Project Objectives

Train teachers from the Ministry of Education in the use of ICT tools to improve their teaching performance, in order to promote educational innovation and online learning.

Train priority groups or digital illiterates in the use of ICT tools to apply what they have learned in their day-to-day lives, promoting their digital inclusion and improving their quality of life.

Purpose of the Handbook

Provide users with the information necessary to use the Quizziz app efficiently and effectively.

Explain step-by-step how to create and configure quizzes in Quizizz, including question creation, timing adjustments, and customization.

Detail additional features such as the inclusion of multimedia, the use of the question bank, and the assignment of quizzes as homework.

Clarify how to review and analyze the app, including account creation and deletion for better handling of the app.

Scope

Based on Quizizz's topic, the scope of this document will be to include:

Introduction to Quizizz: Overview of the platform, its educational purpose, and how it benefits students and teachers.

Registration & Access: Detailed instructions on how to create an account, log in, and manage account settings.

Quiz Creation: Steps to create quizzes, add questions of different types (multiple choice, true/false, open-ended questions, etc.) and customize options such as timer, dots, etc.

Specific Features: Details about Quizizz's unique features, such as the inclusion of images, videos, GIFs, sounds, and the importance of these elements in the learning experience.

Account Management and Management: Guide to review and analyze the management of the created account, including performance statistics, as well as having a correct management of the account to manage access.

Sharing and Managing Quizzes: Guidance to explain how to share quizzes with others and how to manage quiz participation.

Aimed at

This Quizizz user manual is designed to meet the needs of both teachers and students in the educational field and for employees in the workplace.

Aimed at teachers, it offers a detailed guide on the creation and application of interactive questionnaires, the interpretation of data to assess learning progress, and strategies for effective integration into the educational environment.

Similarly, for students, this manual provides clear and accessible instructions on how to actively participate in learning, from accessing quizzes to analyzing their results, making the platform a valuable tool to improve their understanding and retention of educational material.

Likewise, organizations can use Quizizz to conduct surveys, assess the knowledge of their employees, or simply provide training to their members.

Introduction of the app

Quizizz is a learning app that allows users to create, play, and share quizzes. It's designed to revolutionize the way educators and students interact with learning, it's not just an assessment tool; It is a gateway to participation, gamification of learning, and educational personalization. The app is free and available on the web, on mobile devices, and on the Amazon Alexa platform.

Quizizz offers a variety of features that make it a valuable tool for learning. These features include:

A Wide Range of Question Types: Quizizz offers a variety of question types, including multiple choice questions, short answer questions, true or false questions, and open-ended questions.

Personalization: Quizizz allows users to personalize their quizzes with images, videos, and other elements.

Gamification: Quizizz uses gamification elements to make learning more fun and engaging.

In the same way, Quizizz has the following functions which make the application interesting and entertaining.

Meaningful Interactivity: Offer an immersive learning experience through customizable educational games.

Ease and Flexibility: With an intuitive and user-friendly interface, it allows educators to create personalized quizzes in minutes, from multimedia inclusion to adaptability to different learning styles.

Insightful Data to Improve Learning: Provides educators with a detailed view of student progress. Statistics and analytics allow you to identify areas of strength and weakness, which helps personalize teaching and boost academic performance.

Basics

Some important notions that the user should know before starting are the following:

What is a quiz in Quizziz?

It is a collection of questions that can be used to test knowledge or understanding of a topic. They can be created by individual users or by organizations.

What does the navigation bar provide?

It provides quick access to key features, such as creating a new quiz, accessing existing quizzes, reports, and account settings.

What allows you to create a quiz?

It allows users to start the process of creating quizzes, where they can add questions, answer choices, and customize the content.

What does the Question Bank offer?

It offers the ability to search and select previously created questions to speed up the creation of quizzes.

What does setting up a quiz allow?

It allows you to adjust the settings of the quiz, such as time limit, instant feedback, and game modes.

What makes the preview easier?

It makes it easy to review the questionnaire before publishing, ensuring that it is formatted and structured according to the user's preferences.

What does account setup allow?

It allows users to customize their profile, adjust preferences, and manage account information.

Interactive Quizziz Questions:

Quizziz offers a variety of question types, these are:

Multiple-choice questions: They have four possible answers, of which only one is correct.

Short answer questions: These require the user to enter a short answer, such as a word or number.

True or false questions: These require the user to indicate whether the statement is true or false.

Open-ended questions: You need the user to enter a complete answer, such as a sentence or paragraph.

Themes of the videos to be made.

How to create an account?

How to create a quiz?

How to share a quiz with someone else so they can edit?

How to create a quiz in English?

How to add images to a previously created quiz?

How To Add Music And Audio To One Of Quizizz's Quizzes?

How to add videos to one of Quizizz's quizzes?

How to edit a profile created in Quizizz?

How to edit a quiz that belongs to another user?

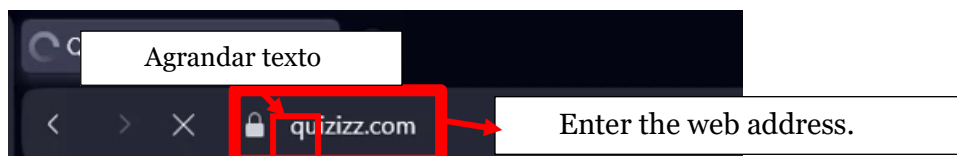

How to delete the account created on Quizizz?

Steps to follow

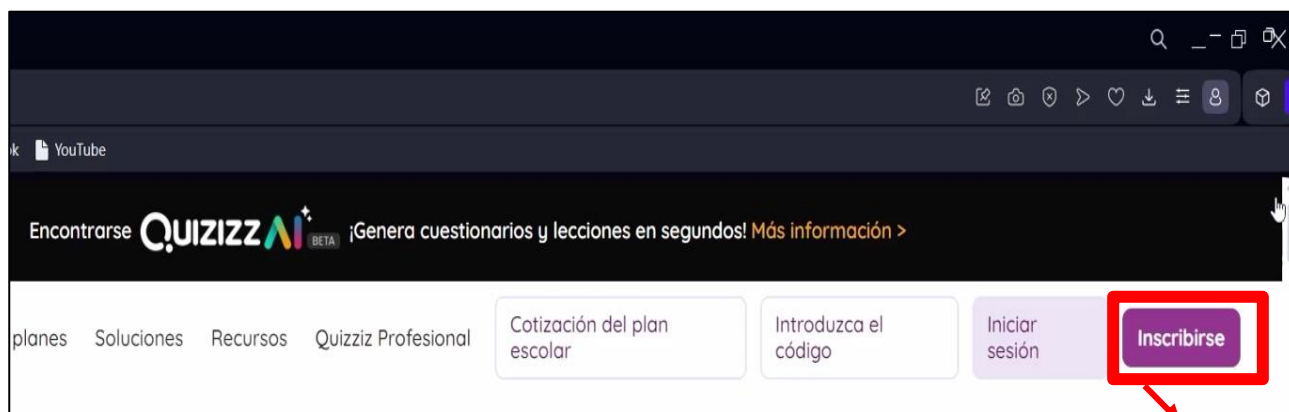

How to create an account? (Based on video 1)

To create an account on Quizizz, you need to follow the steps below:

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

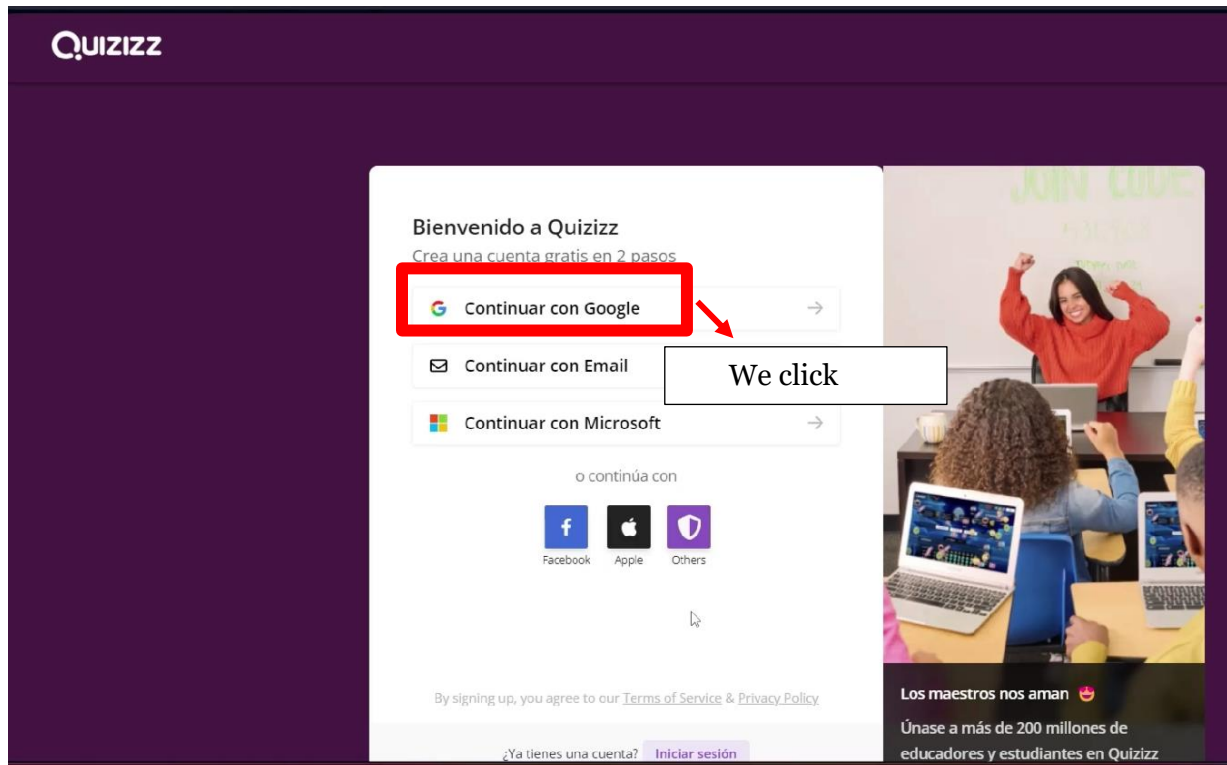

- Second, once inside the Quizizz website we click on the "Create an account" or "Register" button.

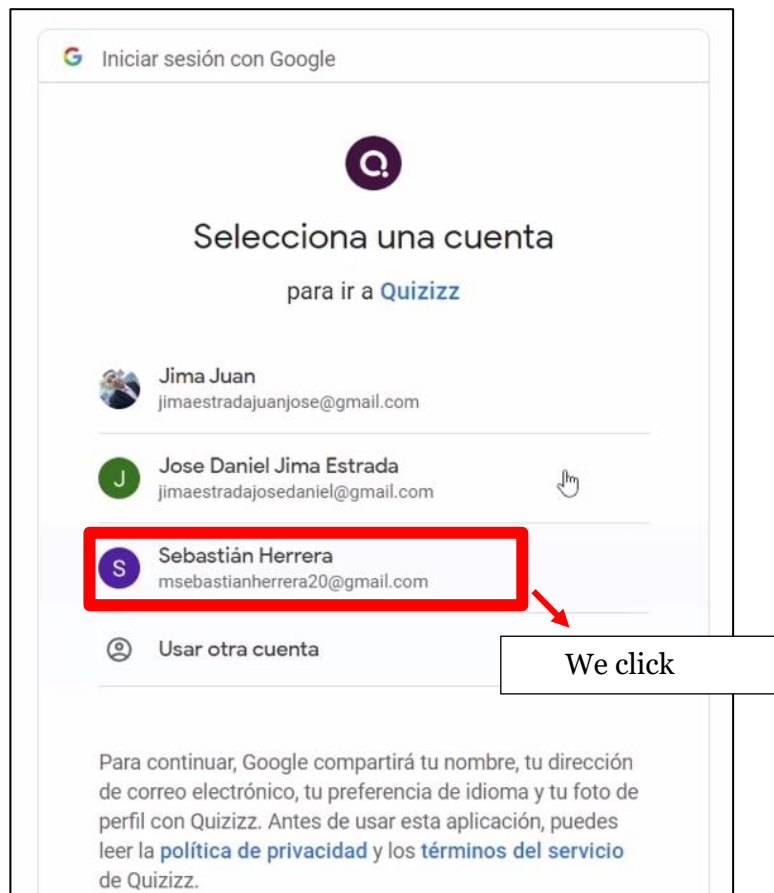

We click

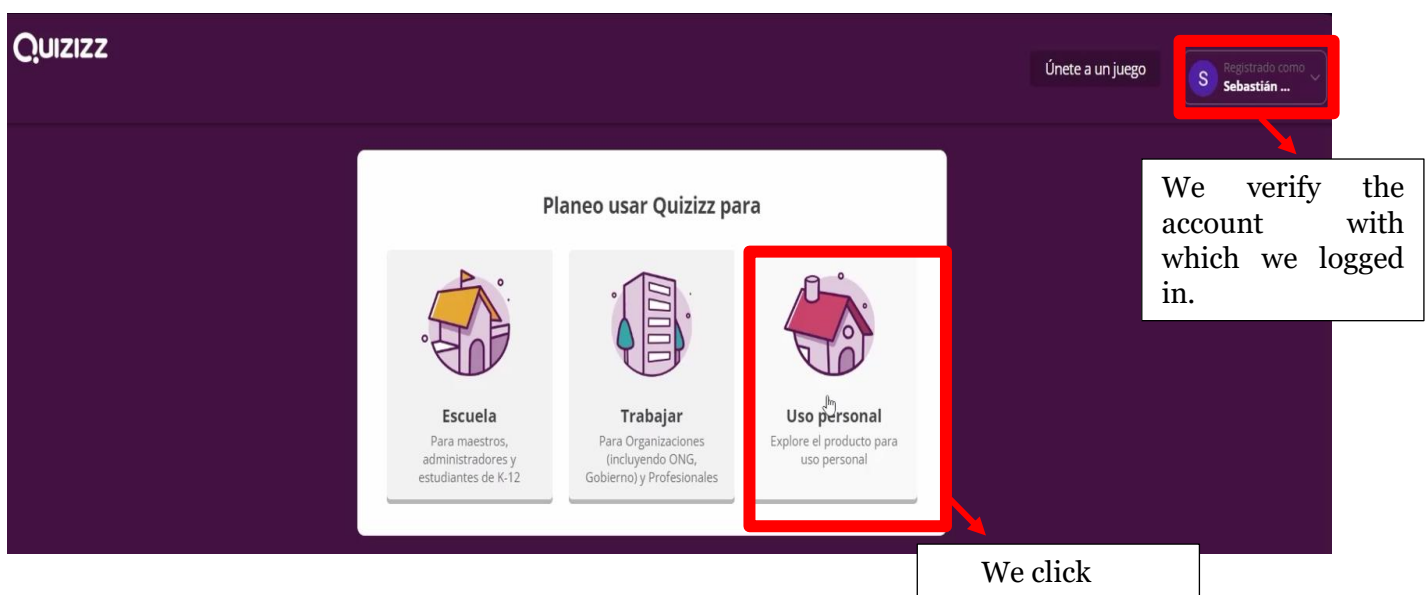

- A menu of options is displayed to be able to choose the way in which we want to create our account either with Google, Email or Microsoft, for my example I do it with Google.

- Fourth, when you click on the previous step we must choose the account with which we want to create our Quizizz account, for my example I do it with the "Sebastián Herrera" account.

- For my example, I choose the personal use option, since it is an account with which we are just starting to use that application.

- The following menú de options is displayed, which tells us to provide some additional detail to our account, such as changing our name, surname, or a specific title, according to the additional details you want to provide.

Proporcione los detalles de su cuenta
Registrarse para uso personal.

Nombre
Sebastián

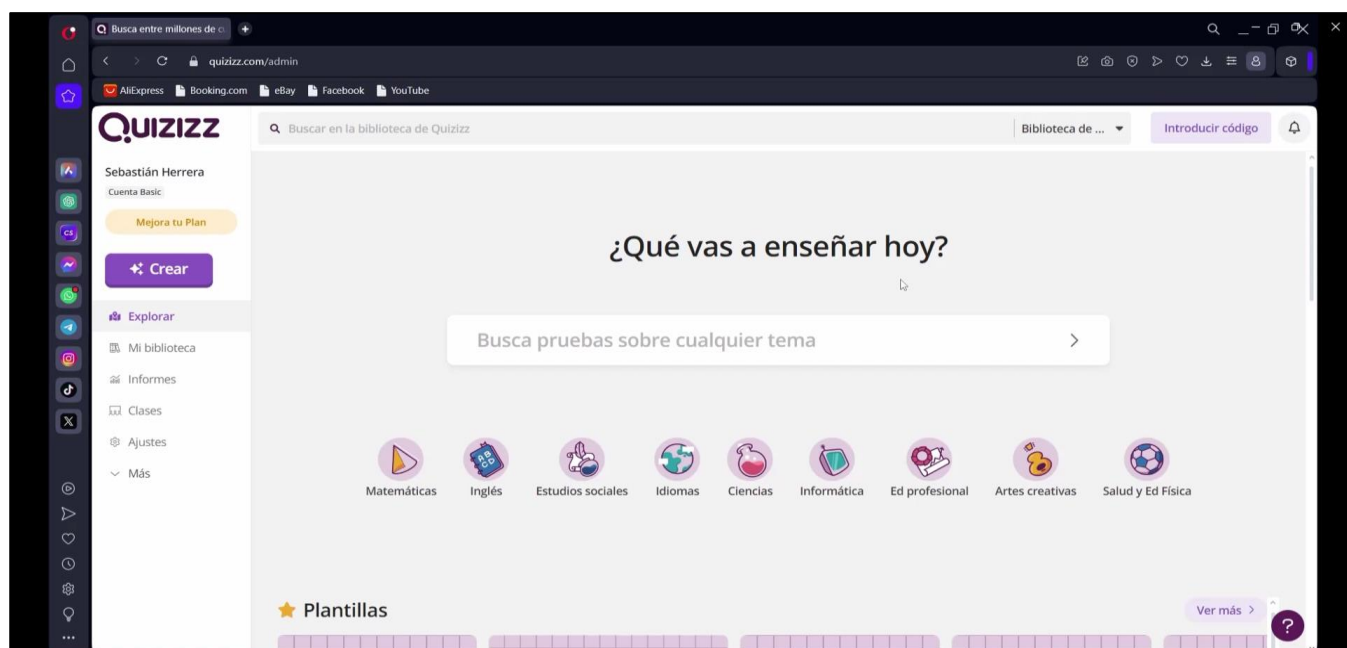

Apellido
Herrera

Continuar

You can change the fields according to the additional details you want to provide.

Click on "Continue"

- Finally, once we have completed and completed the previous steps, we have created our Quizizz account, where we can start creating quizzes, playing games, and doing a number of activities.

NOTE 1: To use the Quizizz web application it is necessary to have an internet connection, in case it does not count, none of the different procedures can be performed.

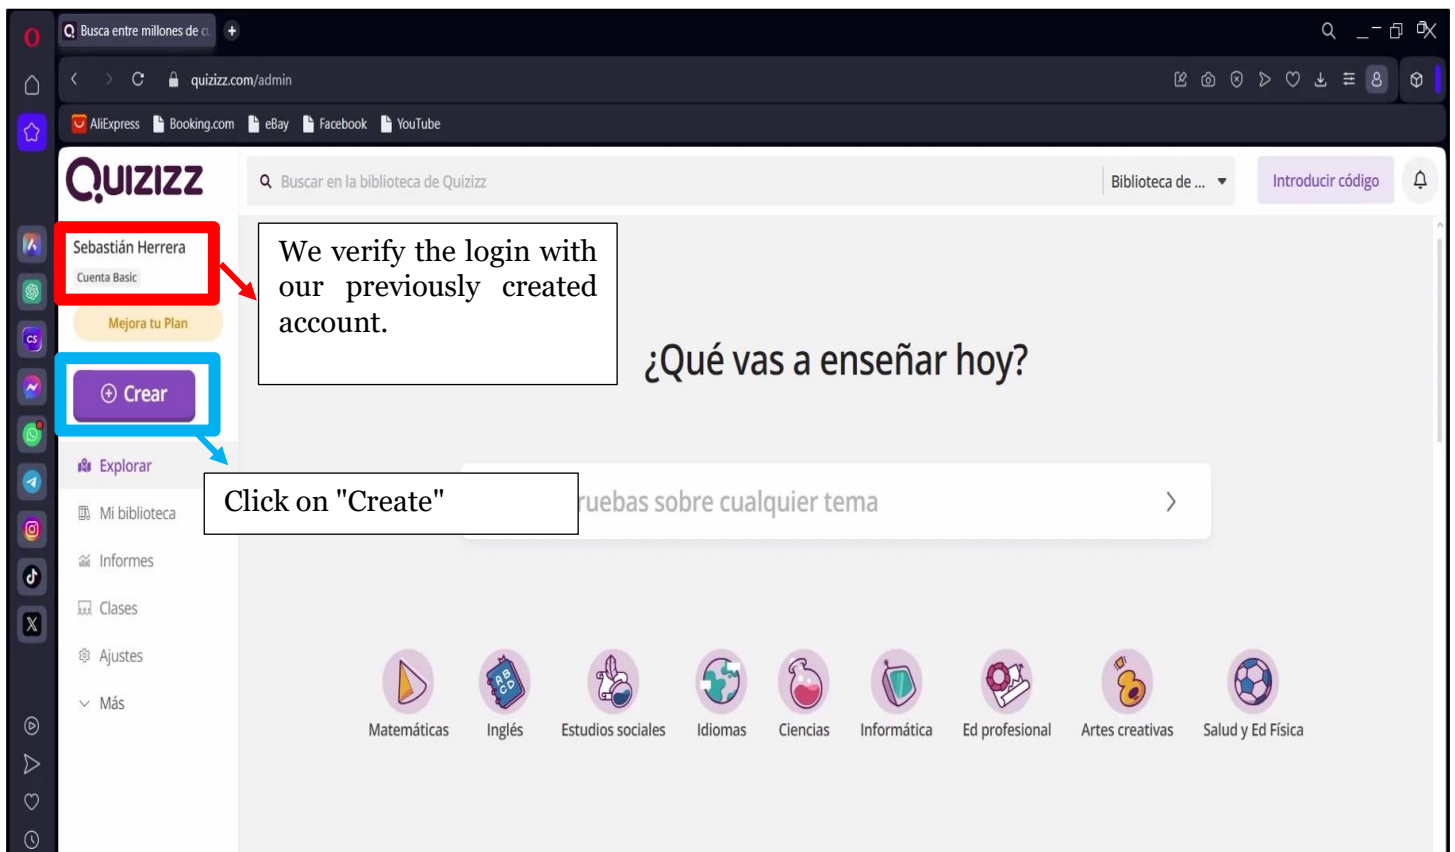

How to create a quiz? (Based on video 2)

To create a quiz in Quizizz, you need to follow the steps below:

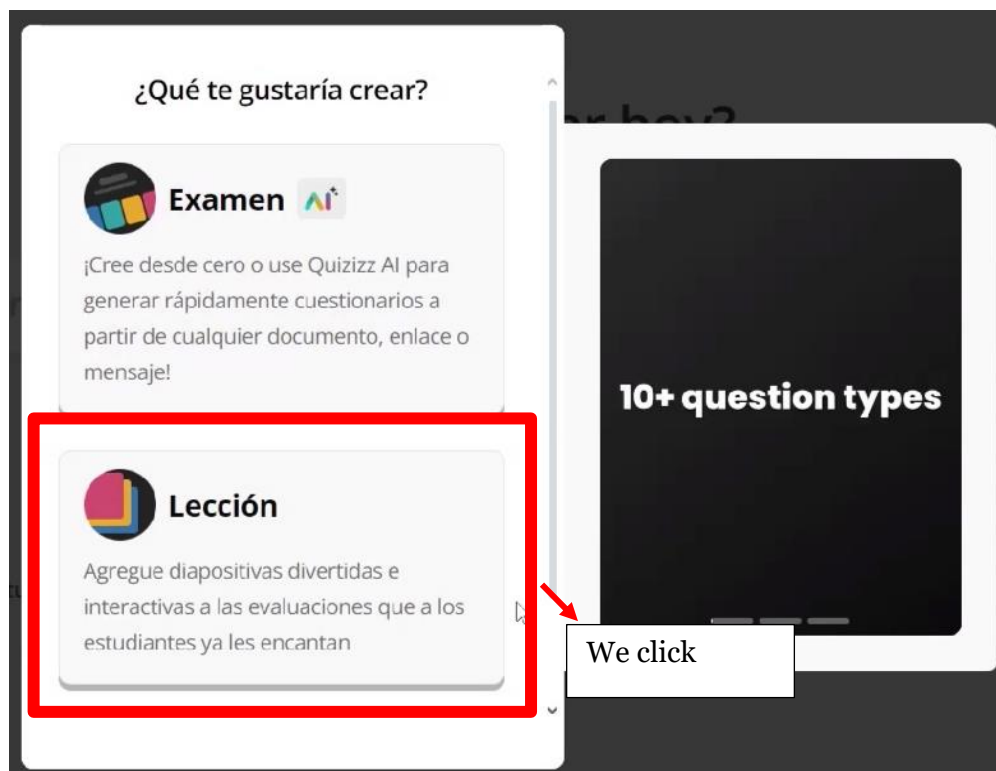

- First we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

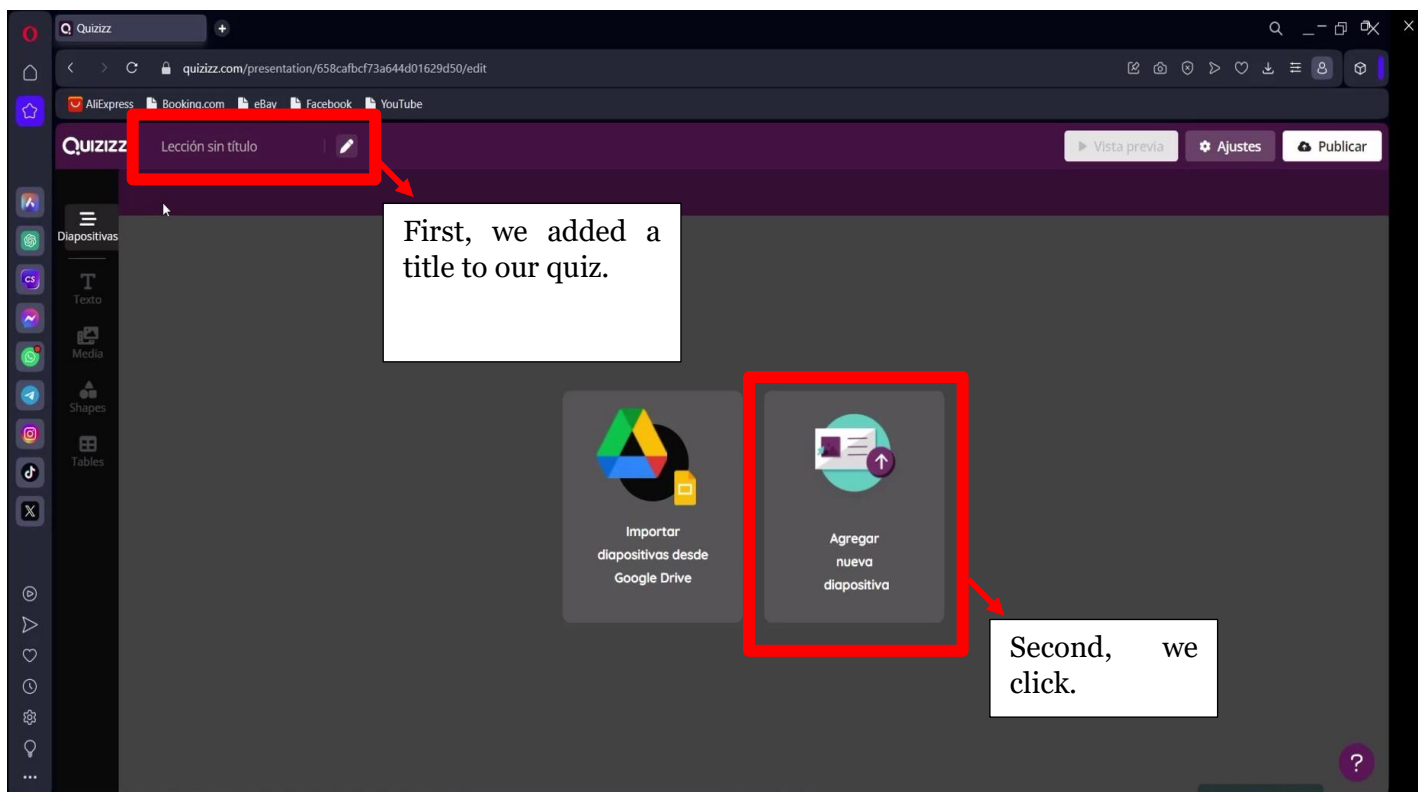

- Second, since our account was created in the app, we are automatically directed to the main page of Quizizz with our personal account. To do this, click on the "Create" button.

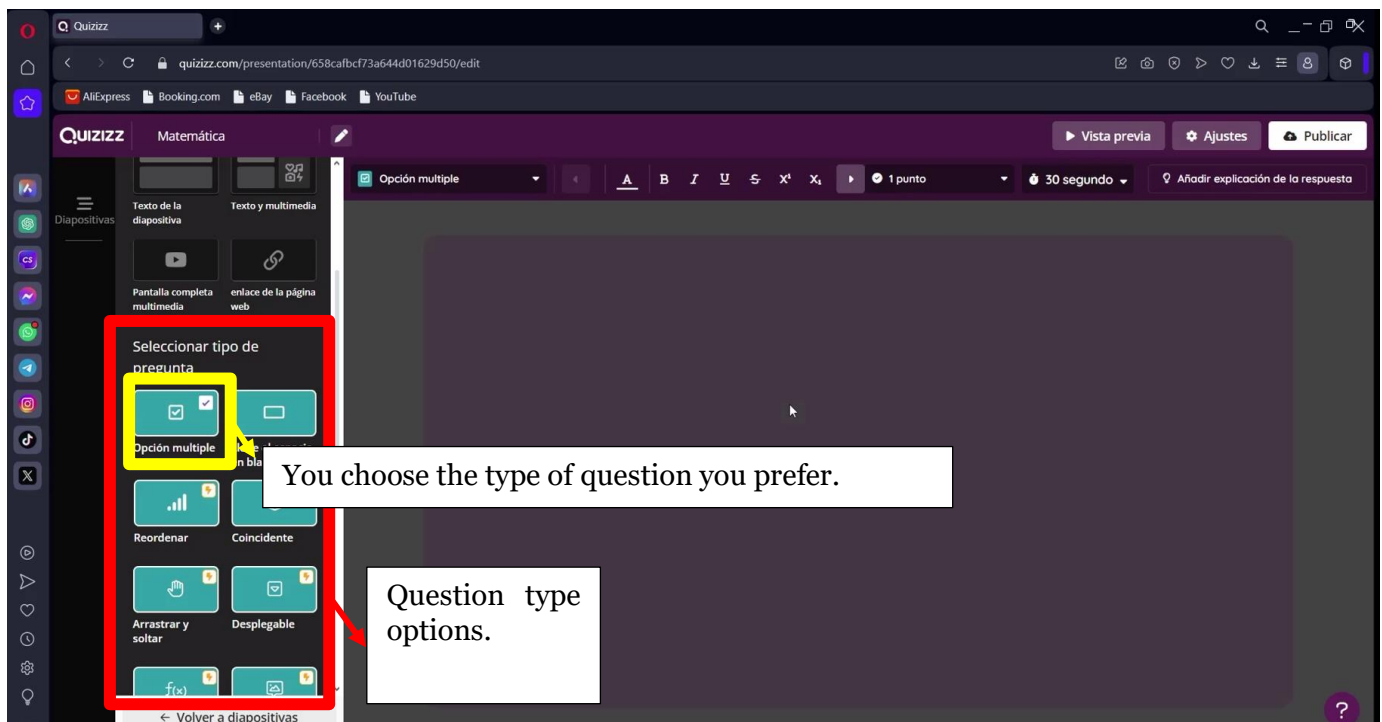

- Third, the following options are displayed, for which one of the different options must be chosen, for my example I did it with the "Lesson" option.

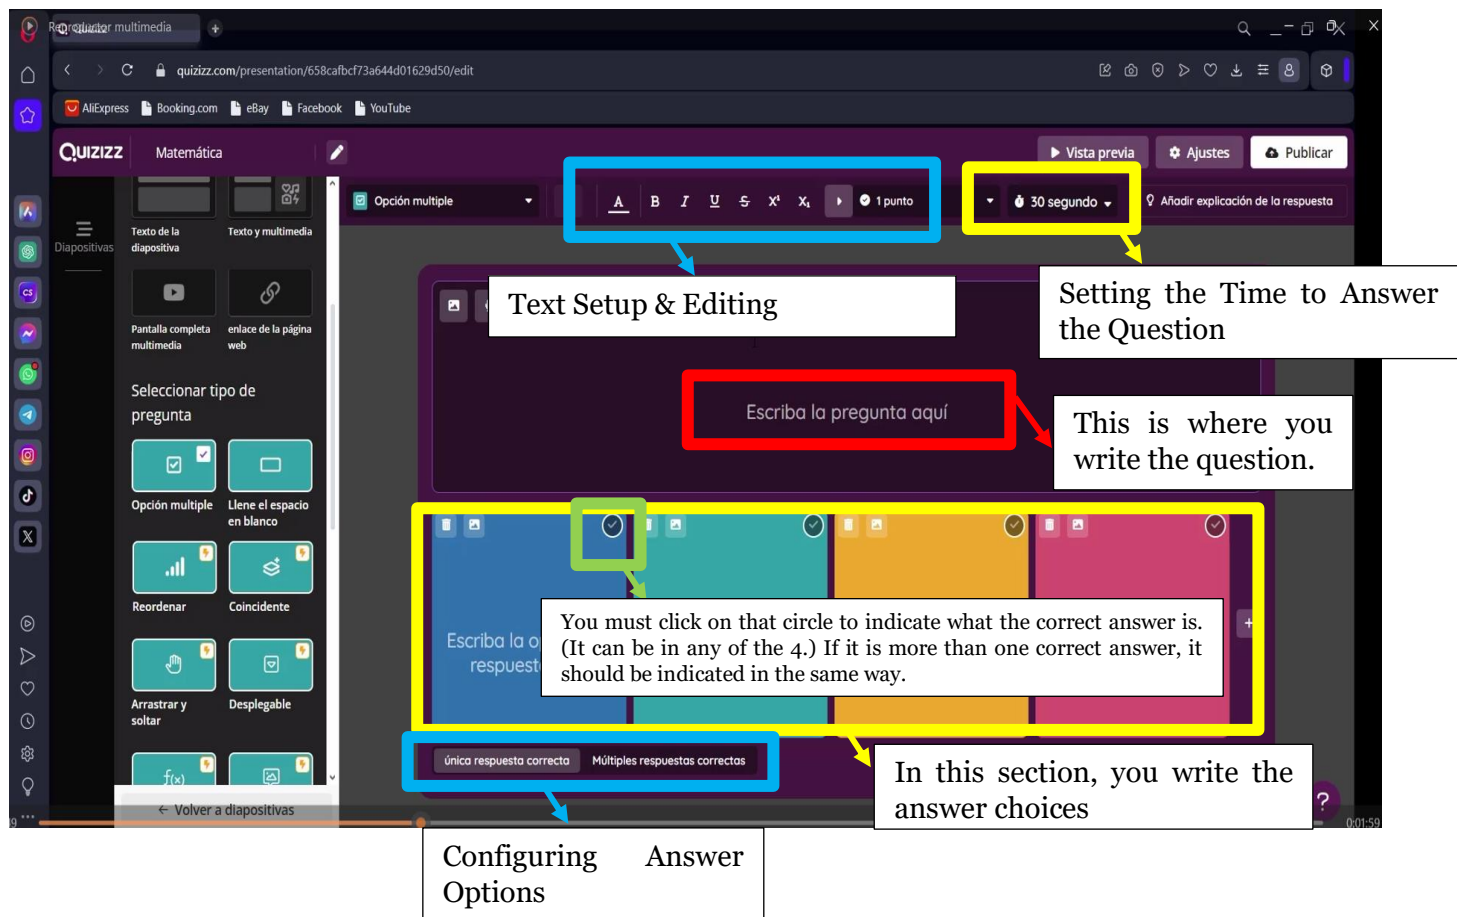

- The following interface of the Quizizz application is displayed, for which we must assign a name to our quiz and click on the "Add new slide" option.

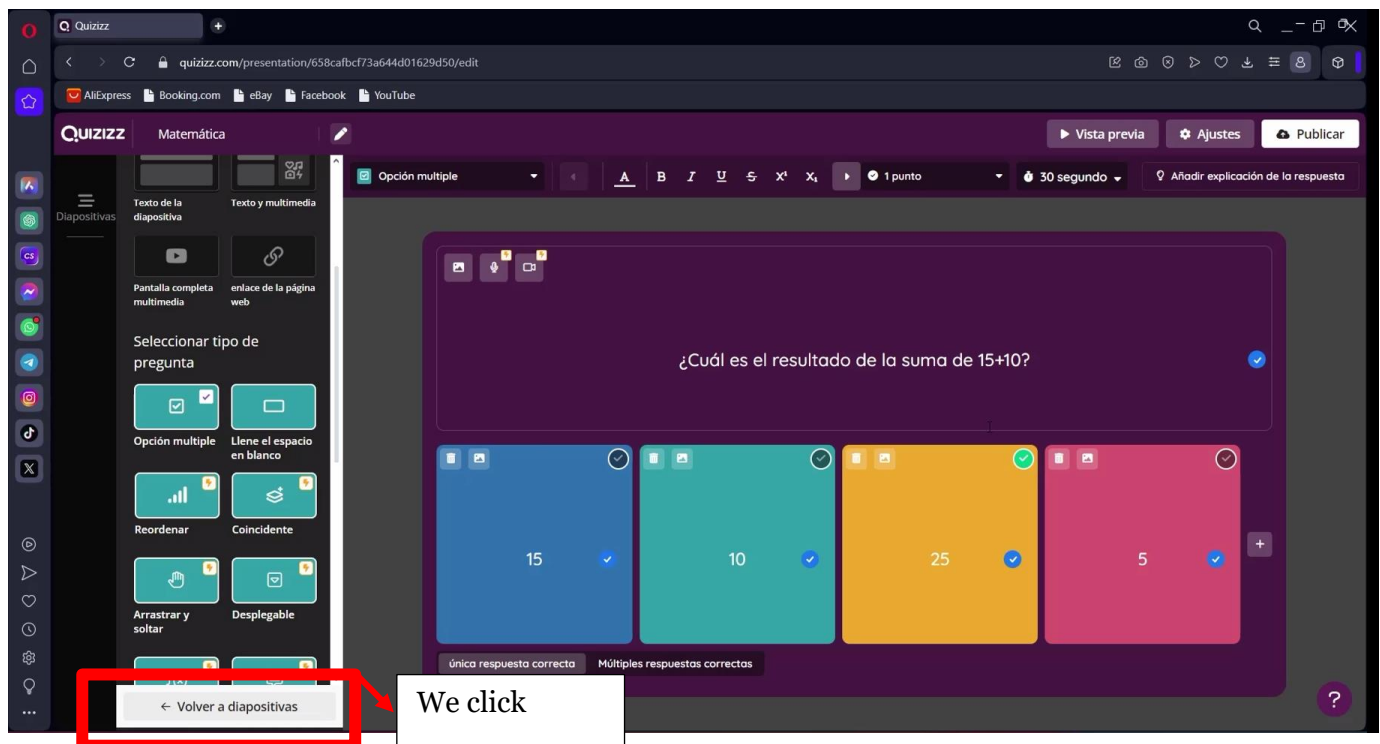

- On the left side, the options of types of questions that we can ask are displayed, where we have some options to choose from, when we choose an option we simply click on it.

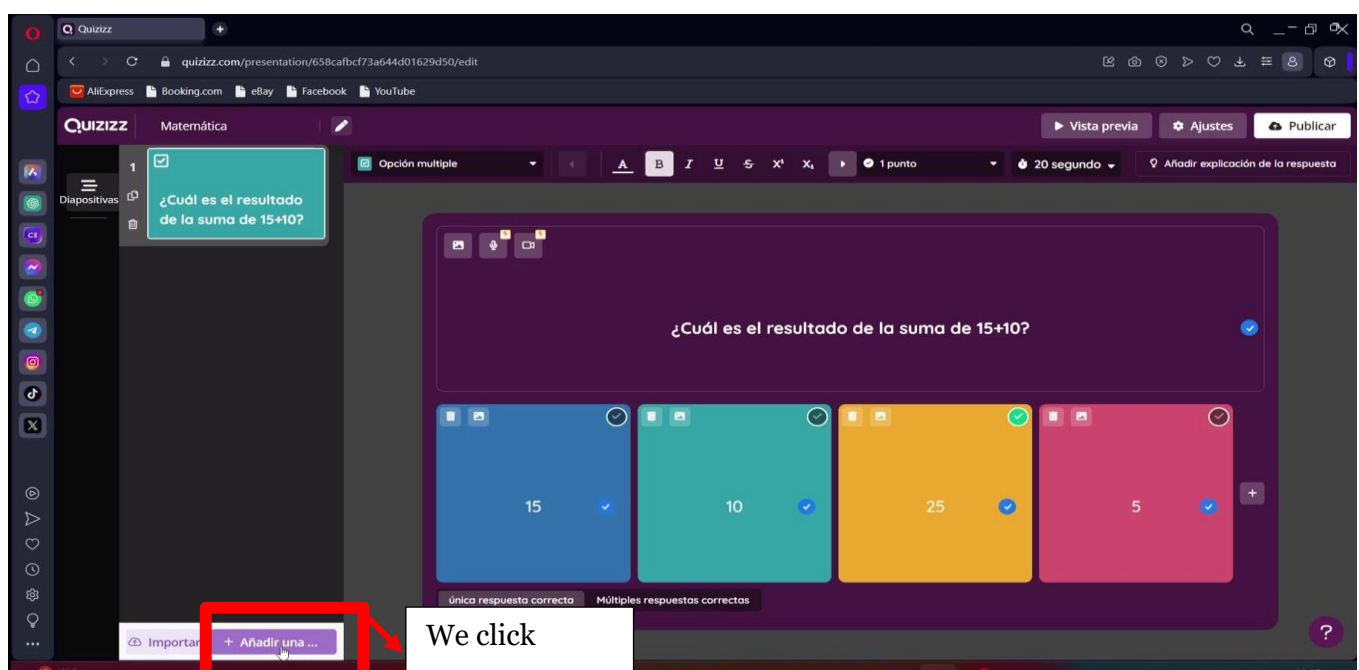

- To this end, after choosing the type of question, on the right side we will be presented with a slide to be able to edit, with a question and its answer options.

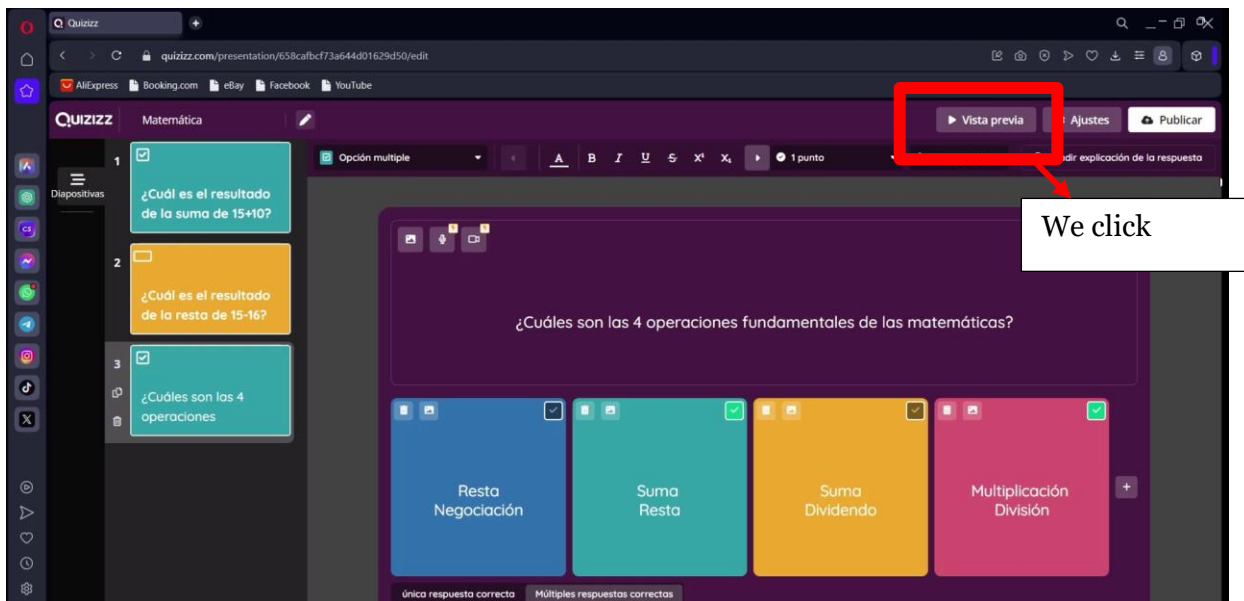

- Seventh, after writing our question, the answer options and giving the necessary configurations, you can add more slides with other types of questions for which we simply click on "Back to slides", it should be noted that the question asked is automatically saved until we can publish our questionnaire.

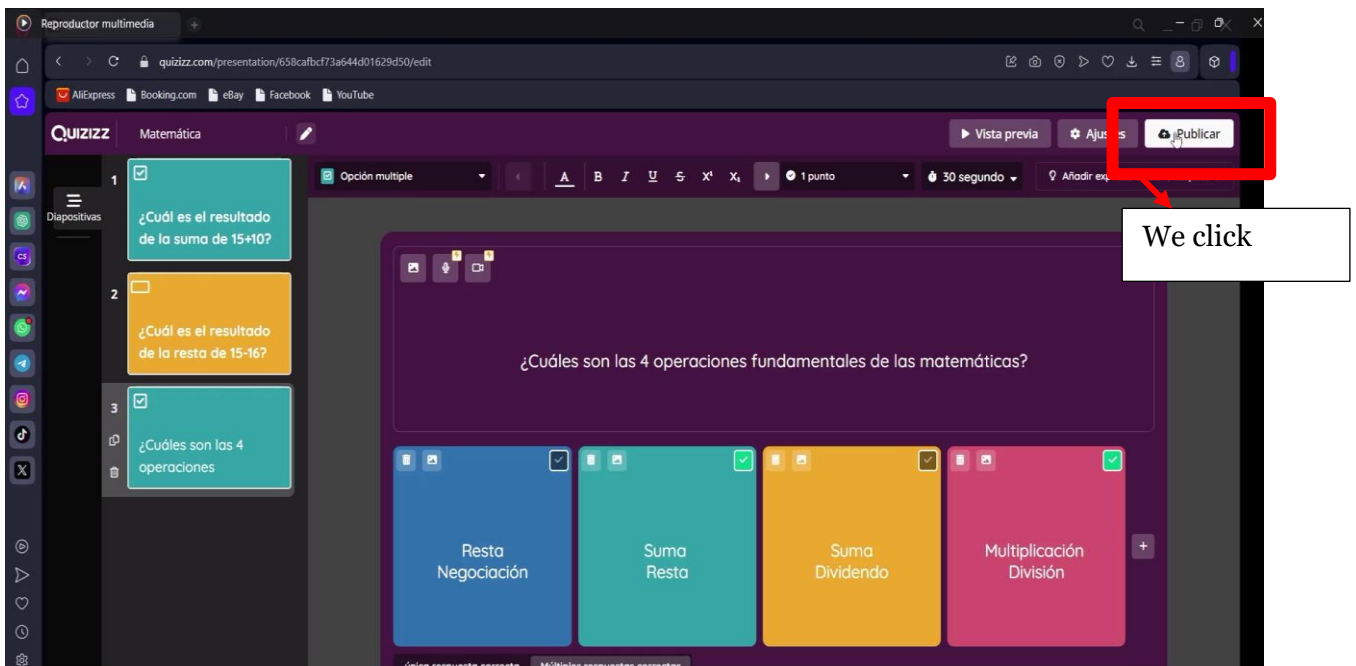

- When you click on it, it takes us back to the main menu where to add a slide you must click on "Add new slide" and then perform the previous steps which are to choose the type of question and give the necessary configurations.

- In the same way, you can have a preview of the questions asked on the different slides, for that we click on "Preview".

- Once all the necessary questions have been answered, click on the "Publish" option, where you must then fill in some additional fields of settings for our questionnaire and click on "Save".

- Finally, we can verify that our questionnaire was successfully created and saved in our account.

The screenshot shows the Quizizz web application interface. The top navigation bar includes the Quizizz logo, a search bar, and links to 'Biblioteca de ...' and 'Introducir código'. The user profile 'Sebastián Herrera' is visible in the top left. The main content area displays a quiz titled 'Matemática' with a 'Crear' button. Below the quiz title, there are buttons for 'Hoja de cálculo', 'Guardar', 'Compartir', and 'Editar'. The quiz details show '1st - 5th curso', 'Matemáticas', '0% precisión', and '0 jugadas'. There are two main action buttons: 'Inicia un vivo lección' (Instructor-led lección) and 'Asignar deberes' (Aprendizaje sin sincronización). The quiz content shows a multiple-choice question: '¿Cuál es el resultado de la suma de 15+10?' with options 15 and 25. The right sidebar features an 'Upgrade to SUPER' banner and a 'Mejora tu Plan' button. At the bottom, there are suggestions for other quizzes like 'The Desert' and 'Dairy Products'.

NOTE 2: To use the Quizizz web application and create a questionnaire it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to keep in mind what topic you are going to do the questionnaire on.

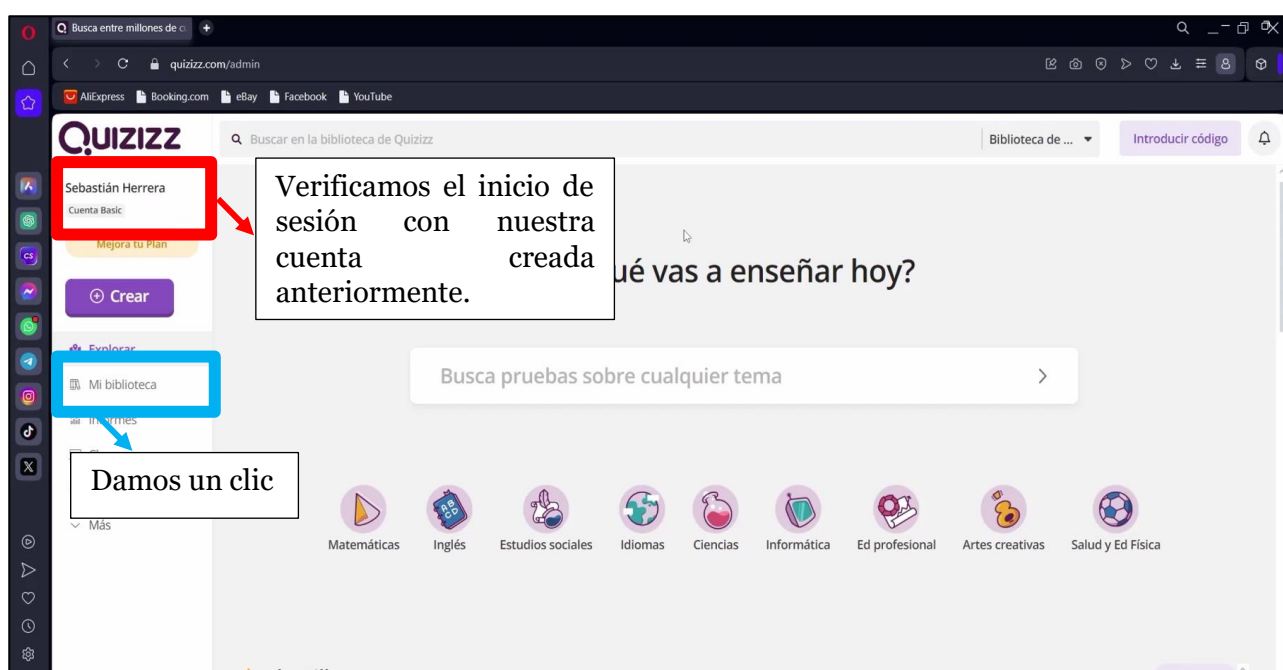

How to share a quiz with someone else so they can edit? (Based on video 3)

To share a quiz with someone else so they can edit in Quizizz, you need to follow the steps below:

First we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

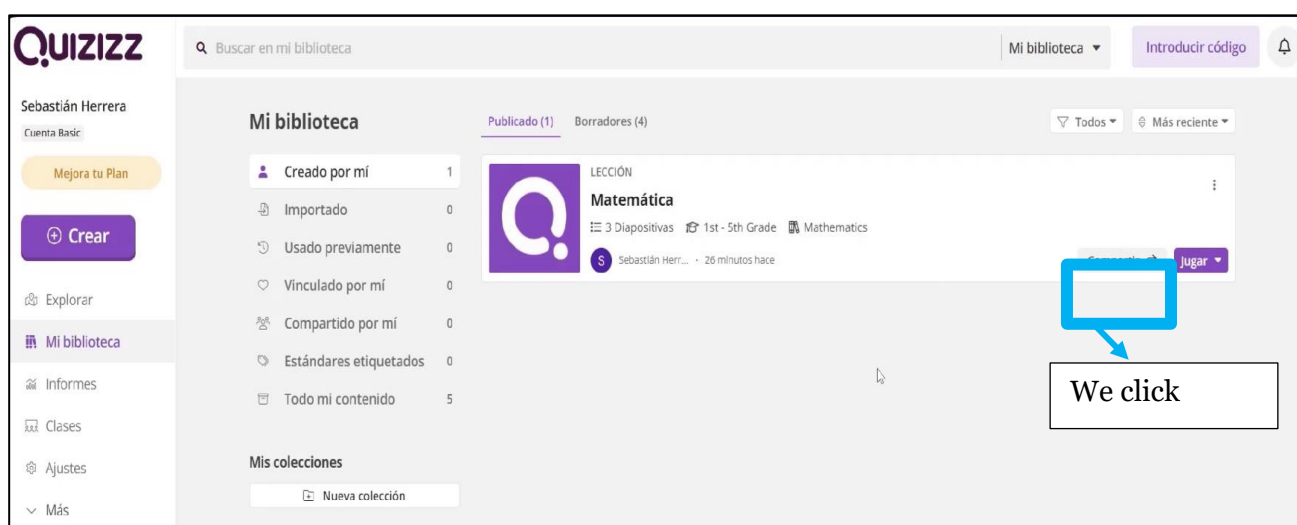

- Then, once you have entered the Quizizz website and created your account, you click on the "My Library" option.

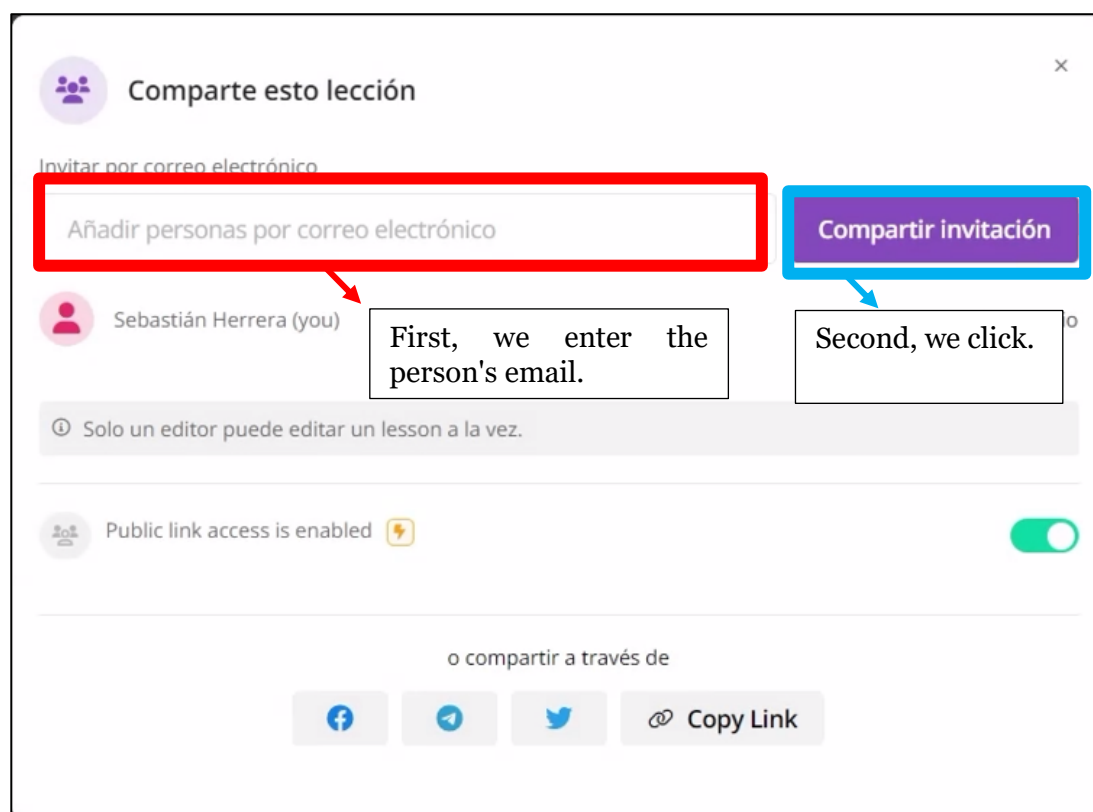

- In the first place, it is checked that a questionnaire has been created.

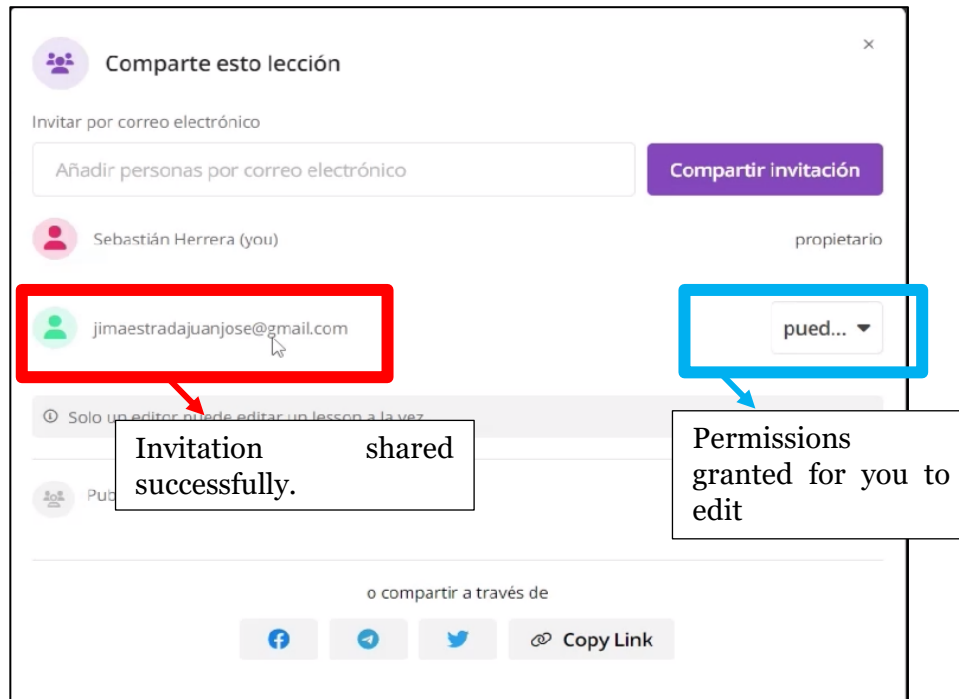

There are two ways to share a Quizizz quiz. The first is by clicking on the "Share" option.

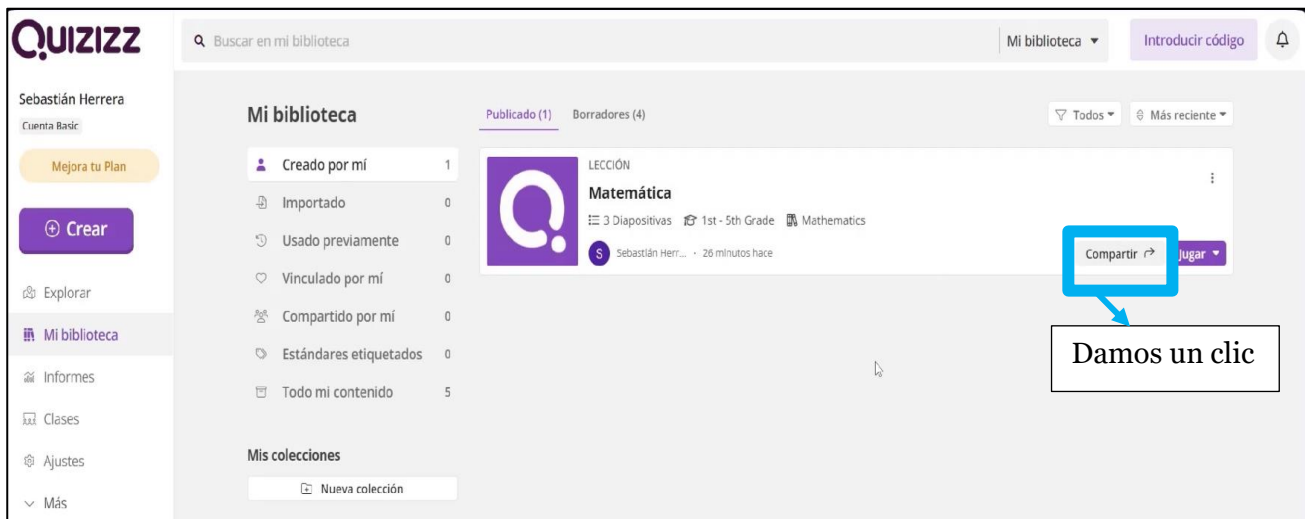

- For the first procedure, what is going to be done is to enter the email of the person to whom we want to send the questionnaire and then click on the option "Share invitation".

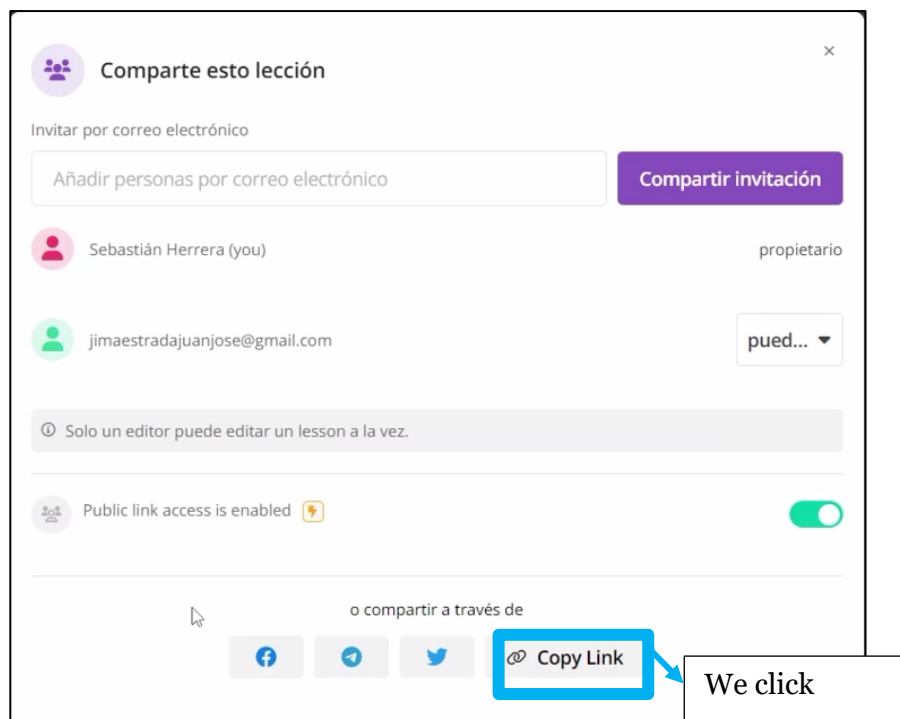

- Sixth, it is checked that the invitation has been correctly shared with that person so that they can edit and in this way it is the first easy and fast method.

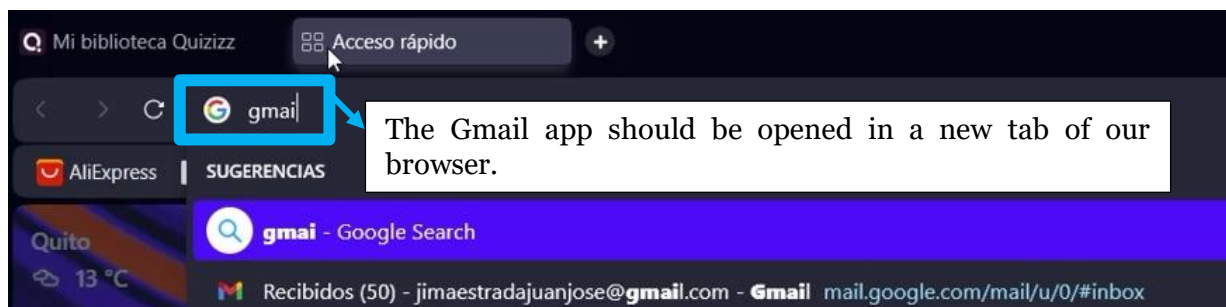

- Seventh, for the second method, the first thing we do is click on the "Share" button

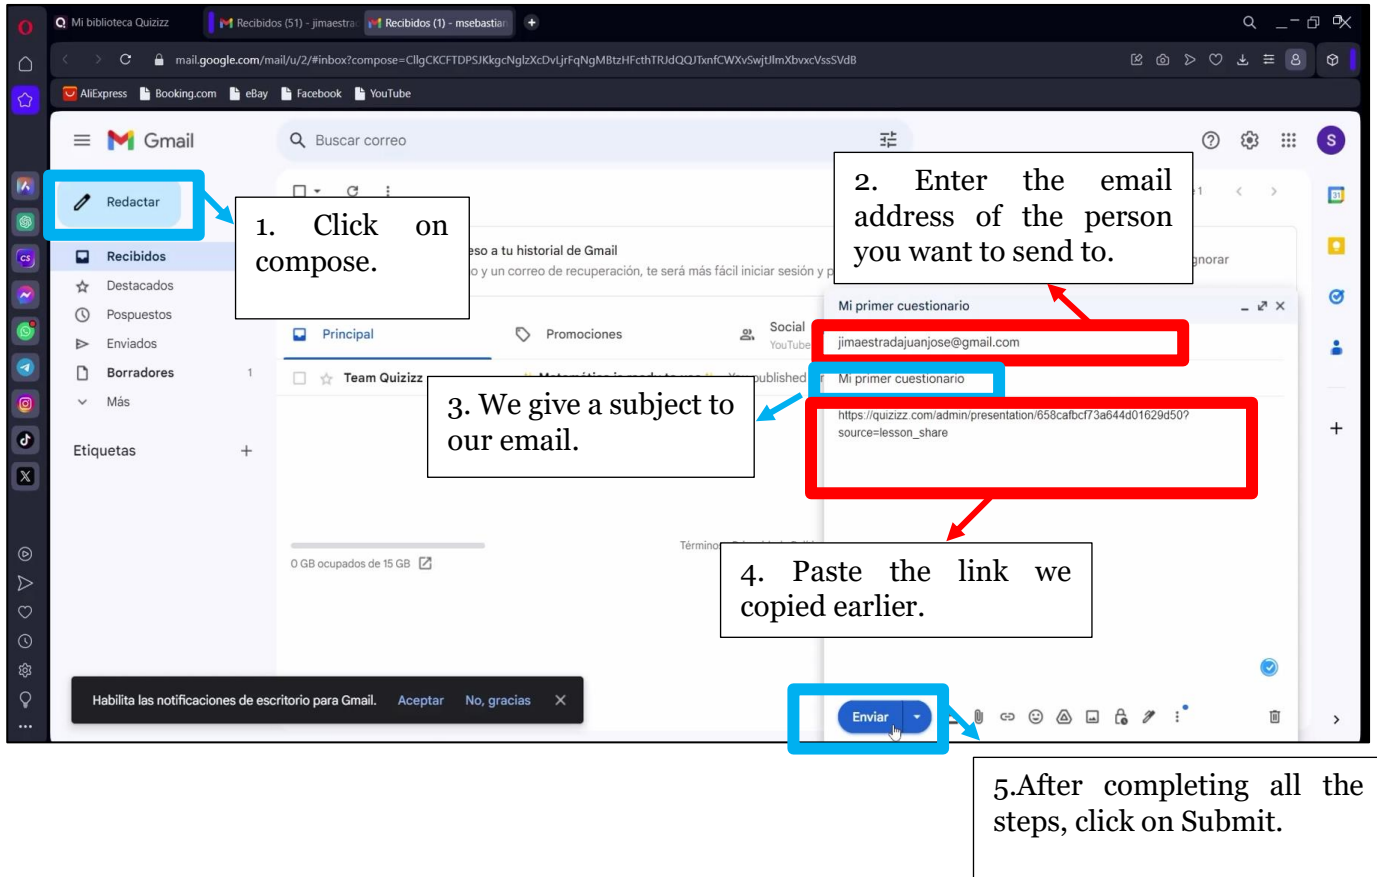

- Eighth, the same menu as the first option is displayed, but for this second method we click on the "Copy Link" button and the link to our questionnaire is automatically copied.

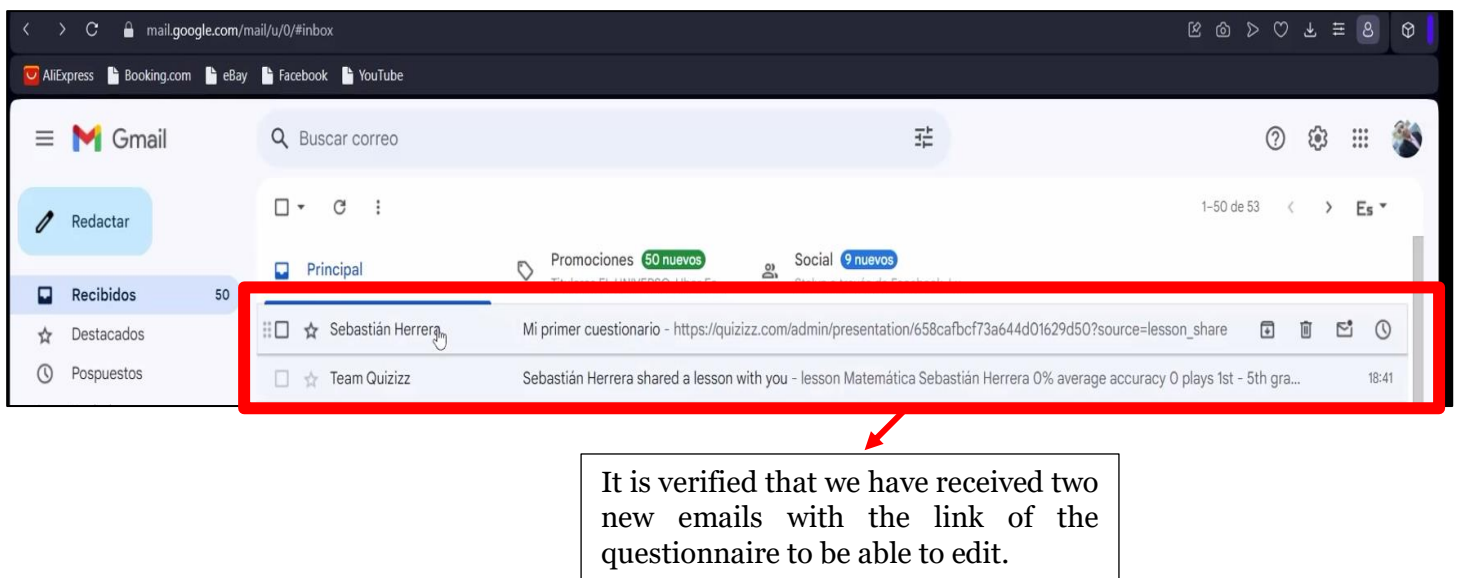

- To be able to click on the following link, you must open the Gmail application at the following [link https://www.google.com/intl/es/gmail/about/](https://www.google.com/intl/es/gmail/about/) and log in to be able to paste and send the link to the person who is going to edit your questionnaire.

- Tenth, once we have logged in to our Gmail account, what we must do is write a new email to send the link we copied to the person who is going to edit our questionnaire. Which we paste when composing a new email.

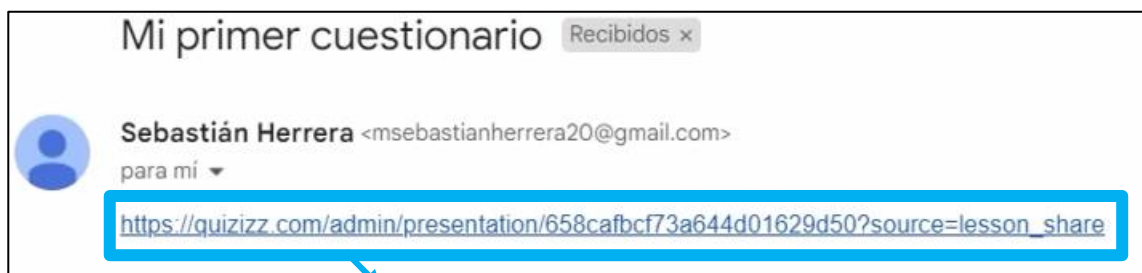

- Then, in order to verify that we have received these emails, we must open the email of the person to whom we sent our emails. To do this, we also open a new Gmail tab and check that we have received two new emails.

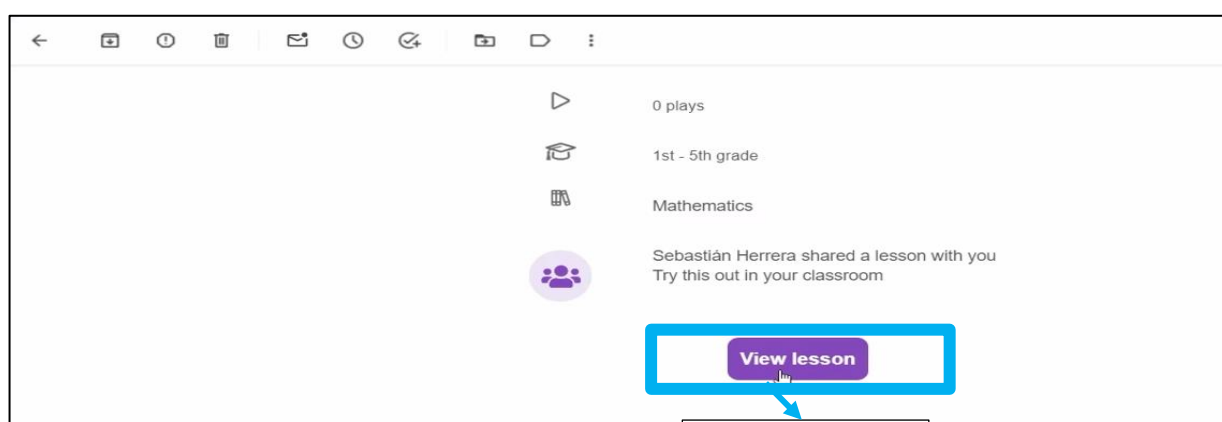

- Then, what you have to do is open the two new emails that came to us and click on the link, which will open a new tab with the questionnaire created to be able to edit.

Way 2.

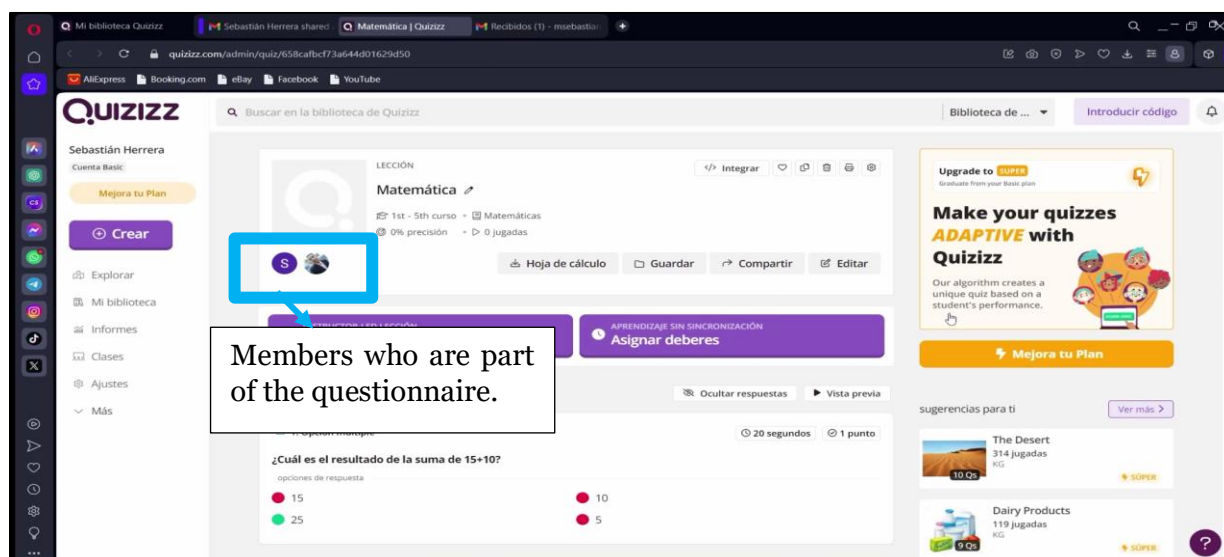

Click on the link.

Way 1.

We click on it.

- Finalmente, podemos comprobar que ambos enlaces llegados al correo si funcionan correctamente y podemos empezar a editar.

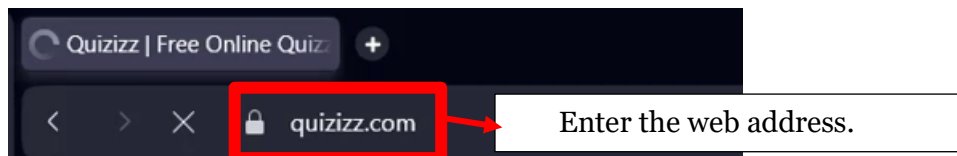

NOTE 3: To use the Quizizz web application and share a questionnaire it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to have a working Gmail account to be able to check that the generated links work correctly.

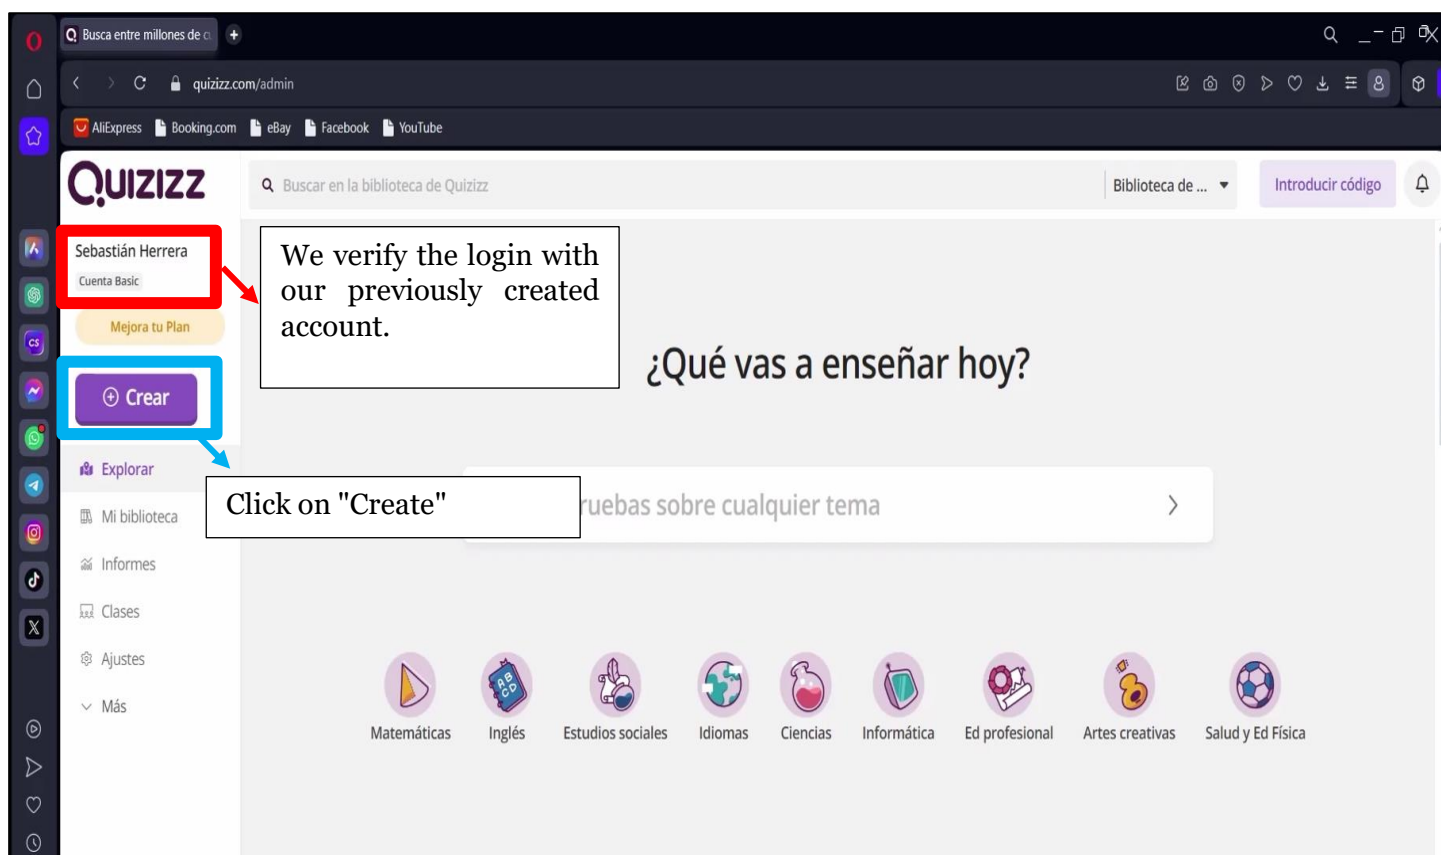

How to create a quiz in English? (Based on video 4)

To create a quiz in English language in Quizizz, you need to follow the steps below:

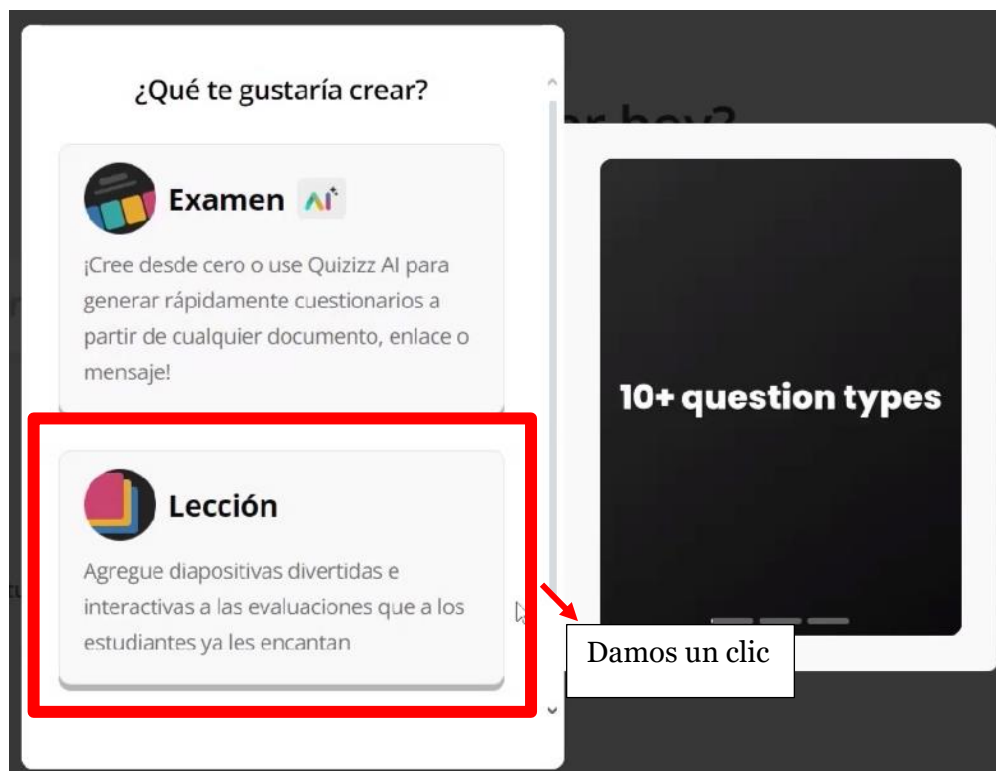

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

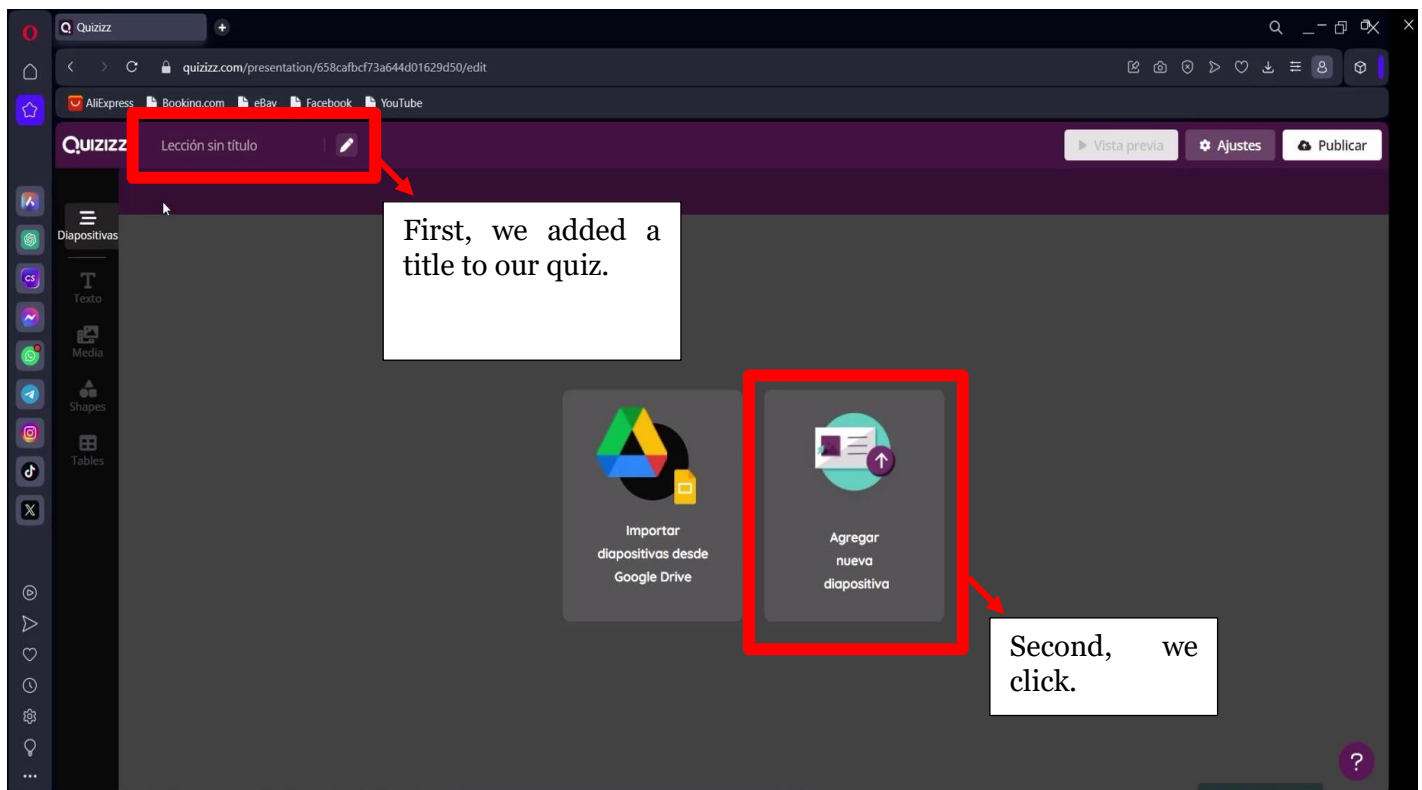

- Second, as previously created, our account in the Quizizz app is automatically directed to the main page of Quizizz with our personal account. To do this, click on the "Create" button.

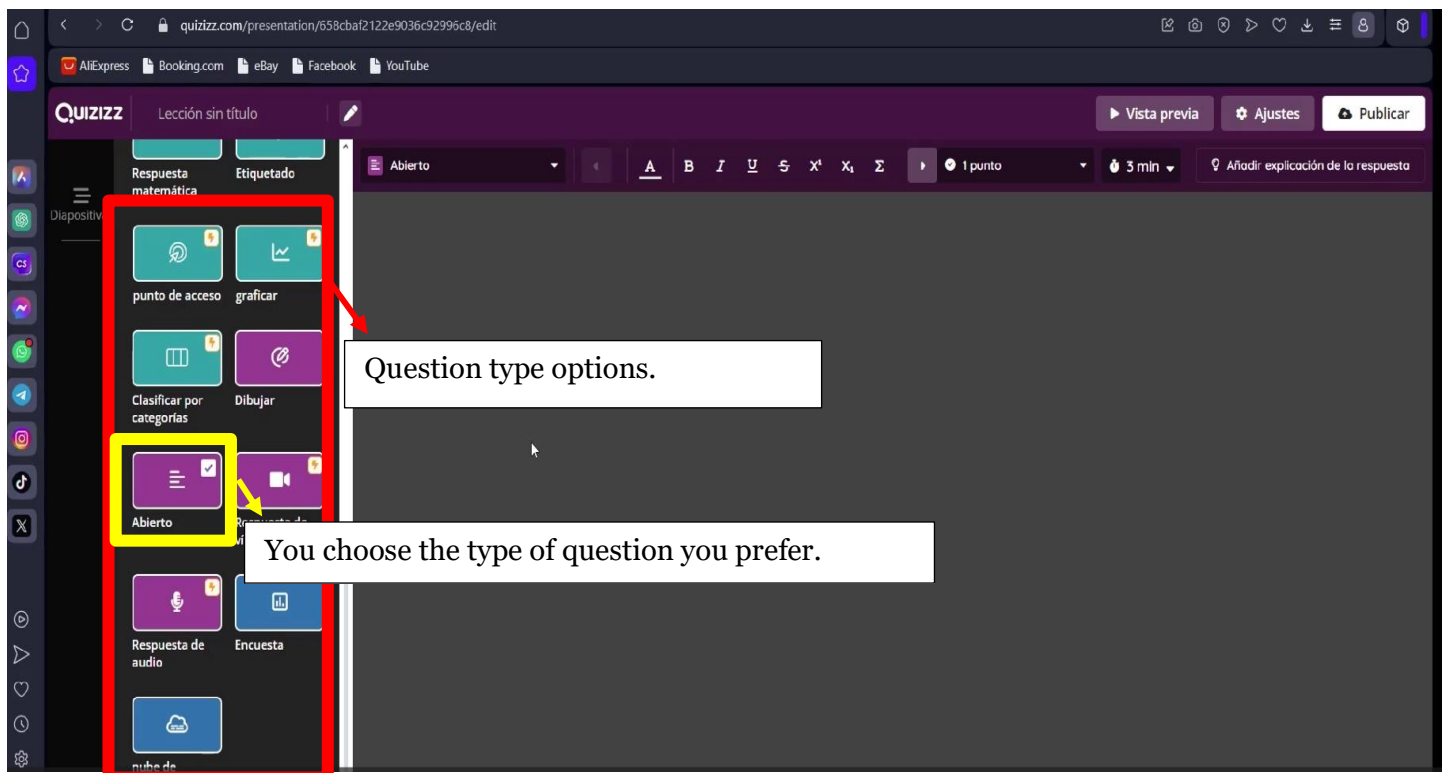

- Third, the following options are displayed, for which one of the different options must be chosen, for my example I did it with the "Lesson" option.

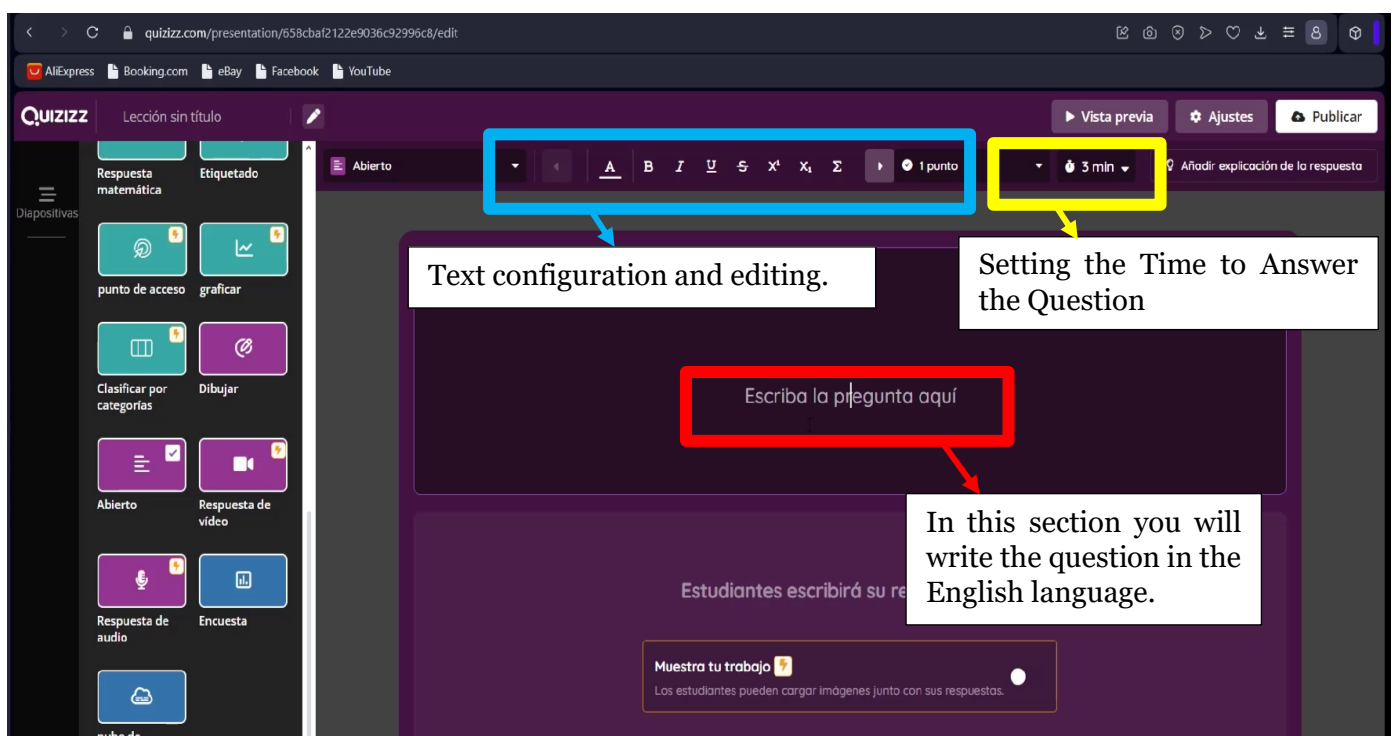

- Cuarto, se nos despliega la siguiente interfaz de la aplicación de Quizizz, para lo cual se debe asignar un nombre a nuestro cuestionario y dar un clic en la opción de "Agregar nueva diapositiva".

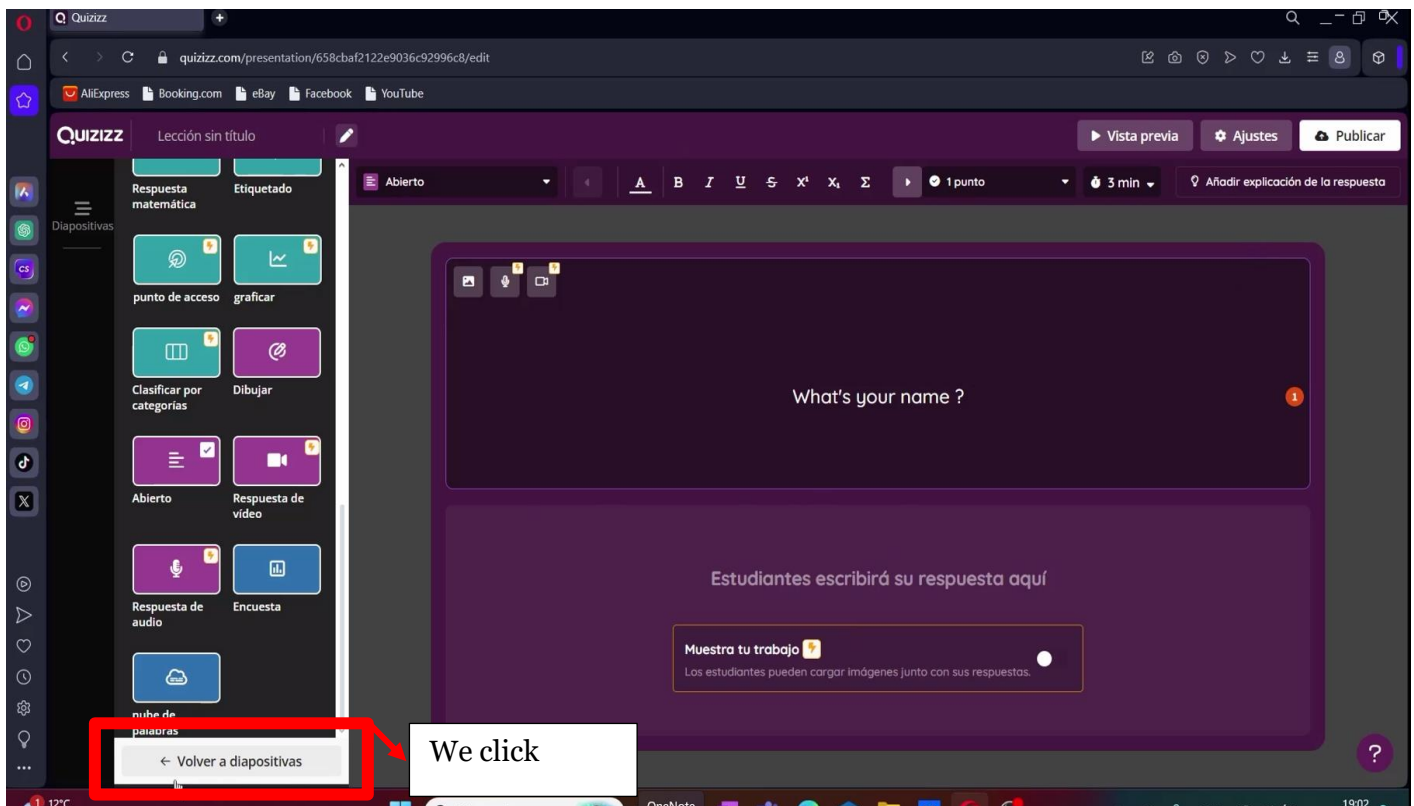

- On the left side, we are shown the options of types of questions that we can ask, where we have some options to choose from, when we choose an option we simply click on it, for this example as it is a questionnaire in the English language I gave it in the type of question "Open".

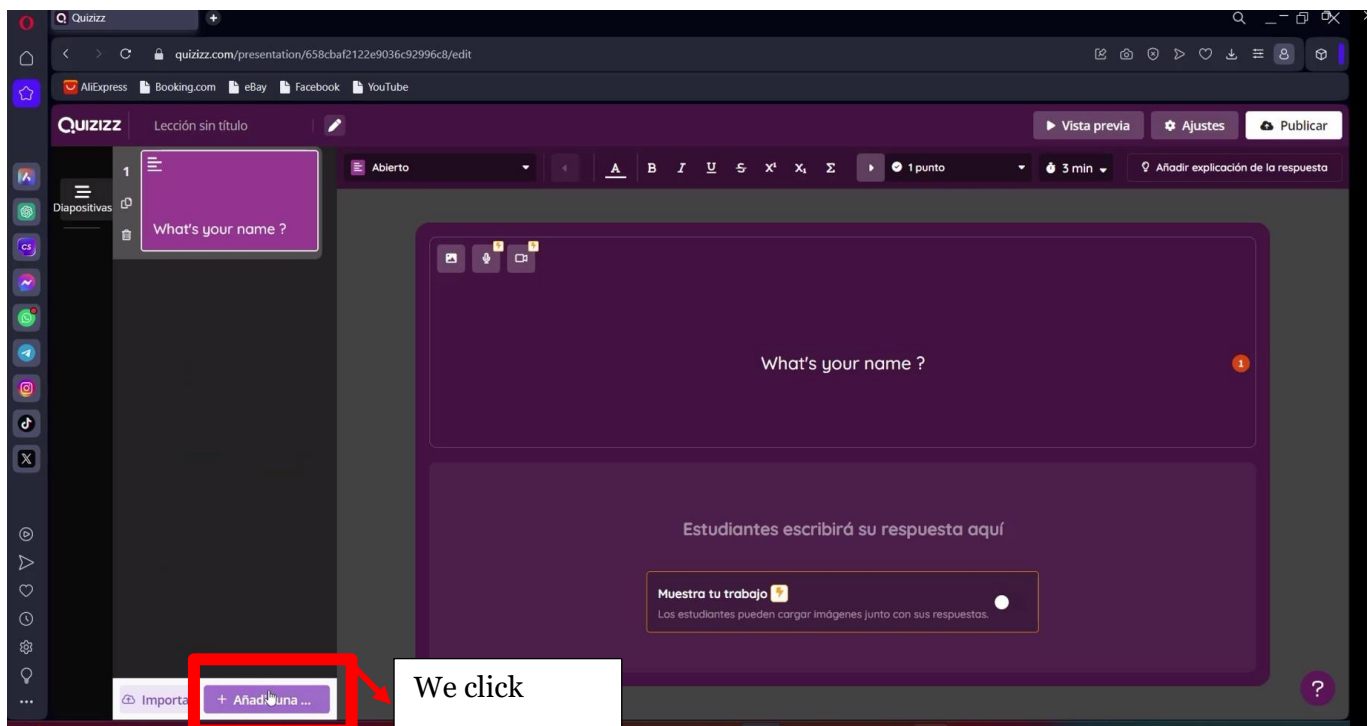

- Second, after choosing the type of question, a slide is displayed on the right side to be able to write a question.

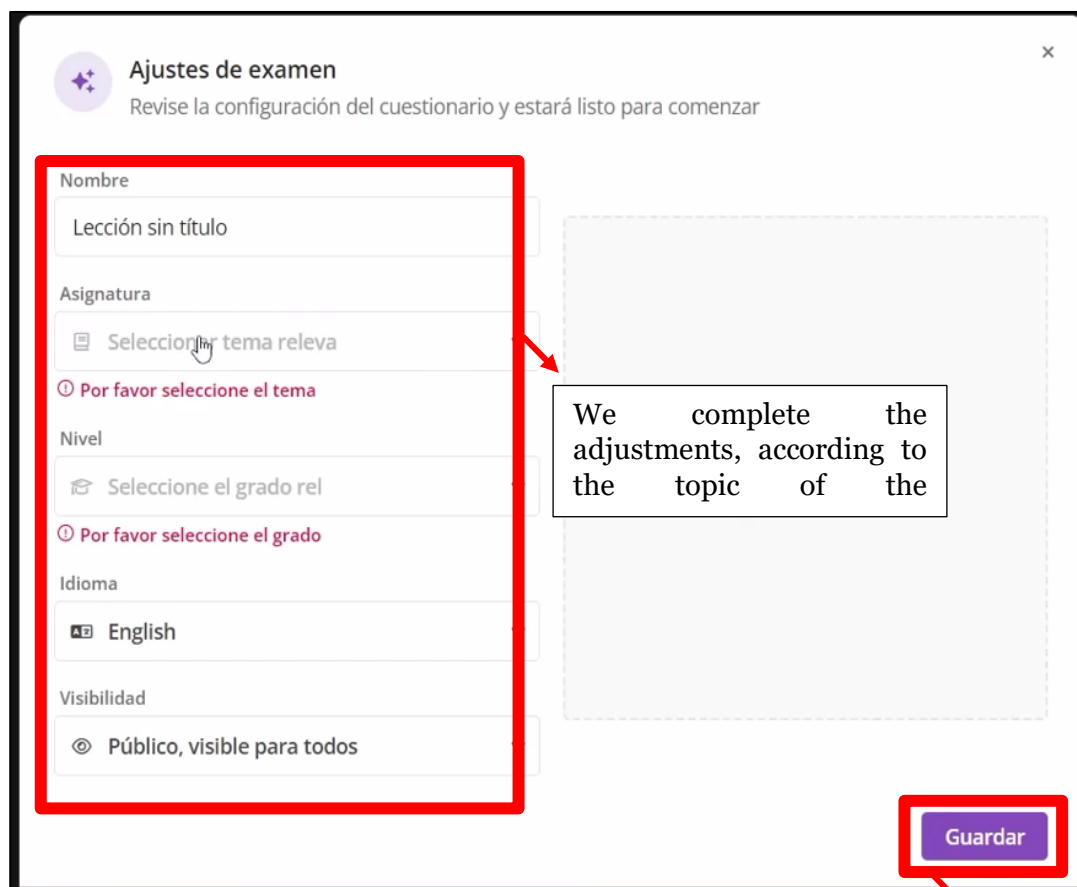

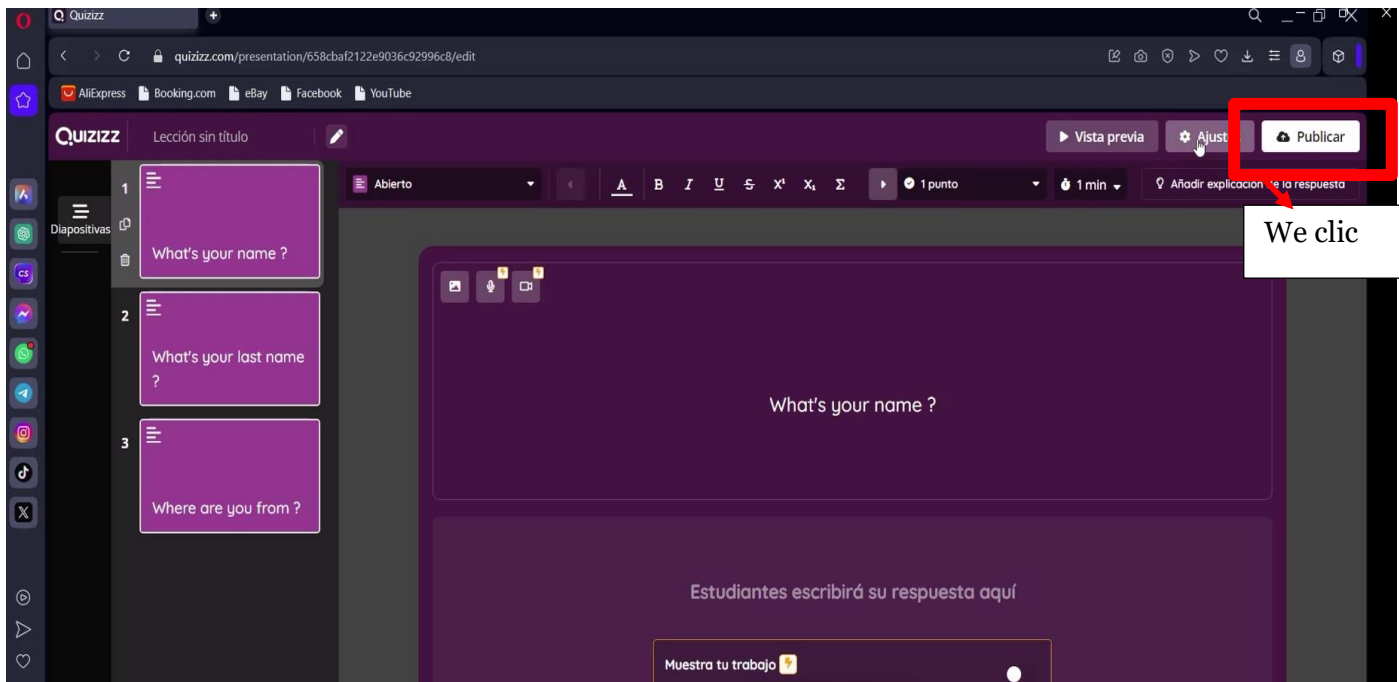

- Seventh, after writing our question and giving the necessary configurations, you can add more slides by simply clicking on "Back to slides", it should be noted that the question asked is automatically saved until you can publish your questionnaire.

- When you click on it, it takes us back to the main menu where to add a slide you must click on "Add new slide" and then perform the previous steps which are to choose the type of question and give the necessary configurations.

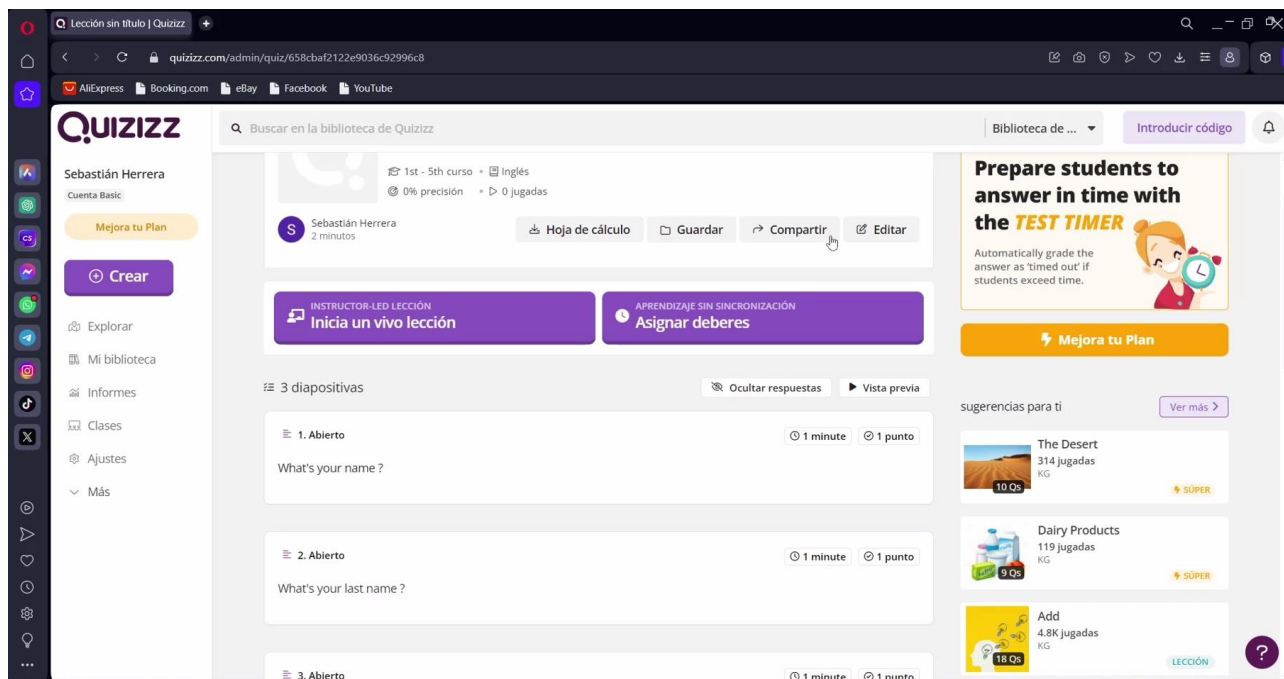

- Once you have finished all the necessary questions, click on the "Publish" option, where you must then fill in some additional fields of settings of our questionnaire indicating the English language and click on "Save".

We clic

- Therefore, we can verify that our questionnaire in the English language was successfully created and saved in our account.

NOTE 4: To use the Quizizz web application and create a questionnaire in English it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to keep in mind the questions that will be asked in said questionnaire.

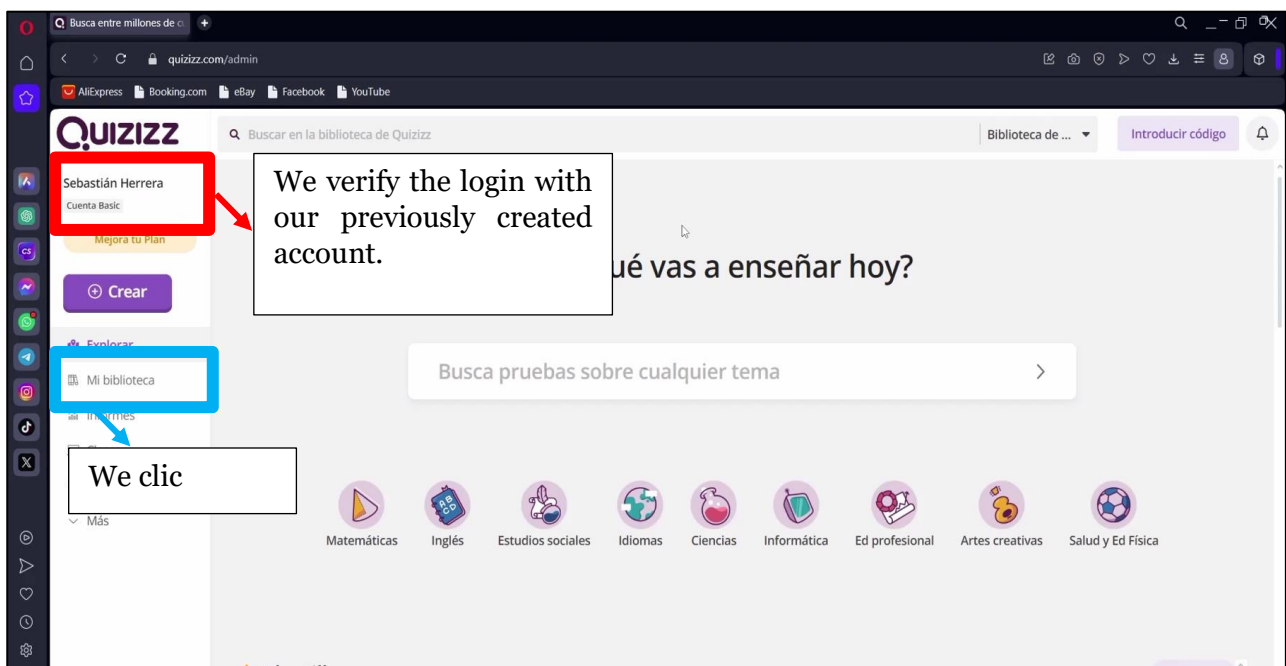

How to add images to a previously created quiz? (Based on video 5)

To add images to a quiz previously created in Quizizz, the following steps must be followed:

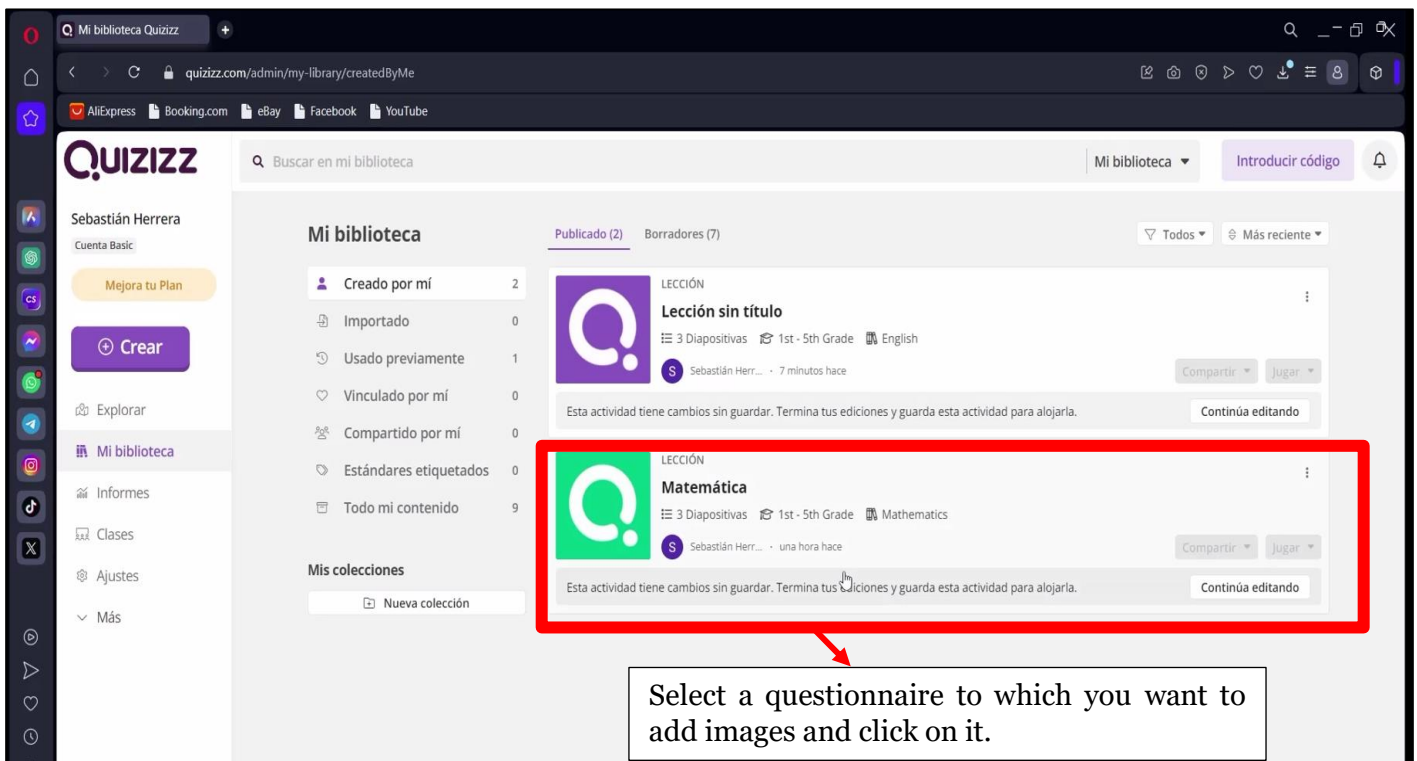

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

- Then, once you have entered the Quizizz website and created your account, you click on the "My Library" option.

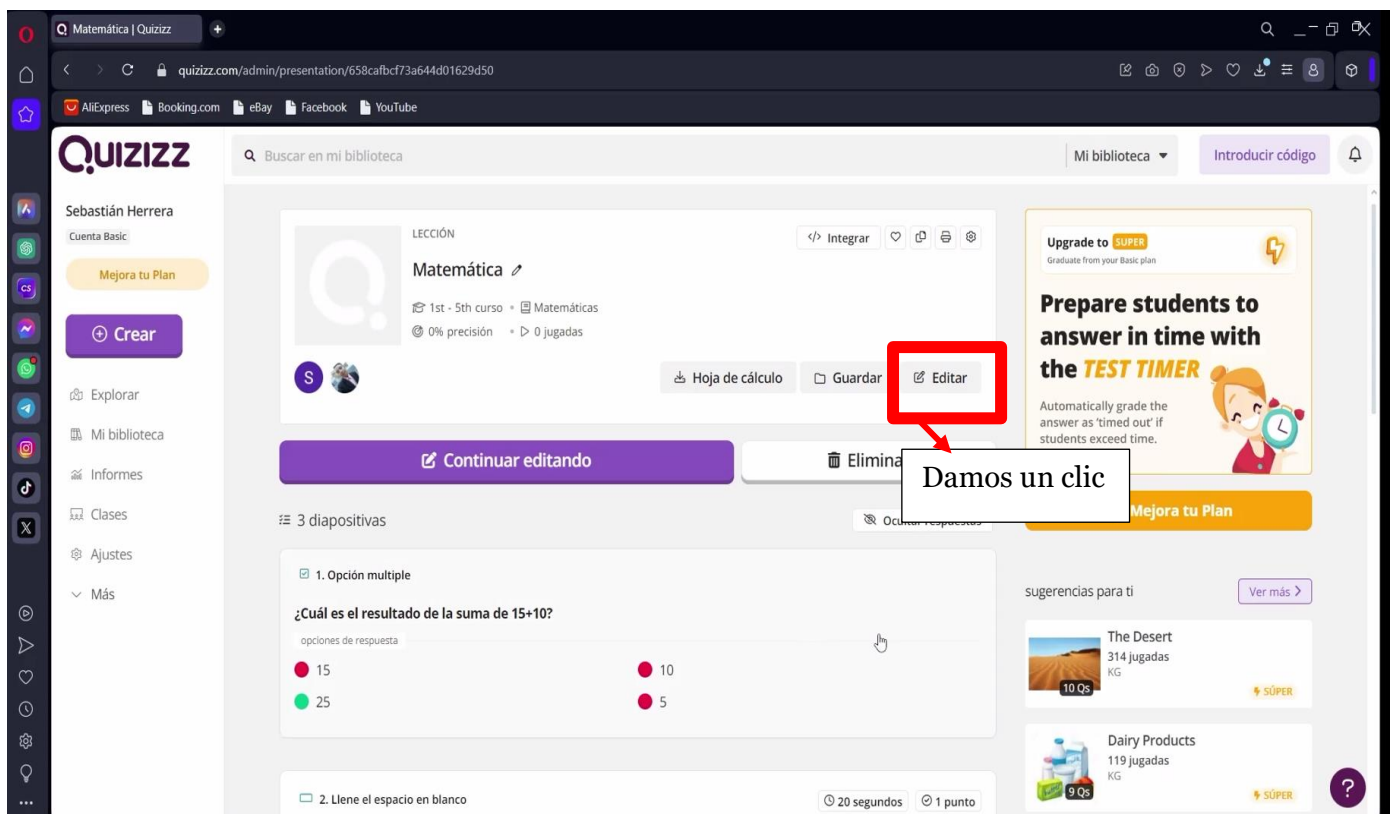

- Tercero, se nos despliega los cuestionarios que hemos creado anteriormente para lo cual se debe seleccionar uno, en mi caso elegí el cuestionario denominado “matemática”.

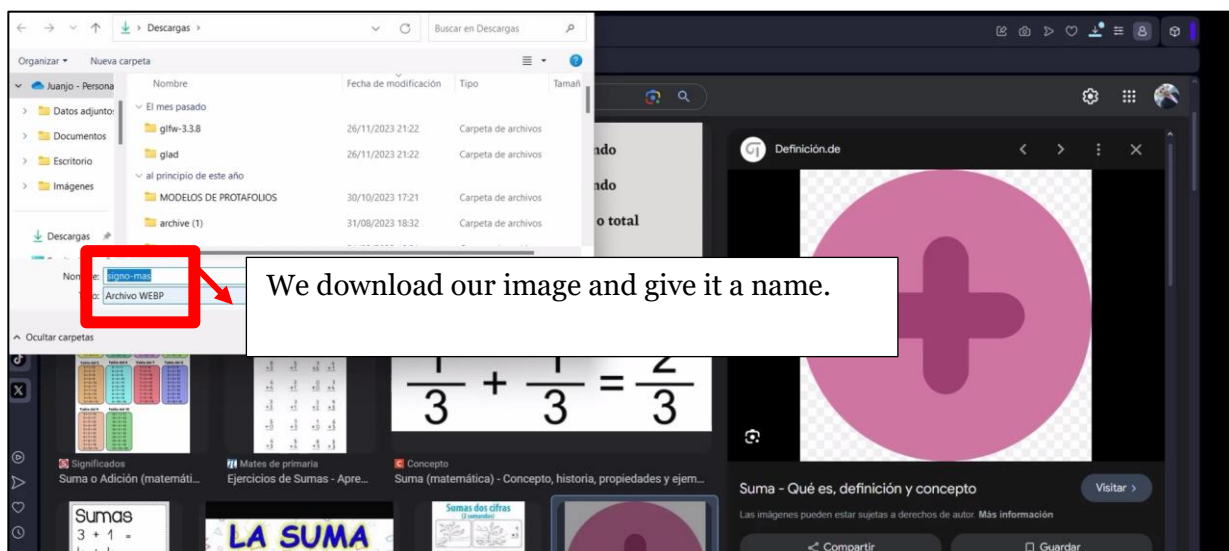

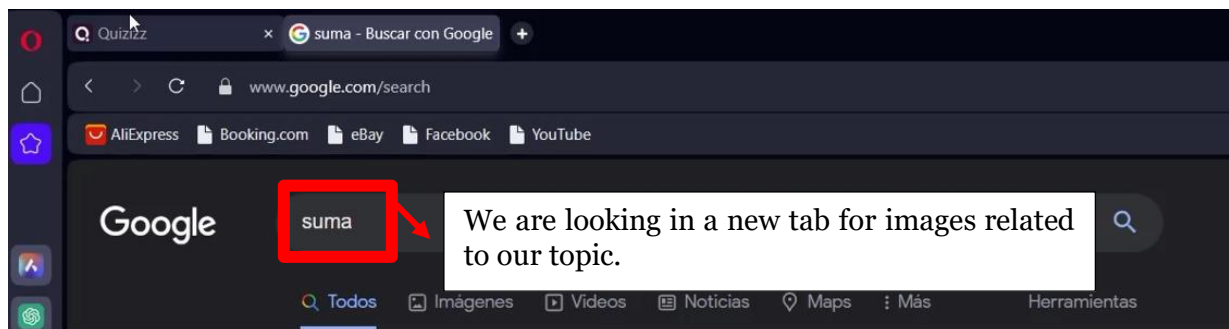

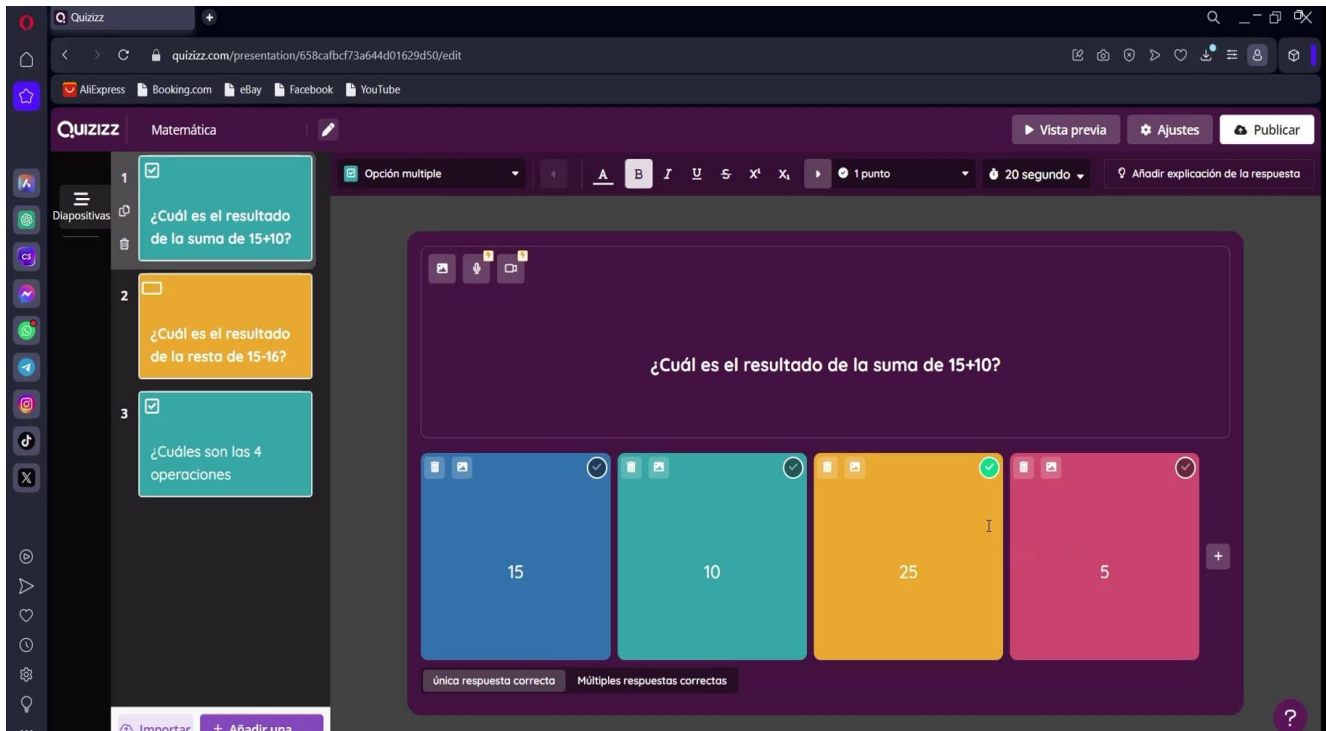

The screenshot shows the Quizizz admin dashboard. On the left is a sidebar with navigation options like 'Explorar', 'Mi biblioteca', 'Informes', 'Clases', 'Ajustes', and 'Más'. The main area is titled 'Mi biblioteca' and shows a list of quizzes. Two quizzes are visible: 'Lección sin título' and 'Matemática'. The 'Matemática' quiz is highlighted with a red rectangular box. Below the box, a text box with an arrow pointing to the quiz says: "Select a questionnaire to which you want to add images and click on it."

- Fourth, once we have clicked on the questionnaire, the questionnaire with the questions is displayed, from which we must click on the edit button.

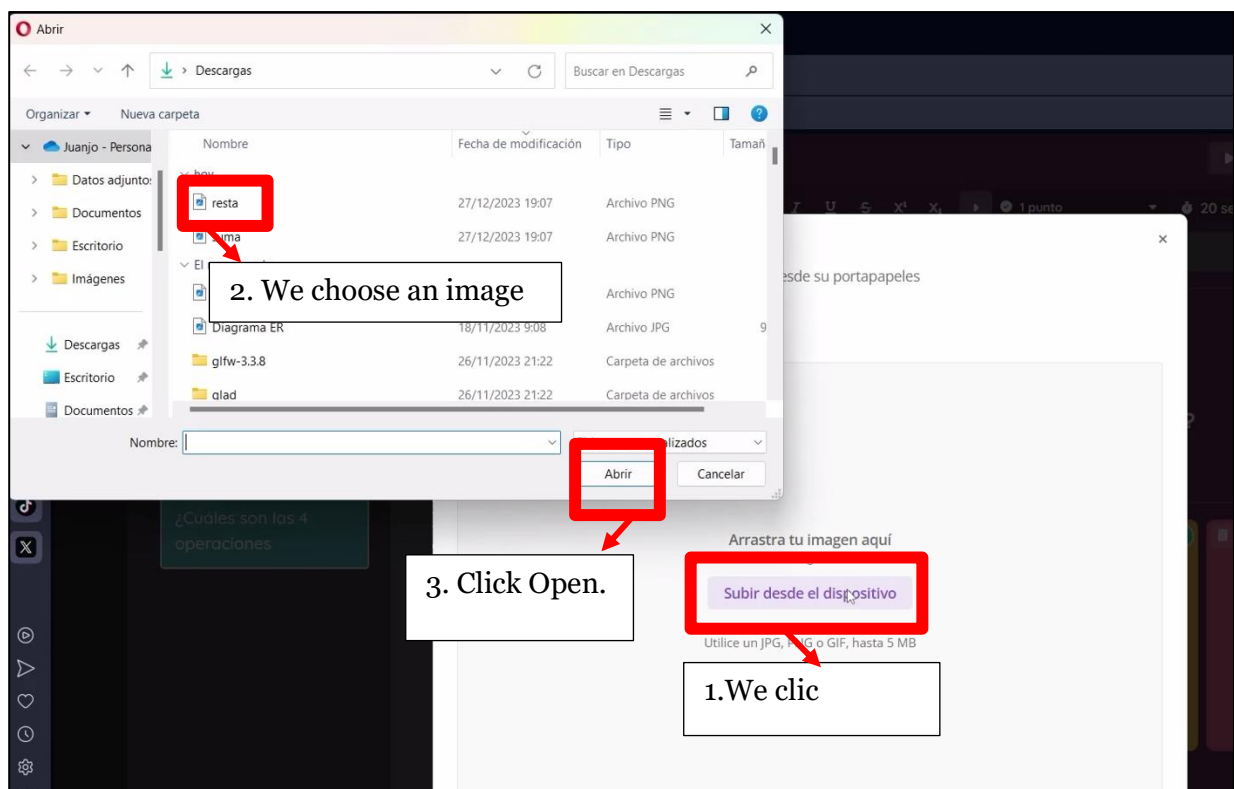

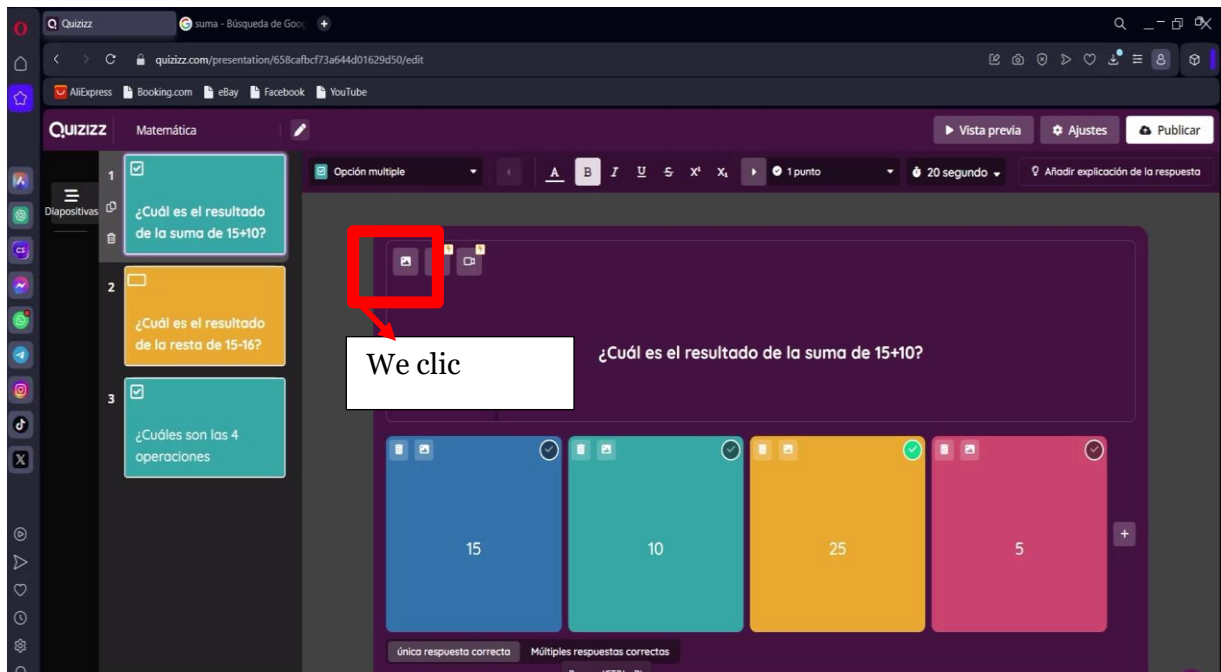

The screenshot shows the Quizizz admin dashboard for editing a quiz. The quiz title is 'Matemática'. Below the title, there are buttons for 'Integrar', 'Hoja de cálculo', 'Guardar', and 'Editar'. The 'Editar' button is highlighted with a red rectangular box. Below the box, a text box with an arrow pointing to the button says: "Damos un clic". The main area shows the quiz content, including a question: "¿Cuál es el resultado de la suma de 15+10?" with multiple choice options: 15, 25, 10, and 5. There are also buttons for 'Continuar editando' and 'Eliminar'.

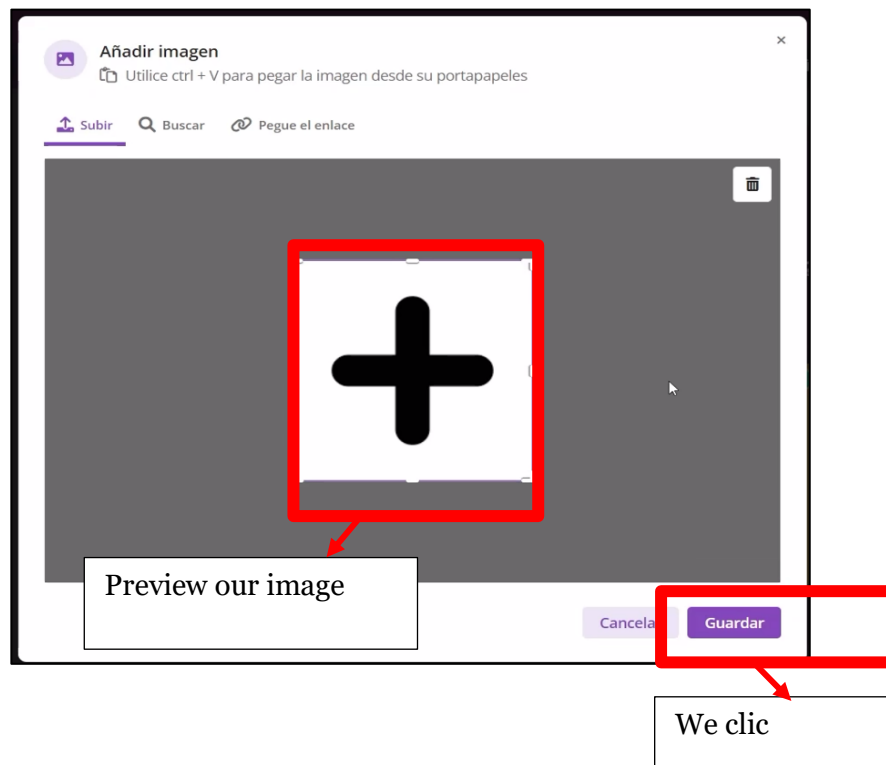

- Quinto, al dar en el botón editar se nos despliega nuestras preguntas creadas, lo que vamos a realizar es abrir una nueva pestaña y buscar imágenes que hagan referencia a nuestro tema del cuestionario y descargamos las imágenes necesarias dando clic derecho sobre la imagen y en la opción “Guardar imagen como”.

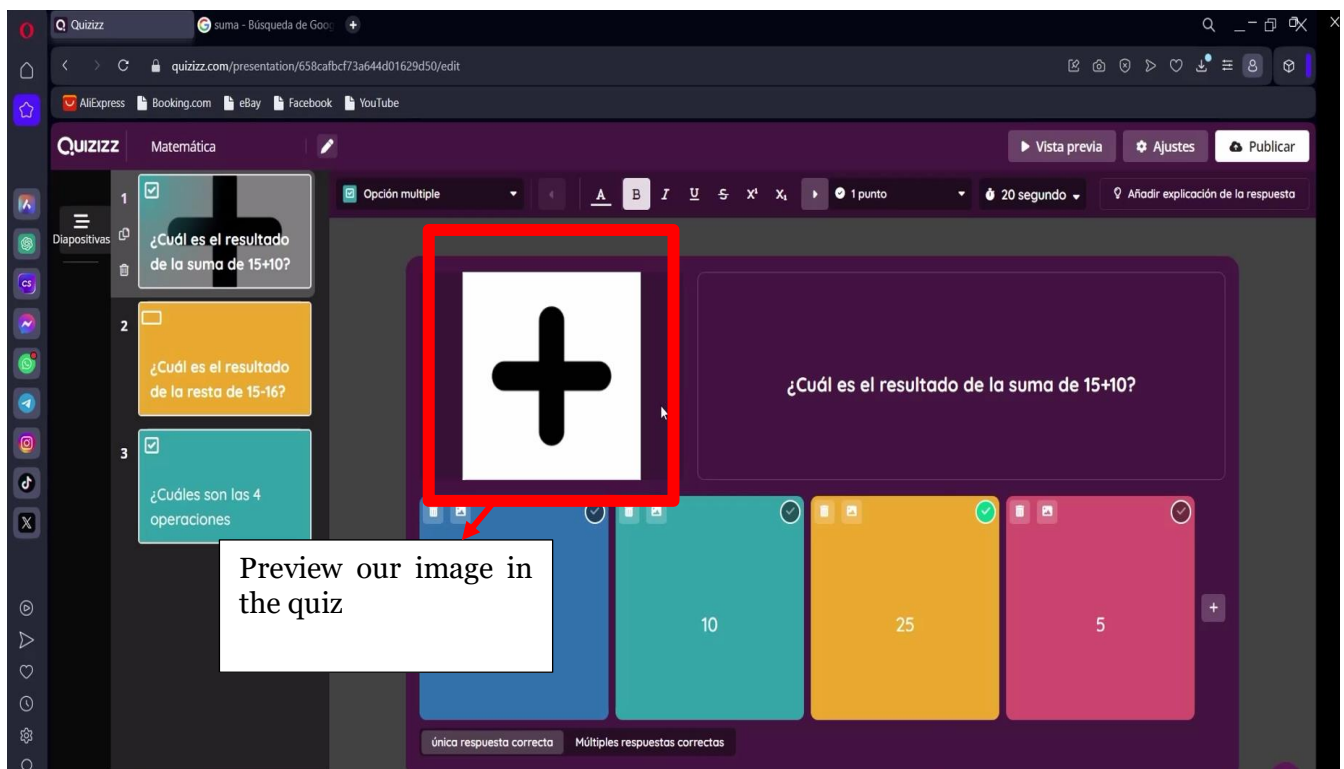

- Sexto, luego de descargar las imágenes necesarias regresamos a nuestro cuestionario y le damos un clic en la opción de “añadir una imagen” y se nos despliega una ventana para poder subir nuestra imagen descargada.

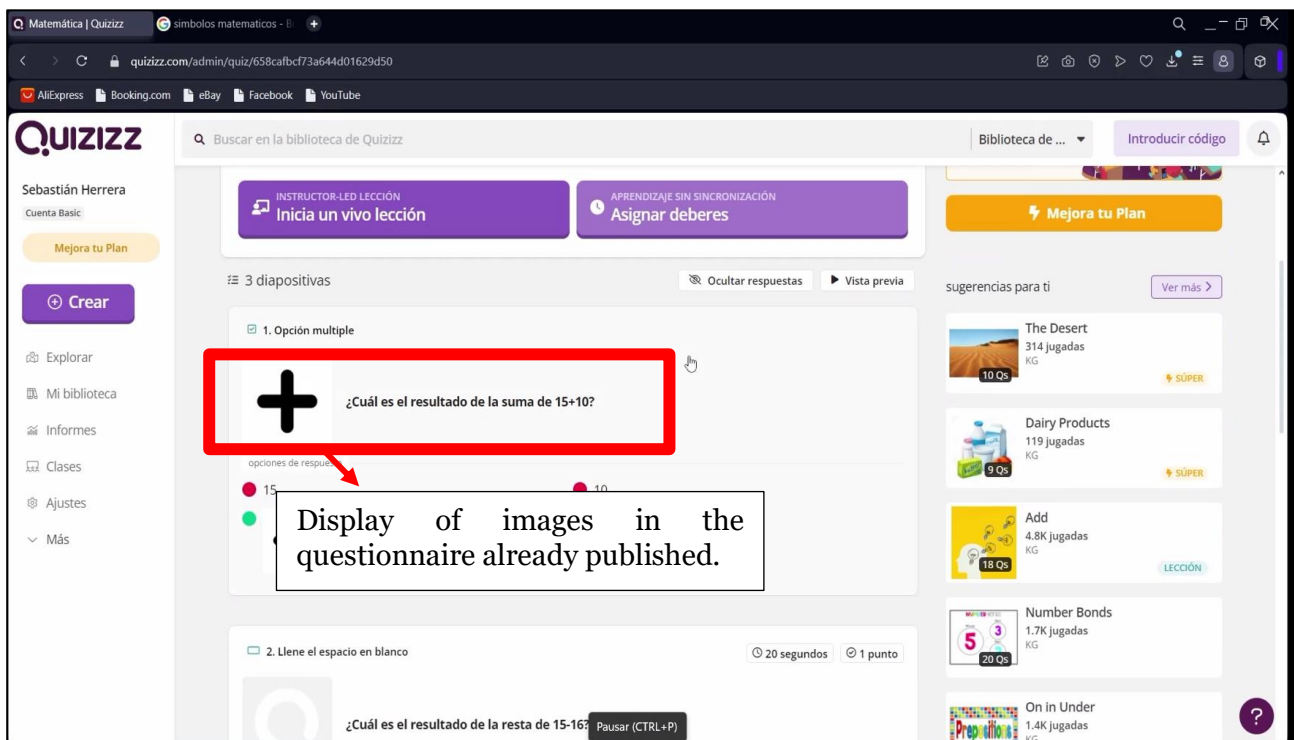

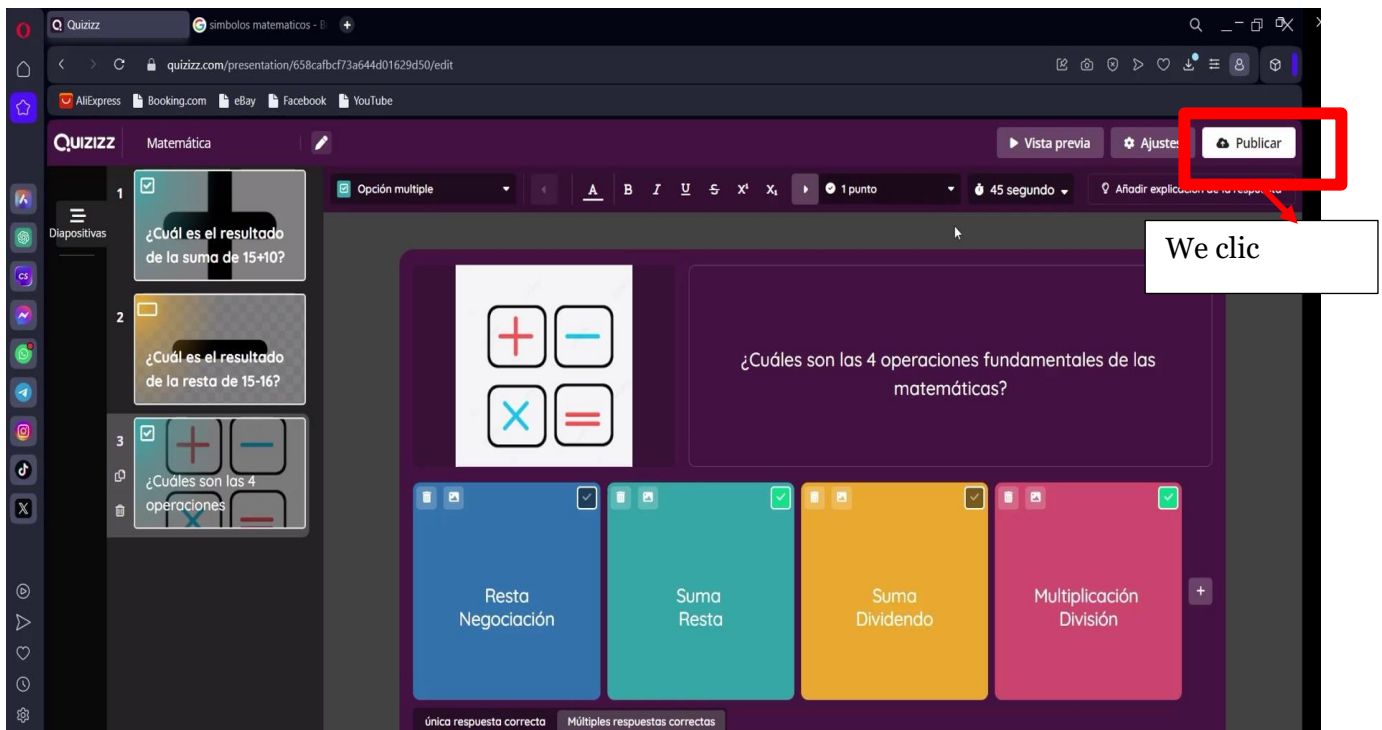

- Seventh, once we click on the open button, a preview of our image appears, for which we simply click on the save button.

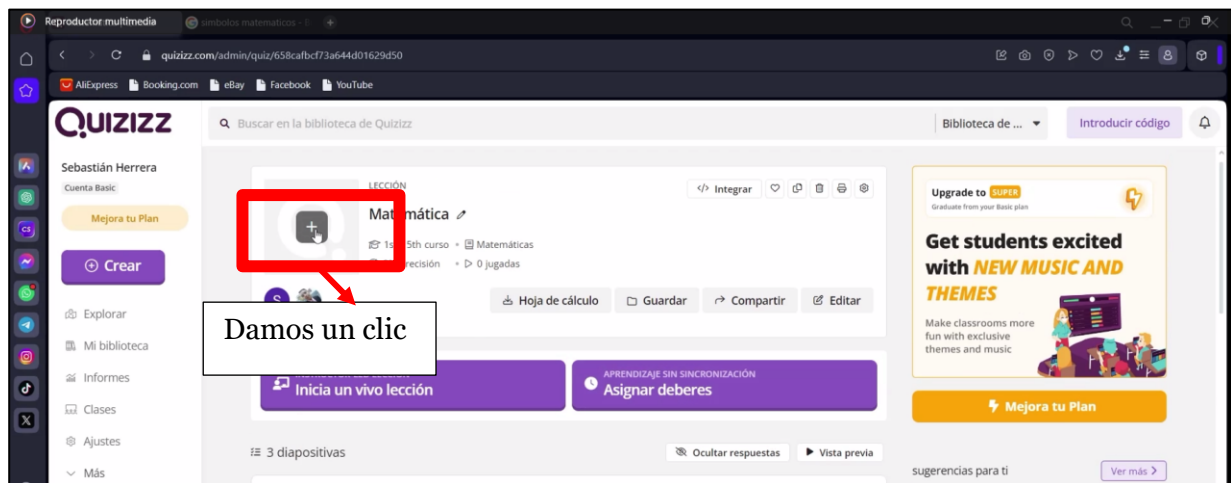

- OCTAVO, after clicking on the save button, throws us our questionnaire with the predefined image and the same procedure we perform for the rest of the questions.

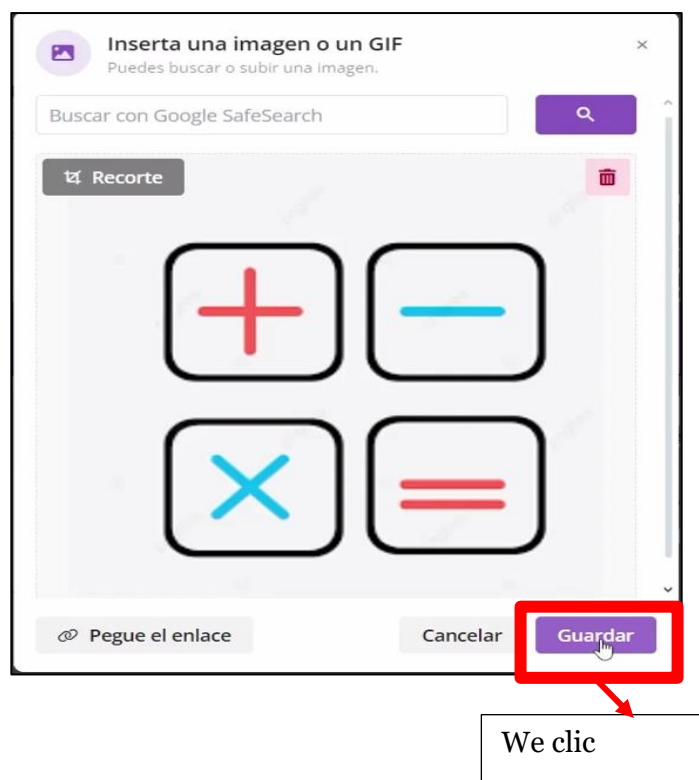

- To save the changes made we click on the publish button, the respective changes will be saved and after a few seconds we are presented with our questionnaire with the respective images.

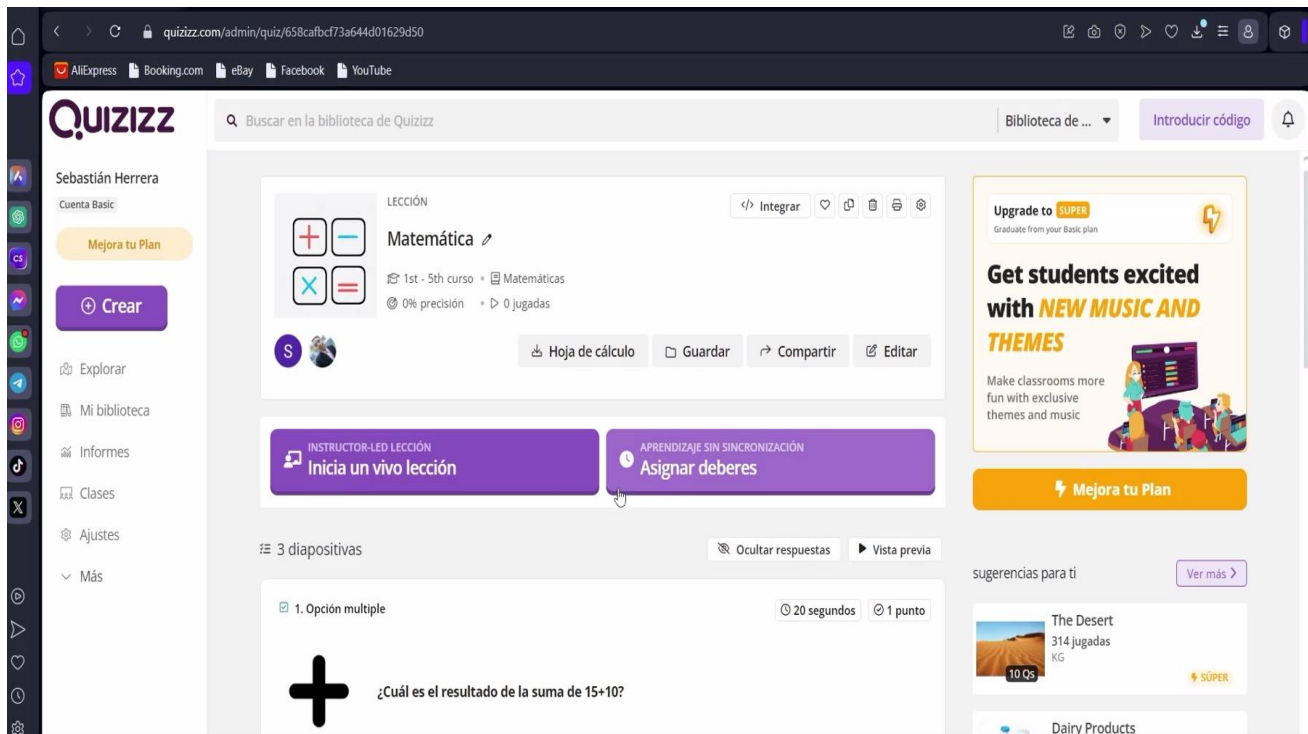

- Finally, we add a profile picture to our questionnaire by going to the main part and clicking on the + button.

- Finally, we perform the same steps as above to upload an image, click save, and then we are presented with the profile picture in our questionnaire.

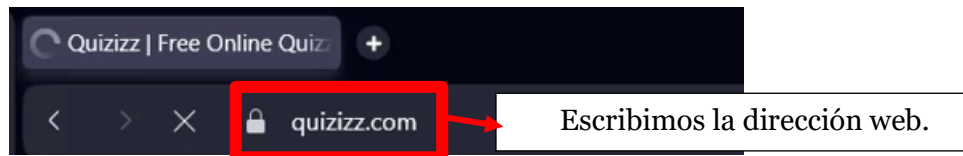

NOTE 5: To use the Quizizz web application and add images in one of our questionnaires it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to download the images correctly with the appropriate extensions so that there are no inconveniences when uploading the images.

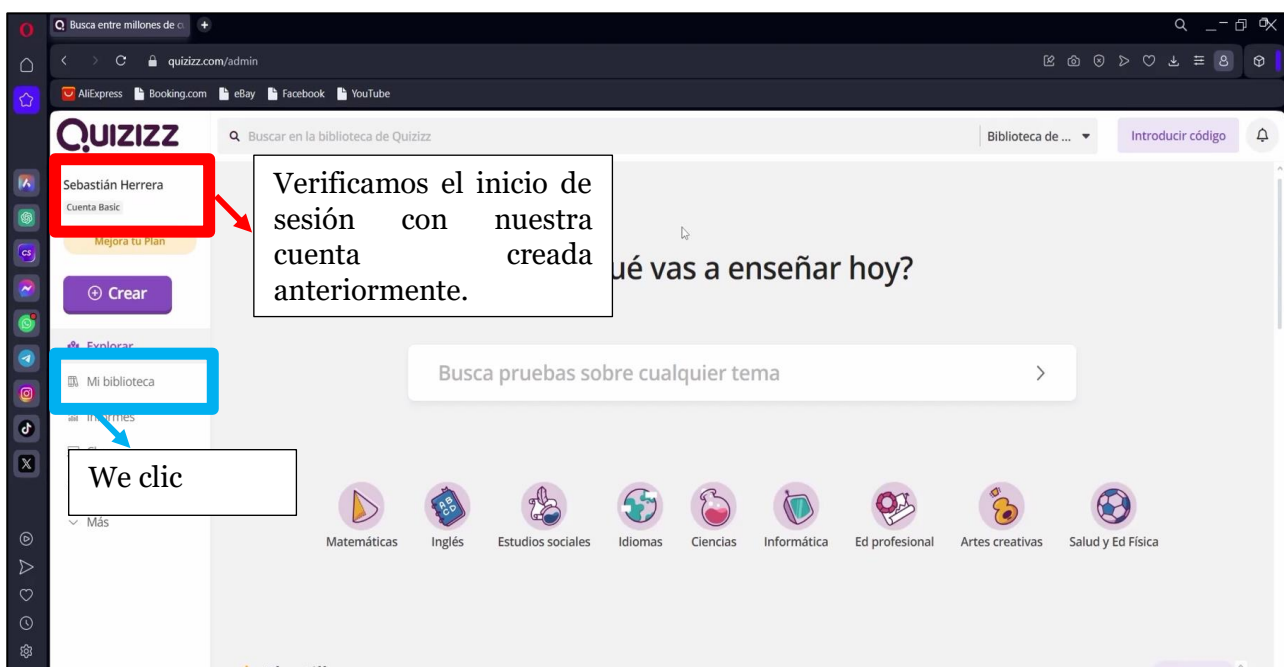

How To Add Music And Audio To One Of Quizizz's Quizzes? (Based on video 6)

To add music and audio to a quiz previously created in Quizizz, you need to follow the steps below:

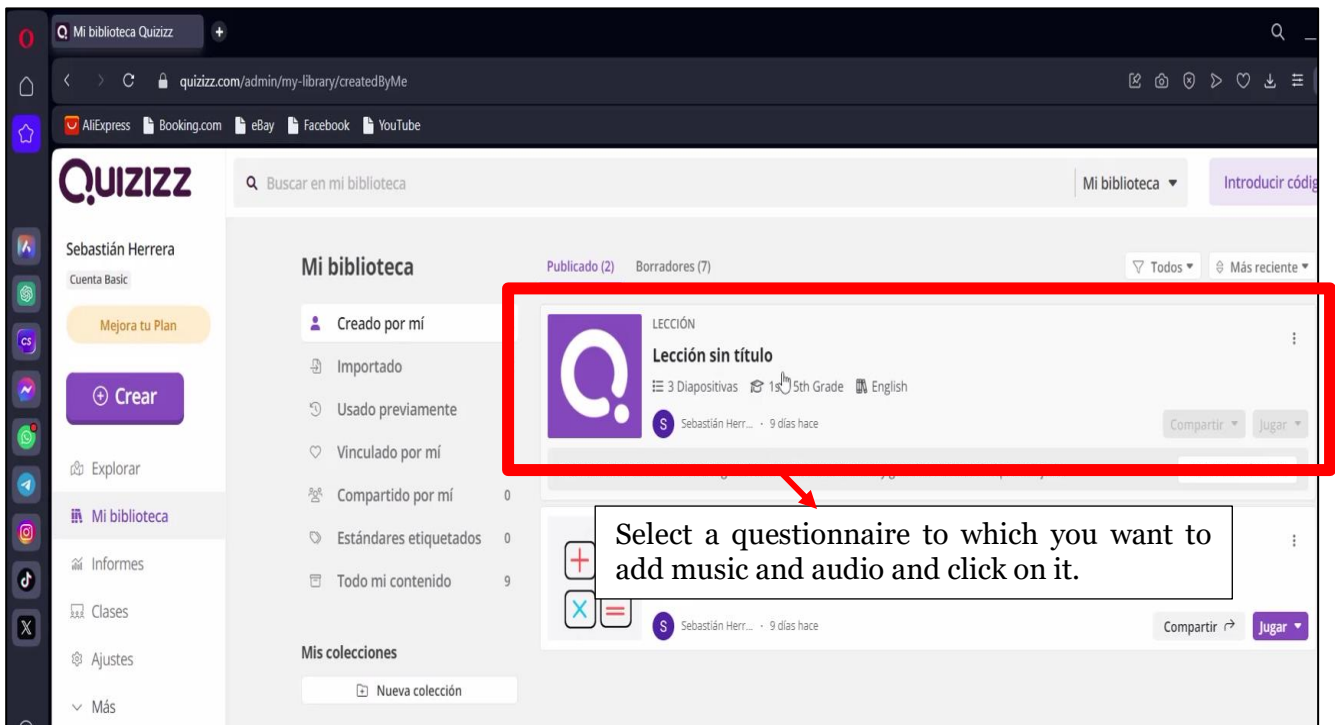

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

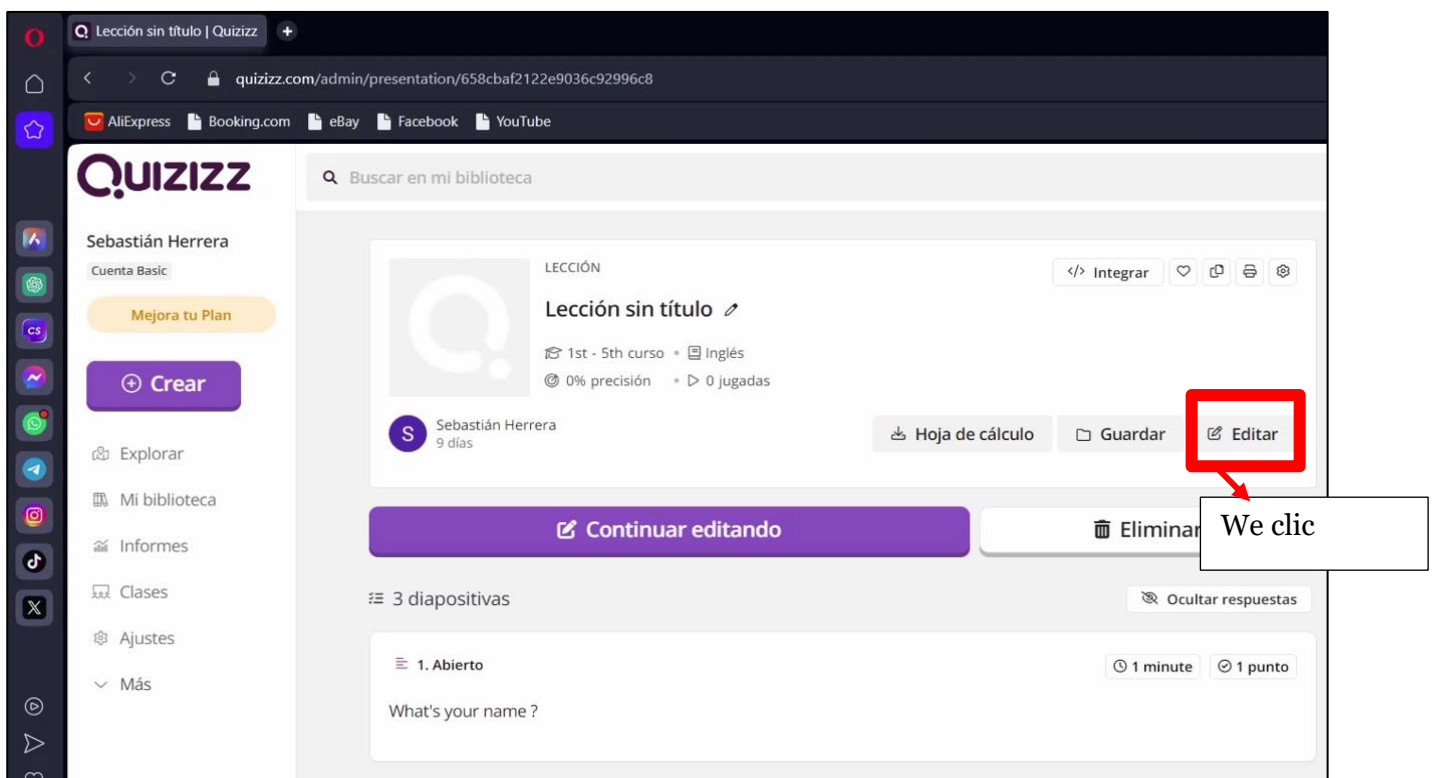

- Second, once you have entered the Quizizz website and with your account created, you click on the "My Library" option.

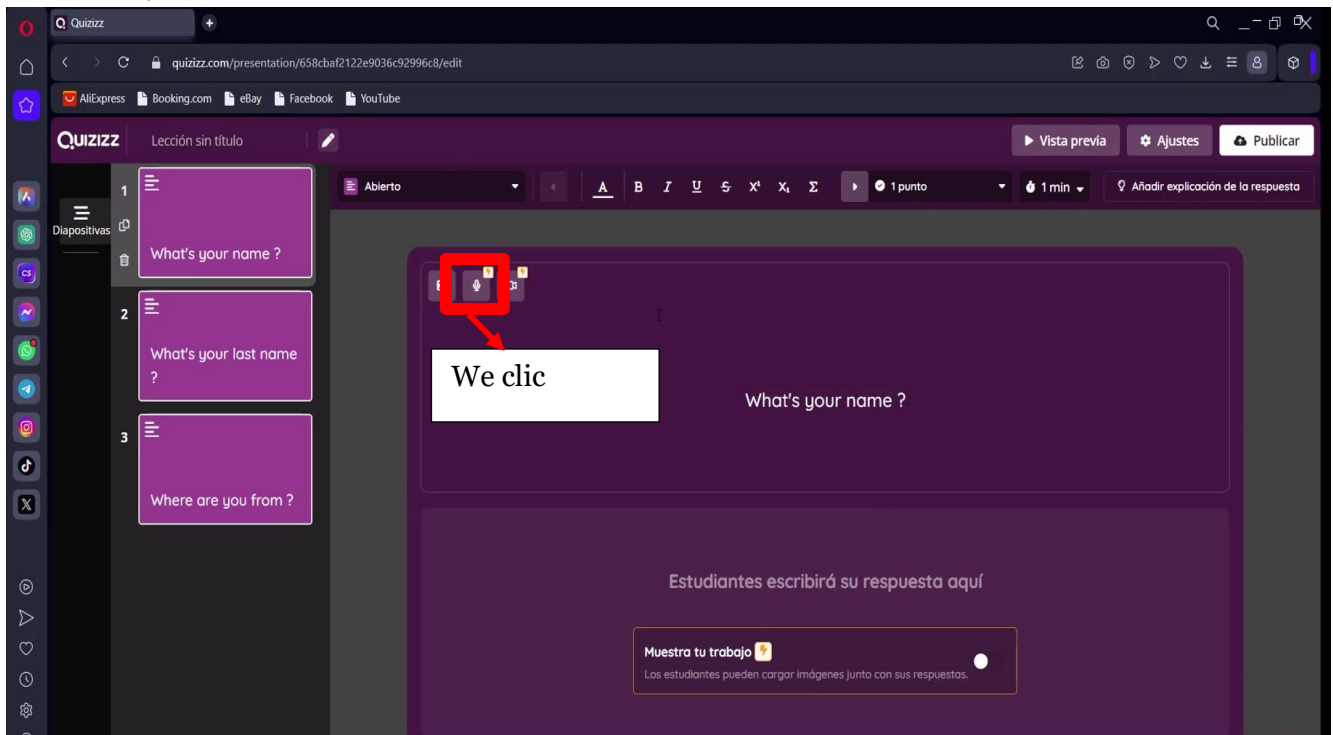

- In my case, I chose the questionnaire called "Untitled Lesson".

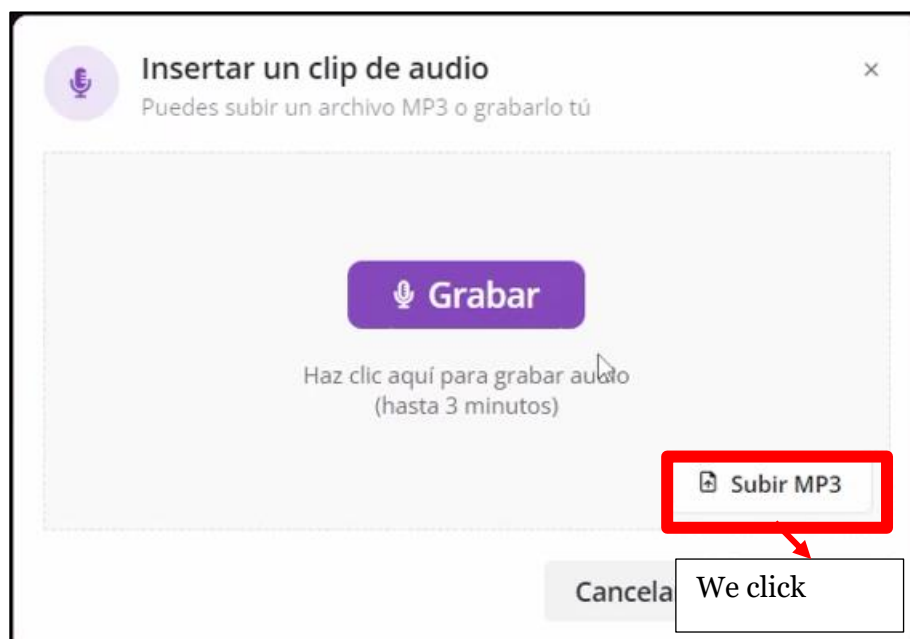

- Once we have clicked on the questionnaire, the questionnaire with the questions is displayed, of which we must click on the edit button.

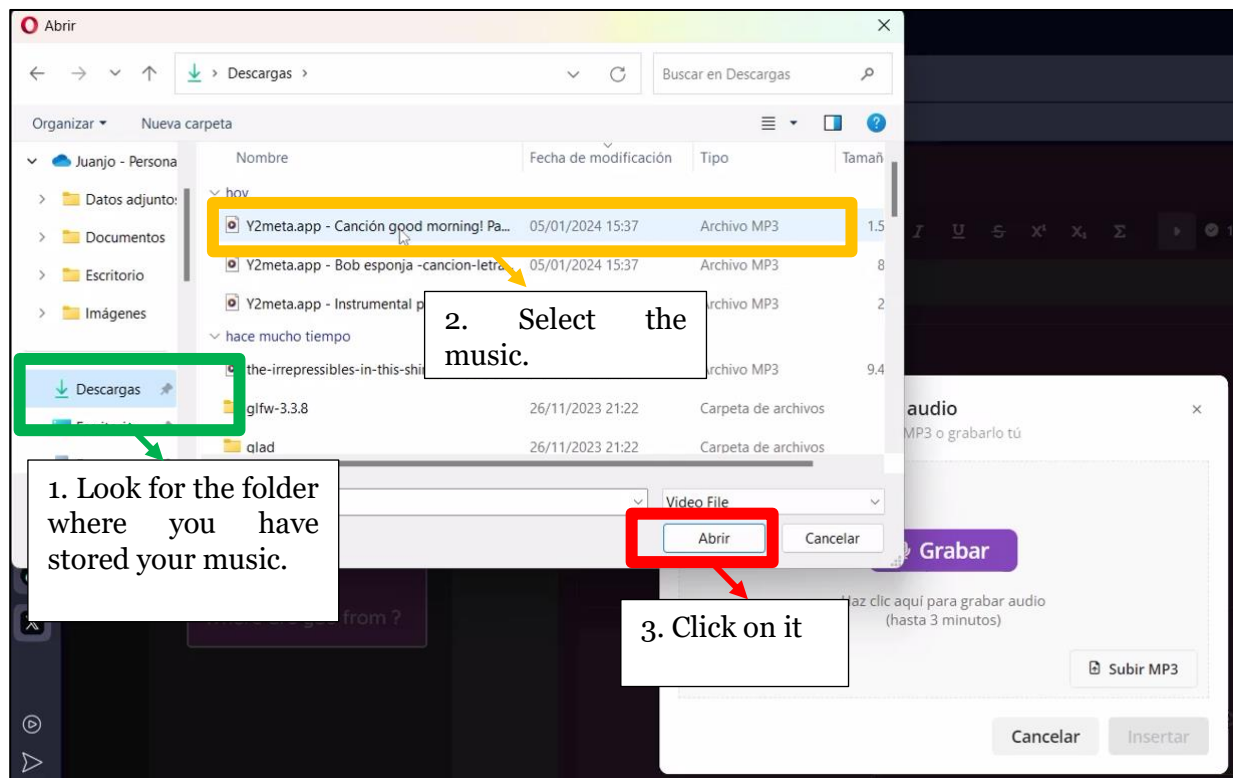

- If you click on the Edit button, your created questions are displayed, what you are going to do is click on the option to add audio (where a microphone is located) on one of the slides and then you will do it for the rest of the slides.

- Sixth, a new window opens to be able to upload our music in MP3 format or record audio instantly. First it is done by uploading a music in MP3 format, where you must click on the option Upload MP3 and then another window is displayed from which you must look for the folder where you have stored the music and simply select one to upload it, once selected we click on open.

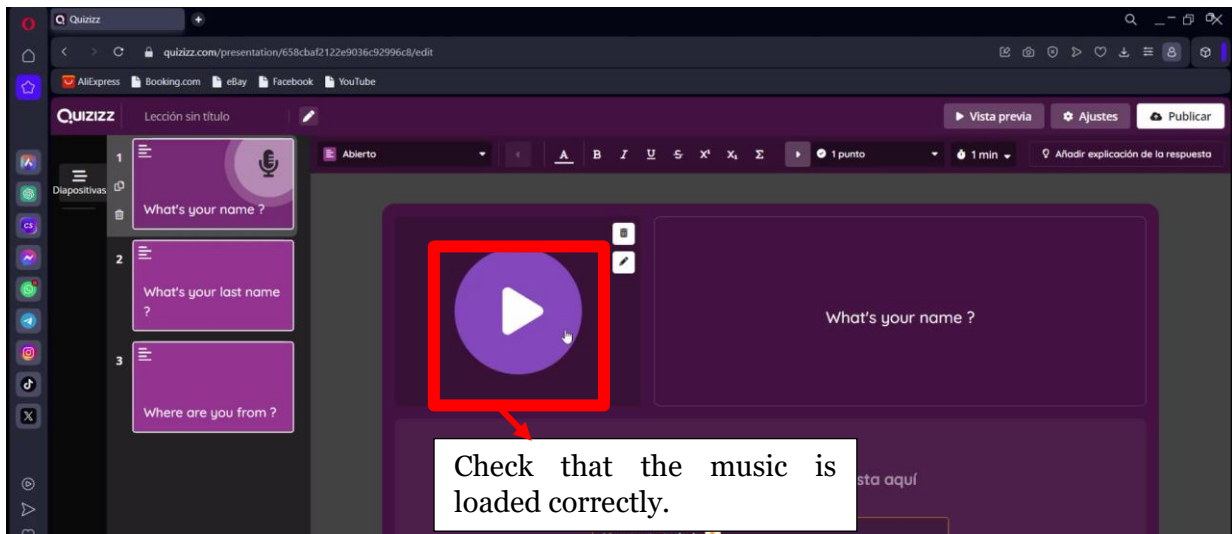

- Seventh, after clicking Open, a window is displayed with our loaded music, in which we can play, pause or delete it if required, if the selected music is correct we simply click on the insert option.

- We check that our audio is loaded correctly.

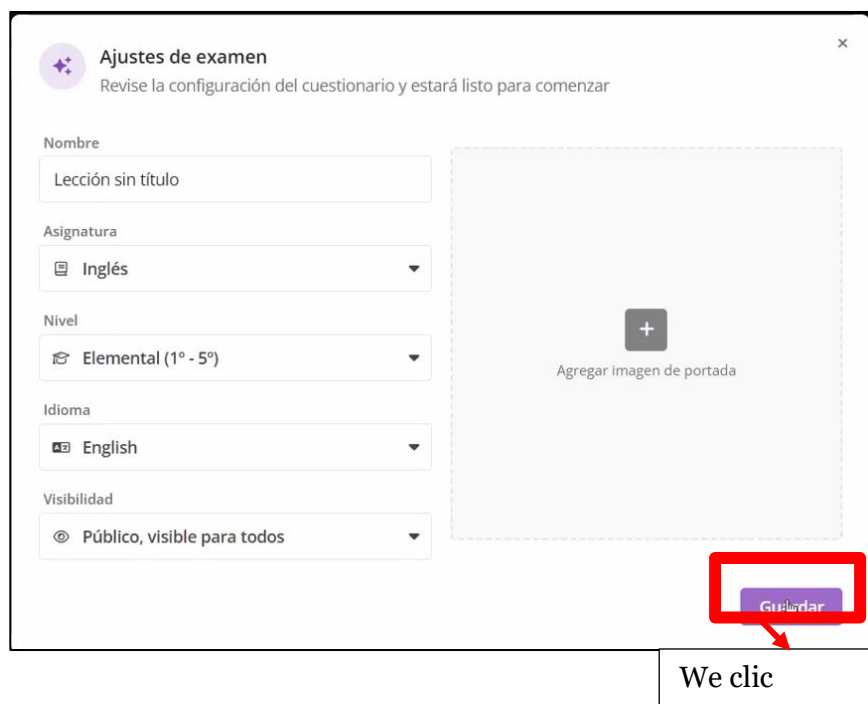

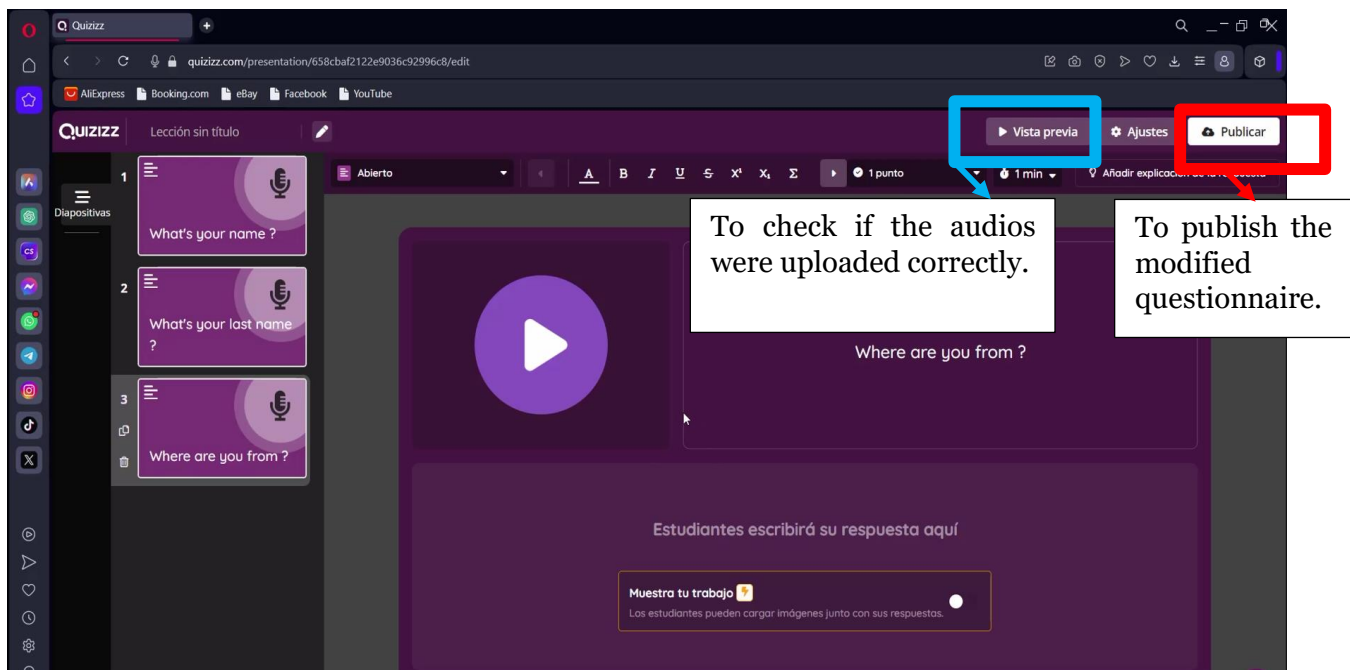

- Now the second method is recording an audio, for which we also click on the add audio button on the second slide (symbol of a microphone) and a window is displayed in which we are going to click on the record option, then we are presented with a warning in which we must allow the browser to allow us to use the microphone, where we just click on the allow button.

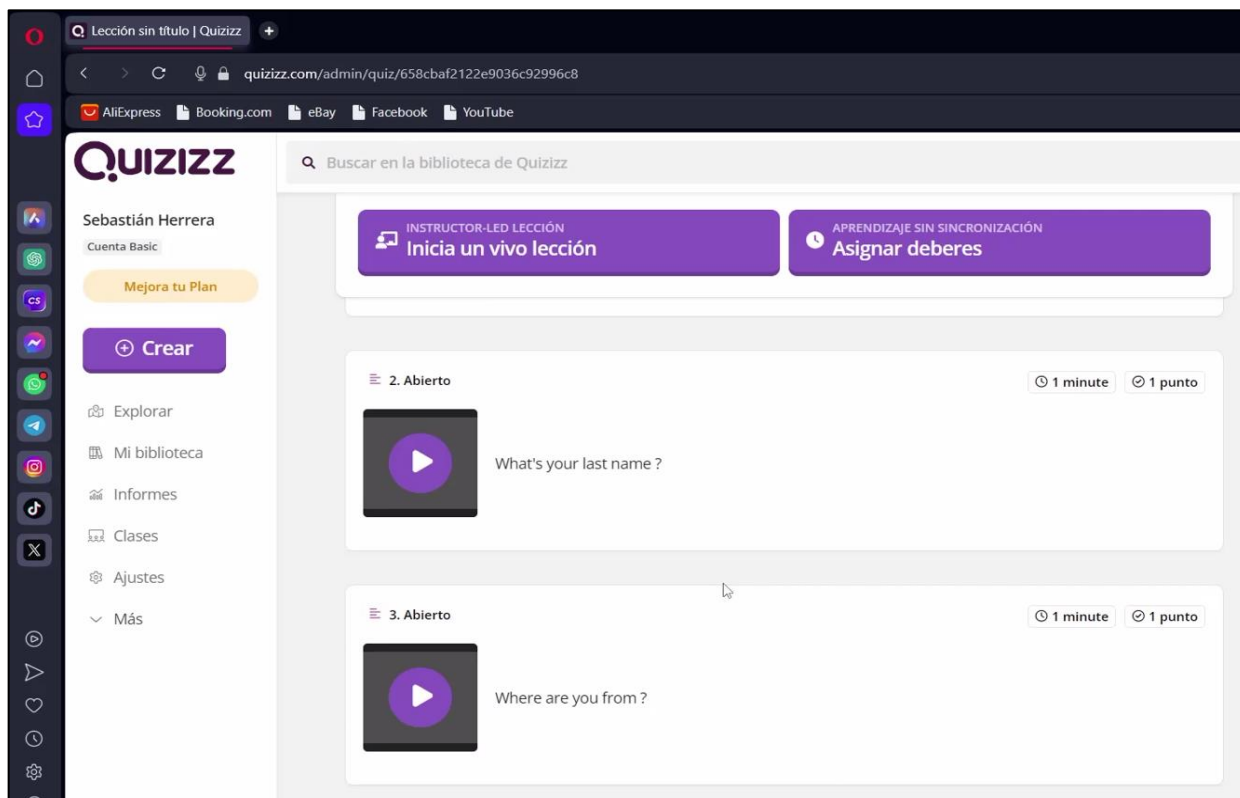

- Eighth, we start with the recording of our audio instantly, once we finish our audio we simply click on the option to stop recording and after that we are presented in a window our loaded audio with the same options of music in MP3 format, where we simply click on the Insert option.

- If we want to check that our audios were loaded correctly, we click on the Preview option, otherwise if we want to publish our questionnaire made with the necessary modifications, we click on the Publish option, then a window with the data of our questionnaire is displayed where we simply click on save.

- Finalmente, después de dar un clic en la opción de Guardar, comprobamos que los cambios realizados con la opción de agregar música y audios fue realizada correctamente en nuestro cuestionario.

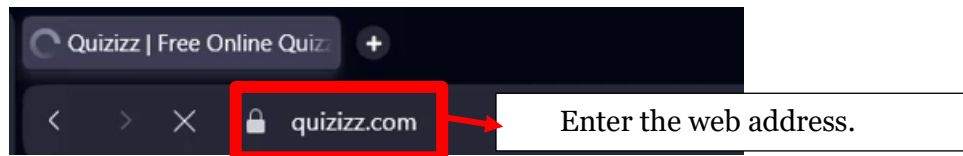

NOTE 6: To use the Quizizz web application and add music and audio in one of our questionnaires it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to have downloaded on the computer the music that you are going to make loaded on the slides, so that there are no inconveniences when it comes to uploading music and audios.

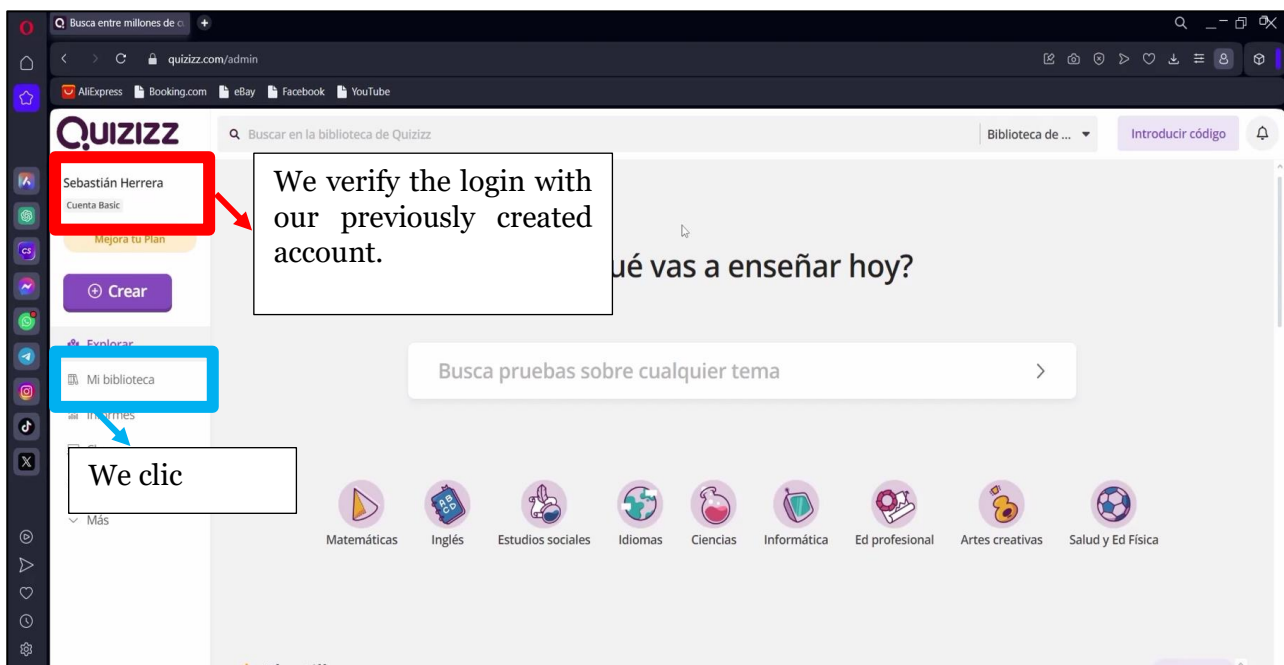

How to add videos to one of Quizizz's quizzes? (Based on video 7)

To add videos to a quiz previously created in Quizizz, you need to follow the steps below:

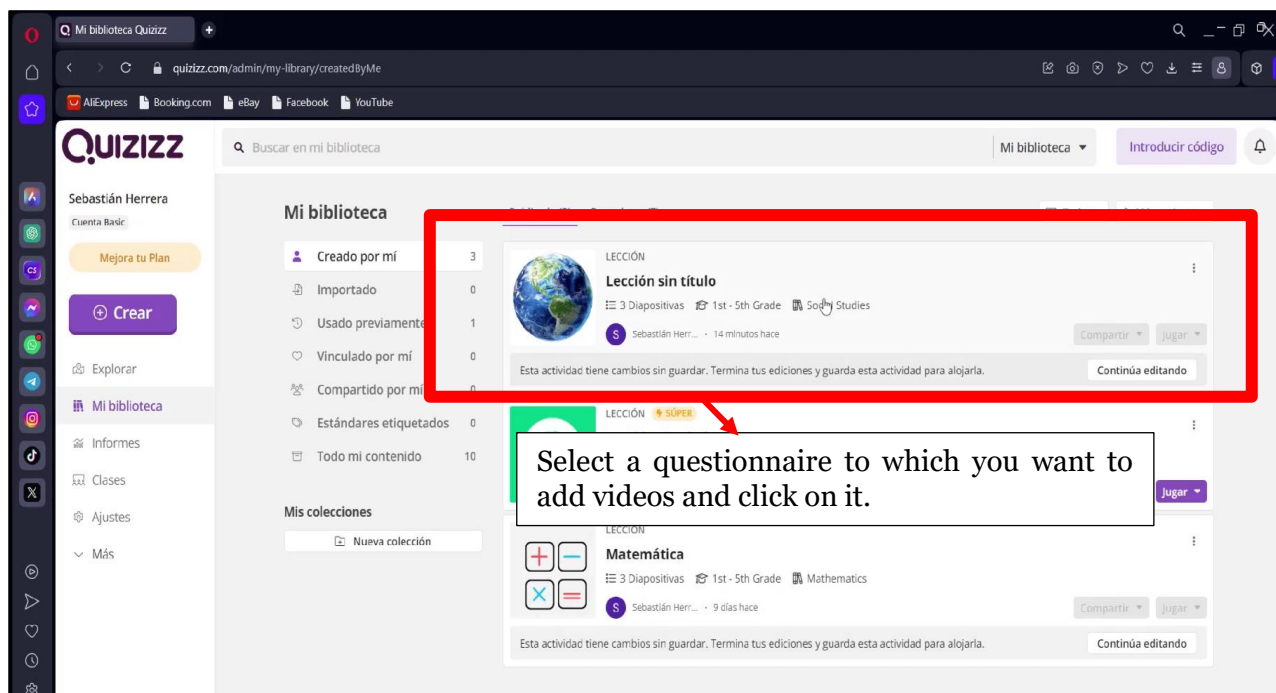

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

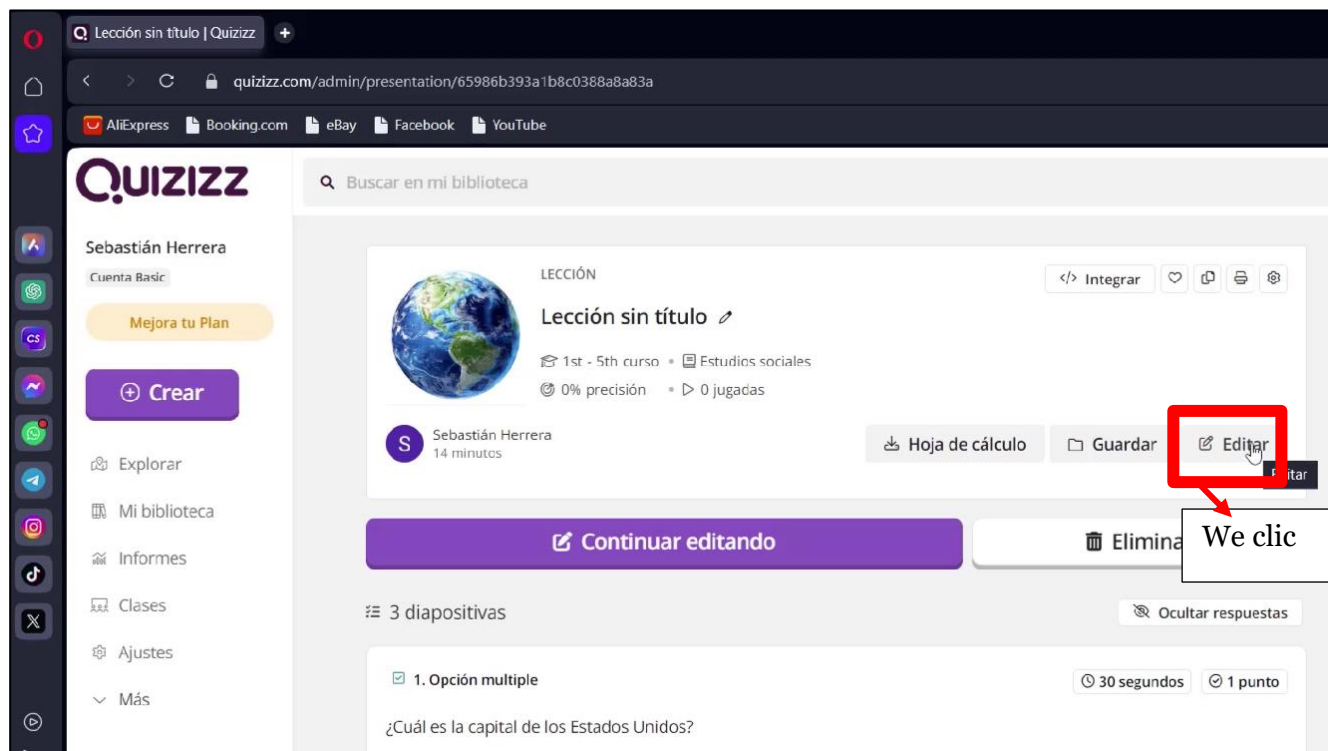

- Segundo, una vez ingresada a la página web de quizizz y con nuestra cuenta creada lo que se realiza es dar un clic en la opción “Mi biblioteca”.

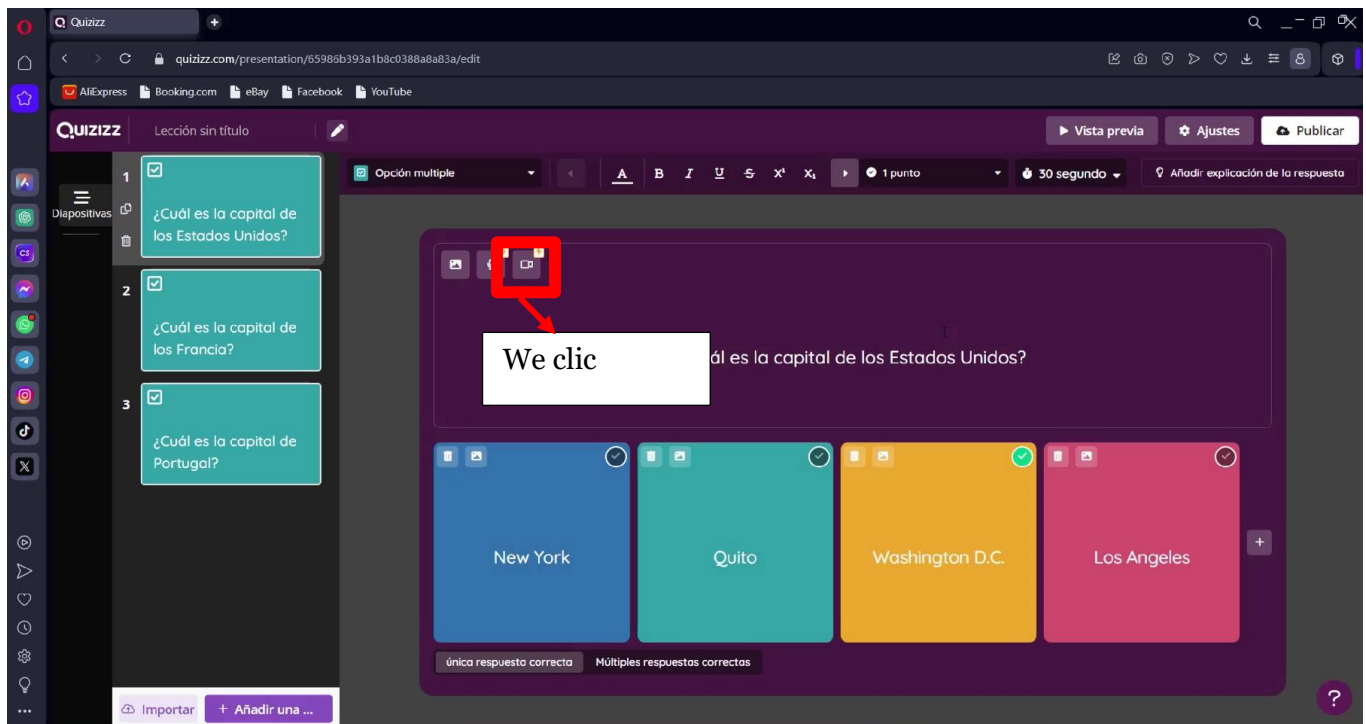

- Tercero, se nos despliega los cuestionarios que hemos creado anteriormente para lo cual se debe seleccionar uno, en mi caso elegí el cuestionario denominado “lección sin título”.

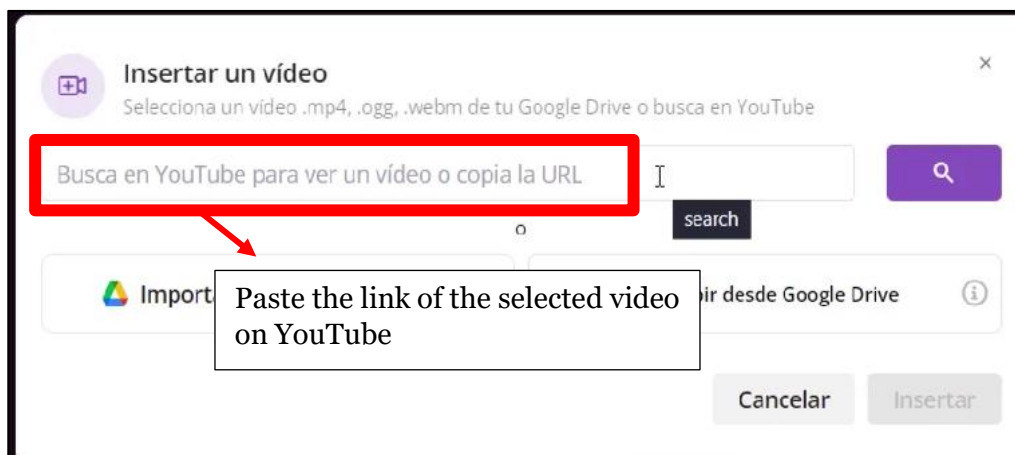

- Fourth, once we have clicked on the questionnaire, the questionnaire with the questions is displayed, from which we must click on the edit button.

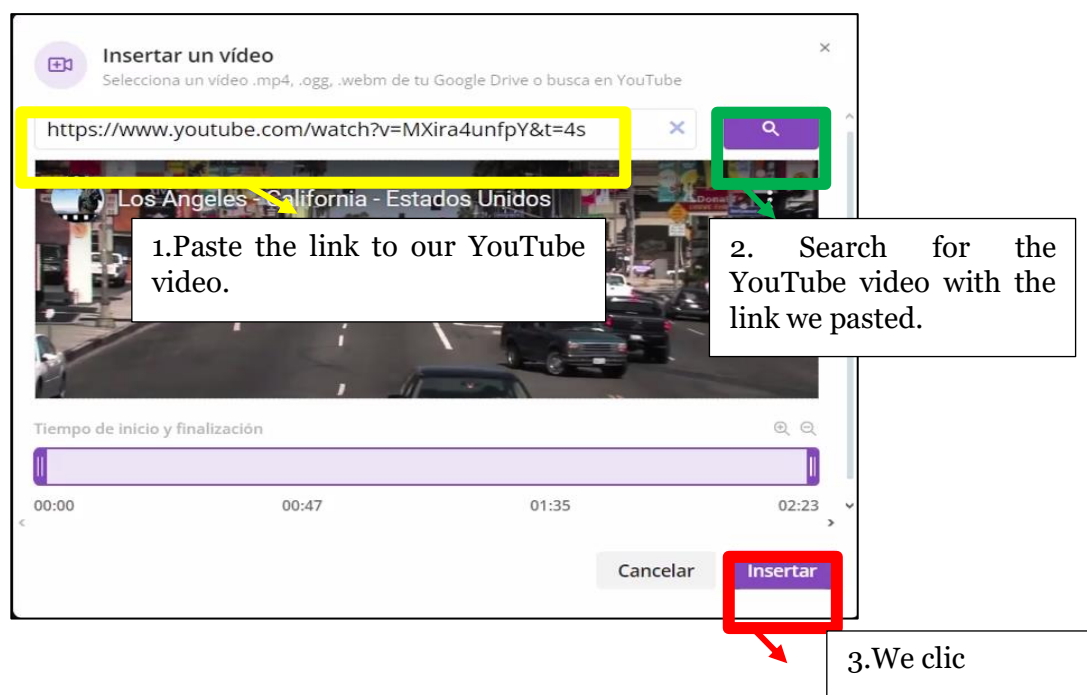

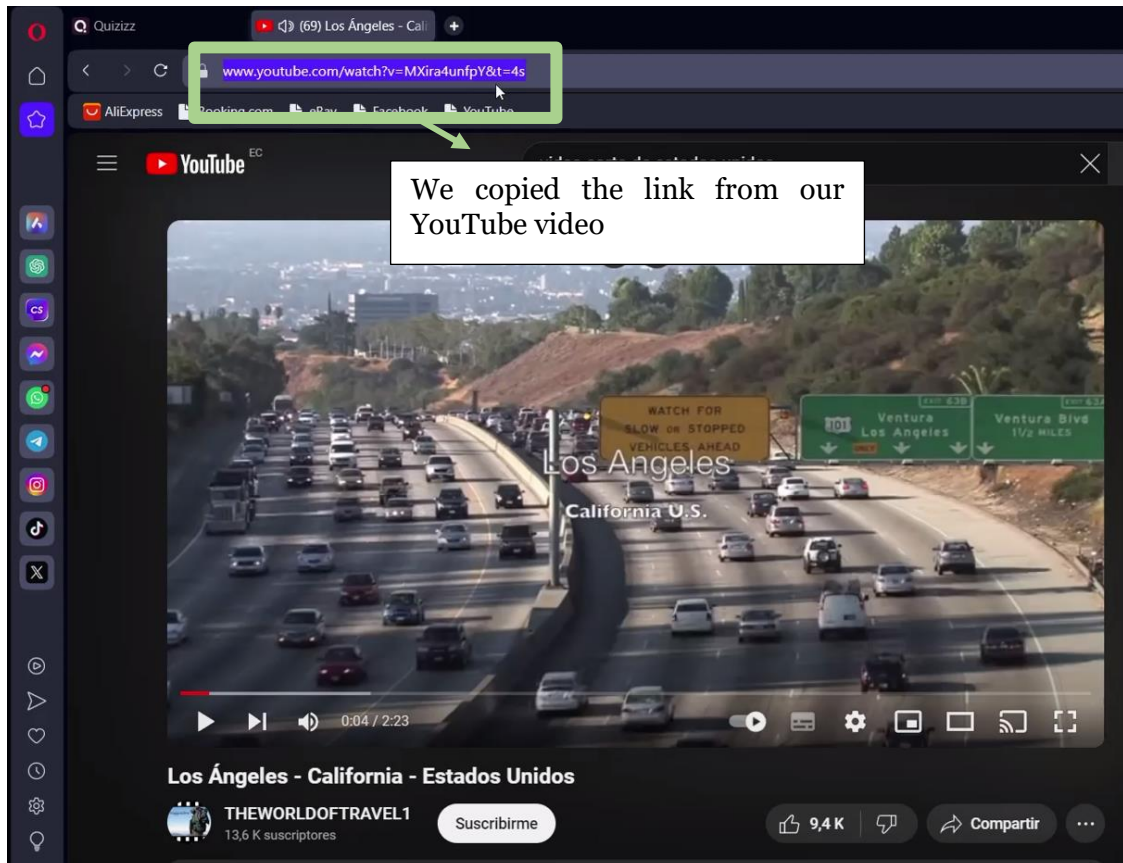

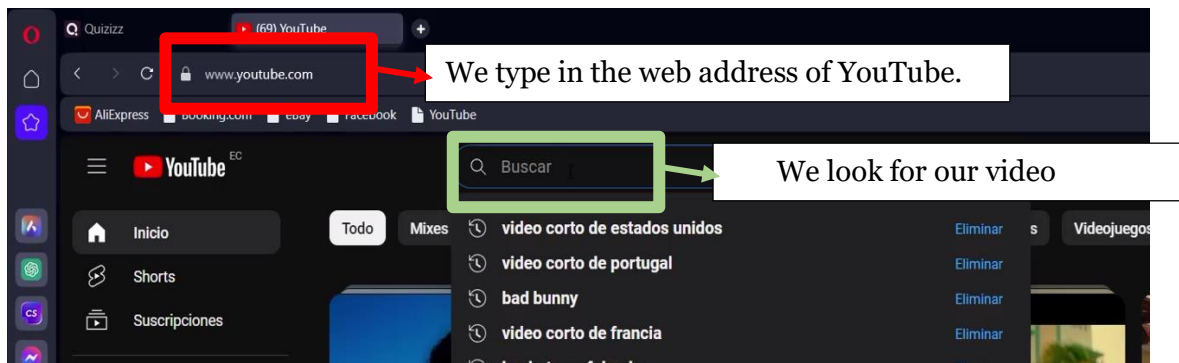

- Quinto, al dar en el botón editar se nos despliega nuestras preguntas creadas, lo que vamos a realizar es dar un clic en la opción de agregar video (donde se encuentra una cámara) en una de las diapositivas y luego realizamos para el resto de las diapositivas.

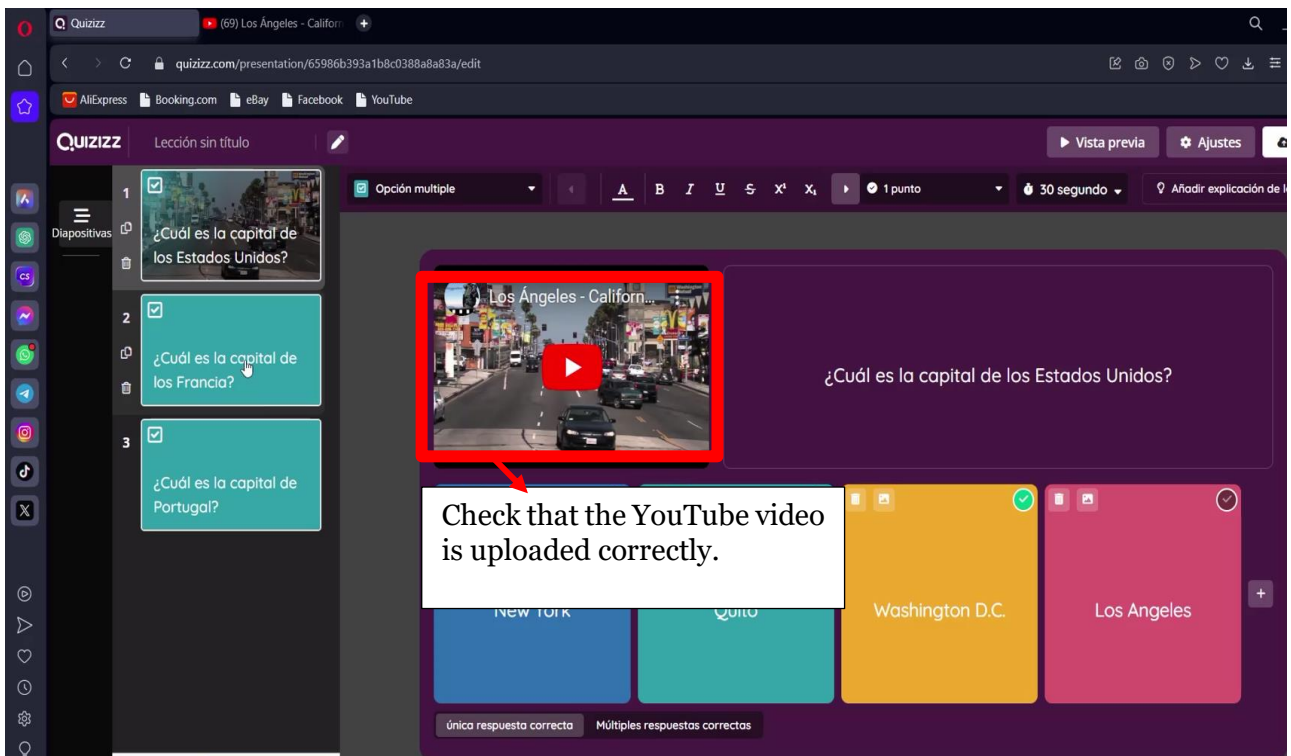

- Sixth, a new window opens for us to be able to upload our link to the YouTube application video, where we must first open a new tab and search for the application using the following link <https://www.youtube.com> where we simply search for a video related to the topic of our quiz. Once we find our video we simply copy the address and paste it into the Insert a video section of the Quizizz application, after pasting the link we click on the magnifying glass to find the video and click on Insert.

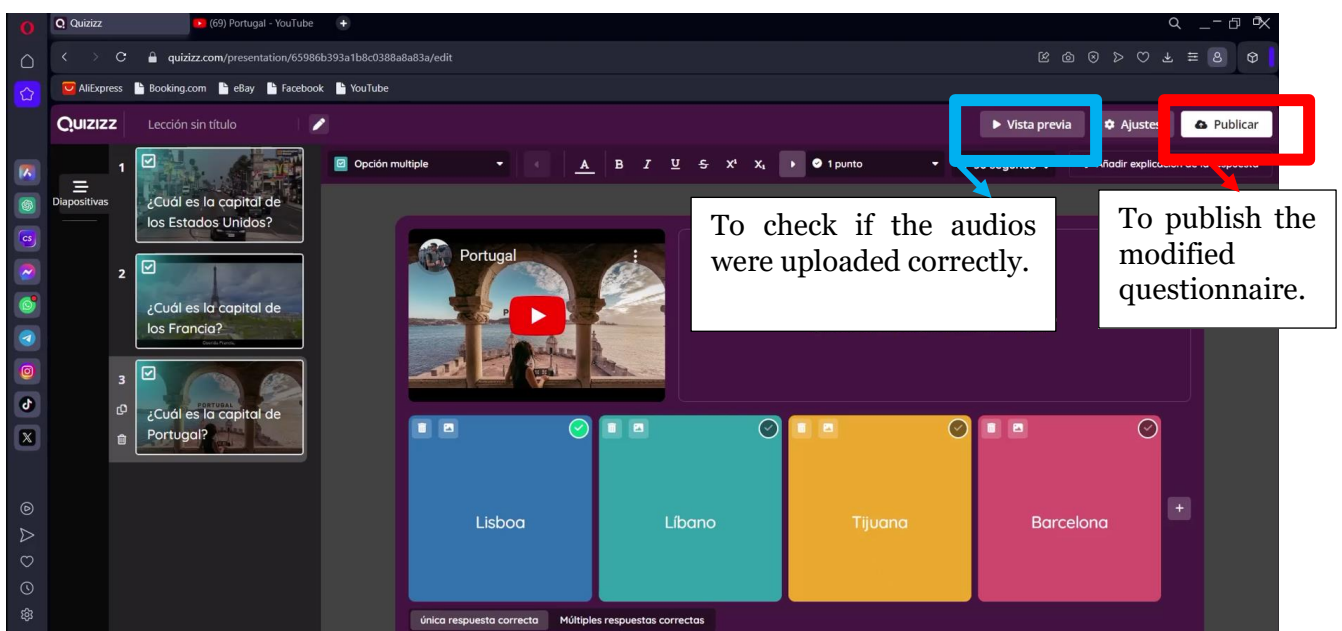

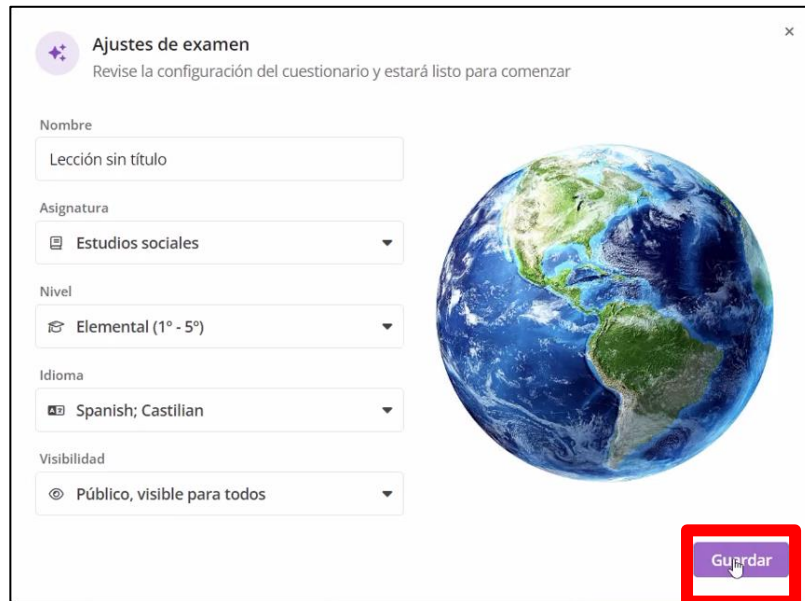

- We check that our video is loaded correctly.

- Seventh, we performed the same step for the rest of the slides in our questionnaire. Once we finish adding the YouTube videos for all the slides of our quiz and if we want to check that our videos were uploaded correctly we click on the Preview option, otherwise if we already want to publish our quiz made with the necessary modifications we click on the Publish option. Then a window is displayed with the data of our questionnaire where we simply click on save.

NOTE 7: To use the Quizizz web application and add videos in one of our quizzes it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to correctly copy the YouTube links when pasting them into the Quizizz application, This is to avoid problems when inserting the respective videos.

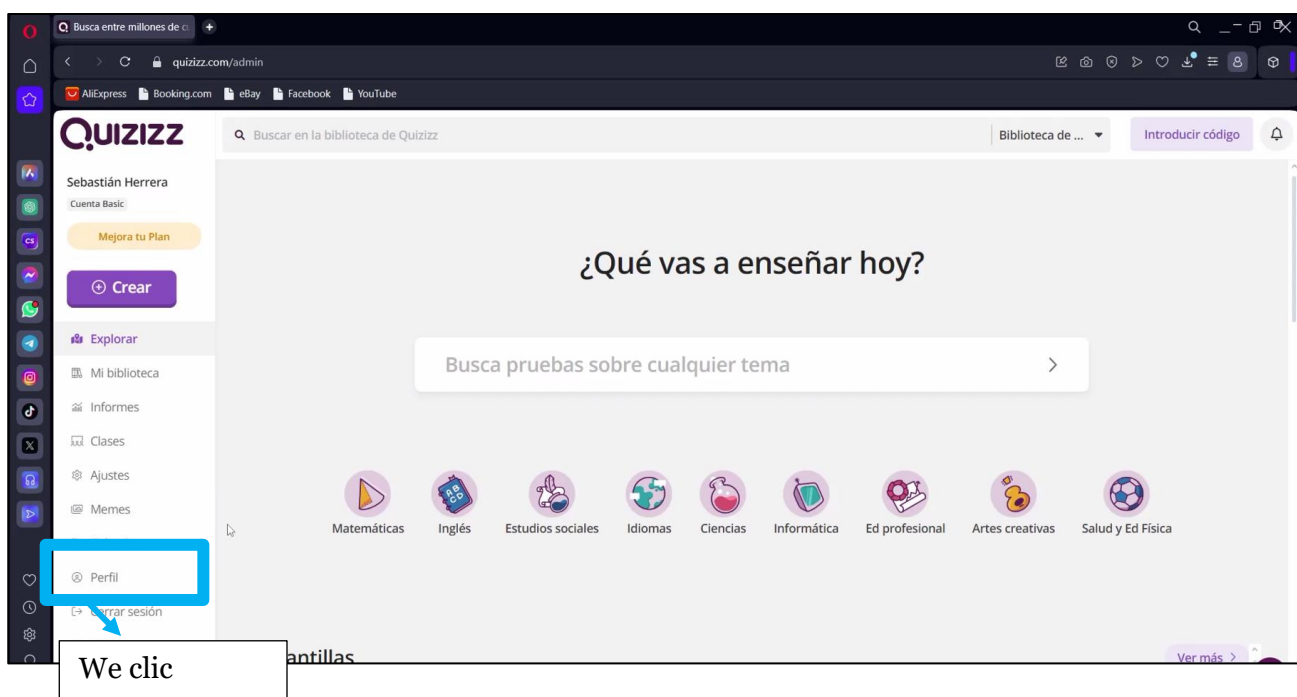

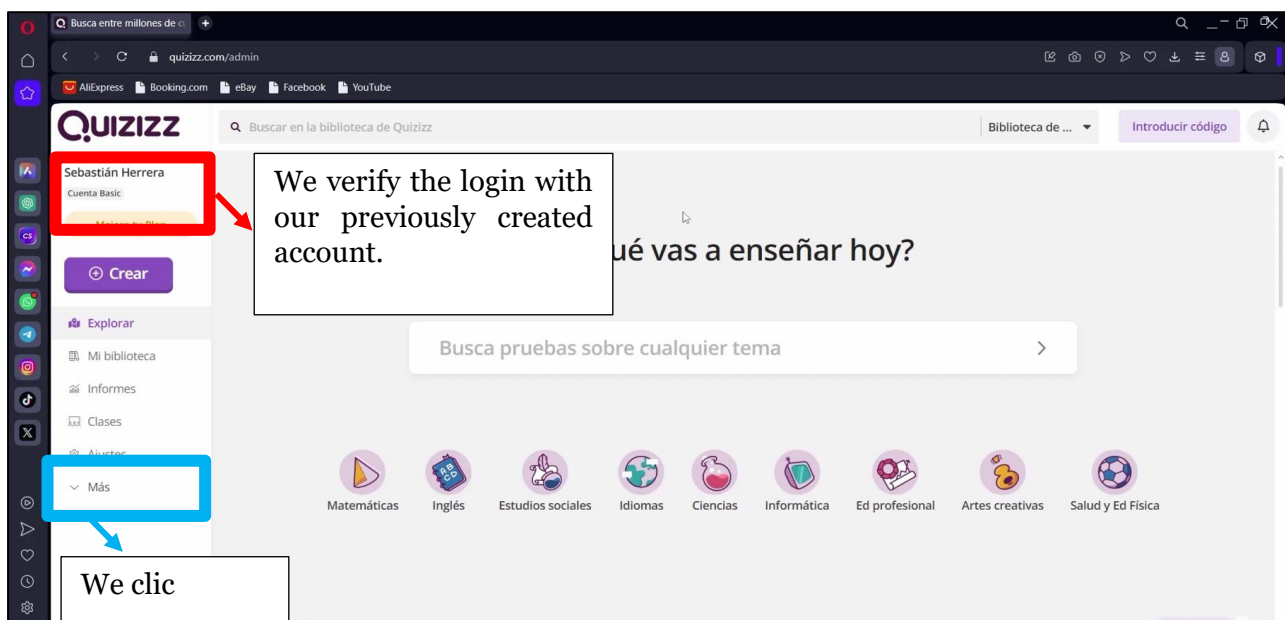

How to edit a profile created in Quizizz? (Based on video 8)

To edit a previously created profile in Quizizz, the following steps must be followed:

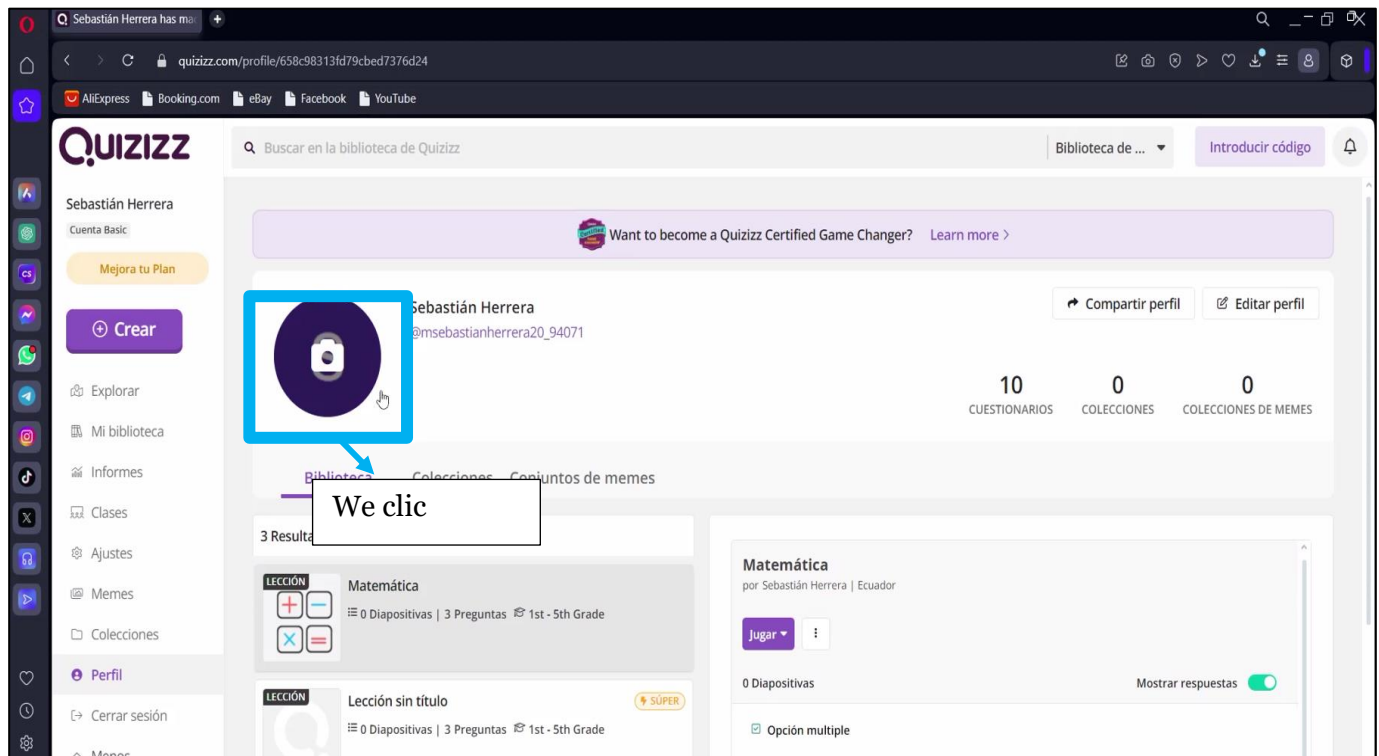

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

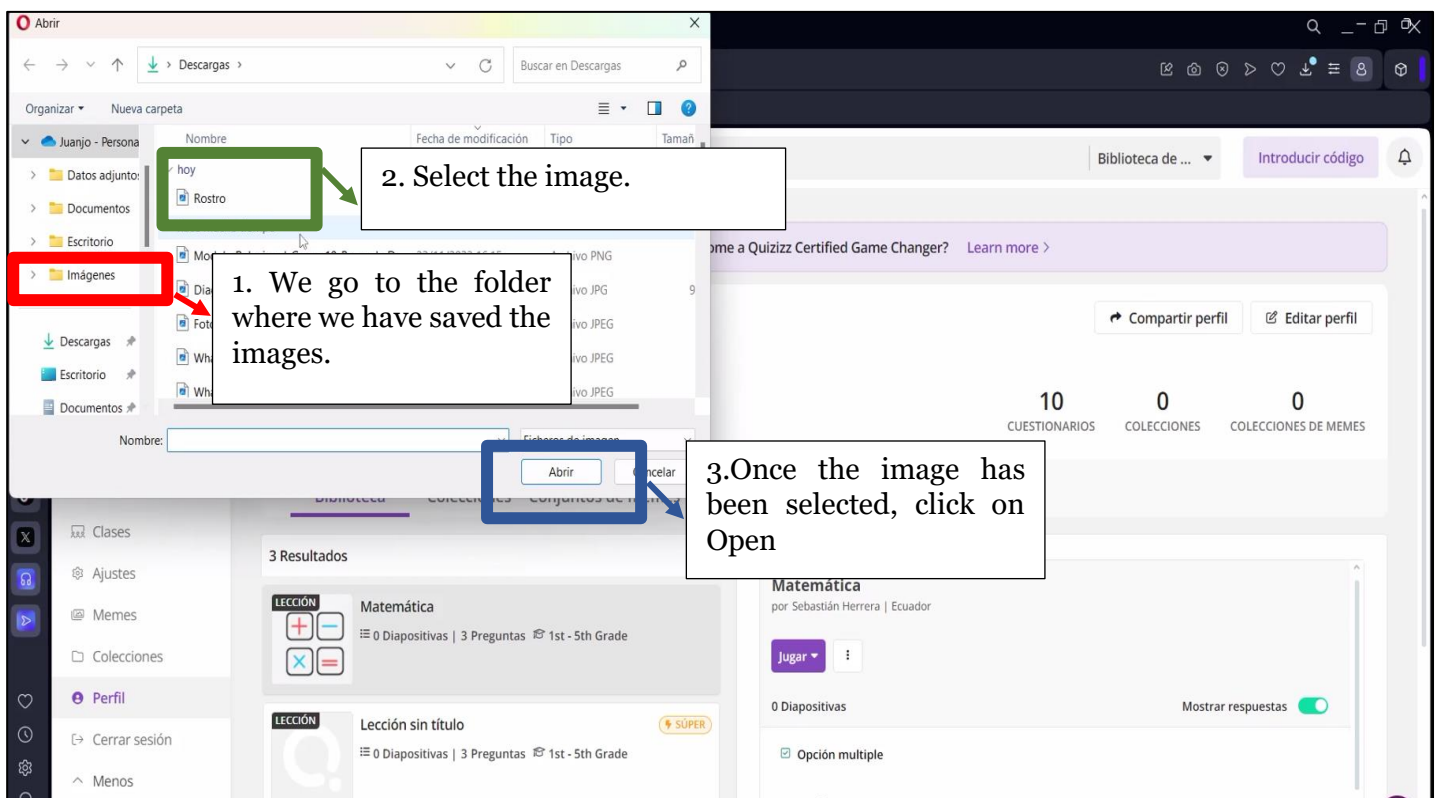

- Segundo, una vez ingresada a la página web de quizizz y con nuestra cuenta creada lo que se realiza es dar un clic en la opción “Más” y posteriormente dar un clic en la opción “Perfil”.

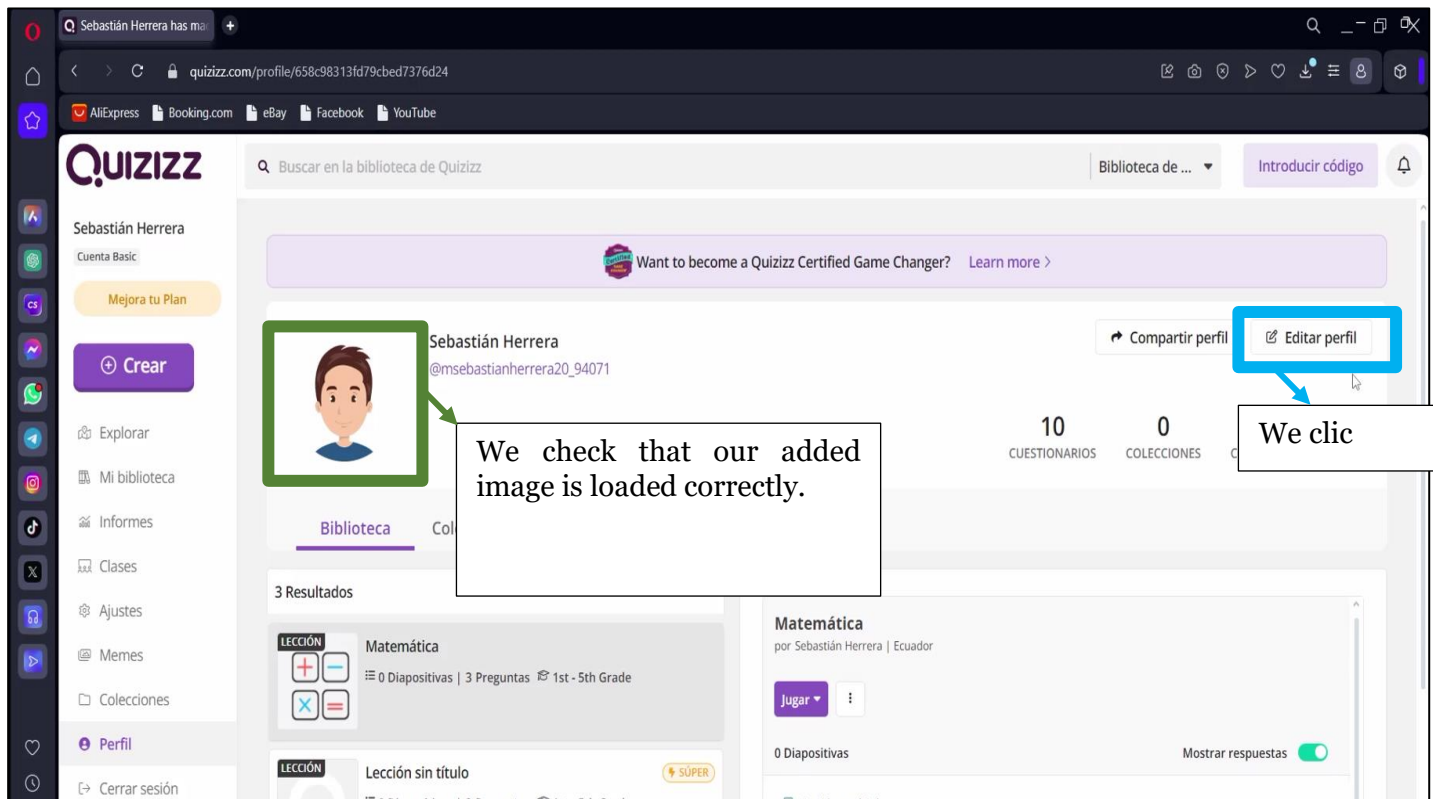

- Third, the data that was added at the time of creating our account is displayed, then we click on

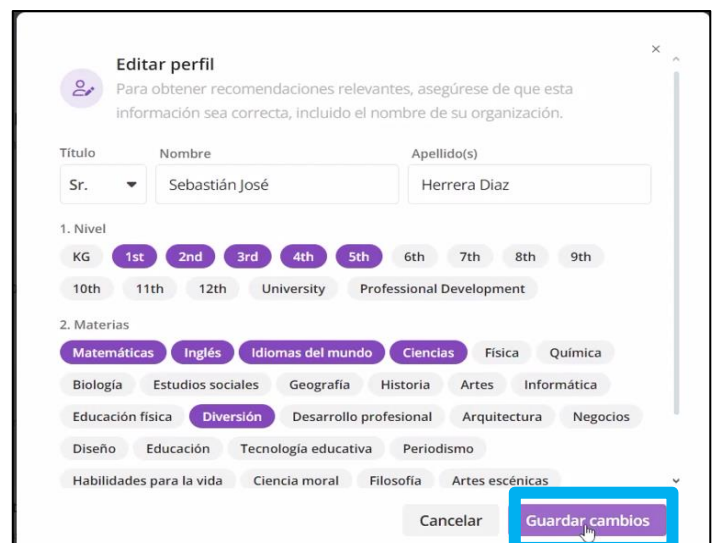

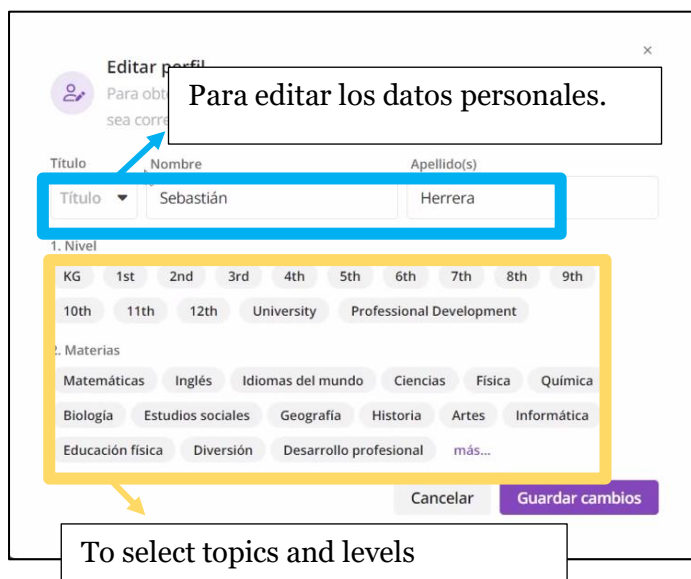

- Fourth, a new window opens where we must go to the folder where we have saved our image, select that image and then click on Open.

- Fifth, after clicking Open, we wait for it to upload our added image and after that we click on the Edit Profile option to proceed to edit the personal data

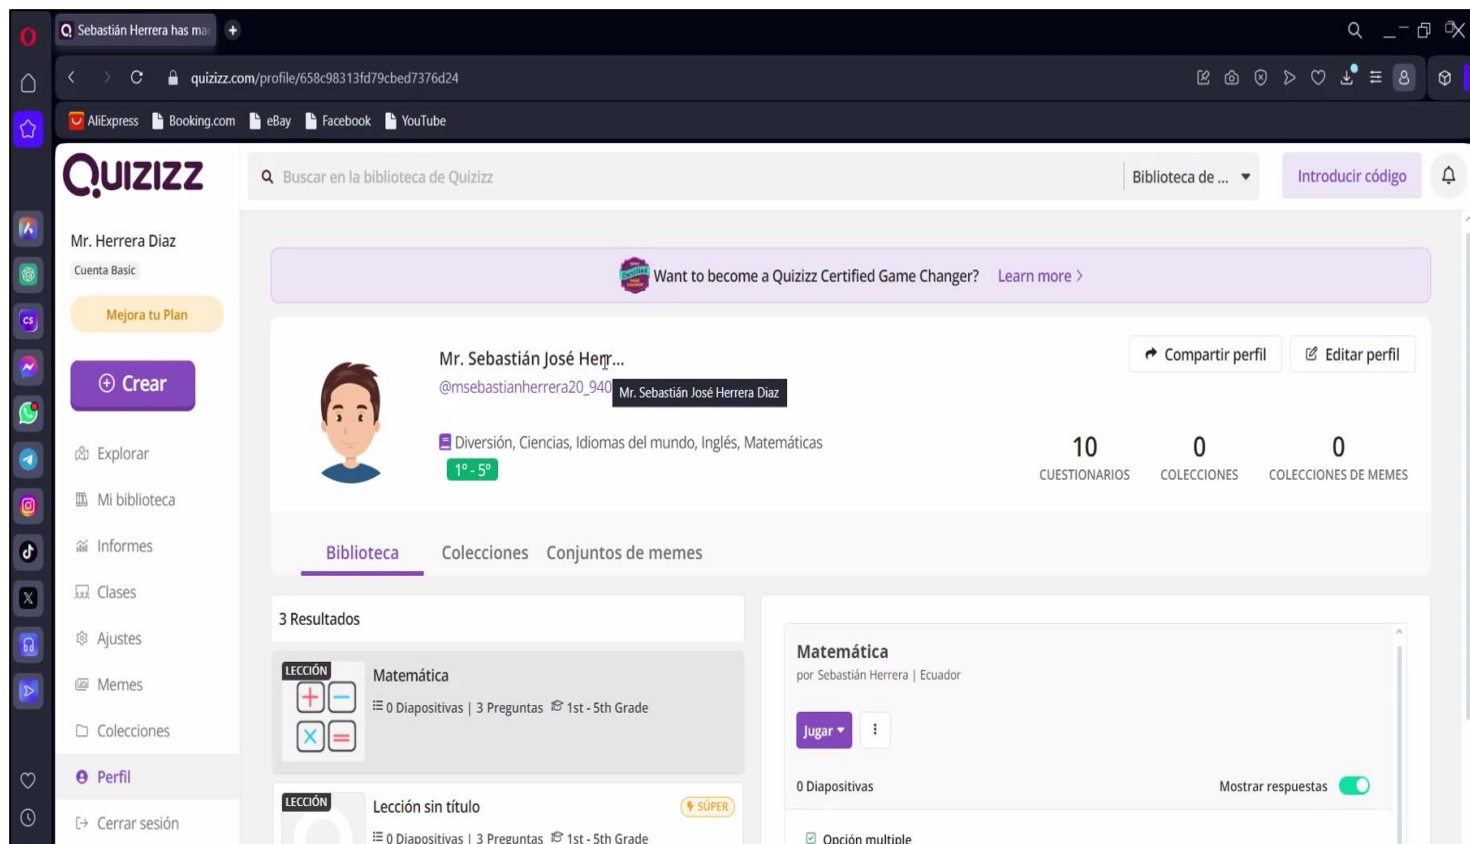

- Sixth, when we click on "Edit Profile", a new window is displayed, where we proceed to edit the corresponding fields such as name, surname, add the level to which the questionnaires are oriented and the subjects to which these questionnaires refer. After you have finished modifying your personal data, simply click on "Save Changes" and the changes generated are automatically saved.

We click on it when we finish modifying the data.

- Finally, after clicking on "Save Changes", we can verify that the data was successfully modified both in the image and the personal data and in this way we can edit a profile previously created in Quizizz.

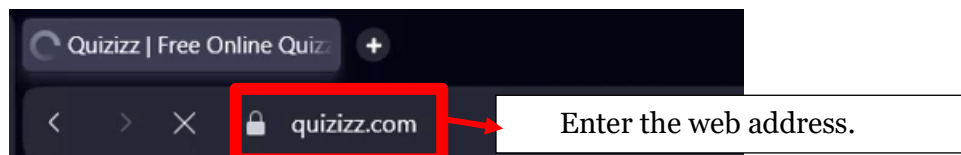

NOTE 8: To use the Quizizz web application and edit a created profile it is necessary to have an internet connection, in case it does not count, you will not be able to perform any of the different procedures, it is also important to have downloaded or saved on the computer the image that you are going to add to your profile, so that there are no inconveniences when uploading the image.

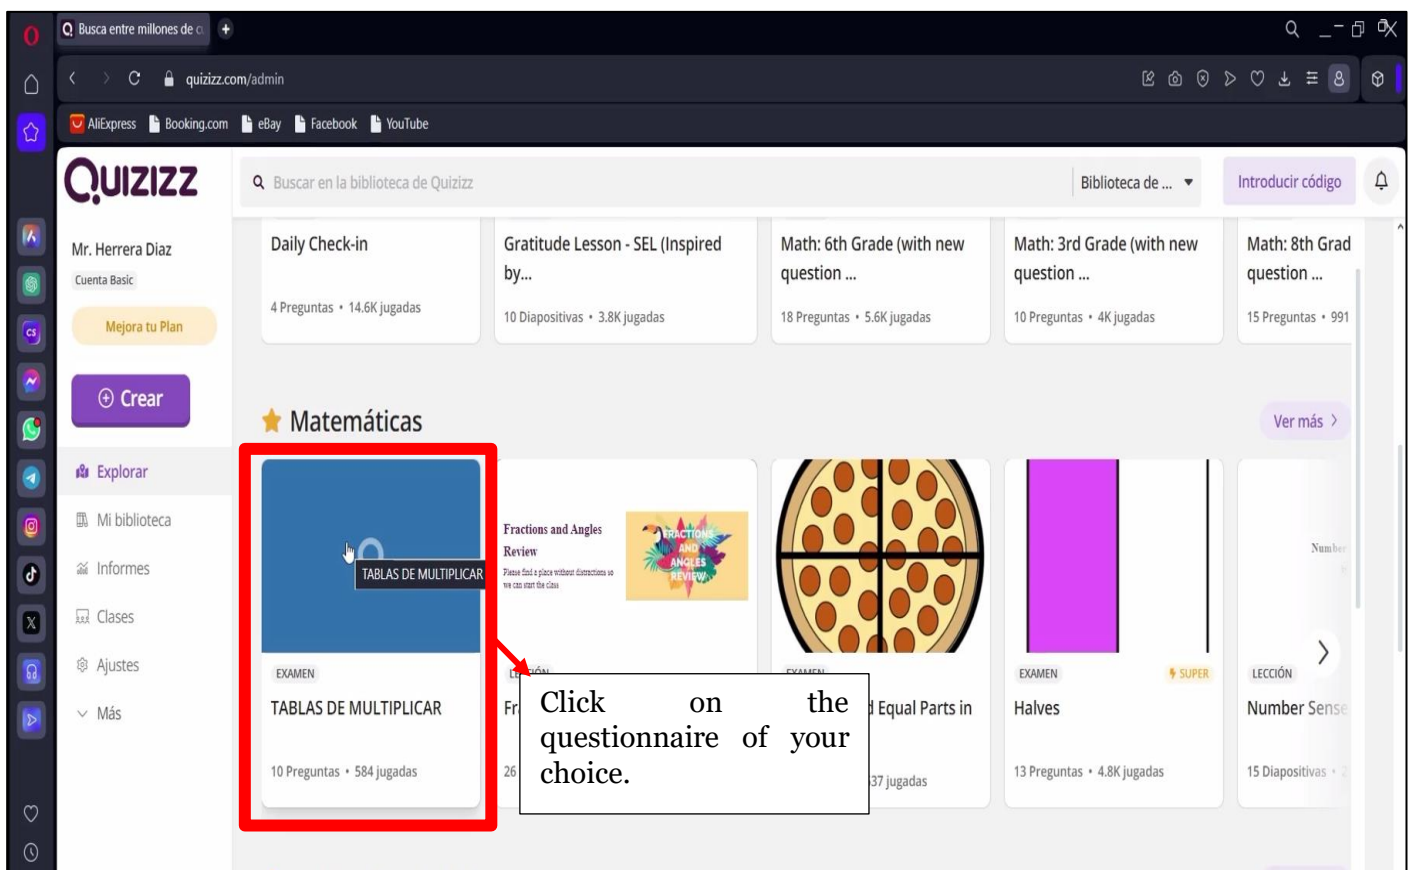

How to edit a quiz that belongs to another user? (Based on video 9)

To edit a quiz that belongs to another user in Quizizz, the following steps must be followed:

- First, we must access the Quizizz website <https://quizizz.com/admin> by clicking on the following link or searching in any browser of our choice.

- Second, once you have entered the quizizz website and created your account, scroll down to the main page and choose a quiz of your choice to edit by clicking on the quiz.

- Third, once inside the questionnaire, what is done is to verify that the questionnaire belongs to another user and then click on the "Copy and Edit" option, where a copy of the questionnaire is generated and the slides are loaded for editing.

Email entered from the previous step.

Ir al inicio

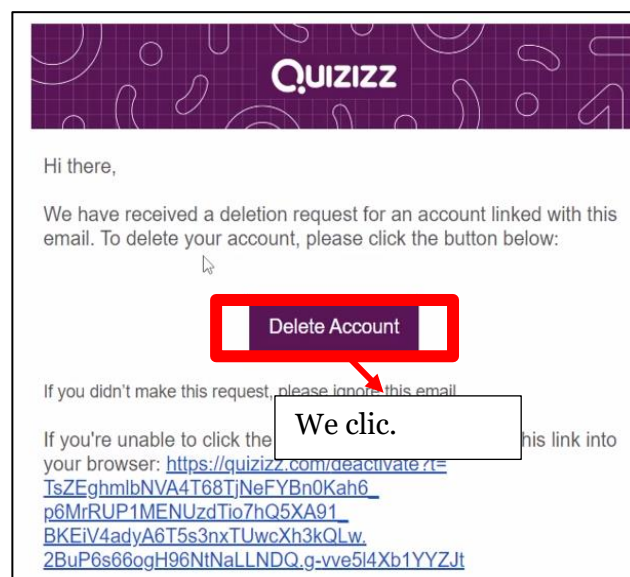

- We open a new tab where we must enter the Gmail application through the following link <https://www.google.com/intl/es/gmail/about/> to enter our email and check the confirmation message to delete our account.

- Séptimo, una vez adentro de nuestro correo electrónico, se debe verificar que nos haya llegado un nuevo correo electrónico de la empresa de Quizizz para lo cual se debe abrir dicho correo.

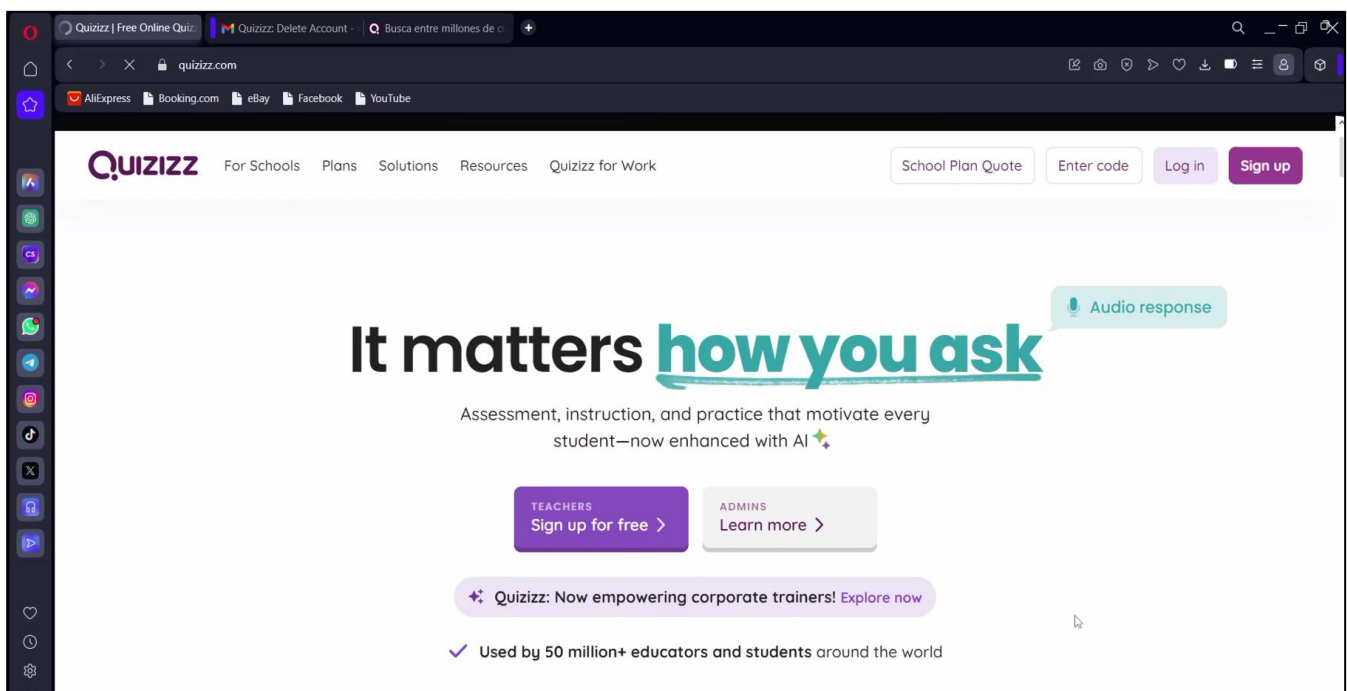

- After opening the email, you simply have to click on the "Delete Account" option, where we will be confirming that we want to delete our account.

- Eighth, when you click on "Delete Account", a new tab of the Quizizz application opens, where it tells us that your account has been deleted and to verify we simply click on the option "Go to Start".

- Finalmente, después de dar clic en la opción “Ir al Inicio”, nos dirige a la página principal de Quizizz en donde se comprueba que nuestra cuenta fue eliminada y nos pide ingresar de nuevo o crear una nueva cuenta, en algunos casos se despliega la página de los cuestionarios, pero de igual manera nos pide ingresar con una cuenta o crear una nueva cuenta.

NOTE 10: To use the Quizizz web application and delete an account permanently, it is necessary to have an internet connection, in case it does not count, none of the different procedures can be performed, it is also important to remember the email associated with the Quizizz account to be able to delete said account, Otherwise, the account cannot be deleted, this is essential so that there are no inconveniences when it comes to deleting the account.

Frequently asked questions

1. How to create an account on Quizizz?

Head over to the official website of Quizizz <https://quizizz.com/> from your web browser. Once there, look for the "Login" or "Register" option. You'll then have the ability to sign up using your email or your Google or Microsoft accounts.

2. How to create a quiz in Quizizz?

First, log in to your account. Then, access the "Create" or "New Quiz" option in your dashboard. Customize the basic settings, assign a name, and decide if you want to set a time limit per question. Then, add questions by selecting the type of question you prefer. Finally, save and publish your quiz to share with others via a link or code.

3. How do I share a quiz so someone else can edit it?

Simply save your quiz and share the generated edit link. By providing this link, the other person will have direct access to the quiz in their Quizizz account, allowing them to make modifications as needed. This process facilitates collaboration and shared customization of quizzes between Quizizz users.

4. How to create a quiz in English language in Quizizz?

Simply select the desired language during the quiz creation process. This flexibility allows you to create quizzes in multiple languages, making it easy to customize to your specific needs. When choosing English as your primary language, be sure to write your Q&A in English for a consistent and effective experience for participants.

5. How to add images, audios, and videos to an existing quiz in Quizizz?

To add images, audio, and videos to an existing quiz, look for the corresponding option while editing a question. By integrating any of these options, you can enrich the quiz experience, making the questions more visual and engaging for participants.

6. How to edit a profile on Quizizz?

The settings section of your account must be accessed. From there, you'll be able to customize your information, including your name, avatar, and additional details. The ability to edit the profile gives you greater flexibility to adapt your presence on the platform according to your preferences and changing needs.

7. How to edit a quiz created by another user?

Select the quiz to edit from the other user, then within the quiz simply choose the edit option. This step can only be done on a quiz that is allowed the option to duplicate or edit and then you can make changes to your own copy.

8. How to delete an account on Quizizz?

The account settings should be accessed, where you will usually find the option to close or delete the account. When you delete your account, all associated data, including quizzes and progress, are deleted. Before proceeding, be sure to back up any information you want to keep. Account deletion is irreversible, so make this decision carefully and make sure you understand the implications
