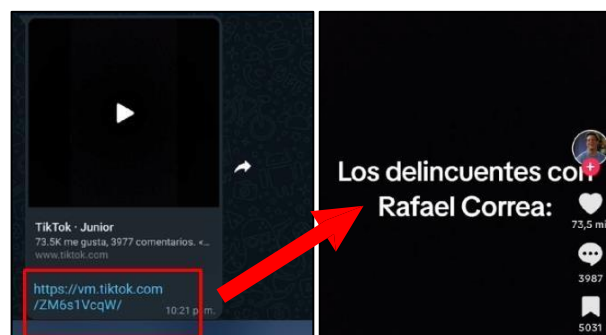

To reply to a specific message, select the message, drag to the right, type your response, and send it.

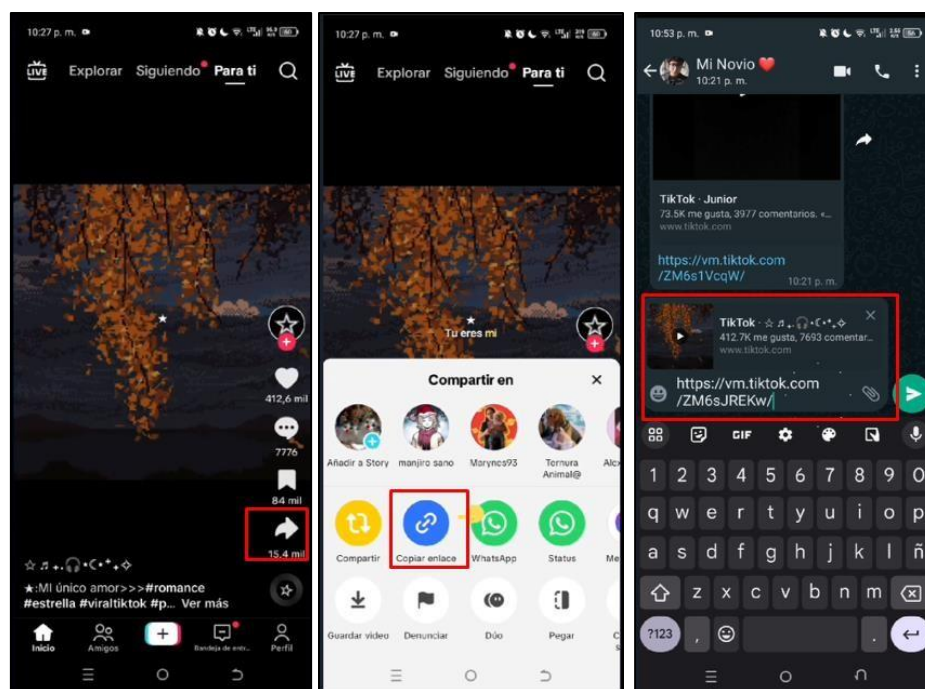

b. Receive and Share Videos Via Link.

If someone shares a video with you via link, select the link, paste and send the message.

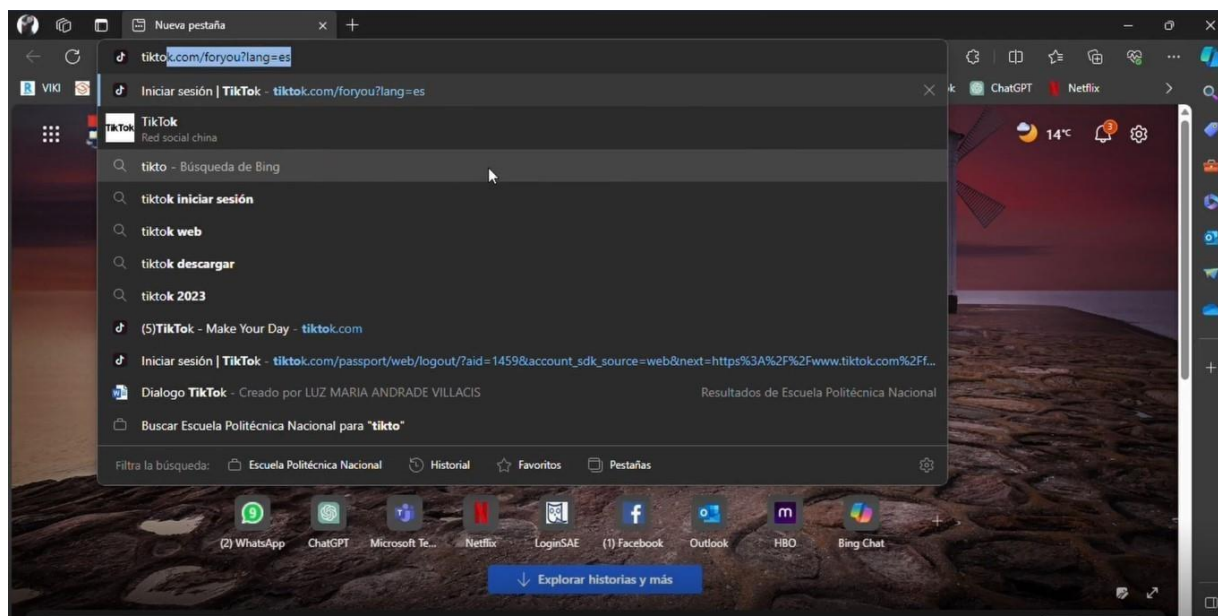

If you want to share a video with someone else using the link, use the share icon, select "copy link" and share the link in the chat.

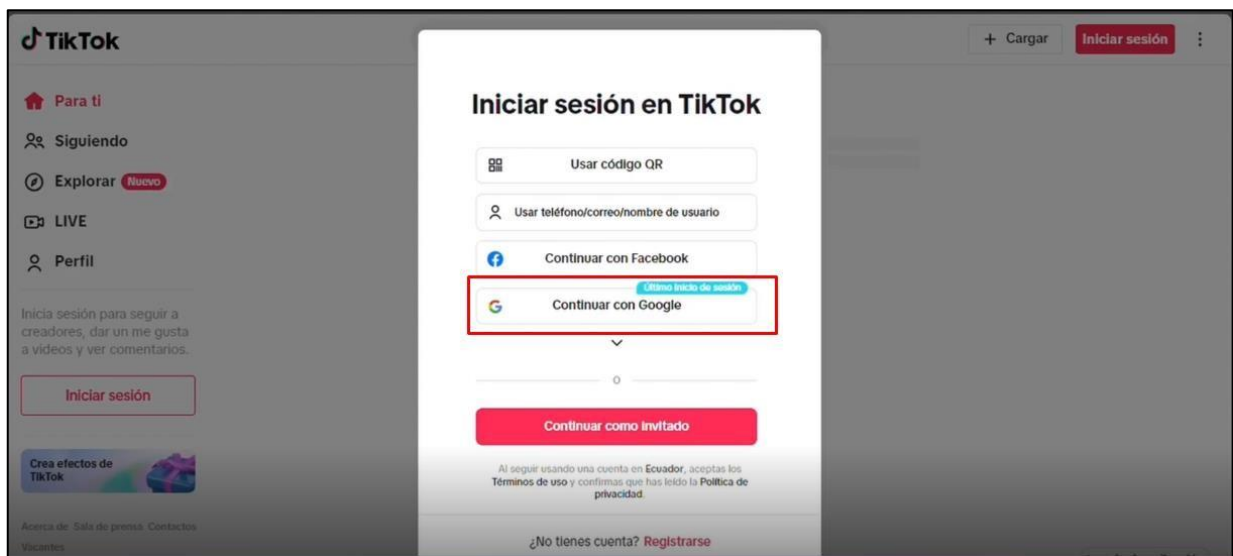

7.10. Video 10

c. TikTok interface from the Browser.

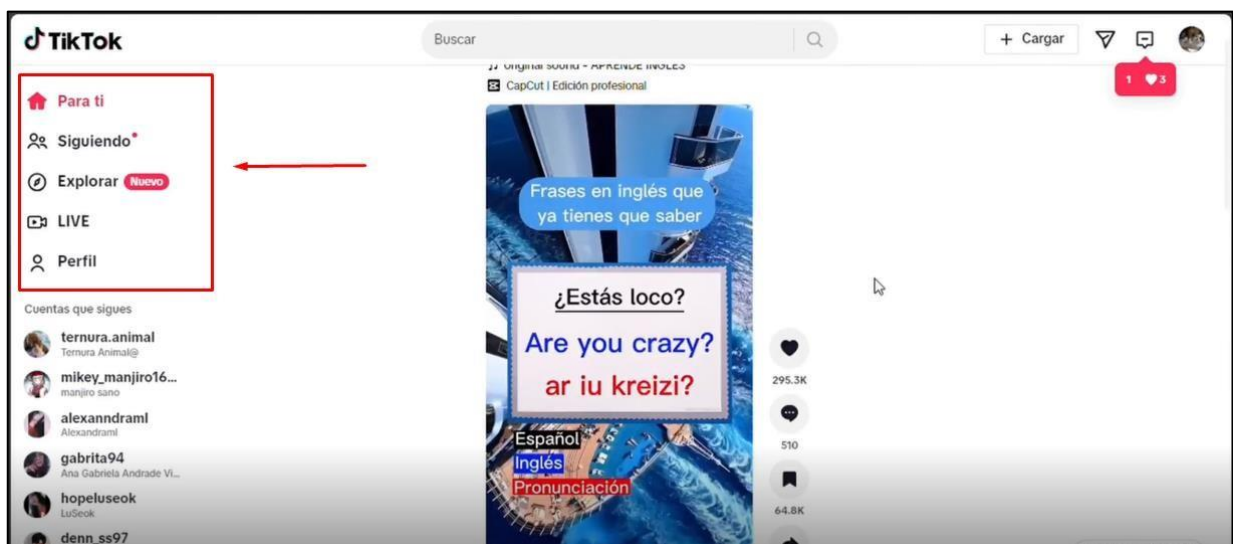

Open your web browser and search for "TikTok" in the search engine.

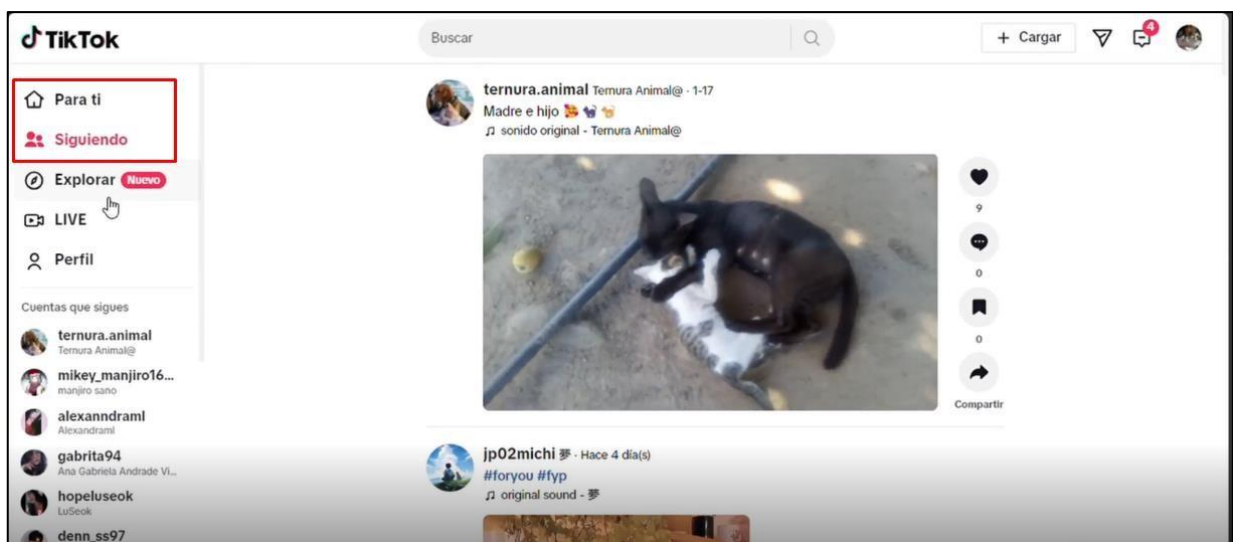

Log in to your TikTok account from the platform's website.

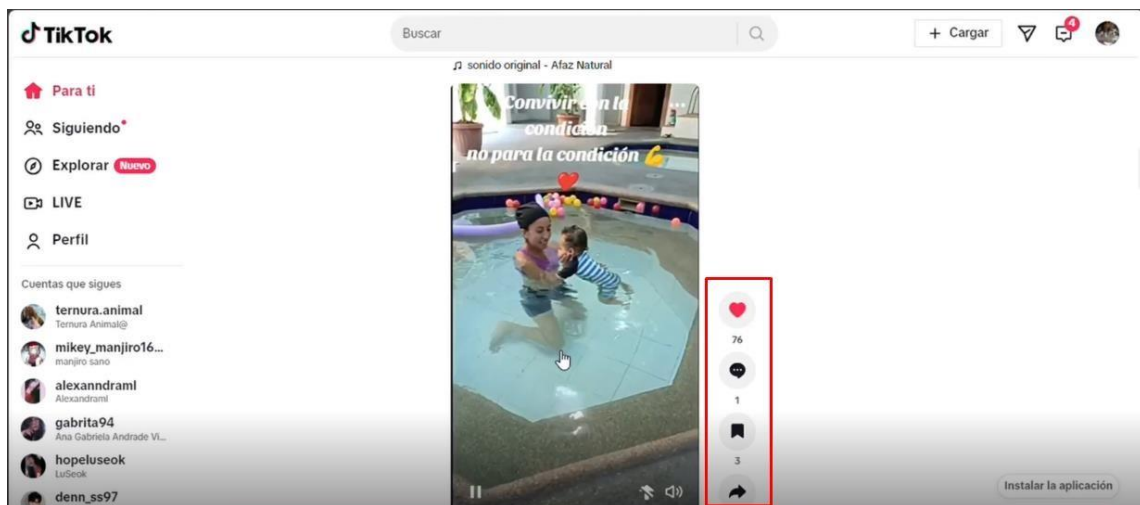

Get familiar with the TikTok interface on the desktop version, which includes sections like “For You,” “Following,” “Explore,” “Live,” and “Profile.”

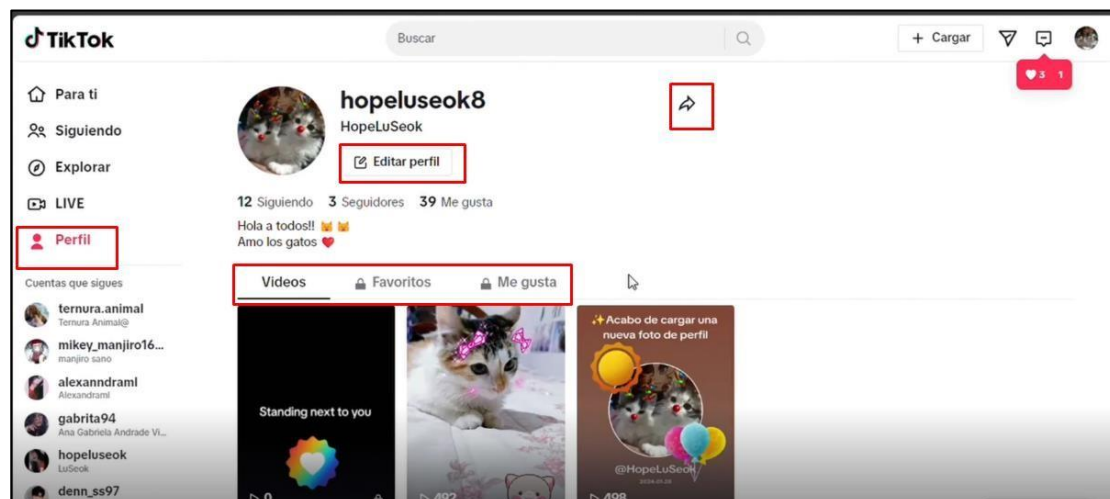

Enjoy watching videos in the "For you" and "Following" sections, similar to the experience on mobile devices.

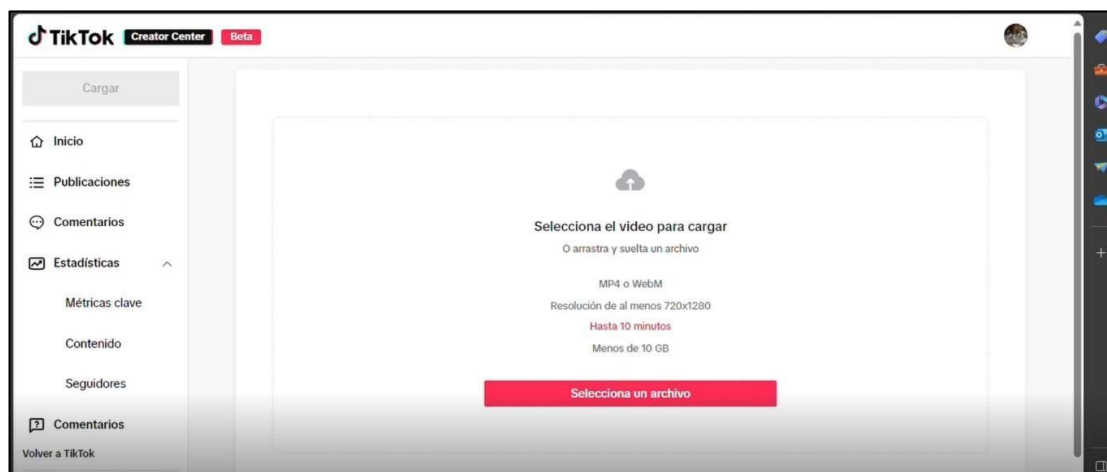

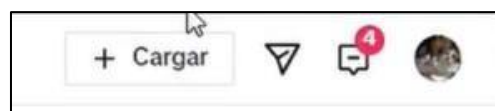

Interact with videos by liking, commenting and exploring social interactions on the desktop version.

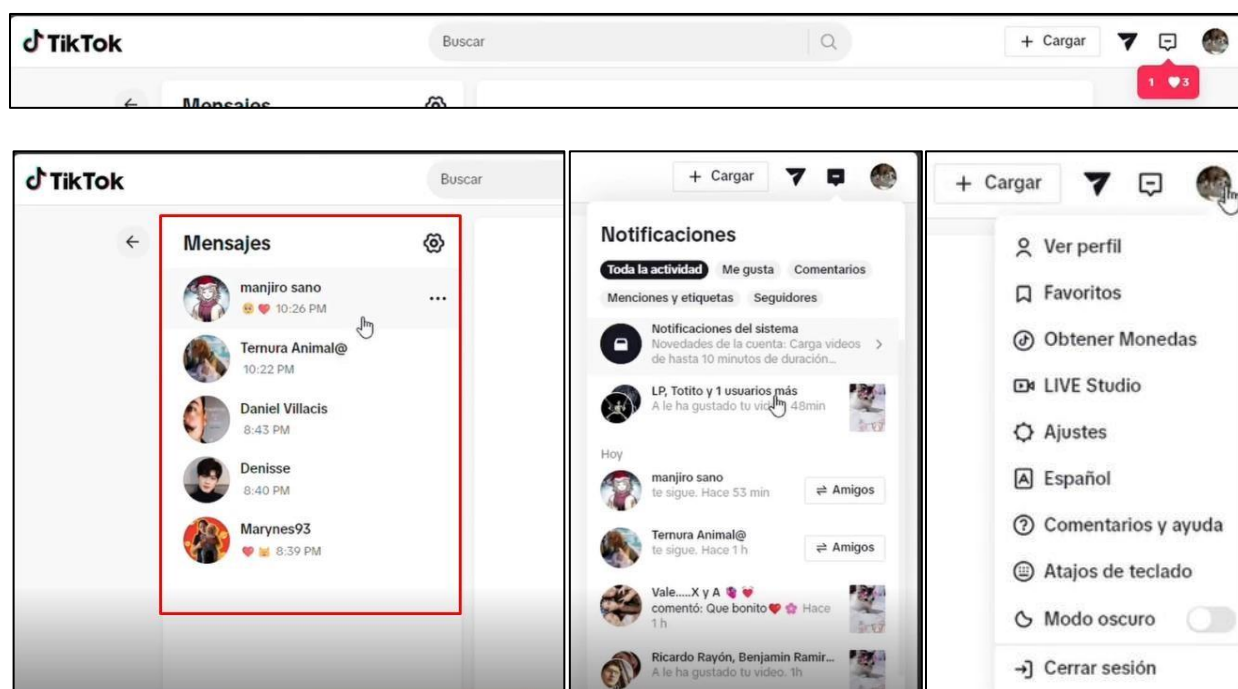

Head to your profile to view and manage your own videos, favorites and activities.

Access the "Upload" option to upload your own videos to the platform from your computer.

Use the user menu in the upper right corner to access functions such as "Log out", messages, notifications and more.

8. Frequent questions

1. Can I download TikTok on my iPhone?

Yes, you can download TikTok from your device's application store (AppStore).

2. Do I need an account to watch videos on TikTok?

You don't need an account to watch videos on TikTok, but an account is required to interact, follow users, and create your own videos.

3. How do I change privacy settings on TikTok?

You can adjust your privacy settings in the settings section of your profile, where you can control who can see your content and who can interact with you.

4. Can I download TikTok videos to watch offline?

Currently, TikTok does not offer a built-in feature for downloading videos, but there are third-party apps that can help you do so.

5. Are there age restrictions to use TikTok?

The minimum age to use TikTok is generally 13 years old. The platform has security and privacy features to protect younger users.

6. Can I see TikToks from other countries?

Yes, you can explore content from different countries on TikTok. The platform has a global audience and offers a diverse experience.

7. Can I delete a comment on TikTok?

Yes, you can delete your own comments or comments on your videos. Simply long-press the comment and select "Delete."

8. Can I share my TikTok videos on other social networks?

Yes, you can share your videos on platforms like Instagram, Facebook and Twitter. Select the "Share" option on the video you want to share.

9. Are there limits to following people on TikTok?

TikTok sets daily limits to follow new users and avoid unwanted practices. This limit may change depending on your account activity.

10. Can I use TikTok on my computer or only on mobile devices?

You can use TikTok on both mobile devices and your computer. The web version allows you to browse and view content, but video creation is usually done on mobile devices.
