Project Objectives

Train teachers from the Ministry of Education in the use of ICT tools to improve their teaching performance, in order to promote educational innovation and online learning.

Train priority attention groups or digitally illiterate groups in the use of ICT tools to apply what they have learned in their daily lives, promoting their digital inclusion and improving their quality of life.

Objective of the Manual

- Provide people with no prior experience on the YouTube platform with access to resources and basic knowledge that will allow them to understand how to use it effectively to explore content of their concern, and also learn new skills and connect with the various communities in question.
- Help people who do not have any type of experience on platforms such as YouTube to understand the various technical and creative foundations necessary to create and share quality content on the platform so that it has greater visibility in society, thus promoting their personal expression and active participation in the digital community.

Scope

The main objective of this document is to provide a complete guide on how to use the platform for those who are new to YouTube. Where fundamental aspects will be addressed ranging from creating an account, basic navigation through the site to the creation and management of content that will later be very useful. In addition, practical tips and best practices will be offered to maximize the user experience and make the most of the various features and tools that YouTube offers. This manual focuses on covering the needs of beginners, providing a solid knowledge base so that they can begin their navigation on this platform in an informed and safe manner.

Addressed to

This document is aimed at all those who wish to become familiar with the YouTube platform, regardless of their level of previous experience in the digital world. It is specially designed for novice users who do not have any prior knowledge of how to use YouTube, as well as for those who want to improve their understanding and skills on the platform. This manual is ideal for students, professionals, entrepreneurs, seniors, parents, and anyone interested in exploring and taking advantage of the resources and opportunities that YouTube offers to learn, be entertained, and connect with the world.

Introduction to YouTube

YouTube is a website that allows its users to upload videos so that others can consume them at any time and online. Really, it is a kind of on-demand television over the Internet. But on this network you can not only view professional content, but also any type of user. Anyone can create an account there and offer their own videos to the rest of the world. In addition, for a few years now, it has also allowed you to broadcast live, so if it happens to you like me at the beginning with "Monetiza" and "Posiciona", that you are planning to do an online event, this could be your way to take it to cape. (Facchin, 2023)

Basic notions

The basic notions Before starting to use the YouTube application, it is important that you have a basic notion of the elements that make up this platform, such as, for example:

1. **Home page:** This is the page where video recommendations are displayed based on the history of videos that have been previously played and also the user's subscriptions.
2. **Subscriptions tab:** This is where you can find recently uploaded videos from the channels to which you have subscribed.
3. **Explore:** This part is where it allows us to focus on categories such as music, games, among others.
4. **Library:** It is where you can find playlists, saved videos and the history of watched videos.
5. **Search bar:** This allows us to search for videos, channels and specific categories of the platform.
6. **Interaction buttons:** This is where the user can like, dislike, share and save playlists and also activate subtitles.

Steps to follow

YouTube account creation:

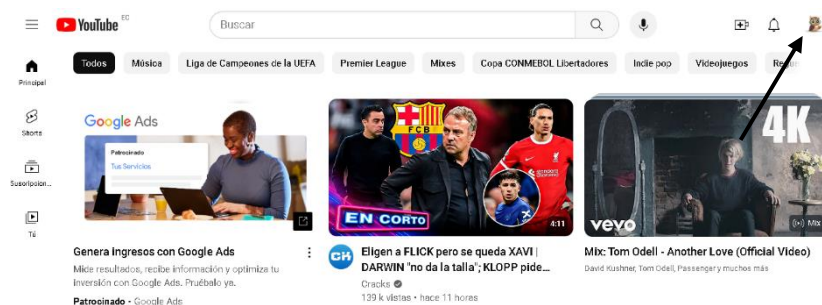

Access YouTube

"First, open your browser and go to www.youtube.com."

Start the account creation process

"Click 'Sign in' located in the top right corner of the YouTube home page. Here you will be redirected to a Google login page

Create a new Google account

"If you already have a Google account, simply sign in. If not, you'll need to create a new one. Click 'Create account' and choose 'For me' or 'To manage my business', depending on your intended use for the account "

We click where it says for personal use

Fill out the registration form

Complete the form with your first name and last name.

You enter your birth information as shown in the following screenshot.

We have the email address you want to use, or create a new Gmail address if you prefer.

Usar tu correo electrónico existente

Ingresa la dirección de correo electrónico que quieres usar para tu Cuenta de Google

Dirección de correo electrónico

Deberás confirmar que este correo electrónico es tuyo

We accept the privacy and conditions of Google.

Privacidad y Condiciones

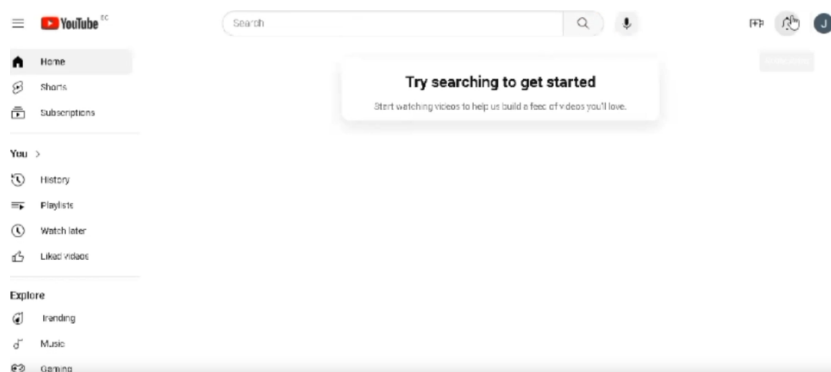

Para crear una cuenta de Google, deberás aceptar las **Condiciones del Servicio** que se encuentran a continuación.

Además, cuando creas una cuenta, procesamos tu información como se describe en nuestra **Política de Privacidad**, incluidos estos puntos clave:

Datos que procesamos cuando usa Google

- Cuando configuras una cuenta de Google, almacenamos la información que proporcionas, como su nombre, dirección de correo electrónico y número de teléfono.
- Por ejemplo, cuando usa los servicios de Google para escribir un mensaje en Gmail o un comentario en un video de YouTube, o almacenamos la información que genera.
- Por ejemplo, cuando busca un restaurante en Google Maps o mira un video en YouTube, procesamos información sobre esa actividad, lo que incluye los datos de ubicación y los datos de uso de los servicios de Google.

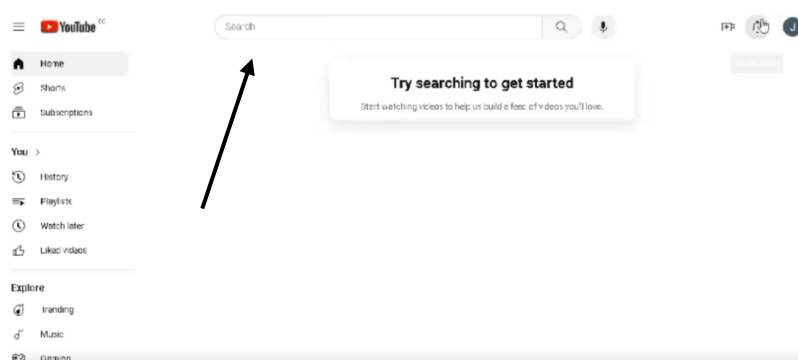

And we have already created our YouTube account

Navigation through the YouTube platform

How to search for videos on YouTube

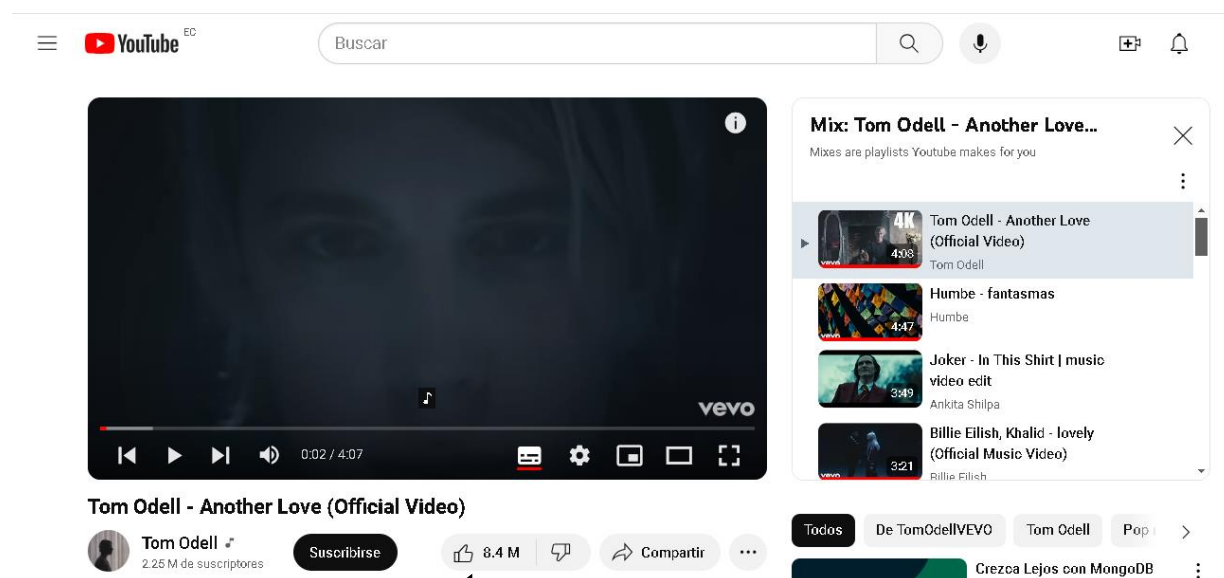

First we go to the search engine part as shown in the screenshot.

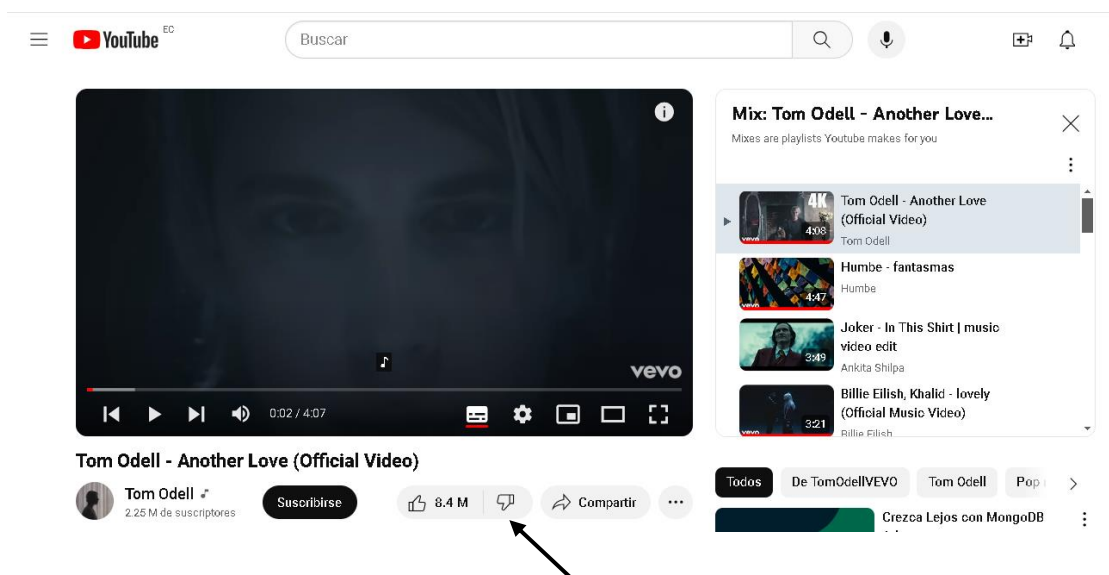

Here you will enter the name of the video you want to search for.

Once you search for the video of your choice, we have some functions to interact with the video and the content creator, such as liking, disliking, commenting on the video and sharing the video with other people.

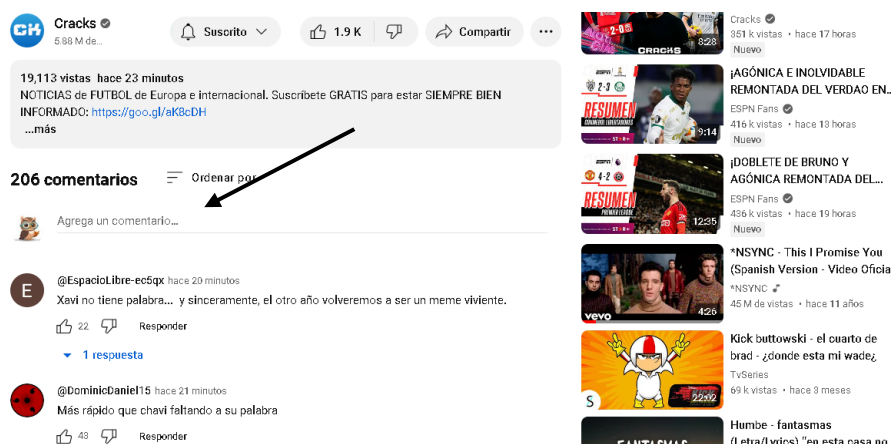

Like a video, click where the arrow is shown.

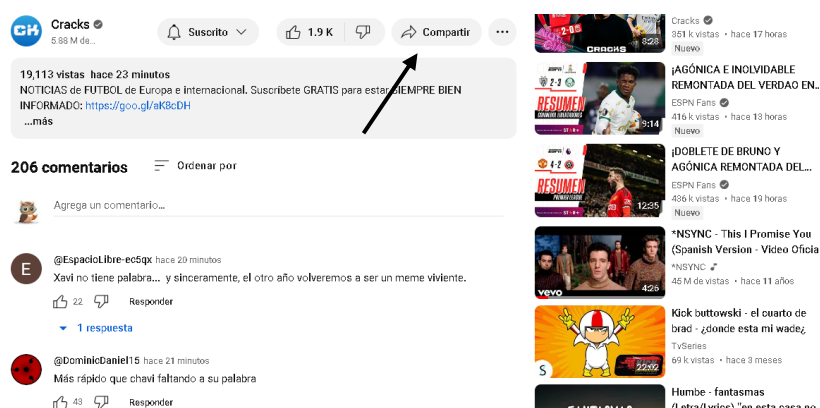

Dislike a video.

Comment on the search video.

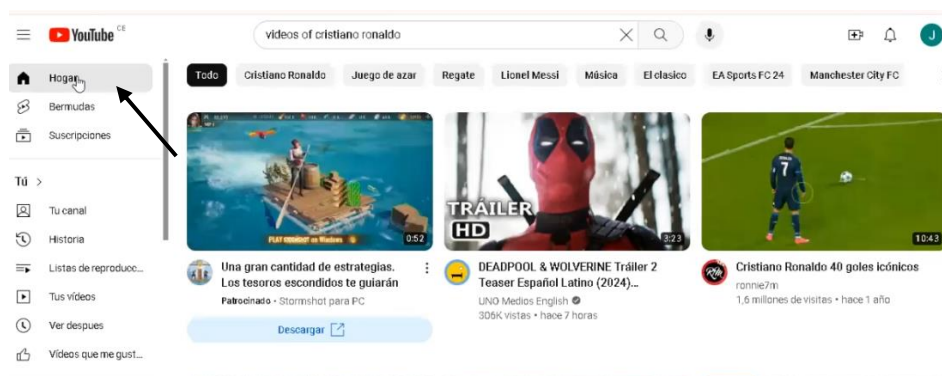

To share the video with other people as shown in the screenshot and the arrow, click on the share icon.

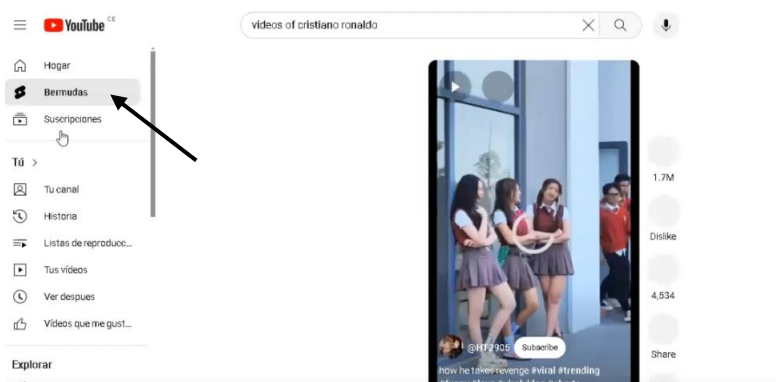

YouTube interfaces

YouTube's interfaces allow us to interact in more depth with our YouTube account where we can find some icons such as Home, Bermuda shorts. Subscriptions, also where you can see everything related to your channel.

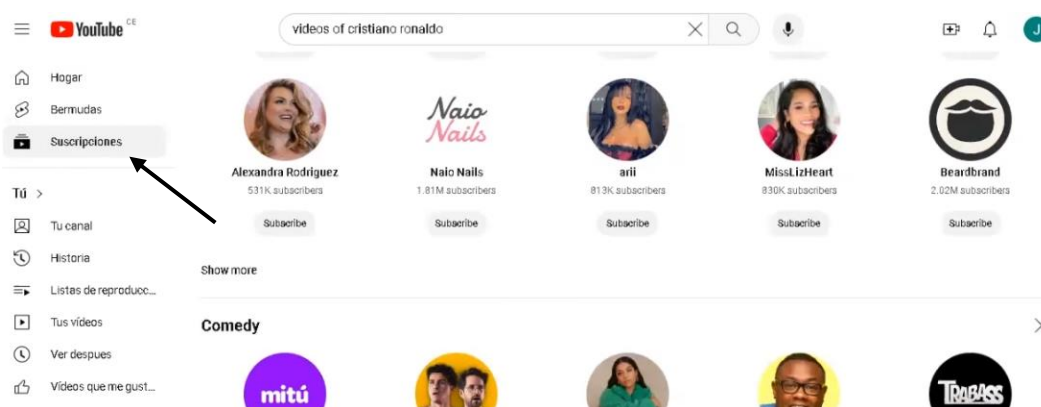

Home: Here you can return to the main screen of your YouTube account

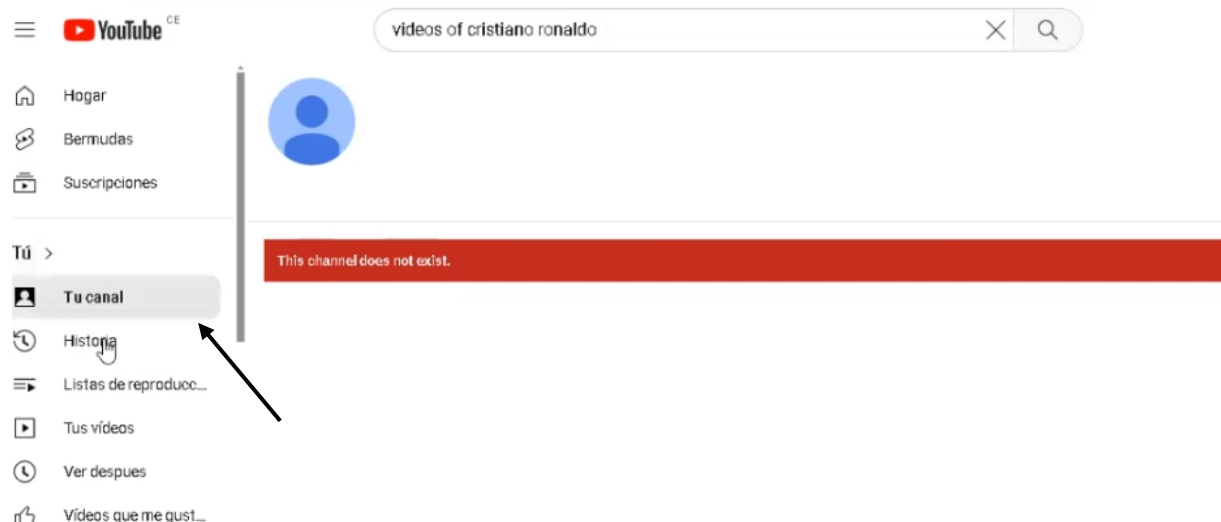

Bermuda: Here you can find different short videos of all categories.

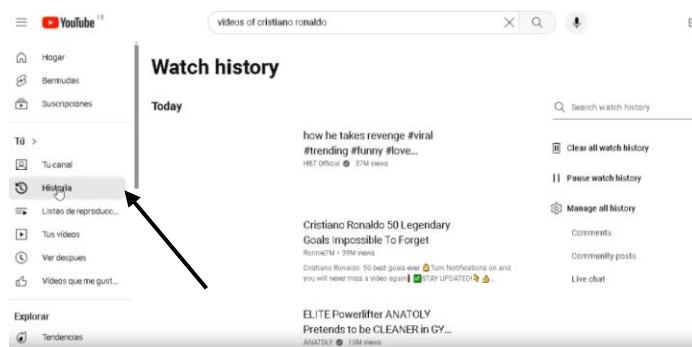

Subscriptions: In this interface what you will see are the subscriptions you have made to the channels of your choice.

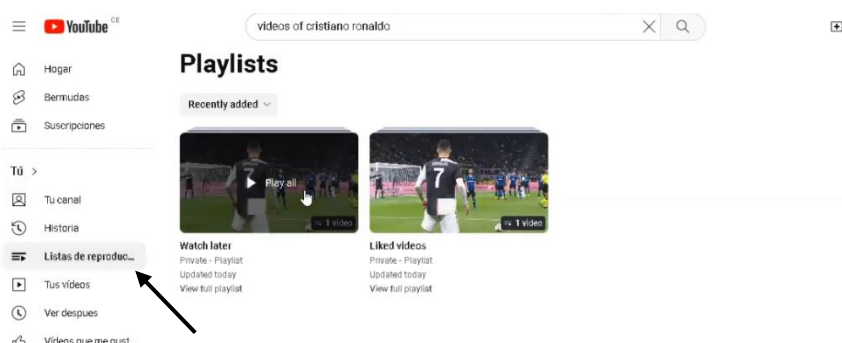

Everything related to your channel will appear here.

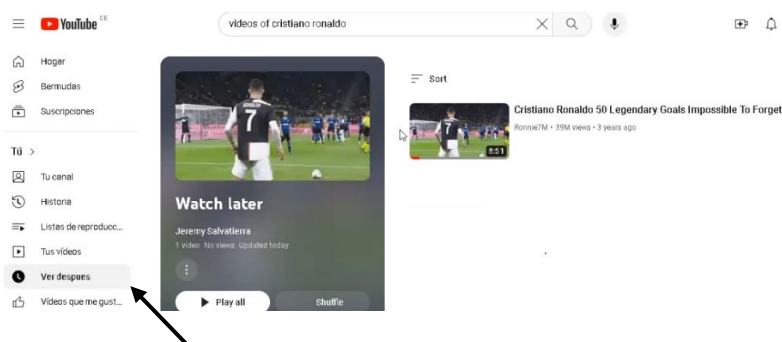

History : The videos you have previously watched will appear here.

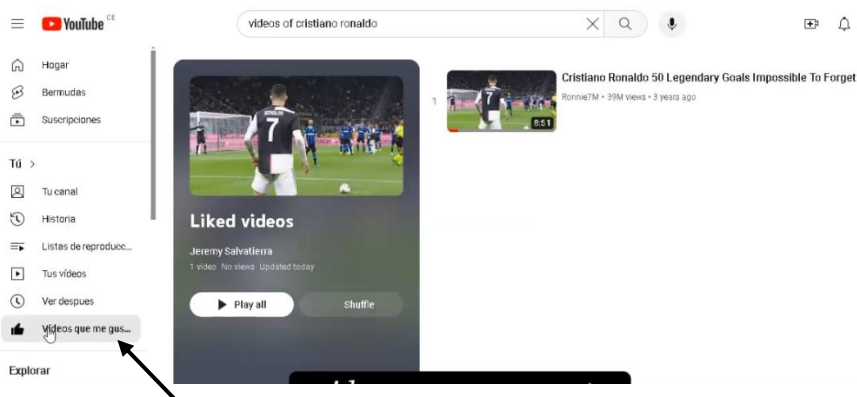

Playlist : Here you will find everything that has to do with previously saved playlists.

Watch later: You will find the videos you saved to watch later .

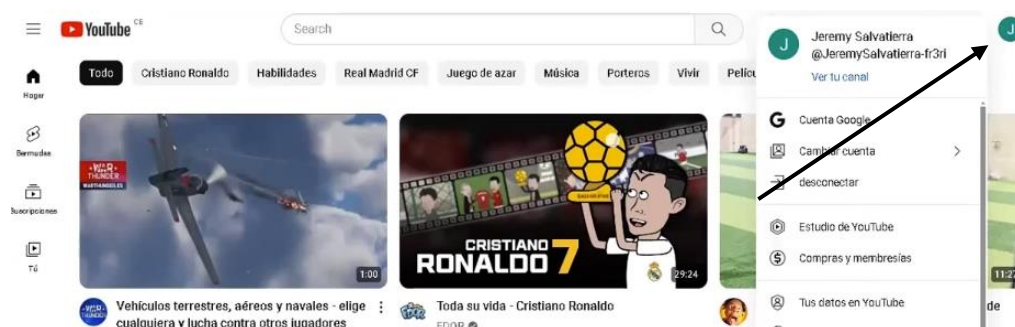

Videos that I like: The videos that you liked and liked will appear.

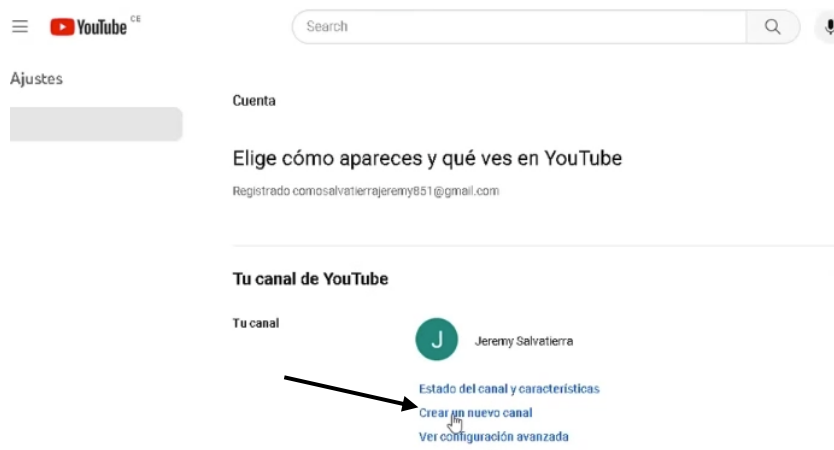

Creating a YouTube channel

Creating a YouTube channel will allow you to use different tools that YouTube has such as uploading videos, managing your videos and other functions.

First we go to the part where the icon of our profile is

We click where it says Create a new channel.

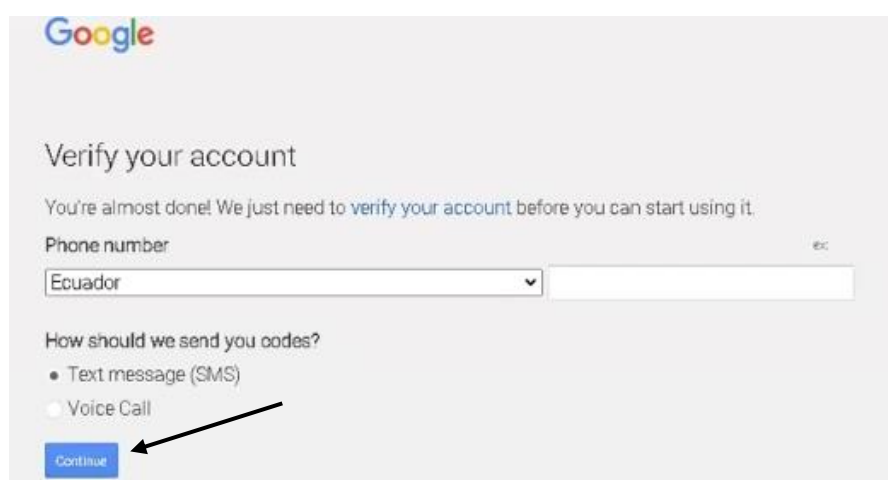

Then a window will open and you will enter the name of your channel.

After we have entered the name, we select the white box and click where it says create.

Here you will have to verify your identity and you will enter your phone number and from there you will receive a code to your phone to verify.

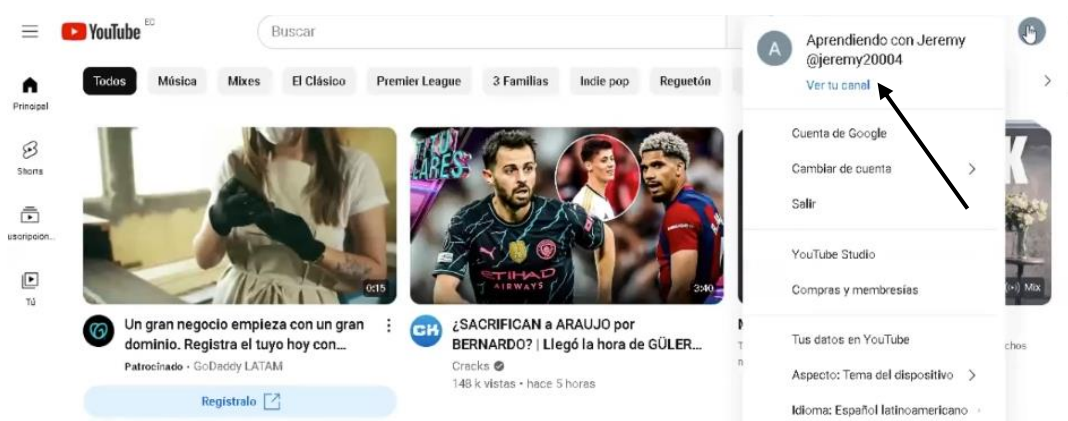

After verifying your phone, your YouTube channel will be created correctly.

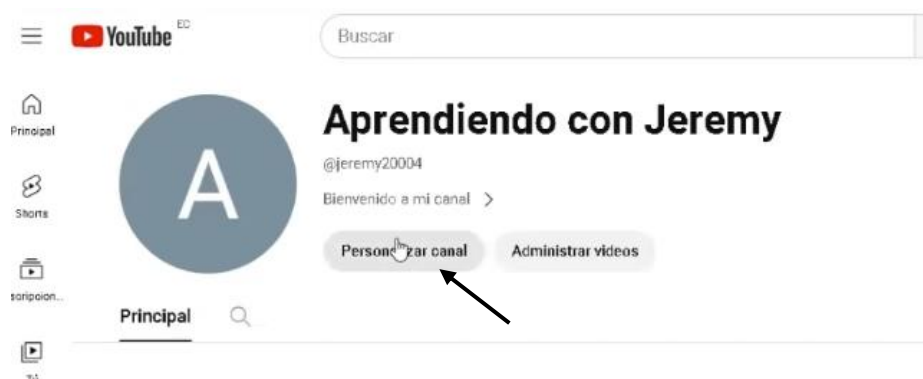

YouTube Channel Customization

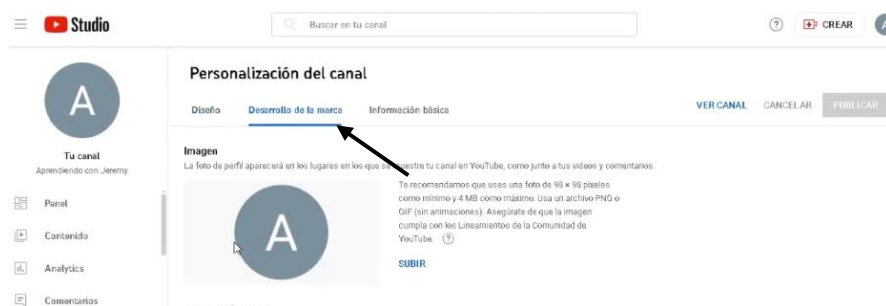

First we go to the part where your profile is.

Once you are inside your YouTube channel, we are going to click where it says customize channel.

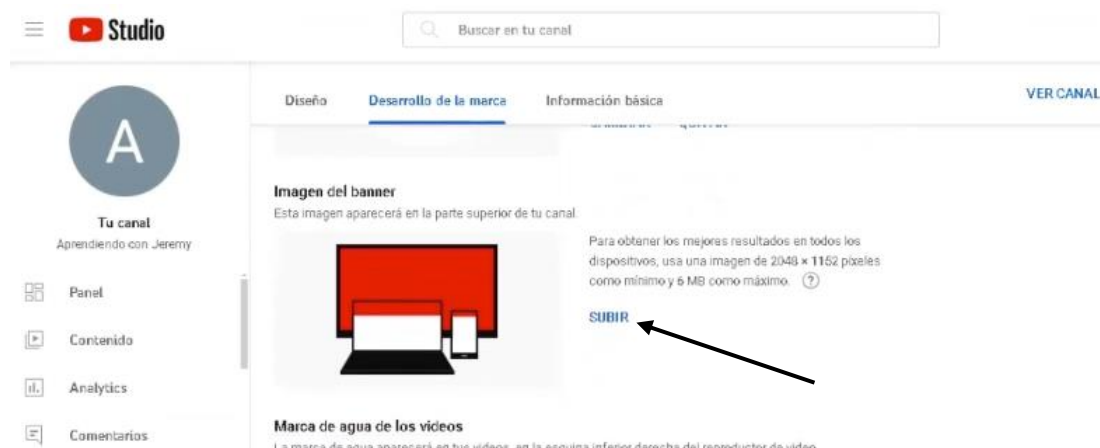

It takes us to YouTube studio where you will be able to change your profile photo by clicking on brand development.

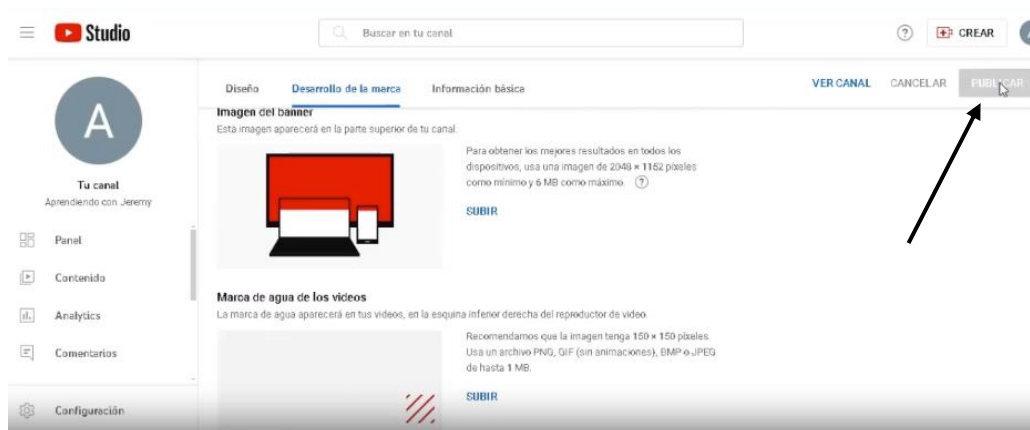

In the part where it says image and the icon that says UPLOAD you are going to click and select the image you want to place on your profile.

You can also place an image for your banner that will appear at the top of your channel.

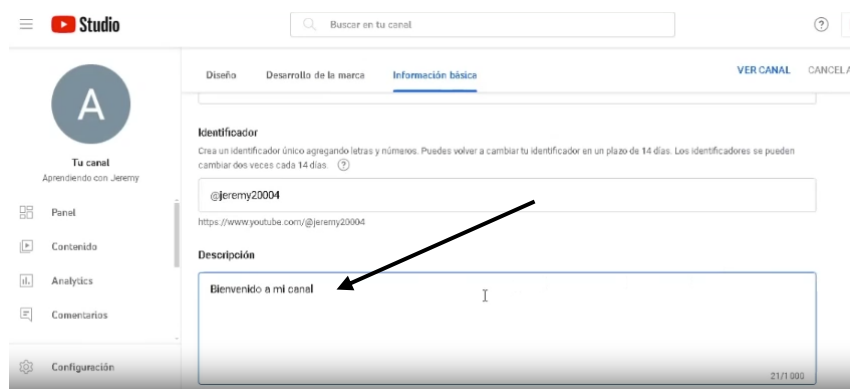

You can also upload a watermark for your videos. Once all your images have been uploaded, you will click on the part that says Publish to make the changes.

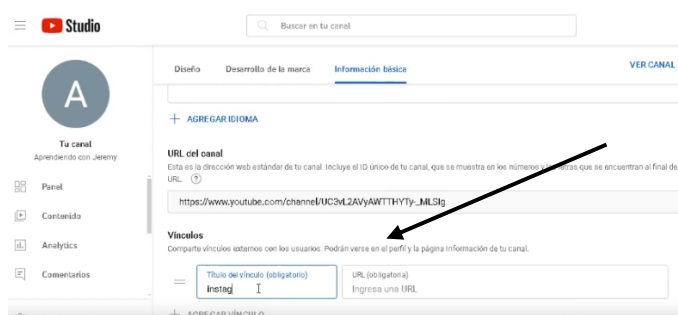

Then we go to the basic information part where you can change the channel name and your identifier.

Then we add a description to increase the visibility of your channel.

In the links section you will add the URL of your social networks.

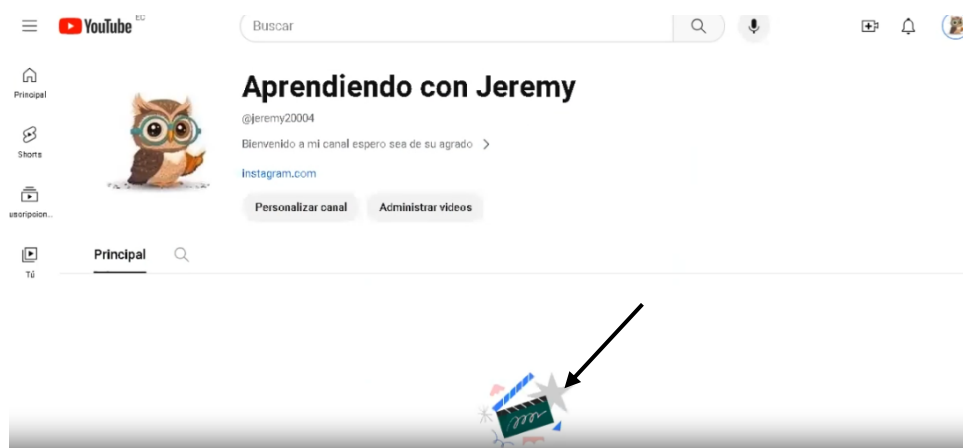

And finally we click publish and the changes will be saved.

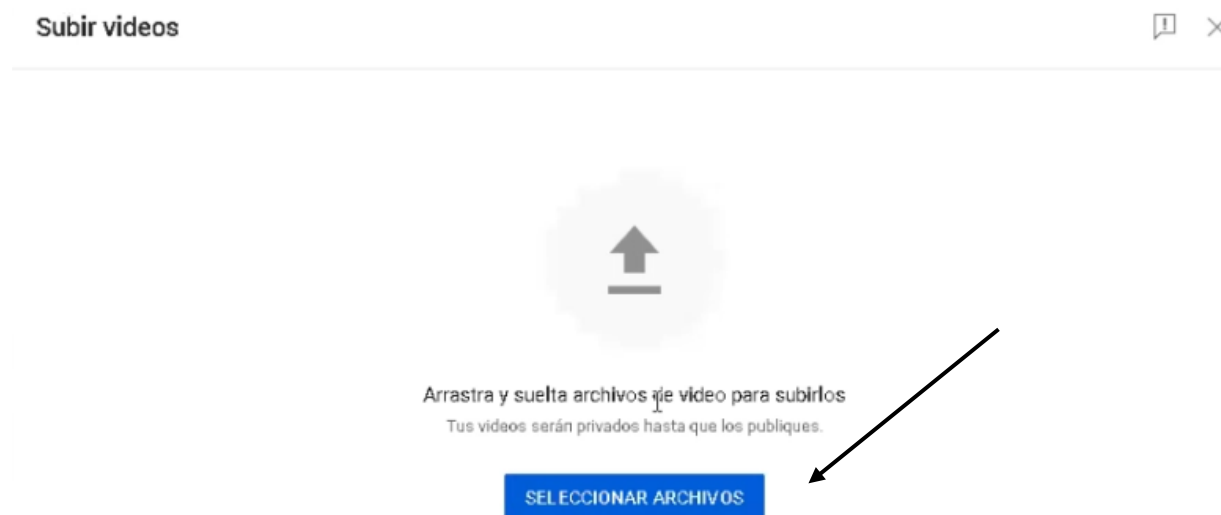

How to upload a video to YouTube.

From our channel profile we go to the part where it says create a new video.

We click on that icon and a screen will appear where it will allow you to upload your video. We click where it says select files.

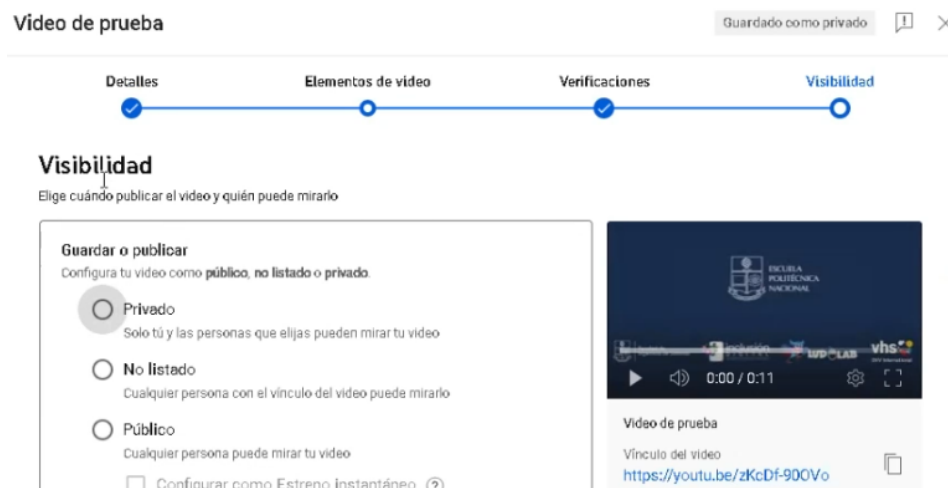

Then it will ask us for a series of details for our video, such as the title of your video and a description. After filling it out, we will give it next.

Then we will have the option to choose which audience your video is directed to and that depends on the type of video you upload, whether it is for children or for any audience in general.

After clicking next, they will verify that the video does not have copyright so that it can be published without any errors.

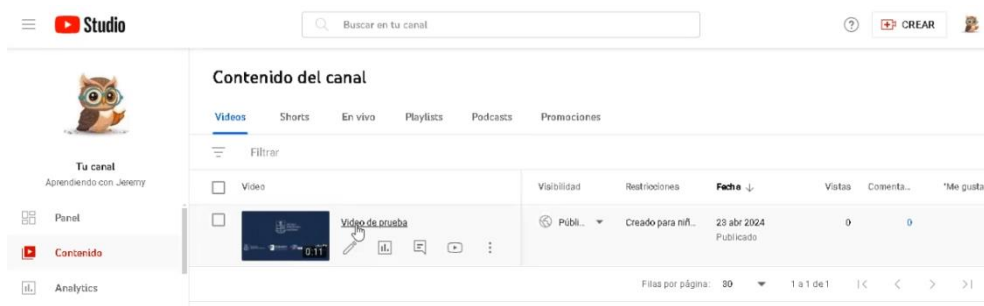

And finally you are going to define the visibility of your video and then click where it says save.

After clicking on save, an interface will appear telling you that your video has been successfully published and we click on close.

And after that we can see that our video is already on our YouTube channel.

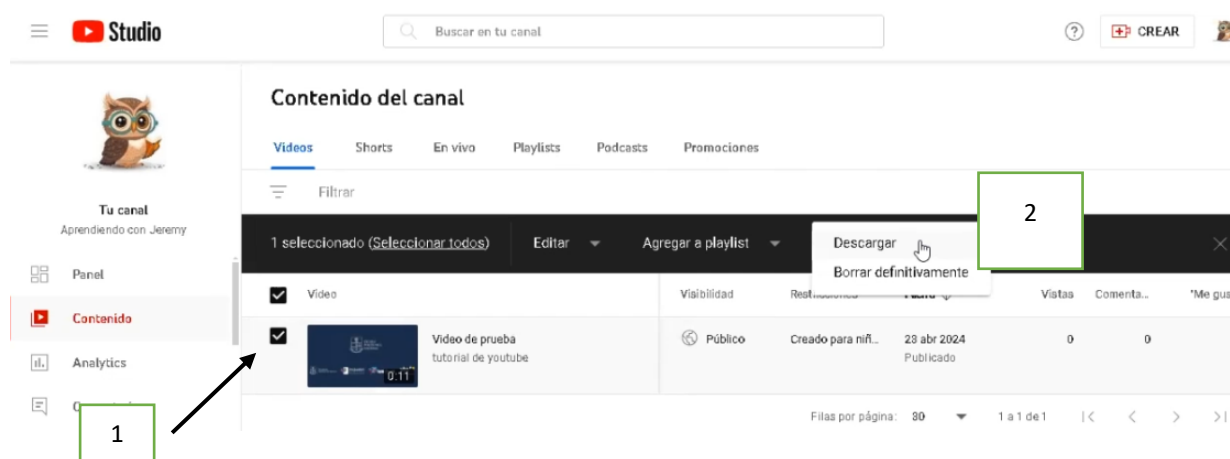

Deleting a YouTube video

The first thing we are going to do is go to our YouTube channel and click on manage your videos.

Then we are going to select the box that is next to the video and then where it says more actions and a bar is displayed where it says download and then permanently delete and we click.

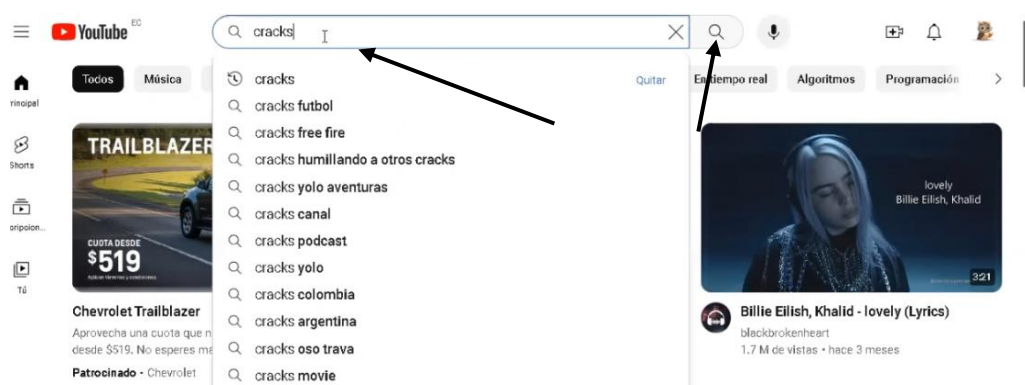

Afterwards, this interface will appear where we are going to select the box and permanently delete it.

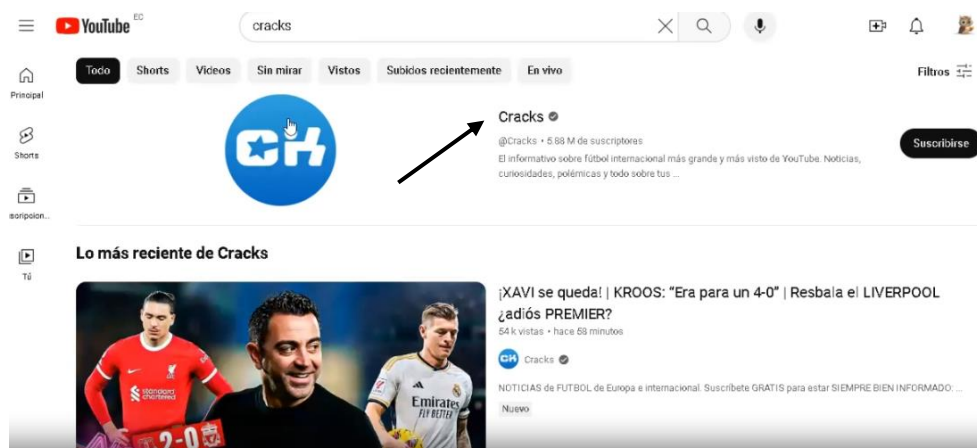

Subscribe to a YouTube channel

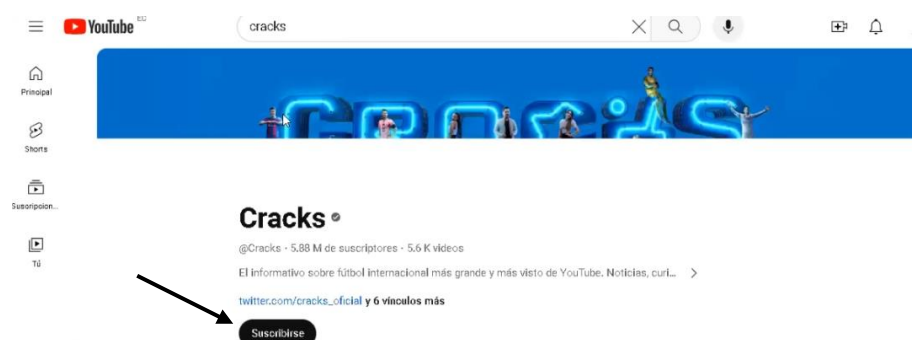

On the main YouTube screen we are going to search for the channel that we want to subscribe to in the search bar and click on the magnifying glass to search for the channel.

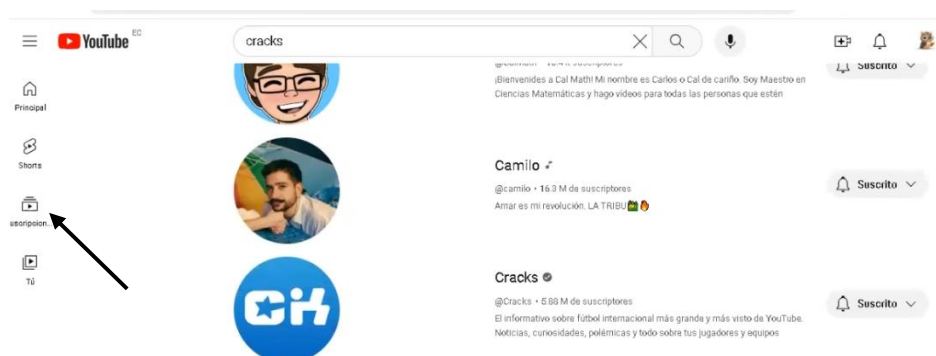

the time we have searched for will appear and we click on the channel.

And we click subscribe and we will automatically be subscribed to that channel.

Then to verify the subscription to the YouTube channel, we click on subscriptions and the channels to which we have subscribed will appear.

Frequent questions

Is it free or not to create a YouTube account?

Yes, creating a YouTube account is completely free. However, there are premium services like YouTube Premium that offer additional features for a fee and to acquire them you must purchase a membership.

Do I need a Google account to use YouTube?

Yes, you need a Google account to create a YouTube channel and to take advantage of all the platform's features, such as subscribing to other channels or uploading your own videos until you can monetize.

Can I change my YouTube channel name later?

Yes, you can change your channel name from your YouTube account settings. However, changing your name frequently can confuse your followers and greatly alter the way they search for your channel.

How can I make sure my content is seen by more people?

Use descriptive and attractive titles, relevant tags, and a good description with relevant keywords. It is also important to interact with your viewers through comments and promote your videos on other social networks.

What type of videos can I upload to YouTube?

You can upload any type of content as long as it does not violate YouTube's community guidelines. This includes avoiding copyrighted content, explicit content without proper filters, and any form of hate speech.

How can I monetize my YouTube channel?

To start earning money with your videos, you must join the YouTube Partner Program, which requires that you meet certain criteria such as having at least 1,000 subscribers and 4,000 hours of accumulated viewing in the last 12 months. After that, you will monetize your videos depending on the views it has.

Is it possible to delete a YouTube video or channel?

Yes, you can delete any video you have uploaded to your channel. You can also close your YouTube channel completely, but keep in mind that this action is irreversible and will delete all your videos and comments from which you will no longer be able to recover them.

[Glossary](#)
