1. Project Objectives

Train teachers from the Ministry of Education in the use of ICT tools to improve their teaching performance, to promote educational innovation and online learning.

Train priority attention groups or digitally illiterate groups in the use of ICT tools to apply what they have learned in their daily lives, promoting their digital inclusion, and improving their quality of life.

2. Objective of Manual

Provide beneficiaries with a detailed guide on the use of the Typing.com application, facilitating their understanding and increasing their efficiency in managing this application.

3. Scope

This manual covers the basic features and functions of the Typing.com application, intended for beneficiaries who need to improve their typing speed and accuracy.

4. Addressed

This document is intended for those beneficiaries who need to improve their typing speed and accuracy.

5. Introduction to the application

Typing.com, a leading online educational platform, is an indispensable resource for those seeking to improve their typing skills effectively and efficiently. Its focus is on providing students and professionals with interactive and structured tools that allow them to gradually develop their speed, accuracy, and fluency in typing. Through meticulously designed lessons, personalized exercises, and speed tests, Typing.com offers an environment conducive to adaptive learning and continuous improvement.

App users can:

- Take timed tests to assess their typing speed and accuracy, allowing them to set goals and measure their progress.
- View detailed tracking of individual progress, including statistics and performance analysis, allowing you to identify areas for improvement and establish effective strategies for skill development.

Main features:

- Access a wide range of exercises designed to strengthen specific areas of typing, tailored to your individual needs.
- Practice with timed tests to assess users' typing speed and accuracy.
- Monitor individual progress, including statistics and performance analysis, allowing users to identify areas for improvement and set achievable goals.
- Connect with other community members through Typing.com, participate in competitions and challenges, and share experiences and tips to improve your typing skills.

6. Basic notions

Before starting to use Typing.com, it is important to understand some basic notions about its operation and structure:

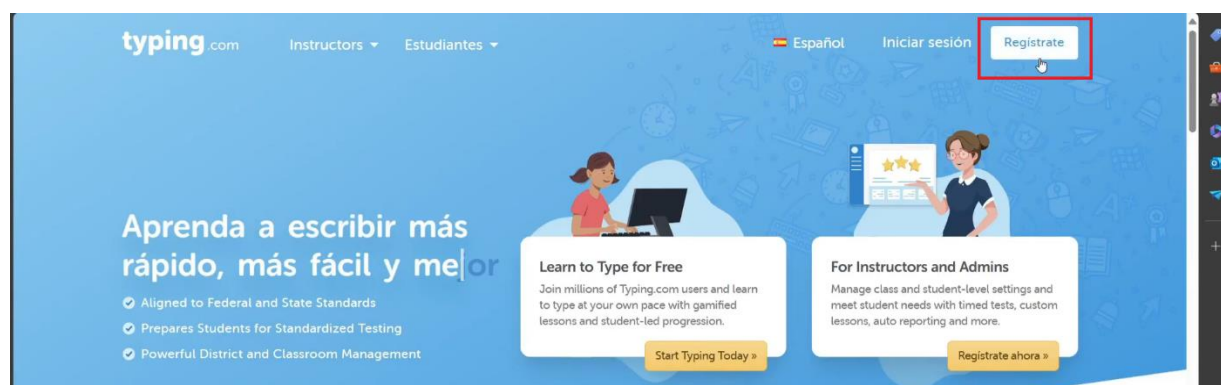

- **Typing knowledge:** Although prior typing experience is not necessary, it is helpful to have a basic understanding of the keyboard layout and hand position on the standard (QWERTY) keyboard.
- **Access:** To use Typing.com, you will need a device with an internet connection, such as a computer, tablet, or smartphone.
- **Follow instructions:** The app provides structured lessons and practice exercises designed to gradually improve typing skills. Being able to follow instructions and complete suggested activities is essential to getting the most out of the platform.
- **Receive feedback:** Feedback is crucial to improving in any skill. Being willing to receive feedback about your speed, accuracy, and areas of improvement will help you develop your typing skills more effectively.

7. Steps to follow

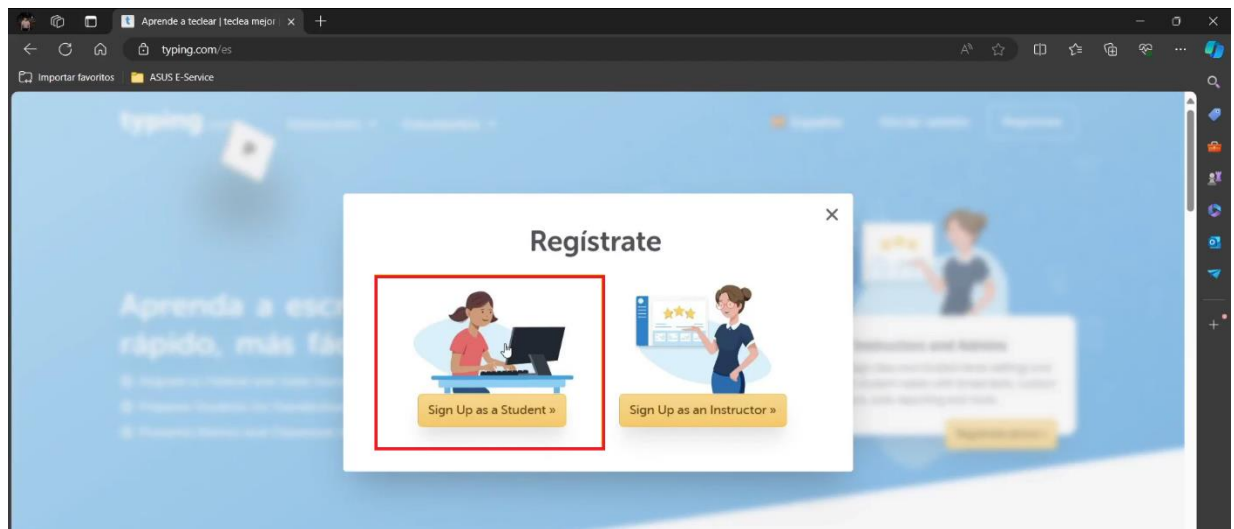

Access to the platform: first, open the Internet browser of your choice, in this case Microsoft Edge, and type the following URL in the search bar: (typing.com).

Then, the following website will open where you must select the “Register” option.

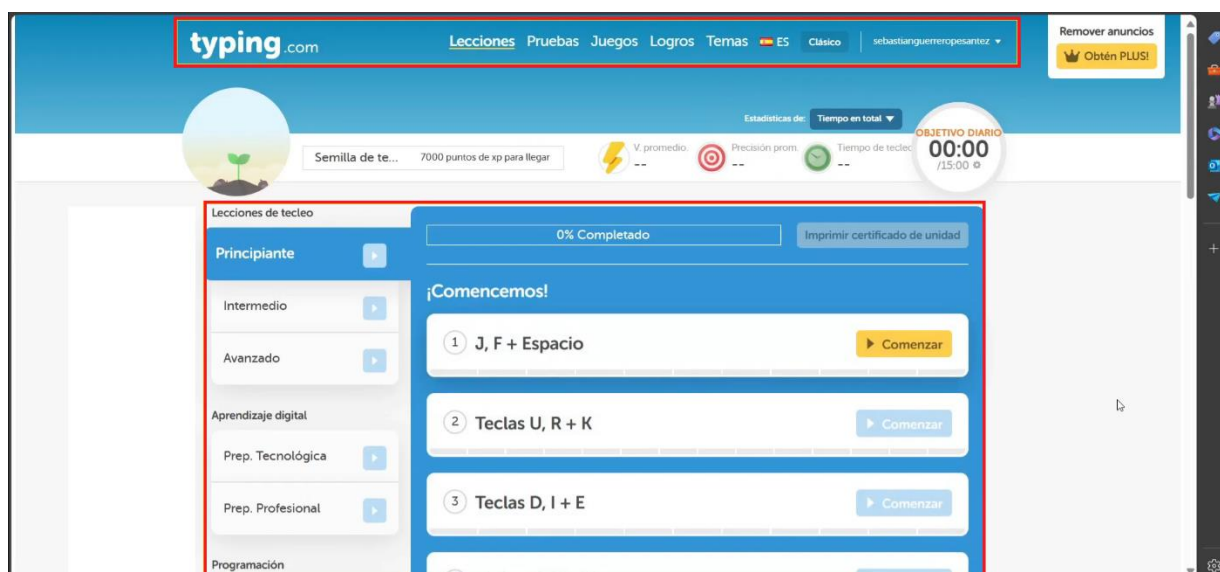

The following window will appear and we must select the “Register as a student” option.

It is in this tab where, to enter the system, you must provide the necessary credentials such as username, password, and email, and then click on the “Register” option.

A screenshot of the typing.com website showing the "Registro de estudiante" (Student Registration) form. The form is titled "Registro de estudiante" and includes a link "¿Ya tienes una cuenta? [Entre aquí](#)". Below the title, there are four registration options: Google, Microsoft, Clever, and ClassLink. The form fields are: "Nombre de usuario *" (Username) with the value "SebastianGuerreroPesantez", "Contraseña *" (Password) with masked characters and a "Mostrar" (Show) link, and "Correo electrónico (opcional)" (Optional email) with the value "sebastianpesantez17@gmail.com". At the bottom, there is a checkbox "Tengo 13 años de edad o más, y mi maestro/a me ha indicado que debo inscribirme; el/ella ya aceptó la Política de Privacidad y los Términos de Servicio." and a "Regístrate" (Register) button (highlighted with a red rectangle).

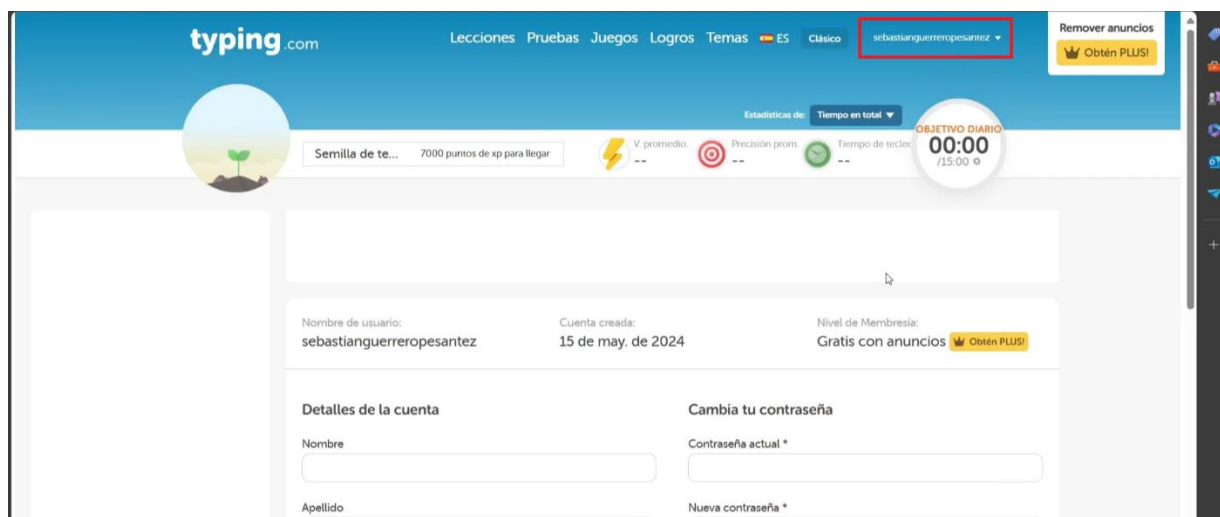

Recognizing the Typing interface: Once we create our account, the following interface will appear with the navigation sections and the center section.

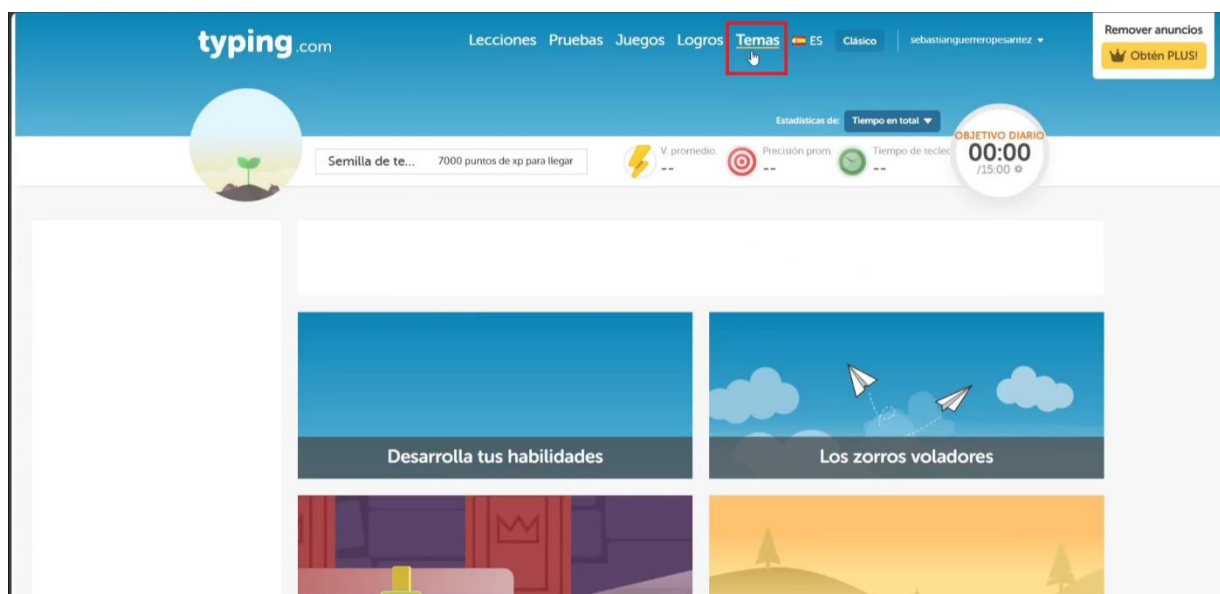

- Navigation: shows the sections of the platform such as lessons, tests, achievements, profile, etc.
- Central section: updates according to the selected section and shows the details or content offered by each of them.

Navigation: Below, each section is presented with its function.

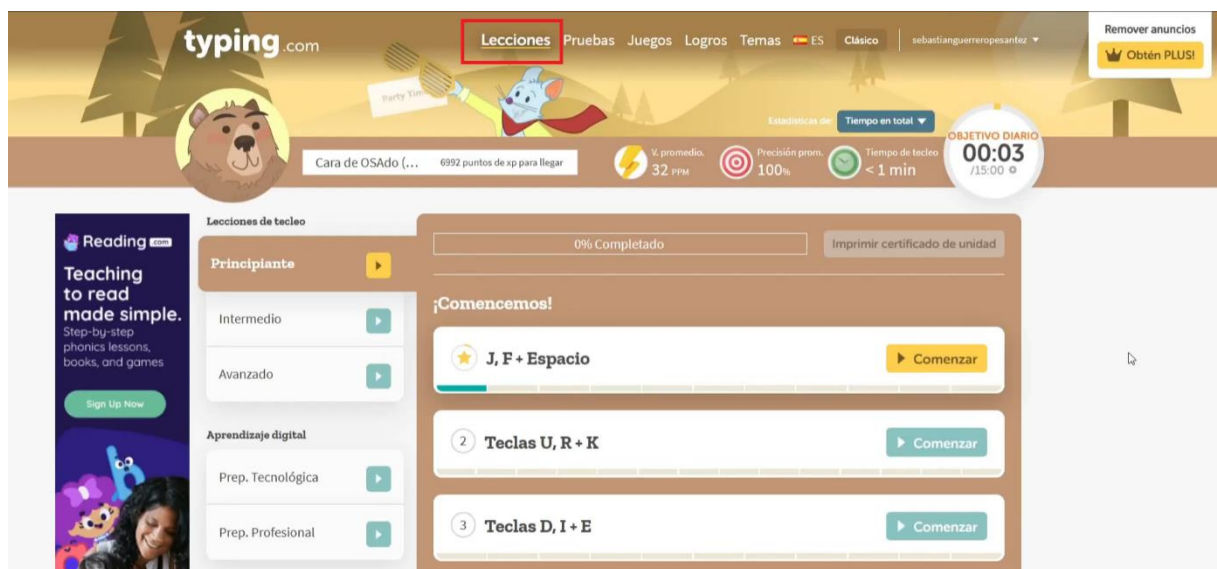

Account settings: shows our personal data that we provide when creating our account, in the same way, it allows us to update this data.

Themes: shows the themes with which we can change the appearance of how the platform interface is displayed.

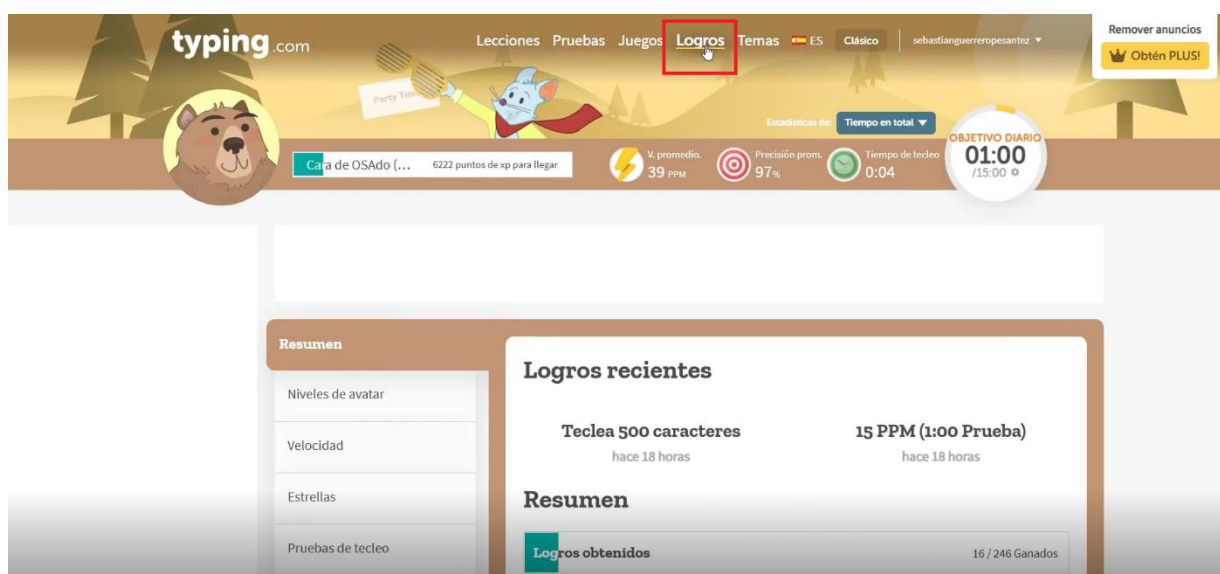

Lessons: allows us to view the lessons for our learning and enhancement of our typing skills.

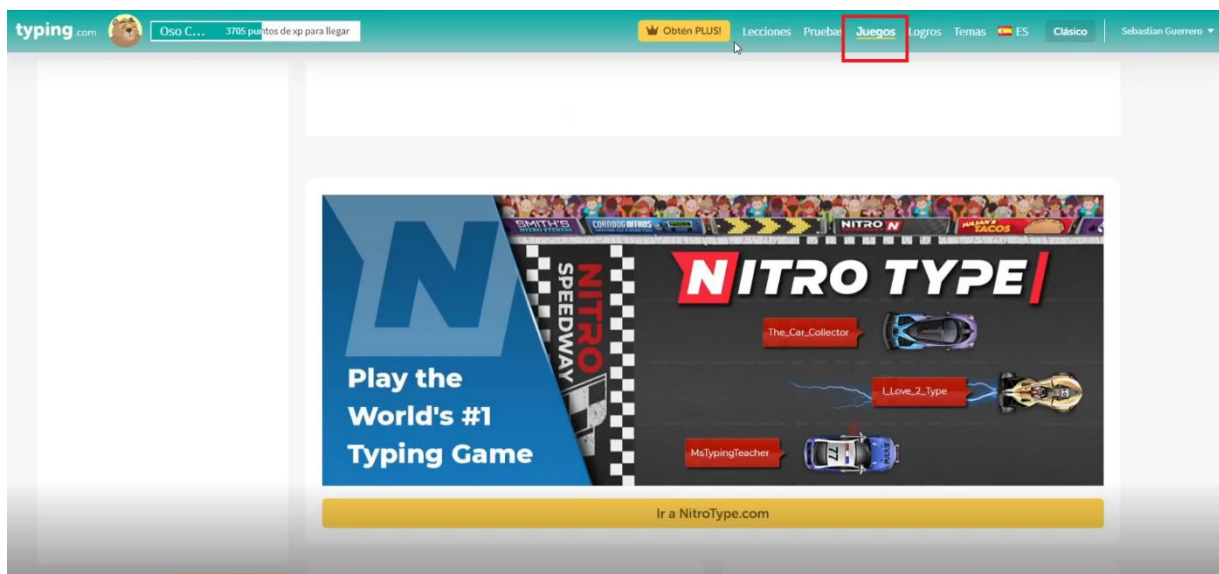

Tests: provides us with a series of tests with a time limit to challenge our typing skills.

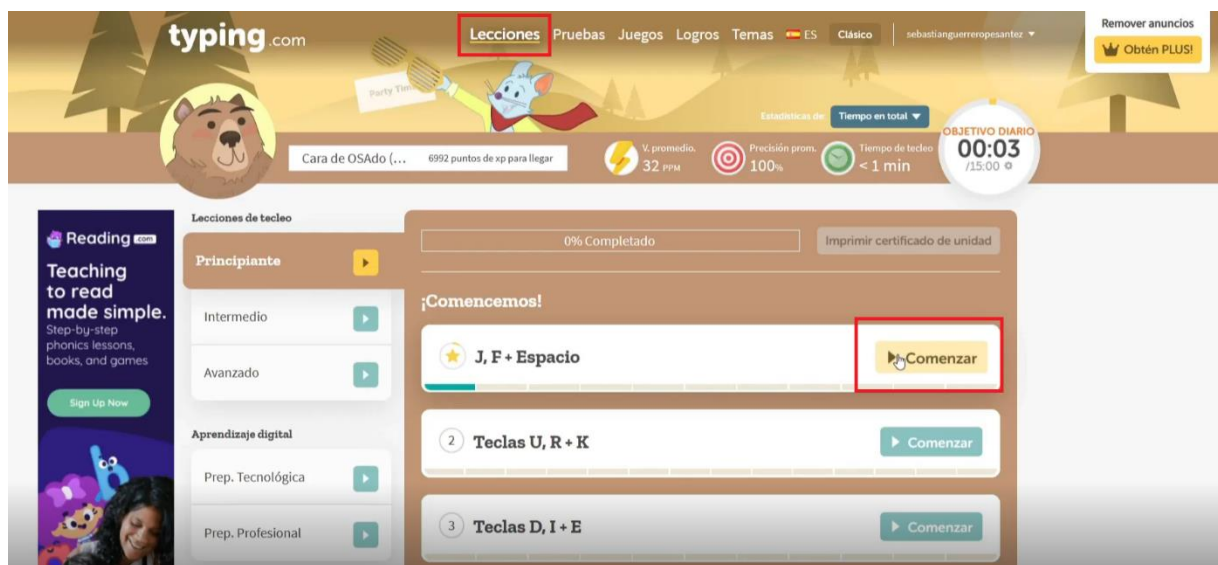

Achievements: stores the different types of achievements that we have achieved such as typing speed, number of lessons completed, number of days of practice, etc.

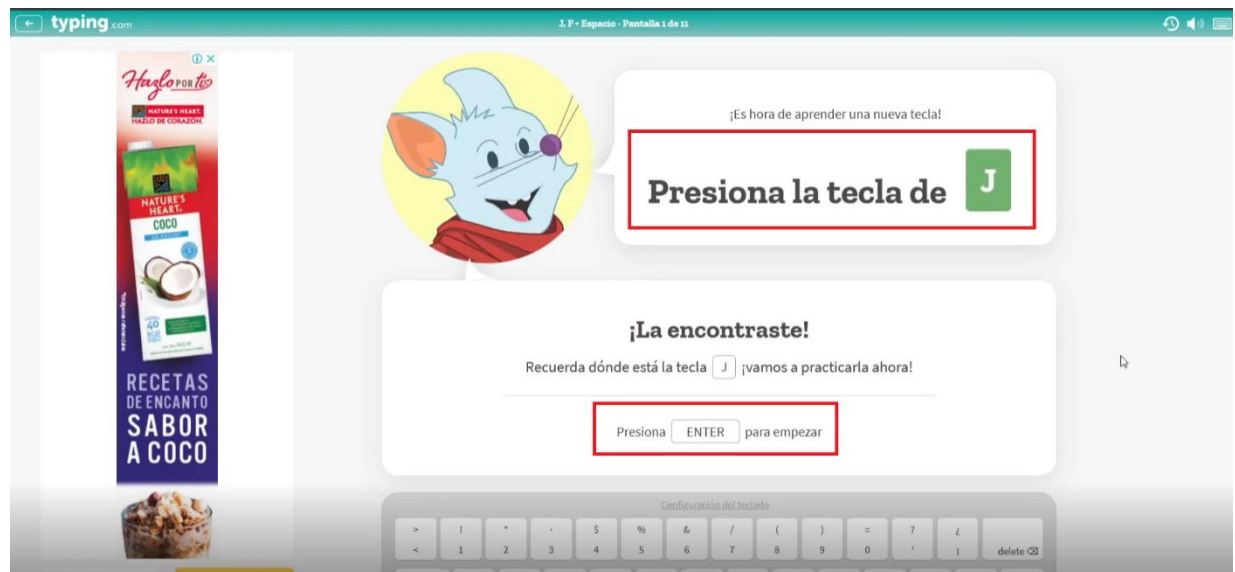

Games: shows a wide variety of games in which we can also practice our typing skills, in order to provide more entertaining lessons.

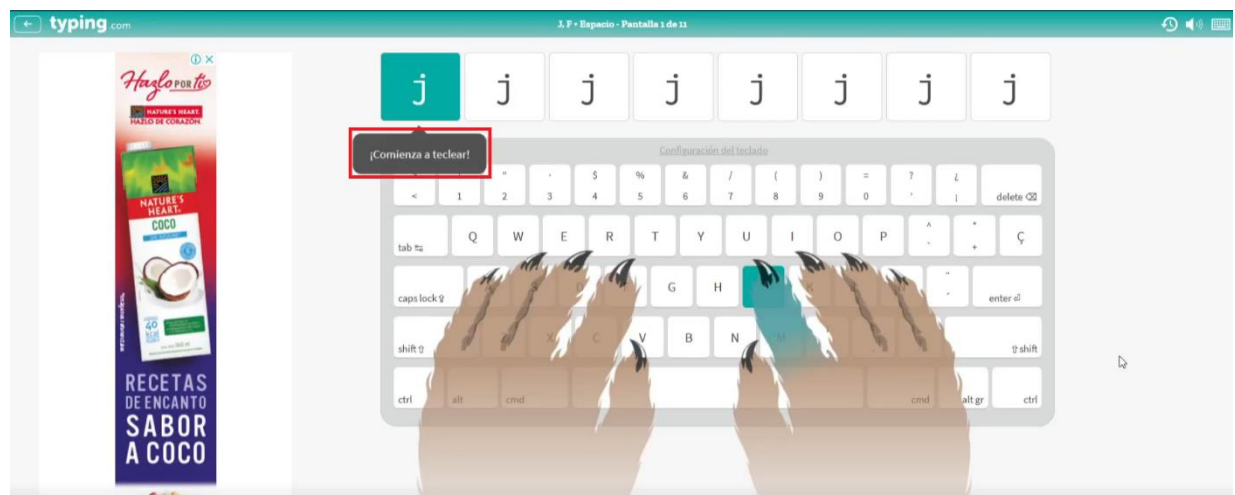

Start a lesson: first, we must navigate to the “Lessons” section. Then, we go to one of the lessons offered in the “Central Section” and click on “Start”.

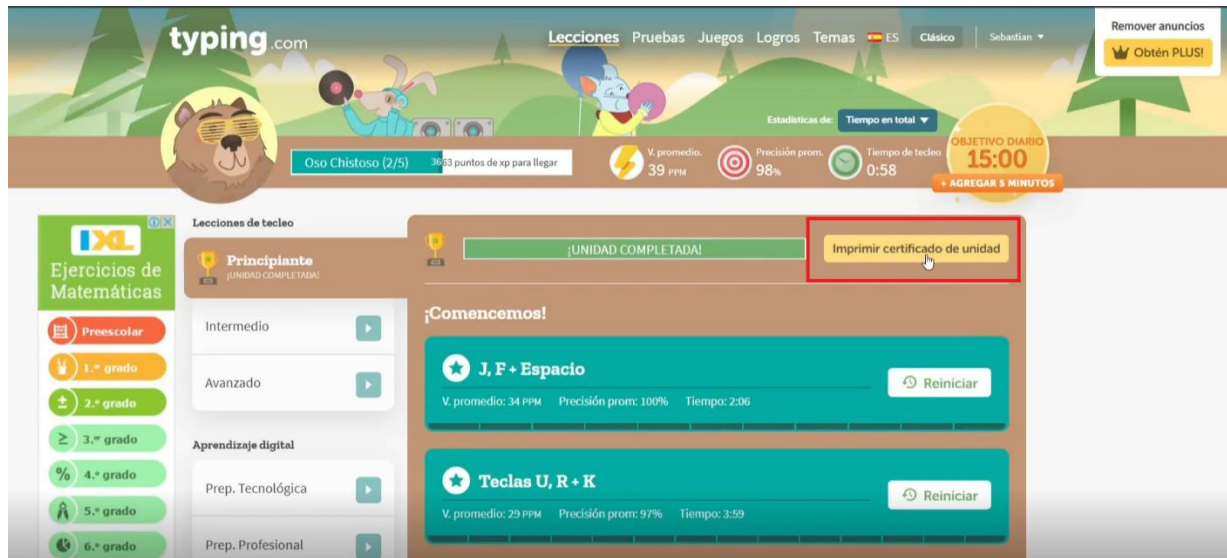

An introductory screen to the lesson will be displayed where we only follow the instructions provided to us.

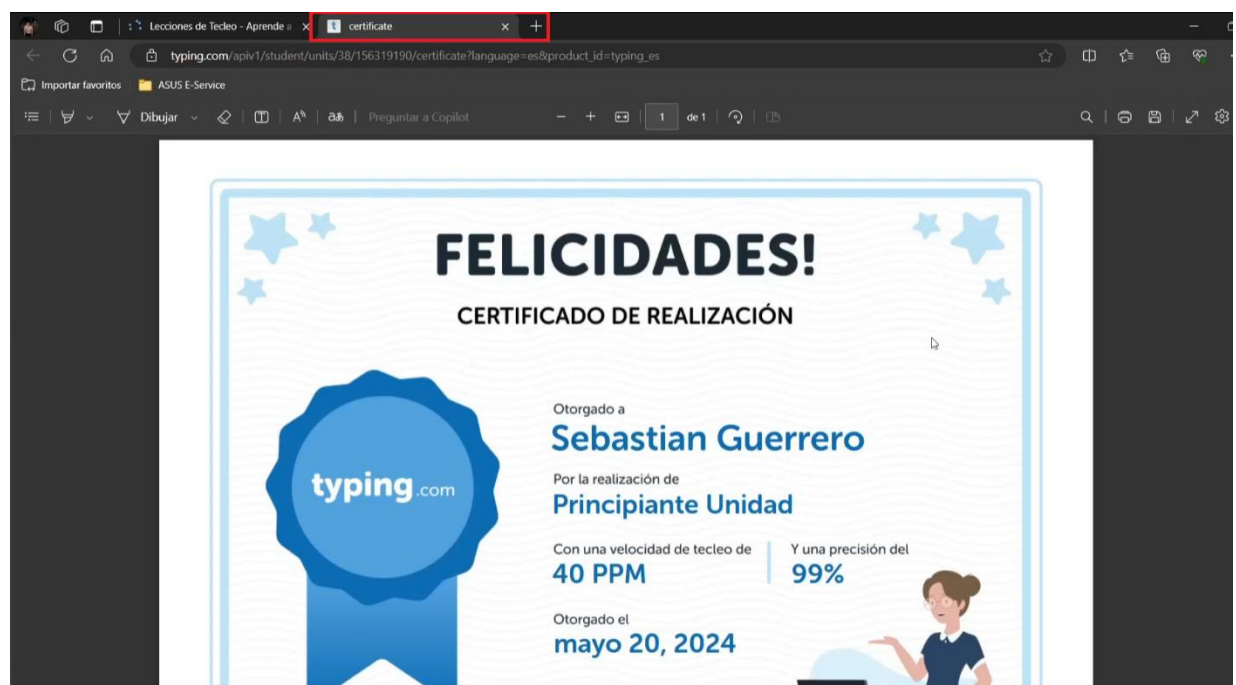

With this, the lesson begins where we must complete the series of letters or words that it tells us.

Obtaining a certificate: once we have completed all the available lessons we can obtain our certification. To do this, we navigate to the “Lessons” section and click on the “Print unit certificate” option.

The certificate of the unit that we have completed will be displayed in a new tab, which will contain our personal data along with the date of issue.

8. FAQ

1. How do I reset a student's password?

To reset a student's password, a teacher or administrator must log into their Typing.com account, go to the "My Students" section, select the student, and click "Reset Password." A new password can be assigned or allowed to be reset by the student using a link sent via email.

2. How do I create a new teacher account?

To create a new teacher account on Typing.com, visit the Typing.com website and click "Sign Up." Select the "I am a teacher" option and complete the form with the required information, such as name, email, and password. Then, follow the instructions to verify your account and set it up to start managing your classes and students.

3. Can I use Typing.com without an internet connection?

No, Typing.com requires an internet connection to work. The platform is completely online and requires internet access to save student progress, access courses and exercises, and update performance statistics.

4. What types of games and activities does Typing.com offer?

Typing.com offers a variety of games and activities designed to make typing practice fun and engaging. These games are focused on improving writing speed and accuracy through interactive challenges. Some examples include car racing games, shooting games, and word challenges, all designed to help students improve their typing skills in an entertaining way.

5. Are there any costs associated with using Typing.com?

Typing.com offers a free version that includes most of its features. However, there is also a paid premium version that offers additional features such as advanced reporting, lesson customization, and an ad-free environment. Pricing and specific details for the premium version can be found in the pricing section of the Typing.com website.
